COLGATE & CO'S.
AROMATIC VEGETABLE SOAP,
COMBINED WITH GLYCERINE, IS RECOMMENDED FOR THE USE OF LADIES AND IN THE NURSERY. ap8ly
SOLD BY ALL DRUGGISTS.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopeia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operation; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being so pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obviated. For sale by all Druggists. Price $1. o218w

A Fond-du-Lac woman put $462 into her stove for safe-keeping over night, but as another person built the fire, she found a lack of green-backs in the morning.

General W. S. Clarke, is member of Congress elect from the third district of Texas. He claims that Davis is elected Governor. The probability is that all the candidates for Congress on the Davis ticket are elected by a good majority, and both branches of the legislature are of that party. Returns from 46 counties give Davis 5489 majority, Flannegan for Lieutdnant-Governor 8260 majority. Davis was the Republican candidate.

Many towns in Vermont are decreasing in population rapidly.

A few days since, as some river men in Bloomfield, Vt., were at work driving logs down the river, they spied a beehive floating down, as they supposed, full of honey, and one of their number pulled into the stream to secure the prize. After some hard words as to how the honey should be divided, they opened the hive, and out came five white cats.

J. J. Eckel, who lately died at Sing Sing, made a statement to the effect that Mrs. Cunningham murdered Burdell.

Blatchford, the late deputy collector at New York, has acknowledged his guilt to District Attorney Pierrepont, stating that he had been a party to the drawback frauds, but at the same time insisted that he was acting for others.

The Ecumenical council at Rome opened on Wednesday. Seven hundred bishops were in attendance.

The annual meeting of the National Council Union League of America was held at New York on Wednesday. General Geary was reelected president and resolutions approving President Grant's message were passed.

New Hampshire Items.

The houses of Messrs. William H. and Horace Darrah, in Bennington, were consumed by fire a few nights since. Loss about $2000, with no insurance. The fire caught in a closet, from a candle, where they had been in the evening for some clothing.

James J. Wiggin, Esq., a well-known citizen of Exeter, and for several years one of the proprietors of the Independent Democrat, died a few days since, aged 74 years.

Dover, during the past three months, has manufactured shoes to the value of $557,000.

Messrs. J. & F. P. Currier's tannery, at Haverhill, was burned on Monday night last. Loss estimated at $8000, and insured for $3000.

The Exeter mills are manufacturing annually two million yards of sheeting.

The Nashua Manufacturing Company had to suspend operations on Tuesday morning. The snow had blown into their canal to such an extent as to entirely fill it, so that the water was dammed back into the river so effectually as to suspend operations. The whole canal is a huge trough of slosh, so thick as to be immovable. The same thing happened sixteen years ago, and a cold snap immediately succeeding, the canal was frozen so hard that the expanding ice broke away its banks, and large gangs of men were turned out, cutting away the frozen mass and repairing the canal, work being suspended for three or four weeks.

☞ When General McCook was sent out to the King of the Sandwich Islands by Mr. Seward with propositions looking to the purchase of and annexation of the Islands,—after he had stated his business the King made answer in substance thus: "I am king of of these islands, and I get $40,000 a year; it is more than you pay your President. Besides, I would be only a citizen in America, and not a very distinguished one at that. Think I'd better remain King here — don't you?" To which interrogatory the General replied, after a survey of the guileless savage, who was calmly smoking a cheroot and drinking a cobbler: "Your majesty—your head's round."

A TEMPERANCE (?) MOVEMENT.

An adjourned meeting of the committee of the State Temperance Alliance was held at Concord on Wednesday. The attendance was quite full. The meeting was organized by the choice of Rev. E. Adams, chairman, and T. S. Crawford, secretary. The reading of the correspondence, from influential men in different parts of the State, on the question of the expediency of running an independent candidate at the March election, came up.

Mr. G. W. Norris of Laconia wrote decidedly in favor of it; Dr. Blackmer of Sandwich was cautious and non-committal; Rev. Mr. Dunning of Great Falls had made some inquiry, but was not decided; J. W. Adams of Winchester was in favor of such a step, but had conversed with many who were not; Rev Mr. Mann of Bath was not in favor of it, and thought many would not leave the old party lines; Rev. Mr. Dinsmore of Keene expressed similar sentiments; Mr. Crawford of Chester was in favor of the movement; Hon. J. J. Bell of Exeter would restore the temperance sentiment in the community. The present law was well enough, but men who drink could not control both parties. Hon. L. D. Mason of Tamworth was opposed to taking the field at the coming election. Rev. G. K. Smith of Coos said that the present law was well enforced in his section of the State: the temperance men were satisfied. R. C. Fernald of Salmon Falls and Robert McElroy of Rochester could not believe the leaders of either party, and quoted from the Psalms, "I said in my haste all men are liars." If David had lived at the present day, he need not have hesitated to say it of political leaders. O. S. Waite of Newport entertained no decided opinion. O. P. Ray of Colebrook wanted to make the liquor question the great issue and take no steps backwards and no fellowship with rummies. Rev. Mr. Babcock of Manchester, Rev. Mr. Tilton of Milford, Rev. Mr. Whilly of Pembroke, and Rev. Mr. Parks of Guilford, all favored a straight ticket.

The latter did not believe all the rum-sellers to be democrats; he knew republicans who were, and the republicans in the State rejoiced at the defeat of the constabulary law. He visited a public school in his town a few days since and saw a boy fifteen years old drunk in school. He thought it time to make a move, and if they could cast 3000 votes it would throw the election into the House and give it to the democratic party. Mr. Babcock also wanted to trig the wheels and improve the moral standing of the legislature. True Osgood of Concord laid the whole responsibility on the dominant party. He sold rum once, and if God would forgive him that sin, he would take care of all his other sins. He wanted a straight ticket; if they were not to make a nomination they had better go to work at a dollar a day and give it to the poor.

At the afternoon session Rev. Dr. Barrows, in behalf of the committee appointed for that purpose, presented a report, a portion of which was adopted, as follows:—

Resolved, That the late defeat of our Constabulary law, under the combined influence of both political parties, with nearly all their leaders and papers, has most effectually convinced us that the rum interest has largely the control of both those parties in our State, and that the temperance cause has nothing to hope, but much to fear, from both of them: therefore,

Resolved, That to give efficiency to our principles, and to preserve our own consistency, we do hereby most earnestly recommend the formation of a distinct temperance political party, and that a State delegate convention be called, to meet in the city of Concord on the 12th day of January next, said convention to be composed of such as are favorable to the organization of a separate party.

After the appointment of Rev. Dr. Barrows, F. S. Crawford, and Col. H. C. Pierce as a committee to issue a call and attend to the necessary preliminaries of the convention, the meeting adjourned.

☞ Rev. Mr. Murray, the popular Orthodox preacher of Boston, has commenced a course of Sunday evening lectures, in Music Hall. The opening sermon appears to be a flat denial of the proposition which one would naturally expect him to defend. He says:

"Heaven must not be made to appear to my mind as a vast corral, into which souls are stampeded. The motive of a horror of hell can never furnish any well regulated mind with an impulse towards heaven. You might as well try to frighten a flower into lifting himself toward God. Why, we cannot frighten a man, even in the inclination of his appetites. We cannot break down and disrupt by force even the bulwark of his sensations. And if man along the lower ranges of his nature thus defies the insane attempt to control him, do you think you can manage him along the higher? If you cannot subjugate the lower faculties, do you think you can subjugate the higher immortal faculties of his God-like nature? No! Our independence is God's glory, and the unforced, spontaneous character of our obedience and praise is what gives them their chief value in his sight.

☞ Under the auspices of Miss Burdett Coutts, in England, a great improvement has been made in railcars for carrying of cattle to market. The cars are provided with feeding-troughs and food, battens on the floors of the trucks, (on which to steady their feet) and buffers to the trucks, wherewith to break the concussive jolts of starting, stopping, &c. This is practical economy and benevolence combined.

CONGRESS,—*Tuesday*,—In the Senate the committees were announced. Mr. Cragin is chairman of the Committee on Naval Affairs.

A memorial was received from naval officers complaining that juniors have been promoted over them.

Mr. Hamlin of Maine said that great injustice has been done in this matter, and called the special attention of the naval committee to it.

Mr. Edmunds of Vermont gave notice that on Friday he would ask for the consideration of the House resolution regulating the hours of government laborers, workmen and mechanics.

Mr. Williams of Oregon introduced a joint resolution relating to amendments to the Constitution, provided that whenever satisfactory evidence is furnished to the Secretary of State that three-fourths of the legislatures have ratified any proposed amendment to the Constitution of the United States, he shall forthwith proclaim the fact of such ratification, and if it shall appear that the legislature of that State has ratified the amendment proposed, as aforesaid, any other action by the legislature of that State as to such amendment shall be void and disregarded by the Secretary of State.

The following nominations for the circuit judge-ships were sent in;

1st. Circuit—Geo. F. Shepley of Maine; 2d Circuit—Lewis B. Woodruff of New York; 3d Circuit — William McKennan of Pennsylvania; 4th Circuit —George A. Pearce of Maryland; 5th Circuit—William R. Woods of Alabama; 6th Circuit—George W. Yeaman of Kentucky; 7th Circuit—Thomas Drummond of Illinois; 9th Circuit—Lorenzo Sawyer of California;

A bill removing political disabilities from several hundred southerners was also passed.

Mr. Ferry of Connecticut introduced a bill to repeal all the laws requiring what was known as the administration of the test oath.

In the House, Mr. Morrell of Pennsylvania introduced a bill to fund the debt of the United States at a lower rate of interest; to make the national banking system free, and for other purposes.

The House took up the bill to provide for the taking of the ninth census, to fix the number of the members of the House of Representatives, and to provide for their future apportionment among the several States. Mr. Garfield stated that with the whole number of members fixed at 300, no State would suffer the loss of a member, but with 275 fixed as the number, two or three of the New England States would suffer.

The bill was considered until the House adjourned.

A NEW DAILY.—The Committee having in charge the coming Fair have decided to issue a daily during the fair. Parties wishing to insert advertisements will please leave them with Mr. Daniel J. Vaughan. Terms, $3.00 for 1-4 column, $5.50 for 1-2 column, $10 for one column, for the three issues.

—The Meriden Republican gives this incident of the late fire in that city:—A watch dog, whose life had been spent in watching the dry goods store of Williams & Smith, refused to leave the building. He stood doggedly in the middle of the store, and neither threats nor coaxing could get him out. The celebrated boy, who 'stood on the burning deck, whence all but him had fled,' was a coward compared to this dog, who preferred death to what he considered dishonor. He was dragged out at last and taken to a livery stable, but he stole back again. He was again rescued and again escaped, and retreating to the cellar, defied his pursuers to follow him. Shortly after the building fell in with a crash, and old dog Tray went with it.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice, when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen: Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened Christians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more dose of Brandreth's Pills to get cured. Full Directions are with each box.

Holloway's Ointment and Pills.—

PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the disease, and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around this world its praise is told;
It will Cholera cure—scourge of southern climes,
No victim dies, who takes it betimes.

Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*'twill be used again*;
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you*.

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

SPECIAL NOTICES.

Preparatory Medication.

The human system, the most delicate and sensitive of all created things, should be duly prepared to meet the shock occasioned by a sudden change in the temperature of the air. Even the solid metals contract and expand under cold and heat—so that if man were composed of iron, instead of frail tissues and fibres, circulating fluids and brittle osseous matter, his frame would not be proof against the vicissitudes of climate. As it is, it behooves every one, especially the feeble, to fortify the frail tenement of mortality against the inclemency of the present season. A wholesome strength-supplying vegetable tonic and alterative is the preparatory medicine required, and universal experience pronounces this character, HOSTETTER'S STOMACH BITTERS *stand supreme*. In a successful career of nearly a quarter of a century, the preparation has never been equalled or approached, and its sales are now larger than those of any half dozen articles, purporting to belong to the same class, that has ever been advertised in this country. As a remedy and preventive of DYSPEPSIA, and all its complications, it may be said to have *lived down competition* and to be the standard specific of the Western Hemisphere. A course of this genial restorative at the commencement of Winter is the surest safeguard against all the complaints which are caused or aggravated by exposure to cold. d9

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve the cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative compound has been discovered, possessed of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of the primary, and destined to be the agent from to supersede and banish from general use, the nauseous pills and portions of which that dangerous cathartic is the main ingredient. Mortals in

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative and inefficient drought or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Caloric, Lumbago, Dysentery and Diarrhea, astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Cholera, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no faith in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ci

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison*. They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." THEY NEED BE BUT ONE PERFECT DYE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by W. M. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be accquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 25 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Marriage Guide and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

THE INDIAN DOCTOR HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,

THE NARRAGANSETT

INDIAN PHYSICIAN!

Has taken Rooms

At the Franklin House, Portsmouth,

Where he will remain

Until December 28th.

He treats successfully all curable diseases to which the human system is subject.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fail you, for he treats diseases that afflict both sexes.

Also DR. CONGDON'S

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy is used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

LOCAL AFFAIRS.

New Advertisements to-day.

Magazines for 1870—Jos. H. Foster.
Sleighs—Kimball Brothers.
Presents for the Holidays—Alfred Stavers.

☞ Thespians this afternoon at G. A. R. Hall; this evening at Exchange Building.

☞ The Concert at Grand Army Hall will commence at 7 1-2 o'clock, precisely this Friday evening.

☞ The Secretary of War asks for an appropriation of $75,000 for Fort McClary, Portsmouth harbor.

☞ In the Aldermen, Thursday evening, it was voted to widen Fleet St. to 40 feet, and pay same damages as awarded at former meeting.

☞ The sleighing is better in Boston now than at any time last winter. Here it is fair, but the snow is loose yet, and drifts and bare spots abound.

☞ Fifty men for the U. S. S. Benecia arrived on the train, Thursday afternoon, and were taken to the ship on the Steam Tug Port Fire.

The Benecia will sail in a few days on a trial trip, and several officers of this Yard will be on board.

☞ Two fishing boats started from this city to the Shoals on Monday, and one of them, in which were Calvin Chesholm, a Nova Scotian, and Lars Nelson, a Norwegian, is supposed to have swamped. It is barely possible that the young men were picked up by some passing vessel. The lost boat was a whale boat.

THE GRAND ARMY FAIR.—Preparations continue for the second Fair, which will take place at the Temple on the evenings of Wednesday, Thursday and Friday, Dec. 15th, 16th and 17th. The Fair of last year was generally considered the most extensive and successful affair of the kind ever held in this city, and the present committee on the part of Storer Encampment, assisted by a large committee of ladies, have been perfecting the arrangements for several weeks past.

The dramatic entertainments by the Thespians and other amateurs will be one of the principal features of the Fair, and are in a more forward state than they were last year, considering that a few days remain to complete details. Many of the ladies and gentlemen who made their first appearance last year and were so flatteringly received, will again appear; and the joint management of Messrs. G. M. Goodrich and R. B. Palfrey is sufficient to warrant the greatest success. In addition to those already favorably known, several ladies and gentlemen heretofore unknown to the public as disciples of Thespis, are to take part in the farces and comedies to be presented. The plays selected include the following:—The Widow's Victim, A Sea of Troubles, Dunducketty's Picnic, and Brother Bill and Me; and for further entertainment, it is rumored that a well-known amusement caterer, to whom the success of the last Fair is largely due, (we don't know why he should, but he has,) has written a farce for this occasion, which will be duly presented.

The young ladies, too, not to be outdone by their gentlemen friends, are preparing a grand surprise, it is rumored, and we doubt not their management will be as successful as that of any of the committees having such matters in charge. From their appearance it is evident that "something is up," and they keep their secrets as well as—ladies generally do. They hint mysteriously about what they are doing, and are certainly in earnest, judging by the number of meetings they have every day and evening. The male sex are vigorously excluded, and our reporter was obliged to accept a hint that he couldn't be allowed within hearing or sight of the energetic Sorosisters. Threats of criticism of their public performances were of no avail and he awaits with a sympathizing public, the time when the grand secret will be out and revenge can be his.

The other novelties in preparation are numerous and amusing, but are hardly in such a sufficiently advanced state to justify us in giving particulars. It is sufficient to know that all interested parties are energetically engaged in a worthy endeavor to surpass in variety and detail the entertainments and attractions of last year, and when it is considered that the various committees consist of 60 or 70 active members, (not to mention the members of the G. A. R.,) the public may well be assured that they will not go away unsatisfied from the busy multitude which will fill the Temple for three successive evenings.

Don Piatt calls Secretary Fish the "miserable sardine who runs the State Department."

REV. MR. DENORMANDIE'S LECTURE, at Mercantile Hall, Wednesday evening, was on "the divine law in trade," which he held is almost universally disregarded and lost sight of. Trade is the first occupation and necessity of civilized communities; and merchants are to-day our most potent and influential class. How important, then, that trade should be honest, and traders true.

The speaker alluded to the misrepresentations and adulterations, light weights, scant and short measures, false labels, and bogus currency of the shops,—both high and low, wholesale and retail; to the embezzlements, defalcations, frauds and forgeries, so common and so sad; and to the almost universal peculations or overcharging and extravagance in governmental and corporation matters especially. The two recent cases of robbery combined with youthful debauchery, and speculative risk and loss of the funds of others, were alluded to, as well as the heavy appropriations of Congress for private purposes.

In fact, fraud and cheating in all the fashionable and common ways—over anxiety to be rich and ostentatious—were deplored and denounced; and the certainty of the penalty insisted on. As soon with impunity deny or neglect the inscrutable actions of the mechanical or physical laws, as the moral effect of the divine law in trade.

Mr. DeNormandie gave a fine lecture, well worthy a place in other Lyceum courses; and had the close attention of his audience, which was not so large as it should have been—that small hall even, not being filled. This was doubtless in part owning to the fact that no tickets were offered for sale, and the public supposed the members of the Association would use the whole.

The second lecture will be by Mr. Geo. W. Haven, on Wednesday evening next—on his favorite theme of political economy.

☞ Mr. Harley Newcomb's Concert Company gave a splendid Concert at the Temple last evening, which must have delighted the critically musical, though perhaps much of the singing was rather too "classic" for those old fashioned people who prefer plain music. But the performances were good, and the entertainment as a whole a great treat.

☞ There will be a meeting of the Ladies' Committee of the G. A. R. Fair at the music room of Mr. E. A. Tilton on Daniel Street, this afternoon. All who are willing to aid in the good cause are invited to be present. Finished work can be returned at this meeting, or at No. 41 State Street.

November 8, 1869.

To Our Customers and Correspondents:

The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.

Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.

During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.

The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.

The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.

The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.

The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.

The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.

The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to the results of our inquiries to those who may be disposed to confide in our good faith and judgment.

We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.

Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE
SIX PER CENT. GOLD BONDS
OF THE
WESTERN PACIFIC R. R. CO.
OF CALIFORNIA.

The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary facts of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.

It is 150 miles in length, including a short branch, and it will be the

METROPOLITAN LINE
OF THE PACIFIC COAST,

connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.

It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.

The value of the property and franchises is not less than

TEN MILLIONS OF DOLLARS,

and the amount of the mortgage is

$2,800,000.

The bonds are of $1,000 each, have thirty years to run, and will be sold at

Ninety, and Accrued Interest,

in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.

The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.

The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received. Government bonds received at their full market value in exchange.

FISK & HATCH, Bankers.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

Morning Chronicle.

VANDERBILT.—The press of the country has hardly had time to get over chronicling the unveiling of the mighty "Vanderbilt Memorial Bronze," at the new Hudson River R. R. station in N. Y.,—which, from all descriptions verbal and pictorial yet promulgated, would seem to be nearly the ugliest, most abortive, and ill-conceived "work of art," which American brass has yet fashioned, and American currency paid for—when its notorious subject comes into their columns in a wholly different character; as the great American forgetter.

The cause of justice, it seems, had need of Cornelius Vanderbilt in court, as a witness. His testimony would shed light upon certain over-sharp practices, of which his confederates—not to say himself—had been guilty. But, once on the stand, his memory failed him altogether! He really didn't know whether he received a certain check for one million of dollars or not; didn't know whether he had one or more interviews with Mr. Jay Gould or not; didn't know the price of a stock when he owned some millions of dollars' worth of it; didn't know so simple a thing as how a cashier proceeds to certify a check; didn't know his own signature.

Justly, though sternly, says the Evening Post: "It is sad to think that the owner of a hundred millions has become imbecile before he could make some beneficent use of at least a part of his great fortune; and it would be still sadder and more disagreeable if it could be shown that he is not imbecile."

Were he a poor Irishman whose contumacy on the stand stood in the way of justice thus, the court would not be long in finding a way to make him remember. Has it come to this, even in the New York halls of justice, that a man with millions is absolutely monarch of all that he surveys?—*Boston Recorder.*

—The following incident is said to have occurred in a Utica restaurant. A man recently entered the place and ordered a very elaborate dinner. He lingered long at the table and finally wound up with a bottle of wine. Then lighting a cigar he had ordered, leisurely sauntered up to the counter and said to the proprietor:—

"Very fine dinner, landlord; just charge it to me, I haven't got a cent."

"But I don't know you," said the proprietor, indignantly.

"Of course you don't. If you had, you wouldn't let me have the dinner."

"Pay me for the dinner, I say!"

"And I say I can't."

"I'll see about that," said the proprietor, who snatched a revolver out of a drawer, leaped over the counter and collared the man, exclaiming, as he pointed it at his head, "Now see if you'll get away with that dinner without paying for it, you scoundrel."

"What is that you hold in your hand?" said the impecunious customer, drawing back.

"That sir, is a revolver, sir."

"Oh, that's a revolver, is it? I don't care for a revolver, I thought it was a stomach pump!"

SIGNS.—We don't go much on "signs," but the following are so clearly signs that will not fail in time of drought, that we give them for the benefit of our readers:

When you see the sun rising before you get out of bed, it is a sign that you'd not do for a farmer.

When you see a man yawn and close his eyes during the sermon, it is a sign that he is getting sleepy.

When you see a man trying to convince a lamp post that it is impolite to gaze in the way of a gentleman, it is a sign that he has been drinking something—lemonade, perhaps.

When you see a boy throwing stones on the streets, and speaking impudently to old people, it is a sign that his parents don't care much for him.

When you see a girl throwing kisses and winking at the boys as they pass her window, it is a sign that she is too young to be out of sight of her "maternal relative."

PAPER HANGINGS.—When an amateur attempts this kind of domestic decoration it is desirable that he should attend to the following instructions, otherwise the work, when finished, will show blemishes and stains. First, pumice-stone the wall, to remove all irregularities of surface, then wash over the size, about one ounce of glue to a gallon of water, and when dry, the wall is ready to receive the paper. The paste should be well boiled and then passed through a hair sieve to extract the lumps, a fruitful source of stains. If the walls are inclined to show damp, add a little corrosive sublimate to the paste to prevent mildew forming on the surface of the paper. The most important matter is to allow the paper to be pasted for about ten minutes before hanging, in order that it may be well stretched before being placed on the wall. Stout paper hangings such as the "flocks," etc., require a longer time. If these directions are attended to, the thinnest papers will hang without a crease or the objectionable water stains which characterize bad workmanship.—*Scientific Am'n.*

—Mark Twain, lecturing to a Boston audience on the Sandwich Islands, when he came to discuss cannibalism, remarked: "At this point I usually illustrate cannibalism before the audience; but I am a stranger here, and feel diffident about asking favors. However, if there is any one present who is willing to contribute a baby for the purpose of the lecturer, I should be glad to know it now. I am aware though that children have become scarce and high of late, having been thinned out by neglect and ill-treatment since the woman movement began."

THE FIRST SNOW.

BY MARTHA REMICK.

The first snows of the winter!
They drift so white and cold!
They bring forth many memories
Of the silent days of old,
Not to you who with light footsteps
Pass from the school-room's bound,
Not to you whose choicest pleasure,
In the ball and dance are found.

But to one there comes a memory
Of the days long ago,
As with slack'ning steps he hastens
Through the softly falling snow,
Where a loving greeting waits him
In the spot that he calls home,
Who would think that one sad hour
He trod his way alone!

To another comes a picture
Of a solemn dying room,
Of some friend who went to Heaven
In a winter time of gloom;
Of the patience and the sweetness
Which made her wan face fair,
Ah! the winter snow is falling,
And she? O, she is where?

To another comes the anguish
Of a home of want and pain,
Where the children cry for hunger,
And ask for bread in vain;
Where the father's strong heart falters,
And the mother through her tears
Looks with sad and bitter longings
To the happy plenteous years.

To another—but why gather
The records of the snow?
O'er new stones in the graveyards
It flutters soft and low.
It brings us tender memories,
A still and voiceless pain,
Let it work its gentle mission
Like the soft and bright Spring rain.

—Mrs. Powell, a little woman in red Bloomer breeches and Garibaldi waist, is dancing Spiritualistic jigs for the edification of Richmond people. The ghost of a big Injun named Silver Arrow animates Mrs. P.'s legs. All right, so long as the red man is content with dancing; but suppose he is taken down with a bloodthirsty fit, and seems proper to use Mrs. P.'s hands for the purpose of raising hair. Ugh!

DEAD IN THE STREET.

Under the lamplights, dead in the street,
Delicate, fair, and only twenty,
There she lies,
Face to the skies,
Starved to death in a city of plenty,
Spurned by all that is pure and sweet,
Passed by busy and careless feet—
Hundreds bent upon folly and pleasure,
Hundreds with plenty, and time and leisure;
Leisure to speed Christ's mission below,
To teach the erring and raise the lowly—
Plenty, in Charity's name to show
That life has something divine and holy.

Boasted charms—classical brow—
Delicate features—look at them now!
Look at her lips; once they could smile;
Eyes—well, never more they shall beguile;
Never more, never more word of hers
A blush shall bring to the saintlest face.
She has found—lets us hope and trust,
Peace in a higher and better place;
And yet, despite all ill, I ween,
Joy of some heart she must have been.
Some fond mother, proud of the task,
Had stopped to finger each dainty curl;
Some vain father had bowed to ask,
A blessing for her, his darling girl.
Hard to think, as we look at her here,
Of all the tenderness, love and care;
Lonely watching and sore heartache,
All the agony, burning tears,
Joys and sorrows, and hopes and fears,
Breathed and suffered for her sweet sake.

Fancy will picture a home afar,
Out where the daisies and buttercups are,
Out where the life-giving breezes blow,
Far from these sodden streets, foulsome and low,
Fancy will picture a lonely hearth,
And an aged couple dead to mirth,—
An aged couple, broken and gray,
Kneeling beside a bed to pray;
Or lying awake o'night to hark [dark:
For a thing that may come in the rain and the
A hollow-eyed woman with weary feet,
Better they never know
She whom they cherished so
Lies this night, lone and low,
Dead in the street.

For the Chronicle.

ANOTHER SON ABROAD.—*Messrs. Editors:*—You copied into the Chronicle the other day, part of a letter from California, descriptive of the rancho of Capt. Chas. E. Shillaber, of Portsmouth; in which letter, though I think not in the portion you published, mention is made of a "cousin" of the Captain's, as part owner of the plantation. Portsmouth has always felt a deep interest in the welfare of her children, and wherever they wander, her friendly regard never ceases; therefore this other, mentioned so ambiguously, I think, will be as well regarded.

It is Mr. Levi S. Shillaber, twin brother of the captain of ship Calcutta, (sons of the late Mr. Joseph Shillaber,) who went to California some fifteen years since, a poor boy, and has, by close application to business and integrity in his dealings, won a respectable position, and reflects credit on the place of his birth. He is married, has children, and on the occasion of the recent visit of the Grand Lodge of Odd Fellows to San Francisco, gave those who bore letters to him a reception that testified to the warmth of his hospitality. He lavished upon them the most luscious fruits of the season, in which he is a dealer, and was mentioned cordially in their letters home and upon their return.

The writer had especial occasion to remember him, in a superb and costly Cane, that came by the hands of one of the G. L. This cane is of California laurel, resembling rosewood, but much heavier; a head of gold, highly ornamented, with a centre of finely-marked gold quartz. This was accompanied by a pleasant word of presentation, and the assurance that the sender was "all right." Of course he is all right. No one can be otherwise, who has it within his means and in his heart to give such a present as that. He is showing in his life a sterling manhood, as bright as the gold of California, amidst which it has been developed, and he is worth Chronicling as a worthy son of our dear old town. Yours truly, B. P. S.
BOSTON, Dec. 8.

—John Whaley's wife one day happened to find an elegant piece of white leather on the road, and she brought it home in great delight to mend Jack's small-clothes, which she did very nicely. Jack set off the next day, little expecting what was in store for him; but when he had trotted about five miles—it was in the month of July—he began to feel uneasy in the saddle—a feeling that continued to increase every moment, till at last he said: "It was like taking a canter on a bee hive in swarming time."—and well he might, for the piece of leather was no other than a blister that the apothecary's boy had dropped that morning on the road.

—Rev. Wm. B. Wright, in his excellent sermon on the Women of the Bible, remarked that "wherever woman has gone with man there has been improvement;" on seeing which a crusty old bachelor asks the eloquent preacher "how it was in the Garden of Eden?"

BEST CABINET ORGANS,
AT LOWEST PRICES
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world,* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their faculties for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS. Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.,

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopœia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts effectively on the biliary organism; it irritates neither stomach nor bestine in all its operation; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obstacle. For sale by all Druggists. Price $1. o216w

—A change having been made in the Editorial Department of the *Liberal Christian*, the proprietors desire to say that, so far from its being their intended policy to make the paper less liberal and less Christian than heretofore, it is their purpose to make it more so. While its position will be firmly on the side of positive christianity, it will welcome to its columns the best thoughts of writers, representing the various schools and sects into which the Church is divided, and be found to be in full sympathy with the general liberal and liberalizing tendencies of the christian world.

CONGRESS, *Thursday*.—In the Senate Mr. Trumbull introduced a bill declaring that no State government exists in Virginia, Mississippi and Texas, putting them under martial law, until their senators and representatives should be admitted to Congress, and directing the President to proceed against all military prisoners without regard to the civil courts.

Mr. Carpenter of Wisconsin introduced a bill relative to the salary of the Chief Justice of the Supreme Court of the United States, fixing the salary of the Chief Justice at $12,000, and that of the associate justices at $10,000 per annum. Referred to committee on judiciary.

Mr. Drake of Missouri introduced a bill to establish a uniform time for the election for electors for the President and Vice-President of the United States and for representatives to Congress in all the States of the Union. It provides that the presidential electors shall be elected in each State on the second Tuesday of October in the year in which they are to be elected, and that representatives in Congress shall be elected in each State on the second Tuesday of the October next preceding the beginning of the term of Congress to which they are elected. Referred to the committee on the judiciary.

The Senate adjourned until Monday.

The House discussed the census bill.

A bill was introduced to place on the free list the following articles:—Tea, coffee, molasses, syrup, melado or cane juice, rice, salt, lumber, hides, stains for printing paper, and iron in pigs. Referred to the ways and means committee.

Mr. Davis of New York introduced a bill to impose a tax on all fictitious and gambling sales of gold. Referred to the judiciary committee.

A resolution was adopted that the pension committee consider the propriety of amending the pension laws by making it the duty of the pension agents to prepare vouchers and transmit them to the post-office address of pensioners.

NO MORE TWAIN, BUT ONE.—In answer to a question addressed to him by the editor of the Independent, President Blanchard of Knox College replies that it is, in his opinion, better to educate men and women as well as girls and boys in the same school. He says:

You ask me for the result of my experience on the joint education of men and women. It is succinctly this: the firm conviction that the mixed institution is the purest, safest, strongest, and in every way the best. Not that there are no evils to be guarded against in the mixed school, which is separated by the sexes might not tend to prevent; but that the dangers which beset institutions in which the sexes are united are less and the benefits greater than in those where they are separated, each sex by itself."

Before closing his letter he makes the following deliverance on the Woman Question, in general: "There are still problems connected with this subject which must yet work themselves out, or be wrought out by the progress of ideas and events. And things will never be quite well here till Christ comes again. I am sure, too, that 'the man is the head of the woman, and Christ the head of the man, and God the head of Christ.' This is the testimony of Nature as well as the teaching of Revelation. I dislike, too, all doctrines which plainly tend to make my wife and myself count two, when Christ has declared — aye, and made — "*no more twain, but one.*" There are other questions, too, which God refers for solution to the local sense of "decency and order."

A PROBATE KNOT.—More than seventy years ago a woman named Richardson, resident in Lyndeborough, married and went to reside in Hallowell, Me. On the death of her husband she returned to L. with four children. Soon after, she disappeared at Lyndeborough, leaving her children. Nothing was heard from her from 1805, until within two years, when a sister of the missing woman died, leaving $6000, which was to be divided among others with the deserted children.

Then other parties turned up, claiming also to be children of the missing woman, who it appears married in New York and had four children more. These persons demand a share in the estate, in behalf of their mother, lately deceased. The case is in the hands of Hon. David C. Cross, Judge of Probate for Hillsborough county, for examination. After a desertion of sixty-five years by an unnatural mother, we think the first children ought not to be compelled to share anything that may fall due to them on her account, with the second crop. But the law may decree otherwise.

—A gentleman travelling on a steamer, one day at dinner, was making way with a large pudding close by, when he was told by a servant that it was a dessert. "It matters not to me," said he, "I could eat it if it was a wilderness."

—"We have possession, and possession is nine points of the law," said a lawyer to his opponent. "And what is the tenth part?" asked the latter. "Disappointed, sir, and that's a deal sight bigger than all other points put together."

Tuftonborough seems to be a great place for pork. A pig just killed there 8 months and 23 days old, weighed 323 pounds; and the Wolfeborough News says J. E. Edgerly recently killed a hog weighed 541 lbs., and it is a common occurrence in this town to kill hogs which weigh from 500 to 700 pounds.

J. L. Hersey of Tuftonborough caught a monster eagle in a steel trap. Found to measure from tip to tip of wings, seven feet two inches, and from point of bill to tip of tail three feet, and weighed nine pounds. He had evidently escaped from confinement, as the marks of a ring around one of the legs was plainly to be seen. It is thought to belong to the Golden Eagle tribe.

WHAT SLEEP WILL CURE.—The cry for rest has always been louder than the cry for food. Not that it is more important, but it is often harder to get. The best rest comes from sound sleep. Of two men or women, otherwise equal, the one who sleeps the best will be the most moral, healthy and efficient.

Sleep will do much to cure irritability of temper, peevishness, uneasiness. It will prevent insanity. It will restore to vigor an overworked brain. It will build up and make strong a weary body. It will do much to cure dyspepsia, particularly that variety known as nervous dyspepsia. It will relieve the languor and prostration felt by consumptives. It will cure hypochondria. It will cure the blues. It will cure the headache. It will cure neuralgia. It will cure a broken spirit. It will cure sorrow. Indeed, we might make a long list of nervous maladies that sleep will cure.

The cure of sleepessness, however, is not so easy, particularly in those who carry grave responsibilities. The habit of sleeping well is one which, if broken up for any length of time, is not regained. Often a severe illness, treated by powerful drugs, so deranges the nervous system that sleep is never sweet after it. Or, perhaps, long-continued watchfulness produces the same effect; or hard study; or too little exercise of muscular system, or tea and whisky drinking, and tobacco using. To break up the habit are required:

1, A clean bed.
2, Sufficient exercise to produce weariness, and pleasant occupation.
3, Good air, and not too warm a room.
4, Freedom from too much ease.
5, A clean stomach.
6, A clean conscience.
7, Avoidance of stimulants and narcotics.

For those who are overworked, haggard, nervous, who pass sleepless nights, we commend the adoption of such habits as shall secure sleep, otherwise life will be short, and what there is of it sadly imperfect.—*Herald of Health.*

"BRUDDER DICKSON."—Mr. Dickson, a colored barber in one of our large New England towns, was shaving one of his customers, a respectable citizen, one morning, when a conversation occurred between them respecting Mr. Dickson's former connection with a colored church in the place.

"I believe you are connected with the church in Elm street, Mr. Dickson," said the customer.

"No, sah, not at all."

"Why, are you not a member of the African church?"

"Not dis year, sah."

"Why did you leave their communion, Mr. Dickson, if I may be permitted to ask?"

"Why, I tell you, sah," said Mr. Dickson, strapping a concave razor on the palm of his hand, "it was just like dis—I jined dat church in good faith. I gib ten dollars toward de stated preachin' ob de gospel de fuss year, and de people all call me Brudder Dickson. De second year my business not good, and I only gib fibe dollars. Dat year, de church people call me Mister Dickson. Dish razor hurt you, sah?"

"No, sir—goes tol'ble well."

"Well sah, de third year I feel berry poor,—sickness in my family.—an' I gib noffin for de preachin'. Well, sah, arter dat dey call me ole nigger Dickson, an' I teff 'em!"

So saying, Mr. Dickson brushed his customer's hair, and the gentleman departed, well satisfied with the reason why Mr. Dickson left his church.

THE WOLFEBOROUGH RAILROAD.—Navigation having ceased on the Lake, we now feel the need of our Railroad more than ever. We learn that the refusal of the town of Brookfield to appropriate anything for the road, will not prevent its being built. We hear talk of a road from Wolfeborough, to connect with the Dover & Winnepisiogee Road near Downing's Crossing in New Durham, in case anything should turn up to prevent the building of the line to Union. Wolfeborough is bound to have an outlet somewhere "all the year round."—*News.*

☞ Senator Trumbull's bill reported from the judiciary committee declares that no court shall have jurisdiction of political questions; that Congress alone can determine when the Southern States are reconstructed; that Virginia, Texas and Mississippi have no standing before the Supreme Court; that the cases from these States shall not be taken up on a writ of *habeas corpus*; that all cases of this sort now before the Supreme Court are suspended, and that the President shall proceed against military prisoners in these States without regard to civil processes heretofore instituted. If this bill is passed, the famous Yerger case is at once taken out of the court, and the President will be required to act on the sentence of military commission, which condemned him to death.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1 50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dlm.

In Remote Settlements of Untold Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand have used them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

Holloway's Ointment and Pills.—Piles.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the disease, and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around the world its praises are told;
It will Cholera cure—scourge of southern climes,
No victim dies, who takes it betimes.

Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*'twill be used again;*
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

SPECIAL NOTICES,

Preparatory Medication.

The human system, the most delicate and sensitive of all created things, should be duly prepared to meet the shock occasioned by a sudden change in the temperature of the air. Even the solid metals contract and expand under cold and heat—so that if man were composed of iron, instead of frail tissues and fibres, circulating fluids and brittle osseous matter, his frame would not be proof against the vicissitudes of climate. As it is, it behooves every one, especially the feeble, to fortify the frail tenement of mortality against the inclemency of the present season. A wholesome strength-supplying vegetable tonic and alterative is the preparatory medicine required, and among medicinal agents of this character, HOSTETTER'S STOMACH BITTERS *stand supreme.* In a successful career of nearly a quarter of a century, the preparation has never been equalled or approached, and its sales are now larger than those of any half dozen articles, purporting to belong to the same class, that has ever been advertised in this country. As a remedy and preventive of DYSPEPSIA, and all its complications, it may be said to have *lived down competition* and to be the standard specific of the Western Hemisphere. A course of this genial restorative at the commencement of Winter is the surest safeguard against the complaints which are caused or aggravated by exposure to cold. d9

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative combination has been discovered by chemists of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of two powerful and destructive chemical forms to supersede and banish from general use, the nauseous pills and portions of which that dangerous excipient is the main ingredient, viz:

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more efficacious than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a pill, powder, or draught; or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, &c., have made it the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sales and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. s ol

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison.* They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by W. M. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It disclosures secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, do not place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

THE INDIAN DOCTOR

HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,

THE NARRAGANSETT

INDIAN PHYSICIAN!

Has taken Rooms

At the Franklin House, Portsmouth,

Where he will remain

Until December 28th.

He treats successfully all curable diseases to which the human system is subject.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fail you, for he treats diseases that afflict both sexes.

Also DR. CONGDON'S

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same cures are made upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

LOCAL AFFAIRS.

THE MISSING MEN HEARD FROM.—The following despatch was received at the office of Western Union Line on Friday:

Holmes' Hole, *via* New Bedford, } Dec. 10. }

Find the friends of Calvin Chisholm, who left Portsmouth for the Isle of Shoals last Monday, and tell them his boat and remains are here; his companion, Nelson, was saved alive.

H. NORRIS.

☞ Mr. T. S. Nowell has got most of the machinery into his new shoe manufactory, and the engine has been running for several days. Mr. Stephen C. Goodwin is the engineer, a good and careful man. Mr. Nowell's building cost about $10,000, and the machinery nearly $6000 more. There are few institutions in the city calculated to be of so much benefit, and we should like to see a score of such go up here, in this and other branches. Everything about the new building is plain, but substantial.

☞ George Bracken, a private of the Marines stationed at this Navy Yard, who was tried by a General Court Martial on the 15th of November last for insurbordination and conduct prejudical to military discipline, was sentenced to any State Prison the Secretary of the Navy may select for the term of two years, at the expiration of which time he is to be dishonorably discharged from the U. S. Service. It is understood that his offence was an assault upon a superior officer, by hitting him on the head with a weapon.

☞ We are indebted to Mr. N. D. Miller, the well known ingenious mechanic, for opportunity to witness the operation of a Gyroscope or Rotascope, which he made as a toy for his children. He was also kind enough to give the High School a practical insight into its peculiarities,—which must be seen to be believed in or understood. It consists of an upright fixed spindle, on the point of which one end of a shaft is placed, which holds a metal circle in which a wheel is set whirling by a round string, as a top; and the rotation of this wheel, and that in the opposite direction from which the shaft moves round on the spindle, overcomes gravitation until the force is spent, and keeps the shaft out straight, or just above or Another singularity about it is, that below the level, as it is started,—just as an arm or a pump-handle may be held, when the wheel begins to lose speed, the shaft begins to gain it! Altogether, the Gyroscope is a paradoxical and ridiculous little machine, but very curious and interesting. It was discovered in 1832, and Mr. Miller made his first one some twenty years ago.

CITY MATTERS.—In the Board of Aldermen, Thursday evening, the Com. on Claims were at their request excused from further consideration of the smallpox bills from the City Physician and R. Shillaber, on account of the numerous long-contested points in all such cases. Dr. Dearborn's bill for vaccination and visiting schools, was referred to the Mayor and Ald. Nowell and Cotton, the Com. placed in charge of the matter at the time.

Bill of $80 from Thatcher Emery, for groceries furnished the family of A. Maloon for three weeks, by order of the City Physician, was laid on the table, for consideration of the Overseers of the Poor. It was the opinion of the Board that the City should pay all bills for paupers only, in such cases, and then by order of the Overseers alone.

On motion of Ald. Pender, the Com. on fire Dep't were given authority to clear Court St. of all snow obstructions between the engine house and Pleasant Street.

The Com. on Streets were authorized to prevent the filling of the culvert drain at Cabot St. by Eastern Railroad,

Ald. Cotton called up Fleet St. again, and his resolution to widen to 40 feet, was passed: yeas, Cotton, Miller, Pender, Clark, Spinney; nay, Slater; absent, Nowell, Pendexter. Ald. Miller thought the abuttors on Fleet St. did not show much public spirit in the matter; and wished for a betterment law, like other States, so that they could be made to pay in proportion to the improvement of their property.

Ald. Slater called up the North Millpond Bridge, which after discussion, was laid over for a week—the Com. on Sts. to procure from Mr. M. H. Goodrich in writing, his claim for water damage, to ascertain if Wendell & Moses have any such claim, and to procure from owners of the land, their waiving of land damages, and their transfer of the right of way across the tracks at Cabot St. to the City.—Ald. Nowell and Slater, Com. to report on the Dover St. petition, were given one week more to report.

Adj. for one week.

☞ House at Auction to-day by Mr. Morse.

☞ Rev. W. F. Potter of Amesbury, Mass., is to preach at the Universalist Church to-morrow.

NAVAL.—Ensign Tallman is detached from this Navy Yard and ordered to duty in the Bureau of Navigation at Washington.

☞ Marshal Johnson warns the boys not to coast on the sidewalks. A lady was knocked down and injured on State Street, Friday afternoon.

☞ The gentlemen of the Fair Committee are desired to meet at G. A. R. Hall at 7 1-2 o'clock this (Saturday) evening.

☞ Two gentlemen of this city made the first haul of pickerel on Thursday, having "hooked" from a neighboring pond twenty-seven fine ones, one of which was two feet long and weighed four pounds.

A NARROW ESCAPE.—Mr. Ashael Thurston of this city took an overdose of morphine powders, which had been prescribed by his physician, Thursday night, and was saved from dissolution by the application of a stomach pump.

☞ Nobby, decidedly—the new hack of Mr. Wm. H. Allen, which was put on duty on the advent of sleighing. Mr. Allen knows well what best suits his customers, and is always prompt in fulfilling orders. It's a luxury to ride in his new establishment.

☞ Nellie Gray, a noted trotter, died suddenly of congestion of the lungs, at Bradford, a day or two since. But gray Nellie Locke, of this city, is bright as a button, and clipping it about daily on the snow, in the hands of Wm. Mooney, her trainer and driver of late.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

—When Anna Dickinson was at Salt Lake City, a crowd gathered at the hotel to serenade somebody, when a call was made for "Miss Dickinson." A dispute took place as to whether it was "Miss" or "Mister," when a compromise was effected by an individual who shouted: "Bring it out!"

OFFICE OF FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 NASSAU STREET, NEW YORK,
November 8, 1869.
To Our Customers and Correspondents:
The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.
Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.
During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.
The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.
The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.
The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.
The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.
The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.
The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.
We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.
Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:
FIRST MORTGAGE
SIX PER CENT. GOLD BONDS
OF THE
WESTERN PACIFIC R. R. CO.
OF CALIFORNIA.
The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.
It is 159 miles in length, including a short branch, and it will be the
METROPOLITAN LINE
OF THE PACIFIC COAST,
connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.
It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.
The value of the property and franchises is not less than
TEN MILLIONS OF DOLLARS,
and the amount of the mortgage is
$2,800,000.
The bonds are of $1,000 each, have thirty years to run, and will be sold at
Ninety, and Accrued Interest,
in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.
The near approach of the time when the United States can probably fund the greater portion of its Six per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.
The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received. Government bonds received at their full market value in exchange.
FISK & HATCH, Bankers.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

Concord Correspondence of Boston Journal.

A Romantic Story.

One of the happiest Thanksgiving dinners in New Hampshire was in one of our loveliest rural villages not thirty miles from Concord. It was the first reunion for many years of several generations of a certain family. At the head of the table sat the venerable grandfather, now eighty-one years of age, who is yet a charming picture of health and strength preserved in a wonderful degree. He had come alone thousands of miles, from the distant West, to meet his descendants around the festal board of a married daughter.

After the dinner, what could be more appropriately in order than the narration by the grandsire of some of the interesting events in what had proved to him a very romantic life? His story was long and fascinating, and some of its main features we have gathered for this letter. We suppress names, but the facts are already known to not a few of the many constant readers of the Journal.

The hero of the story was born in the State of New York, and passed his youth on a fertile farm in the valley of the Mohawk river. In the course of time he was engaged to be married. Before the nuptials were celebrated he became interested in another young lady who also proved to be engaged, but between them there sprung up a strong intimacy, which on the part of both was carefully concealed from the other parties concerned. They both were convinced that their existing engagements were not the results of any deep-seated love, but that a union between themselves would be productive of the highest earthly happiness.

The most solemn pledges, however, had been made by them, and like honorable persons they shrunk from the idea of breaking their plighted vows. In vain they waited, hoping that something might occur which would cause the other parties to give them release from matrimonial obligations. At length they met, as they supposed, quite probably for the last time, and parted only after pledging each other a love which death only could destroy. The man married and emigrated to the West and the woman was united in hymeneal bonds and settled on the shores of Oneida Lake.

These occurrences happened nearly fifty years ago. The western adventurer proved a good husband and a kind father and grew into middle age a widely known and influential citizen. Prosperity attended him and wealth and many friends came to him. After twenty years of married life, his wife was taken from him, but children remained to gladden his heart and home. Sometimes in the twilight hours as he gazed over his broad acres and looked upon his overflowing granaries he would think of his only love, and hope that if she were living there was never a leanness in her basket or store.

By and by several of his children married and one of them came to New Hampshire. Years passed on and his hair became silvery white, but he had never again visited the East. When a certain sweet image floated in his mind he would endeavor to forget it and to convince himself that quite likely she had long ago passed away from earth. This conclusion was strengthened from the fact that he had never received in any way a single scrap of intelligence concerning her. After repeated invitations from his relatives he concluded a few months ago to spend with them in New Hampshire the then approaching festival of Thanksgiving. He reached Albany at the time of the height of the late great flood, and travel being much interrupted he stayed over a few days and accidentally met some old acquaintances of his youth.

During one conversation there was casually mentioned the name of her from whom he had many years ago so sorrowfully parted. Eagerly he asked if she was yet alive, and when answered in the affirmative tears came to his eyes, and he told his friends that he must at once set out in search for her. He was told where she was living only six months previous, and thither he went with all possible haste, but she was not there. Only a month before she had gone away. He learned the direction it was supposed she had taken, and again with all possible speed he pushed forward. But fate seemed against him, for farther and farther away seemed to him the object of his search.

At last, after he had traveled hundreds of miles, going often by night as well as by day, he found the lost angel of his youth. Words cannot picture the scene of the meeting, and over it we kindly draw the veil. In a moment, as it were, the history of their lives went in review before them, and the sad parting of forty-five years ago was again a living reality in their sight. The many years of their separation had not even dimmed their affection for each other, and a bright and happy future seemed dawning upon them.

The story of the woman was one of long toil and suffering. After ten years of wedded life her husband had died of lingering disease, leaving with her three children. One after another of these treasures were claimed by death until alone and friendless she was left to battle with the world. For a time the thought of one whose picture was ever in her heart gave her some encouragement and strength but at length she experienced bitter despair and to death alone she looked for relief. In such circumstances was she found by one who renewed the pledge of his youthful affection and asked that to her happiness he might devote the remainder of his life.

Such was the grandfather's story at the happy Thanksgiving dinner, and he closed by saying that one week from that day he was to be married to her who had been so long lost but who was at length restored to him. The preparations for the marriage are now in progress and nothing will be spared to make the occasion one of the happiest possible. Relatives and friends in large numbers are to be present, many of them to come a long distance, and bright and numerous are the anticipations of pleasure. The grandsire feels himself very young, and he often amuses his children by telling them what he proposes to do "when he gets old." And now we feel sure that no Journal reader will think there is need of resorting to fiction for a story when facts like the above are so much more romantic.

—The election of Alderman Bantock as mayor of Wolverhamton, England, was unsuccessfully opposed on the ground that, being a Congregational deacon, he refused to attend the Established Church in his high official capacity. In Reading, quite a discussion took place in the council meeting on the subject of the lawfulness of Mayor Spokes' announced resolution to attend his own Nonconformist church the Sabbath after his inauguration, with such members of the corporation as would accompany him. It was at last decided to be allowable; and, for the first time, the ceremony took place in another than the Established Church.

—A respectable *cure* in St. Auderlin, France, was lately ejected from his parish for not accepting the Ultramontane opinions of his bishop. This action caused so much feeling that the bishop himself came to secure submission; but with so little success that a great number of Catholics declared that they had rather join the Protestants than to submit to such oppression, and have actually sent a deputation to Rev. M. Claval, pastor of Sancerre, asking him to celebrate Protestant worship in their village. He came, and was listened to by an eager audience of 1,000 people. The building of a Protestant church is commenced.

—A writer in the Lutheran says: "I once heard a distinguished popular preacher discourse on the theme, 'Peculiar people.' Among other peculiarities noted, he said some people have three hands—a right hand, a left hand, and, as he expressed it, a little behind hand."

Five Shillings a Week.

Thomas Brown lived next door to Robert Smith, and both worked in the same factory. But, though they stood side by side all day, they had very different ways of spending their evenings. Smith's pleasure was to sit and chat in the parlor of the Red Lion, while Brown thought his own snug chimney-corner pleasanter and cheaper.

Brown was a "staunch teetotaller," as he called himself. He was hale and strong, and he found he did not need beer or spirits; he saw many of his fellow-workmen and their lads slipping down into the habit of spending a great part of their earnings in drink, and every now and then breaking out into a drunken revel. So Thomas resolved to keep clear of the temptation to take too much strong drink, by taking none at all.

He was surprised himself to find how much money this resolve saved him. He found that he had about five shillings a week to spare, after paying all his household expenses. He consulted with his good wife, what to do with this five shillings, and they settled to put it into a building society which had lately been formed. So Thomas Brown took five fifty pound shares, and paid his five shillings a week into the society; while his neighbor and shop-mate, Robert Smith, spent his surplus five shillings in the parlor of the Red Lion.

Eleven years passed over: the building society of which Thomas Brown was a member wound up, and Thomas received a check on the bank for £250, with which he bought a house, which brought him in eight shillings a week for rent.

As he still had his five shillings surplus from his wages, and these eight shillings besides, he thought he could do no better than to join another building society; and so he took thirteen fifty pound shares, and paid in his thirteen shillings a week.

Another eleven years passed away, and the building society paid Thomas $650, with which he bought him more houses, which brought him in twenty-seven shillings a week—about £98 a year.

About this time work began to slack at the factory, and the master sent for Robert and Thomas, and told them that he was very sorry that he could no longer find employment for them.

Both returned home. Thomas was a little sad to think that he should not go to the old place, where he had worked so many years; but Robert had a heavy heart, and when he told his wife, she pictured a dismal future, and burst into tears.

After that cheerless supper, Robert went out, but instead of going to the Red Lion, he looked in at his neighbor Thomas' house to see what he was going to do; for Thomas, like a wise man, had not boasted about his savings or his property, and few of his shopmates knew any thing about it. Thomas was at supper when Robert came in, and he asked him to sit down and join him; but Robert was too excited to do that.

"What is to be done, Thomas?" said Robert; "this is a desperate bad job."

"Well," said Thomas, "for my part I don't intend to work in the factory any more. I can't take to a new place now, after I have been so long used to the old shop."

"How do you mean to live, then?" asked Robert. "Has any one left you a fortune?"

"No," answered Thomas; "I have income enough to keep me without working in the factory."

"I wish," said Robert, "that you would give me a leaf out of your book."

"Nay," said Thomas, "I fear it is too late now. You know I have been a teetotaler for twenty years, and many a joke you and the rest have had at me for it."

"Well, you have the pull of us now, at any rate," said Robert; "but you don't suppose I've been a drunkard, do you? I have always made my wife comfortable, and given her what she has wanted for the house."

"I know you have," answered Thomas; "but my wife and I agreed to put five shillings a week, which we could spare, into the building society, and now we have thirty-seven shillings a week coming in without working for it."

Robert looked surprised, and said sadly, as he rose to go, "I see my mistake now; though I have not been a drunkard, I have squandered away, without thought, what might now make my wife and me comfortable for the rest of our lives, instead of having to set out and look for work in a new place, among strangers."

PLANTING THE CHESTNUT.—In this region they may be planted as soon as they fall from the tree, while the shell is yet moist; or they can be put at once into rather moist sand, until the middle of November, or until March. We prefer the autumnal planting, immediately after the chestnut falls from the burr. It is a rapid grower, and with proper pruning it can be formed into a beautiful tree.—*Germantown Telegraph.*

BEST CABINET ORGANS,
AT LOWEST PRICES
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of Organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopœia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operation; and what is VERY IMPORTANT, in all good nursing, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obstacle. For sale by all Druggists. Price $1. o218w

Portsmouth, N. H.

MONDAY, DEC. 13, 1869.

A NEW LAW.—The Vermont Legislature at its recent session passed a law making liquor sellers personally liable for any injury which an intoxicated person, to whom they had unlawfully furnished liquor, might commit. In case of death or disability of any person from such injury, or of any person in consequence of intoxication from liquor unlawfully furnished, any person dependant upon the one so disabled or deceased, may recover damages from the person unlawfully selling or furnishing such liquor. Such a law, rigidly enforced, as it would be likely to be in almost any community, would be far more effectual in suppressing intemperance than any constabulary act that could be framed.—*Exchange.*

If such a law *were* rigidly enforced, no doubt it would lop off some branches of the Upas Tree. But is it *likely* to be so enforced in any community? There ought to be virtue enough in the community to do so, but we doubt its existence; and should expect the same difficulty in getting evidence to convict, as under other laws.

We have a case in point, now before us; viz., that of two fishermen who started from this port a few days ago, for the Shoals, but did not get there; one of them and the dead body of the other arrived at Holmes' Hole. If they had not made themselves foolhardy by strong drink, they would not have sailed, contrary to all advice.

Suppose any relative of the deceased man should *sue* for damages. *Which* of the different drinking-shops they visited will own up to getting them drunk, or selling them any intoxicating drink? And who of their fellow-drinkers will testify that they really drank spirits?

CONGRESS.—*Friday.*—In the House, bills were introduced establishing uniform naturalization rules throughout the United States; and repealing that portion of the Internal Revenue laws requiring farmers and gardeners to take out a produce broker's license.

The census bill was taken up in committee of the whole. An additional section was inserted, authorizing each district superintendent to employ, by the consent of the general superintendent, in addition to the enumerators, one or more persons to collect, collate, arrange and report the special statistical information called for by the act, in relation to mines and mining, to manufacturing and mechanical industry, mercantile and trading establishments and business, fisheries, education, religion, charities, charitable, sanitary, reformatory and penal institutions and other commercial and social statistics.

A Manchester butcher imported some Texas cattle, but they grew wilder and more wild, and finally had to be shot—and it was hard work to do that.

Rev. C. B. Terry was installed pastor of the Unitarian Church in Manchester, Dec. 9. Sermon by Rev. Mr. Lowe of Boston; charge by Rev. Mr. DeNormandie of this city.

At the law term of the supreme judicial court of the counties of Merrimack, Hillsborough and Belknap, the conductors' cases were passed to the March term. There were eighty applications for divorce, forty of which were granted. The verdict against Larkin, the Suncook eloper, was set aside and a new trial granted.

In the article published last week from the Manchester Mirror, it was stated that Mrs. Dunn received only $1 a week for work at a hotel in Great Falls. This was a mistake. She received $5 a week.

The liquors seized in the store of Howard S. Fall at North Berwick, and libeled, were claimed by Fall on the return of the libel before Judge Emery. Those taken from Charles N. Allen were claimed by John W. Richmond, of Great Falls. Both lots were decreed forfeit by Judge Emery, and the claimants took an appeal to the Supreme Court.

The Bench of Judges of the Supreme Court have decided an important case in which Concord is concerned. The county of Hillsborough, sometime since, brought suit to recover certain criminal fees which were received at the Police Court there, claiming that they belonged to the county. The court decided in favor of the county.

G. A. R. FAIR.—The members of the G. A. R., and their friends, are fast perfecting their arrangements for the Fair to be held on Wednesday, Thursday, and Friday evenings of next week, in aid of the charity fund of Storer Post.

Various novelties will be presented, which cannot fail to please the public, and the programme for the three evenings will cover a series of entertainments far more attractive than any thing of the kind ever before presented in this city.

We notice in the window of Messrs. Rowell & Hutchinson a beautiful silver trumpet which will be given to the engine Company receiving the most votes at the fair.

A daily evening newspaper will be issued during the continuance of the Fair, under the direction of the Committee of Arrangements. Maj. D. J. Vaughan will receive advertising for this sheet.

NOW FOR SLEIGHING.—The deep snow of Monday night has brought out all the Sleighs which can be made to do service, and has awakened those not supplied to the necessities of the season. Messrs. G. B. & S. W. Came the enterprising manufacturers of carriages and sleighs, on Hanover street, have a fine stock of sleighs now on hand all ready for the road which they offer at very moderate prices, and they are prepared to build to order, or repair old sleighs on short notice. Their new building on High street, the lower floor of which is to be used as a sales room, and the other two stories for different branches of their business, is nearly completed, and when finished these energetic young men will have one of the most complete and extensive manufactories in the State.

BOSTON TRANSCRIPT.—From our earliest recollection the Boston Transcript has been prominent in our eyes for the beauty of its general appearance and for the interesting character of its contents. Before the days of the telegraph it was prompt and reliable in all matters of news; and in its literary and miscellaneous departments in occupied a position which was claimed by no other paper in New England. Now, with the electric wires radiating from the "hub" to every part of our country, the Transcript still retains its reputation for enterprise and reliability in its news departments, and the interest imparted to its miscellaneous departments by the many talented writers who contribute to its columns, never was greater. A daily and weekly edition are published, and are, as always, finely printed sheets.

Swine—Store Pigs, wholesale 11 @ 12c ℔ lb; retail 11 @ 14c ℔ lb. Fat Hogs—4500 at market; prices 11 @ 12c ℔ lb.

SAVE YOUR DOCTOR'S BILLS.—When Dr. Wistar's Balsam of Wild Cherry will CURE coughs, colds, bleeding at the lungs, and arrest the fell destroyer, Consumption, it does more than most physicians can do. The use of a single bottle costing one dollar, will satisfy the incredulous that they need look no further for the required aid.

NEW ADVERTISEMENTS.

PROCLAMATION.

AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend

J. F. SHORES JR.,

has a larger assortment than usual (and that is saying a good deal) of articles for

Christmas and New Year's Presents.

I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.

Therefore I would give a word of advice to one and all. Before you make your purchases for the

HOLIDAYS,

Be sure and drop in at

No. 1 CONGRESS BLOCK.

Given under my hand and seal at my council chamber, which is here, there and everywhere, this Thirteenth day of December, A. D., 1869.
By advice of Council, SANTA CLAUS.
Foster Shores, Grand Sec'y.
Edward F. Wilson, Grand Scribe. (SEAL)

☞ Mr. Carroll D. Wright, Counsellor at Law, Solicitor and Advocate in Patent causes, No. 12 School Street, Boston, reports the following list of Patents, for N. H., issued from the United States Patent Office, Dec. 7, and each bearing that date;

G. E. Hoyt, Hebron, drier and stove-pipe shelf.

J. H. Lane & C. D. House, Lake Village, knitting machine needle.

Perley Putnam, Laconia, railroad car wheel and axle.

Homer H. Cummings, Enfield, water-wheel scroll chute.

Samuel Fletcher, Hollis, sawing machine.

C. M. Maflin, Alstead, sled brake.

WHO STRUCK?—The Suncook Valley Times insists that the Directors of the Cocheco Mills are the strikers, and not the poor girls, who only refuse to have their wages cut down.

☞ A friend who *has* "made his mark" is firm in the opinion that no poor man can ever rise to honest wealth and distinction without more than eight or ten hours' work in a day. Eighteen is nearer the limit of most who are termed successful.

☞ The Kingfisher House is the euphonious appellation of a transient Bayside hostelrie at Newington, during the winter fishing season.

—Why is a dog's tail a great novelty? Because it was never seen before.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dlm.

Dr. Hopkins' Iron Tonic,

A BLOOD PURIFIER AND REGULATOR,

Cures Dyspepsia, Loss of Appetite, Liver Complaint, Sick Headache, Depression of Spirits, Neuralgia, Nervous Affections, Disease of the Skin, Consumptive Tendencies, Chronic Diarrhea, and Diseases peculiar to Females.

MANUFACTURED BY

HOPKINS & CO.,

Proprietors of the Celebrated CATARRE TROCHES and the ELECTRIC HAIR RESTORER,

188 MAIN STREET, CHARLESTOWN, MASS.

For sale by all Druggists. ja18

DAVID RODRICK, Hair Dresser, Congress St., Agent in Portsmouth for the sale of Hopkins' Electric Hair Restorative.

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of the enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where physicians can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

Holloway's Ointment and Pills.—

PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the disease and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around the world are its praises told;
It will Cholera cure—scourge of southern climes,
No victim dies, who takes it betimes.

Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*You'll be used again;*
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

SPECIAL NOTICES,

Preparatory Medication.

The human system, the most delicate and sensitive of all created things, should be duly prepared to meet the shock occasioned by a sudden change in the temperature of the air. Even the solid metals contract and expand under cold and heat—so that if man were composed of iron, instead of frail tissues and fibres, circulating fluids and brittle osseous matter, his frame would not be proof against the vicissitudes of climate. As it is, it behooves every one, especially the feeble, to fortify the frail tenement of mortality against the inclemency of the present season. A wholesome strength-supplying vegetable tonic and alterative is the preparatory medicine required, and among medicinal agents of this character, HOSTETTER'S STOMACH BITTERS *stand supreme.* In a successful career of nearly a quarter of a century, the preparation has never been equalled or approached, and its sales are now larger than those of any half dozen articles, purporting to belong to the same class, that has ever been advertised in this country. As a remedy and preventive of DYSPEPSIA, and all its complications, it may be said to have *lived down competition* and to be the standard specific of the Western Hemisphere. A course of the genial restorative at the commencement of Winter is the surest safeguard against all the complaints which are caused, or aggravated by exposure to cold. d3

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known throughout every section its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH AND WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

FORT BRAYWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the old school, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that has appeared for the present. It combines two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and delivered in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **One thousand** of these Lozenges were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

Wholesale agent, John F. HENRY, No. 8 College Place, New York City.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no quack-nostrum; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its palmoantiseptic properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS COMPOUNDS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison.* They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Christadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." ORISTADORO'S HAIR PRESERVATIVE, as a dressing, acts like a charm on the Hair after Dyeing. Try it. lmd&wo4

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including many new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with, still this book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

THE INDIAN DOCTOR HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,

THE NARRAGANSETT

INDIAN PHYSICIAN!

Has taken Rooms

At the Franklin House, Portsmouth,

Where he will remain

Until December 28th.

He treats successfully all curable diseases to which the human system is subject.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let money fail you, for he treats diseases that afflict both sexes.

Also DR. CONGDON'S

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy he used upon the Fair Ground for the Lecture if applied to. Her skill in Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

NAVY YARD MATTERS.—U. S. S. Benicia steamed down to the lower harbor on Saturday, and will sail as soon as the powder is aboard.

☞ More expressive than polite—the astute remark of a person whose name is not wholly unknown to public fame while hearing Mrs. Howard Paul in her representation of Sims Reeves at the Temple, lately.

☞ Mr. John F. Smith, late Agent of the Kearsarge Cotton Mill in this city, has closed his connection with that corporation, and goes to Fall River. Mr. H. M. Thompson, son of the Treasurer, assumes the duties of Superintendent.

☞ A little boy at Newcastle, who had been in a leaky boat at the wharf,—on being asked in the geography class at school, where the Picataqua river rises and runs, replied that it rises up town, and runs into the Doctor's boat!

☞ The best sleighing in this vicinity is on Lafayette Road, where for two or three miles Messrs. Main & Winchester, with their accustomed public spirit, put on their men and teams, with roller, dug out all the drifts, covered all the bare spots, rolled down the bunches and made a regular Milldam course of it. Good for M. & W. F.

☞ If any Grocery Store in the city can make a better show in our advertising columns (or anywhere else) than Messrs. Butler & Laighton present in their catalogue on our 1st page, we should like to see them do it. Their Daniel Street store is quite an institution, and kept by two of the best fellows in town, and both brisk and fair traders withal. The name Laighton has long been one of mercantile standing in Portsmouth, and the present John reminds us of his ancestor of the same name, lately deceased, although his politics are different, and we think improved.

And hereby hangs a joke—and we are proud to acknowledge the receipt of that box of raisins from him, bet on Mayor election. They are the "finest Dehesa layers," and the best raisins we ever saw,—and recall to our memory the grape-laden chaps from Canaan, of boyhood's school-books. Mr. Butler's wager of a bbl. flour, was withdrawn before being completed, though without our knowledge at the time. He is too square a man to break any agreement, especially one of honor, like a friendly bet; in fact, he has proved himself the "king" of the Butlers. F.

☞ Schooner Ambro, Capt. Norris, from Dorchester, N. B., for New York, which arrived at Holmes' Hole on the 9th, reports at 8 o'clock Wednesday morning, 15 miles N. E. from Cape Cod, fell in with a boat and rescued from her Lars Nelson, who reported that he started from Portsmouth for the Isle of Shoals on Monday morning with Mr. Chisholm, but the wind increasing to a gale and it snowing hard, were unable to reach their destination, and were driven to sea. On Tuesday morning, Chisholm died of exposure. Nelson was rescued with difficulty, the wind blowing heavily at the time; he is quite badly frozen. The boat belonged to Chisholm and could not be saved.

Schooner Laura Bridgman, Capt. Harris, from Boston for Mobile, which arrived at Holmes' Hole on the 10th, reports that off Nausett on the morning of the 9th, picked up a boat with a dead man in her, and towed her to port. This is undoubtedly the boat previously reported by schooner Ambro, who took from her Lars Nelson, who reported his companion, Chisholm, dead. The remains were buried there, and his friends may gain particulars as to the boat and few effects by addressing Howes Norris, Associated Press Agent, Holmes' Hole, Mass.

☞ Mr. N. A. H. Ball (formerly of this city) of Gold Hill, Nevada, and one of most upright and vigorous officers in the Internal Revenue service of the Government, has resigned his place of Supervisor for Utah, Nevada and California, and Mr. R. C. Cowen of Cincinnati, appointed to the place. The Boston Transcript says Mr. Cowen must be very good to fill Mr. Ball's place.

☞ H. F. Stavey, late Paymaster's Clerk, U. S. S. "Pawnee," has been appointed an Ass't Paymaster in the Navy.

☞ Elder Moses How is said to be the only man of his name in New Bedford. The old gentleman is now visiting his son, Dr. How, in Manchester.

☞ Five men shipped at Hong Kong last May on the ship Sonora of Boston, Capt. Hutchinson. The ship went to an island to load camphor, where the men were compelled to work day and night, being fed on small quantities of bad meat, unfit for human food. They escaped there, but were captured, examined by the American consul, and then manacled and chained in the hold the rest of the voyage. Three of them were so dangerously sick on reaching Manila that they were put in the hospital there. The other two were brought to New York, and they have caused the arrest of Captain Hutchinson on charges of cruelty based on the above statement. The ship belongs to Wm. F. Weld & Co. of Boston.

The New York Observer is one of the oldest and ablest religious and family papers in this county. It disclaims being the *organ* of the reunited Presbyterian Churches, but it is, nevertheless, a *standard* Presbyterian paper, of unquestionable orthodoxy, and of unmistakable conservative tone and tendency. Being a large double sheet, its secular department, occupying one-half the room, is varied and valuable; and all events of any consequence in the political and social world, as well as the religious are carefully noted. The Observer is now publishing a series of Letters from Rev. Dr. E. D. G. Prime, who is making the tour of the World, by way of California, Japan, China, India, Egypt, &c.; together with various other correspondence, all the News, Religious and Secular, and a great variety of the best Reading, Original and Selected.

OFFICE OF FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 NASSAU STREET, NEW YORK,
November 8, 1869.
To Our Customers and Correspondents:
The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.
Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.
During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.
The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.
The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.
The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.
The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.
The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.
The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.
We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.
Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE
SIX [PER CENT. GOLD] BONDS
OF THE
WESTERN PACIFIC R. R. CO.
OF CALIFORNIA.

The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.
It is 150 miles in length, including a short branch, and it will be the
METROPOLITAN LINE
OF THE PACIFIC COAST,
connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.
It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.
The value of the property and franchises is not less than
TEN MILLIONS OF DOLLARS,
and the amount of the mortgage is
$2,800,000.
The bonds are of $1,000 each, have thirty years to run, and will be sold at
Ninety, and Accrued Interest,
in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.
The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.
The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received. Government bonds received at their full market value in exchange.
FISK & HATCH, Bankers.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&w n22

KEEP JOLLY.—The majority of mankind need no caution against overwork. Where work kills one, the want of work kills ten, the fires of passion consume twenty, sinful indulgence destroys fifty. In cases where work seems to undermine health, it is not so often that the labor is too much, as the faulty way in which it is done, the spirit in which it is performed. Labor, to be permanently endurable, must be healthy, that is, it must be adapted to the mental and physical capacities of the worker, and especially if brain labor, it must be pleasing.

It must not be allowed to trench upon sleep, to interfere with the regular and deliberate taking of food, nor prevent a proper amount of recreation and exercise.

Those who write upon this subject rarely look beyond the surface of the matter. Dyspepsia is traced to hasty meals and want of exercise, softening of the brain to excessive thinking, and so on. The why the meals are hasty, or the brain overtaxed, seems to escape notice.

The healthiest men we know are those who do not work the hardest, but do the most work. There is no paradox about this. Every business man sees among his employees examples of men who work hard yet accomplish little, others who easily accomplish much. How is this to be explained? Much is attributable to the want of system on the part of the inefficient, more to the want of the proper spirit.

Nervous irritability is the greatest weakness of American character. It is the sharp grit which aggravates friction and cuts out the bearings of the entire human machine. Nine out of every ten men we meet are in a chronic state of annoyance. The least untoward thing sets them in a state of ferment. Impatience is the poison that heats the blood and ruins stomachs, more than excess of pepper and mustard.

The machinist, when he finds his machinery squeaking, supplies the oil; if the bearings have become so hot as to endanger the works, he stops and allows them to cool. The human machine should be treated in like manner. It should be kept well oiled and cool.

What is the oil that will stop the squeaking—the lubricator that will keep the machinery from heating? Dickens has given us the formula in the words of his inimitable Mark Tapley. "Keep jolly." Good humor is what will keep digestion perfect and the brain from softening, while it will, at the same time, keep the heart from hardening. *Scientific Am.*

OF LIBEL SUITS against newspapers, the New York Tribune remarks:

When the plaintiff starts to recover $10,000 in a libel suit against a newspaper, and the jury give him $250, it is easy to perceive that his feelings must be more numerous than satisfactory; and yet, in nine such cases out of ten, the lesser sum is a great deal more than he is equitably entitled to, upon a fair estimate of any real loss suffered by him through the publication.

Perhaps the Baltimore American, just cast in $250 for a libel, would always be willing to pay that sum for the sake of exposing and denouncing a flagrant wrong; we know that in some cases, requiring sharp correction, we should consider such expenditure upon our own part extremely moderate. At the same time, an injury to character, which can be atoned for by the payment of $250, is really no injury at all; and the only result of such a finding may be to saddle any innocent defendant with costs.

ROOTS FLAVORING MILK.—In regard to the use of turnips, we have fed them to cows for several years, as also cabbages, and made butter all the while, and will challenge the most fastidious to detect any flavor of them in the butter. Such food, fed to cows in moderate quantities just before or immediately after milking, imparts no unpleasant flavor to the milk or butter. It is in overfeeding, and at unreasonable hours, that causes the trouble.

We consider cabbages one of the very best kinds of green food for cows. We allow the milk to stand forty-eight hours, and find no ill effect from the milk becoming thick.—*Am. Stock Jour.*

OLD COWS.—I consider a cow in her prime (all things considered) from five to ten years old. Some cows hold out much better than others, as with men and horses; and are really as young to all intents and purposes at twelve years, as others are at nine or ten. Never keep a cow through the winter after she gets to going down hill, or kill a superior cow on account of her age, if her teeth are good, and she is all right, without any signs of deterioration. Cows should be milked regularly, and by steady milkers.—*Am. Stock Journal.*

TO PREVENT HALTER-BREAKING.—Procure a small, hard, strong cord, from eight to ten feet long; put the harness on the horse, buckle the girth tight; make a slipping-noose on one end of the cord and put it around the horse's tail, close to the body; slip the other end through the territ and bitring, and hitch the horse to a post, and leave him to himself. Two or three lessons will cure any horse.

—A clergyman at Chicago, at the bed of a sick man, said to him: "Have you made your peace with God?" to which the sick man innocently replied, "I don't know that I ever had any difficulty with him."

Miss —— was of a large party, when a gentleman of the name of Homer suddenly withdrew himself from the company. Homer's odd, i-see, said one of the company. Upon which Miss —— replied: "Homer's ill I-add."

BOOTS.—The Lewiston Journal says a certain lawyer of that city went into a shoe store some time since and inquired for a pair of boots. Joocosely the dealer handed out a pair of odd ones, one boot being a size larger than its mate. The lawyer tried on the smallest one, found it fitted well, and said he "guessed he would take them." "Perhaps you'd better try the other one on," said the shoe man. The legal gentleman tried on the other boot, and after getting up and tramping about, remarked, "Why, I never noticed that one of my feet was larger than the other before, but sure, it looks like it, don't it?"

The shoe dealer conned the feet, and certainly it seemed to him that one foot had the advantage of the other. Not suspecting that one boot could be larger than the other, the lawyer paid for the pair and walked off, sorrowfully looking at his supposed deformity. A month or two afterwards the joke was explained, and the legal party hasn't been seen with those boots on his feet since. Perhaps the mean boot shall be on the other leg some day.

SOAKING CORN FOR HORSES.—A correspondent of the Prairie Farmer writes as follows:—

One of the best farmers that I know saves one-third of his corn by soaking it before he feeds it to his horses. His plan is this: he places two hogsheads in his barn cellar, secure from the frost, fills them with ears of corn, and pours in water until they are covered. When well soaked he feeds out of one to his horses, and by the time this is exhausted the corn in the other hogshead is well soaked. The cobs become so soft that the horses eat them with as good a relish as they do the corn, and they require only about two-thirds as much corn as when fed without soaking. There is no doubt that the cob eaten with the corn renders the diet more wholesome. A certain amount of coarse feed is necessary to the health of animals.

—The Tribune says that a good farmer wears thick boots and has a thick wallet; his buttons are horn, but his word is gold; his bills are short, his horses fat and his fences strong. He does not chaffer with the tax assessors, nor send away a hungry man. When he travels, he finds his credit has run before him.

New Hampshire Items.

The ladies of Milford, instigated by Dr. Dio Lewis, are going into the saloon-visiting business, with what luck remains to be seen.

Col. A. H. Bellows, of Walpole, recently forwarded three bushels of sugar maple seeds to the member of Congress from Nebraska, residing in Omaha. Every good seed will produce a thrifty tree in that almost treeless State. Maple sugar will be plenty out West by and bye. Nebraska, with New England men and trees from New Hampshire, is destined to be a prosperous State.

Manchester will shortly vote on the question of having pure water introduced into the city from the Massabesic pond. Dr. Lyman B. How of that city has by request of the city authorities, furnished an elaborate and exhaustive medical opinion as to the need of pure water, and the purity of this supply.

In the case of Barter & Co. *vs.* Wheeler and others, Trustees Northern N. Y. Railroad, Judge Bellows delivered a lengthy opinion, on the 9th, stating that the opinion of Judge Perley in the lower Court was correct in all points and ordering judgement for the plaintiff, Barter. The leading point made by Judge B. was that where several railways had a mutual arrangement for the division of fares and freights, and where each sold tickets and freighted through, the person with whom the contract was made could recover damages of any link in the chain of carriers, for loss occuring on that link, or could sue the carrier with whom the contract was made, at his election.

At a special meeting of the stockholders of the Great Falls Manufacturing Co., it was voted to increase their capital stock $750,000 in $100 shares, the old stockholders to have the preference in subscription. On the authority of their recently elected Treasurer, Mr. Freland of Boston, it was stated that the present stock of goods, cotton and money on hand, would reduce their debt to less than $200,000, and the mill if disposed of to-day would realize its par value per share of $200 to each stockholder. They dined at the Great Falls Hotel with a splendid bill of fare, although minus liquors and cigars, the Dover Gazette says much to the grief of many of the owners.

The first power looms which were put into operation in New Hampshire, were built in 1821, at Mason village.

Josiah Burley, while assisting to shackle cars at Dover, last Saturday, had three fingers on his right hand badly crushed.

A citizen of Walpole planted the past season eight acres of land with tobacco, and the yield was highly satisfactory.

Dublin, at a recent meeting, voted not to aid the Manchester and Keene Railroad, by a vote of 124 yeas to 82 nays.

The first train went over the Suncook Valley road on Monday, having on board the President and Superintendent of the Concord Road and several passengers.

Captain Reuben D. Moore of Concord, died on Wednesday last, aged 60 years. He was divorced from his wife by a decree of the court a few hours previous to his death.

BEST CABINET ORGANS,

AT LOWEST PRICES That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of the professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilties for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $60. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.

Circulars with full particulars, including accurate drawings of the different styles of organs, and much of information which will be useful to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

SOLD BY ALL DRUGGISTS.

DODD'S NERVINE ONCE MORE.

THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Billious Pill of the American Pharmacopœia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operations; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obstacle. For sale by all Druggists. Price $1. d218w

TUESDAY, DEC. 14, 1869.

THE TENURE-OF-OFFICE BILL.—President Grant urgently recommends, in his message to Congress, the repeal of the Tenure-of office bill, which was passed during the latter part of Andrew Johnson's administration. It is stated that the passage of the bill for its repeal by the House of Representatives is only a question of time, while its fate is doubtful in the Senate. President Grant's recommendations should receive due consideration—greater consideration, perhaps, than would be the case were he not the greatest general of the war which brought us peace. Aside from personal reasons, however, there are grave objections to the repeal of the law.

President Grant is fully in sympathy with the Republican party and its principles. The fact is not doubted; the action of the Executive during the first year of his administration is abundant proof. But President Grant will not be always our chief Executive. A few years hence will bring another occupant to the Presidential chair; who it may be, can only be a matter of conjecture. The experience of the past should be a warning for the future. We had for President during the rebellion, Abraham Lincoln, trusted, tried and true. In no way did he betray the cause he was chosen to lead, and just previous to his assassination the country had as much confidence in looking for peace and tranquility as at this time. Yet it came to pass that another season of turmoil and confusion should keep the nation from its repose and expected security.

All this came from one man's obstinacy, and had not the fetters of the law been strengthened by the passage in Congress of the much needed Tenure-of-Office bill, Gen. Grant might not have been President to-day. We are again in a state of quietude which is a reaction from past excitement. The people have confidence in their soldier President, but they should not allow the opportunity for a recurrence of that state of affairs which paralyzed business and imperiled the nation during two years of Andrew Johnson's administration.

One of the chief dangers to the freedom of the nation is the one-man power. No human being, occupying the most exalted station even, should be clothed with unlimited power. The dangers of the future are unknown. We have not now a President who needs checking; who can say the same three years from now? Abraham Lincoln was succeeded by Andrew Johnson; Ulysses S. Grant may be succeeded by as bad a man. The Tenure-of-Office bill had but a trifling power for good against a bold, ambitious man, two years ago, in comparison with its probable influence after a decade. Once repealed, it can never be replaced on the statute books without a fierce struggle, for which an imbecile or wicked Executive may furnish the pretext. As the country grows in wealth and population, the President's power is immensely increased. Let it not be increased unduly, that at any time in the future an Executive may use it to advance his own interests contrary to the interests of the country — even though it be recommended by the President whom the people delight to honor.

CONGRESS.—In the House, Saturday, Mr. Ingersoll's bill authorizing an additional issue of legal tender notes to the amount of $44,000,000, was referred to the committee on banking and currency, by a vote of 88 to 57. This committee is said to be opposed to the measure.

A bill is soon to be reported to the House providing for the creation of a new department, to be called the Department of Home Affairs. The plan is to give it the control of the Indians, the freedmen, education, agriculture and supervision of immigration.

On Monday, the House passed a resolution, 128 to 42 against the renewal of the reciprocity treaty with Canada. Also a resolution appointing a committee to investigate the recent gold gambling panic in New York.

REPUBLICAN VS. DEMOCRATIC FINANCIERING. — Portsmouth's Republican "spendthrift clique" reduced the city debt $15,000 the present year, while Newburyport's Democratic economists increased that city's debt $20,000 in the same time. Portsmouth has endorsed its Republican city government by nearly 400 majority, while Newburyport has repudiated its Democratic economists by 300 majority.

SUNCOOK VALLEY RAILROAD.—The formal opening of the Suncook Valley Railroad, extending from Suncook Valley on the line of the Concord Railroad, to Pittsfield, 17 miles, was celebrated on Saturday. An especial train left Manchester at 10:20 A. M., with the officers of the road, city officials and other invited guests, and after a short ride many of the passengers saw Pittsfield for the first time;—while bells pealed, cannon boomed, and a large concourse of people cheered.

The Company were welcomed by Hon. R. J. Tenney, to which Saml. N. Bell, Esq., President of the Road, replied; and L. W. Clark, Esq., of Manchester, a former resident of Pittsfield, also eloquently spoke. The Company were then escorted, to the music of the Pittsfield Cornet Band, to Academy Hall, where the ladies had spread a bountiful collation; and where B. Emery, Esq., of Pittsfield, Mayor I. W. Smith of Manchester, and others, made speeches.

Afterwards the company were taken to the Baptist church. Here Dr. Tenney presided, assisted by the energetic John Berry, well known to our Portsmouth merchants in times past. Mr. Bell here gave a sketch of the inception and completion of the Road, and was followed by Senator Clark, Natt Head, John B. Clarke, (who knew the County in his 'coon hunts,) William H. Hackett of Portsmouth, President Chandler of Manchester Common Council, Messrs. Kidder of Manchester, J. T. Coffin of Gilmanton and others. The speeches were well up to the occasion, and the people of Pittsfield seemed to have turned over a new leaf,—and are now on an equality with the rest of the world in railroad accommodations.

The train left at 3 o'clock, and the first trip from Portsmouth to Pittsfield and back in a day and without delay, by rail, was made on this occasion.

THE NEWBURYPORT BRIDGE CASE.—The Newburyport Herald says the Supreme Court has decided the bridge case against that city and the town of Salisbury. The particulars in the case are thus stated:—

"The original decision of the commissioners was that Newburyport should rebuild three quarters of the bridge on this side of the river, and keep the same in repair forever, and that Salisbury should do the same for the other quarter upon the north bank of the river. Nothing was done with the two miles of turnpike in Salisbury, which includes two or three small bridges; but it is supposed that Salisbury must take care of that. This decision will involve an expenditure at the outset to Newburyport of some thirty thousand dollars, with an annual expense for interest, repairs, draw-tenders, lights, &c., of five thousand dollars, which is nearly two-thirds of the entire annual expenses on all the highways and bridges before belonging to the city.

Then the decision of the commissioners on the Essex Merrimack Bridge, which put one-half the damages, half the repairs, and half the future costs, on Newburyport, will require an outlay of $16,000 to begin with, and an annual expense of more than 2000 dollars a year. The total imposed upon this city by the commissioners for the two bridges was between forty and fifty thousand, to be paid at once, with an annual expense of $7000, which will double our highway taxes. It is not surprising that such a fearful imposition should have been resisted.

The grounds of resistance were—1st, that no part of the burden had been imposed upon the county; and 2d, that the apportionment of the maintenance was contrary to the provisions of the statute."

THE HOWARD BENEVOLENT SOCIETY.

At the annual meeting of this Society the following officers were chosen for the ensuing year:—

Ichabod Goodwin, *President*; Lewis W. Brewster, *Secretary*; John Stavers, *Treasurer*. *Directors.*—Horton D. Walker, William Day, Benj. Cheever, Samuel S. Green, John W. Fernald, Benj. Carter, Joseph D. Pillow, Joseph M. Edmonds, Wm. Bodge, Rev. N. Medbury, John H. Broughton, Lyman D. Spalding.

The Committees are assigned as follows:—

December.—Goodwin, Day, Medbury.

January.—Bodge, Green, Cheever.

February.—Walker, Stavers, Carter.

March.—Fernald, Broughton, Spalding.

April to Dec.—Pillow, Edmonds, Brewster.

There are few associations in this city that are doing the amount of good that this society, in an unpretending manner, is accomplishing in relieving the wants of the destitute. It has scarcely any expenses to draw upon the amounts contributed by its friends. All goes directly to the accomplishment of its ends. Many have been relieved during the past year; and all the money that may be contributed will be readily and carefully disposed of. The winter promises to be a hard one for many of our worthy poorer citizens, and there is no better medium through which to contribute to their needs.

The opening of the Suncook Valley Railroad to Pittsfield gives direct communication between that old town and Portsmouth, Many of the shares of the Pittsfield Manufactory Co. are held in this city.

THE FAIR.—Contributions of fancy articles or refreshments are respectfully solicited by the Committee, and may be left at No. 41 State Street.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ a healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dtm.

In Remote Settlements of Untod Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of eminent physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their unitod value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box. Sold by all Druggists.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

Holloway's Ointment and Pills.—PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe stypdic in the bleeding type of the disorder. Not frequently constipation is an accompaniment of the diseases and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around the world are its praises told;
It will Cholera cure—scourge of southern climes,
No victim dies, who it continues.
Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*'twill be used again;*
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

SPECIAL NOTICES,

Preparatory Medication.

The human system, the most delicate and sensitive of all created things, should be duly prepared to meet the shock occasioned by a sudden change in the temperature of the air. Even the solid metals contract and expand under cold and heat—so that if man were composed of iron, instead of frail tissues and fibres, circulating fluids and brittle osseous matter, his frame would not be proof against the vicissitudes of climate. As it is, it behooves every one, especially the feeble, to fortify the frail tenement of mortality against the inclemency of the present season. A wholesome strength-supplying vegetable tonic and alterative is the preparatory medicine required, and among medicinal agents of this character, HOSTETTER'S STOMACH BITTERS *stand supreme.* In a successful career of nearly a quarter of a century, the preparation has never been equalled or approached, and its sales are now larger than those of any half dozen anti-bilious purporting to belong to the same class, that has ever been advertised in this country. As a remedy and preventive of DYSPEPSIA, and all its complications, it may be said to have *lived down competition* and to be the standard specific of the Western Hemisphere. A course of this invigorant and alterative at the commencement of Winter is the surest safeguard against all the complaints which are caused or aggravated by exposure to cold. d9

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and large demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two medicinal substances, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **one thousand experiments** were made by the inventor of this remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among patented preparations or the prescriptions of the regular pharmacopoia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its merit and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its painourative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

DR. L. CONGDON,

THE NARRAGANSETT

INDIAN PHYSICIAN!

Has taken Rooms

At the Franklin House, Portsmouth,

Where he will remain

Until December 28th.

He treats successfully all curable diseases to which the human system is subject.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been crowded with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fail you, for he treats diseases that affect both sexes.

Also DR. CONGDON'S

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy he used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

☞ Snow balls fly.

☞ Busy—the Grand Army and their friends.

☞ Nearly through a Sea of Troubles—the Thespians.

☞ Going to the pic-nic at the Temple to-morrow evening?

☞ The colored people of this city are talking of having a Ball of their own.

☞ All who attended the G. A. R. Fair last year, will need no urging to attend the coming one.

☞ It will be nothing more than fair to expect, that all will aid the Fair which opens to-morrow night, all in their power. Not to do so, would be unfair.

THE TWO-FOLD MEMORIAL.—The sermon of Rev. James DeNormandie, delivered on Memorial Day, May 30, 1869, has been published in pamphlet form by Storer Encampment, G. A. R., and will be for sale at the Fair.

☞ We are desired to state that Ald. Pender voted against the Fleet Street widening, with Ald. Slater, and not for it, as our report had it. Ald. Clark did not vote on this occasion, but is well known to favor this great improvement,—while he opposes the "Mystic" Street project, which the other two Aldermen referred to, go in for.

☞ "Which will be the best evening to attend the Fair?" we have heard asked quite frequently, and from what we hear of the entertainments in preparation we can but answer, "Go every evening." Neither evening will be the "best," and it's only 25 cents for a single admission. Go every evening and take your family with you. You thereby get a sufficiency of fun and contribute to a most worthy object.

THE 19TH ANNUAL REPORT of the City Mission was read at the Unitarian Church Sunday eve'g, by the faithful untiring Missionary, who has so many years dispensed the necessaries of life to the suffering poor of our city. We publish the document entire. Remarks were made by Rev. Rufus W. Clark, Jr., Rev. W. H. Alden, Hon. Wm. Simes and Hon. E. A. Stevens. The attendance was not large, on account of the rain.

☞ George W. Haven, Esq., will deliver the second Lecture of the Course before the Mercantile Library Association, to-morrow evening, commencing at quarter before eight o'clock. The subject of the Lecture is "The Law of Labor and Capital," one of the most important questions of the day, and one that is receiving the careful consideration of scholars, statesmen and philanthropists throughout the whole enlightened world, and must soon become an issue in the political life of our country.

THE GRAND ARMY FAIR commences to-morrow evening, and the Committee have selected a very entertaining list of oddities to be interspersed between the farces which commence and close the evening's entertainment. It has been decided to commence at 7 1-2 o'clock, (instead of 9 o'clock, which was the case last year,) as the performances are more numerous than those offered last year. The charity fund of Storer Encampment has been greatly reduced the past year, and we trust that our citizens will again patronize the soldier boys, as liberally as they did last year.

NAVY YARD MATTERS.—Eleven laborers in the Department of Yards & Docks, who refused to work with other laborers in the Equipment Department because their daily pay was 25 cents less than their co-laborers, were discharged on Monday by order of the Executive Officer of the Yard.

U. S. S. Benicia sailed for New York from the lower harbor, Monday afternoon.

The iron steamer Centipede arrived on Monday with 500 tons of coal for Yard.

The following is a list of the officers of the "Pawnee";

S. Nicholson, Commander; W. S. Schley, Lieutenant Commander; S. H. Baker, Lieutenant Commander; Geo. M. Book, Lieutenant; Seaton Schroder, Ensign; T. C. McLean, Ensign; Theodore T. Cushman, Gunner; Geo. T. Lozier, Sailmaker; W. H. Richards, Acting Carpenter; Wm. H. Dennett, Jr., Captain's Clerk.

☞ The C. B. B. Club give an Assembly at Congress Hall this evening, under the management of the lady members,—the music to be furnished by Cushing's Band. The lady who is adjudged to be the best fancy-dancer, by a chosen committee, will be presented with a very handsome silver medal, on this occasion.

☞ The storm of Monday week was very severe at the Shoals, and the two boats which left this city, (before mentioned,) had a very rough passage, resulting in loss of life to one of the four men. These brave, almost reckless fellows, with their heavily loaded boats, fully expected a tough voyage; for on Rev. Mr. Barber, of Gosport, applying to Mr. Chisholm, (the since deceased man,) for passage out, he frankly told Mr. B. of the *hard chance*—the danger before them, and kindly advised him not to peril his life with them. He thinks it probable no men ever crossed these waters in so hard a storm before. Mr. Newton's boat, a new and staunch one, which barely made out to land,—was badly scarred and strained.

From the Portsmouth Journal.

THE SHIP "GRANITE STATE."—One of the most successful ventures of our Portsmouth merchants was the building of this vessel of 956 tons, under direction of Master Samuel Badger, in 1853; and one of the most agreeable of ship owners' meetings was held at the Rockingham House last Tuesday evening by the late proprietors of the "Granite State." After an almost unprecedented series of fortunate voyages from the first she left Callao under Capt. Gardner a few months since with freight, but when a week out sprang aleak and put back in a damaged condition. Her insurance policy was cancelled by the underwriters and she was with her usual good luck sold at but little less than half her first cost. In acknowledgement of his able management on closing up her affairs the owners made a handsome testimonial to Hon. H. D. Walker who has been her agent from the first; and the meeting above referred to was mainly for a social sit-down at Mr. Hadley's well filled table; supper being given by Mr. Walker as a expression of thanks for the good willof the owners of the vessel. Very felicitous remarks in response to the statement of the Agent of the vessel were made by Messrs. James P. Bartlett, William H. Hackett, William Simes, Rev. Wm. H. Alden, (a guest) Leonard Cotton and others. From Mr. Walker's account we make an extract giving some history of the vessel, and making an allusion which was heartily responded to by all present, to the high esteem in which our late fellow citizen Capt. Nathaniel G. Weeks was held by those who employed him.

The Granite State was registered Jan. 7, 1854, and took a cargo for a cotton port on the 12th, under command of Capt. Samuel Billings. Since that time she has been constantly employed, and probably no ship has in the same length of time carried heavier cargoes, nor done a larger amount of work. In October, 1855, Capt. Billings sold his interest to Capt. N. G. Weeks, who then took command of her, making his first voyage to Calcutta. He continued until 1861, when he gave up his charge to B. F. Jacobs, who had sailed with him all the time, 5 yrs. 4 mos., in which he was in command. Capt. Jacobs commanded the ship until the summer of 1867. He then took the new ship Merrimac, and Capt. Weeks the Granite State again. Capt. Weeks sailed from New York to San Francisco, and thence to Dublin, Ireland, but on account of ill health gave up his command to Capt. Samuel G. Gardner of this city, his first officer during the voyage. At the time of his discharge of cargo at Dublin, Capt. Weeks had been engaged in ships thirty years—1 year 4 mos. before the mast; 2 years 6 mos. 2d mate; 3 years first officer; and 25 years, 4 mos. 11 days as master of ships Marion, Mary & Susan, Huron, Goodwin, Panther, Annie Sise, Fleetford, and Granite State; thus showing his industry, his perseverance and his devotion to his calling. During the period of thirty years he had sailed 569,300 miles, had crossed the Atlantic 53 and the Equator 46 times, and had been under pay as master 25 years, 4 mos. 11 days. Few men have a better record—few ship masters, for intelligence, industry, capability and integrity, have been his equals. The company at the table was twenty persons; owners and invited guests; and all the shares were represented excepting those of Thomas D. Bailey who is in New York, and Master Samuel Badger, Capt. N. G. Weeks and Jona. Barker, who of all the original owners are the only ones deceased. Capt. Gardner, who was in command at the time of the damage and sale of the ship received high commendation for his part in the disposition of the vessel. The Granite State now maintains the character of Piscataqua built ships by being run up and down the Pacific coast by her new owners.

Few ship's companies close their business under more favorable circumstances.

OFFICE OF FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 NASSAU STREET, NEW YORK,
November 8, 1869.

To Our Customers and Correspondents:

The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.

Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.

During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.

The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.

The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may safely flow.

The enterprises of Peace, no less needful in these times and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.

The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.

The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.

The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.

We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.

Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE

SIX PER CENT. GOLD BONDS

OF THE

WESTERN PACIFIC R. R. CO.

OF CALIFORNIA.

The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.

It is 150 miles in length, including a short branch, and it will be the

METROPOLITAN LINE

OF THE PACIFIC COAST,

connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.

It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.

The value of the property and franchises is not less than

TEN MILLIONS OF DOLLARS,

and the amount of the mortgage is

$2,800,000.

The bonds are of $1,000 each, have thirty years to run, and will be sold at

Ninety, and Accrued Interest,

in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.

The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.

The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.

Government bonds received at their full market value in exchange.

FISK & HATCH, Bankers.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

PORTSMOUTH CITY MISSION.

ANNUAL REPORT.

When two years and a half ago—in consequence of a sad and painful Providence—we retired from our position here, we had not then the most distant thought that we should ever again resume the cares and responsibilities of this mission. But "it is not in man that walketh to direct his steps." Our course is guided and controlled by an all-wise and overruling Providence.

We had hoped that our successor, whom we rejoiced to see occupying this position, would for many years to come have devoted his talents and energies to this work, giving increased vigor, and usefulness to every department of this mission. But when he retired to occupy another important field of labor, some one must fill the vacancy—and when we were invited by the Board of Directors, to resume again these duties, it was with no small degree of anxiety and misgiving that we accepted the position. We knew full well the corroding care, and the unceasing toil connected with the faithful discharge of the duties of a city missionary.

But it has ever appeared to us that in no way could we more literally imitate the example of Jesus, than in the performance of the duties involved in a mission like this. The Apostle has drawn the character of our Savior in a single line—"He went about doing good," and many of his works of love and mercy were done among the sons and daughters of want and affliction. And having prayerfully submitted the subject to the direction of Him who "worketh all things according to the counsels of His own will," we accepted the appointment and entered upon our labors the first of January last.

The active duties of the mission had been suspended, and this fact in connection with the season of the year, brought upon us for a time an unusual amount of care and labor.

In giving a report of our labors for the year, we shall do it in as few words as possible.

Were it expedient or desirable we might fill a volume with the minute details of our work. But all that we shall attempt is to give a brief outline of the most important items connected with our duties for the last year.

During the winter our office hours were fully occupied in investigating the cases and arranging to supply the wants of the numerous applicants who thronged our office from day to day. If we had not always the means at hand to supply the necessities of the needy and deserving who applied, we arranged to do it through the agency of some other benevolent organization who were ever ready to respond to our appeal.

Our office has been opened and we have spent our regular office hours there from ten to twelve, A. M., every secular day in the year with the exception of five or six when we were absent from the city.

There have been but very few days in the year that we have not received more or less calls. During the winter and early part of the spring, those calls were very numerous, and since the commencement of the cold weather they have become equally so again. A majority of these calls have been for the purpose of pecuniary aid. But many have called to relate some sad tale of domestic trouble and to seek advice in adjusting their difficulties; while others have come to seek sympathy and counsel in bereavement and sorrow.

We have visited many of these people at their homes and rendered such assistance and advice as we have deemed adapted to their condition. Many of the aged and infirm whom in former years we were accustomed to visit, have passed away from earth. But others still remain, to whom it has been our privilege to present the hopes and promises of the Gospel. It has been estimated that there are several thousand of our population who have no connection with any of our religious organizations. And most of the moral and religious influence brought to bear upon this class of our people comes to them through the agency of this mission.

Many of these families have been visited, counseled and prayed with by your missionary, and these visits have been uniformly received with the utmost kindness, and in many instances with expressions of heart-felt gratitude and thankfulness. We have gone to them not as the agent of any one sect or party, but as the representative of a whole christian community. And this fact has given us access to many hearts, which under no other circumstances could have been reached.

We are satisfied from many years of experience, that visiting from house to house is the most effectual way of reaching and benefiting that class of our community. Some part of nearly every day has been spent in this work of visiting. It is impossible however for one individual to call personally upon all the families whom the mission seeks to benefit; we have therefore been obliged to select from the mass and visit those families where we believed our visits would be the best appreciated, and where we could hope to accomplish the most good. We have given to this work of visiting what time we could consistently spare from other and important duties connected with the mission. And though we have kept no minute account of the number of visits made, we think they will not differ materially from the number made in former years.

Our calls from transient people have rather increased than diminished. No week passes by without more or less calls for assistance from this class of individuals, many of whom seem to be mere citizens of the world, with no particular place of abode, and no useful occupations, their only object in passing from city to city, and from state to state is, simply, to live upon the charity of those whose sympathies they may enlist and whose benevolence they abuse. There are some of this class however, that are truly objects of charity, whom misfortune hath reduced to poverty—but it is hard to distinguish between the false and the true. Wherever we have satisfied ourselves that they were worthy of our assistance, we have done what we could to aid them in reaching their home and friends.

In pursuing our work, we have visited the almshouse as often as our other duties would enable us to do so. During the milder part of the season we occasionally held religious meetings upon the Sabbath in the chapel there, until a majority of the inmates left for their new home in the County Alms House. Since the numbers have been thus reduced we have in our visits passed from room to room conversing and praying with the remaining inmates, many of whom are quite aged and infirm.

We have occasionally visited the jails, conversed freely and religiously with the prisoners, and left them such tracts and papers as we hoped might be made useful to them in their hours of seclusion and loneliness.

We have also interested ourselves in the welfare of seamen who have visited our port. We boarded the U. S. S. Pawnee and conversed extensively with the crew before they were discharged, warning them to avoid those places of dissipation and danger to which they would be exposed, and where they would be likely to be robbed of their hard earned wages. We exerted our influence to enable them to procure suitable boarding places while they were waiting to receive their payment and discharge.

We have supplied one merchant ship, and one U. S. war ship, with Bibles and Testaments furnished us by the N. H. Bible Society. In this department of our labor we have found ready and efficient helpers in the Young People's Christian Association, connected with the North Parish in this city. This association from their organization have made the welfare of seamen a prominent feature in their efforts to do good. They have maintained upon the Sabbath a religious service on board the receiving ship Vandalia stationed in our harbor. They have also visited the merchant vessels which have entered our port, and distributed Bibles, Testaments, tracts and religious papers among their crews. They are exerting a most excellent moral and religious influence in our community.

We have not as yet been able to reorganize the Mission Sabbath School, but it is hoped that ere long, if suitable teachers can be procured who are willing to devote themselves to this work, that the school may again be put in successful operation. We have used our influence however to induce parents to send their children to the schools connected with the different churches in the city.

As formerly, our city is afflicted with the evils of intemperance, and the kindred vices which ever attend it. I need not picture again to your imagination the truth which you so well know of the wretchedness and misery caused by those whose business it is to furnish the means of intoxication to the wretched victims of this terrible sin. Or need I again remind you of the worse than widowed mothers and orphan children of those who by their labor and kind attention might, but for the curse of intoxicating liquors, make their homes happy and help to bring up their children as useful members of society. In all my experience in my present field of labor, I have ever found that a vast amount of the poverty and suffering among us might in some way be traced to intemperance.

We are glad to learn that through the agency of our city police some of the houses of disrepute which have too long disgraced our city have been broken up and for a time, at least, suppressed; still there remains an alarming number of those places of resort where too many have made ship wreck of moral character, and where our youth are in danger of being allured from the path of virtue. Many cases have come under our personal observation of those who were once virtuous and lovely, but who in an evil hour yielded to temptation, lost their self-respect, and abandoned themselves to a life of infamy and shame.

We have ever exerted our influence in trying to reclaim such as have appealed to us for sympathy and advice; and we trust within the past year our efforts in several instances have been crowned with success. Here let me say to parents that they cannot be too careful in guarding their children against every influence that can possibly lead to this vortex of moral ruin.

It affords us the utmost pleasure to again acknowledge the hearty co-operation we have received from the Howard Benevolent, and Ladies' Humane Societies, and also from the several branches of our city government.

We wish to express our thanks to all who have contributed in any way for the benefit of the mission. And our friends would still aid us very materially in our work by sending to our office second hand garments and cast off clothing of any kind, as we have constant and pressing calls for all such articles. The following are our statistics for the past year:

Cash Account. Received from churches and individuals for the benefit of the poor $322.12. Expended for the benefit of the poor:

For groceries and food	$95 50
" shoes and dry goods	110.26
" the sick	96.00
" destitute seamen	10.98
" destitute strangers	10.74
Total	$323.48

Funeral services 12; persons assisted to reach their homes 25; persons furnished with temporary employment 63; second hand garments distributed 205; eighty-seven pairs of second hand boots and shoes distributed.

Permit us now, in closing this Report, to appeal once more in behalf of our suffering poor to those among us to whom the bountiful Giver of every good and perfect gift has intrusted a liberal share of the "good things of this life." If God has thus blessed us, he has made it our highest privilege as well as our most sacred duty, to be instrumental of blessing others. He has made us the almoners of his bounty, and he has taught us to feed the hungry, to clothe the naked, to relieve the sick, and to do good to the sons and daughters of want and affliction. And he has assured us that those acts of kindness and love shall not go unrewarded, yea, he will regard them as done even unto himself, for hath he not said, "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me." Truly "it is more blessed to give, than to receive," and "if we cast our bread upon the waters, it will return to us after many days."

There is a long and dreary winter before us, and ere the genial rays of spring shall return to us again we shall have abundant opportunity to relieve those who otherwise, must feel most keenly the pinching hand of want.

The great evil with which the industrious and deserving poor in our city have to struggle, is, for the want of suitable and remunerative employment during the winter season. A large number of our laboring classes are now out of employment, and will probably remain so until spring. Should the winter prove severe there must be a large amount of suffering, unless some special means are provided to supply this destitution. But we feel assured that those who in former years have so cheerfully contributed to relieve the wants of suffering humanity in our midst, will again respond to any reasonable appeals that may be made to their generosity during the winter upon which we have entered. Surely, if God has given us the means to relieve the poor, we cannot turn away from the cries of the hungry, and of those whose garments are not sufficient to protect them from the piercing blasts of winter. N. MEDBERY.

WHAT SHALL I BRING THEE?

BY MARTHA REMICK.

What shall I bring thee? glistening wreaths
To strew thy lonely bed
The summer's rose, the lily's bud,
Their incense sweet to shed?
Thou who art lying still and low
Where light nor bloom can fall,
What matters summer's sweets to thee,
Under a sable pall?

What shall I bring thee? this cold world
By storm and tempest trod
Is all unlike the shining lands
Blessed by the smile of God;
If through the darkness and the strife
I tread with truth and love,
The incense of a faithful life
Will rise to thee above.

What shall I bring thee? no great work
My hands may find to do,
Only in life's low common paths
To tread serene and true,
To render as the Golden rule
Shall guide me day by day,
This is the chaplet fair and bright
Upon thy tomb to lay!

—The coming housewife will keep her dwelling dainty clean, for the sake of health as well as beauty. Its walls will be neat and stainless, but no green traceries of foliage on their hangings shall impregnate the air with floating arsenic. No fresh paint with poisonous exhalations shall be needed on the woodwork, for the varied grainings of unvarnished woods will only grow richer and more beautiful with age. Fastened carpets of wool will be cast out as abominations, vile receptacles of dirt which housemaids are powerless to remove; and over inlaid floors of polished woods shall extend soft, heavy mats, whose dust may be given to the breeze each day. The heavy curtain draperies that make our parlors no better than dungeons will be banished to Limbo, and the blinds swung open to sunlight and air.

—Newport, Me., a thriving, enterprising town, has voted to give $2000, provided $20,000 shall be invested in the erection and furnishing of a factory in that town; also to exempt the property from taxation for ten years. These offers are open and available until July, 1870. Parties from Lewiston have examined the water-power, and propose to take hold of the enterprise. The financial condition of the town is good, having no war debt, but instead a surplus of about ten thousand dollars.

Benjamin F. Hodge, son of the late James Hodge, of East Concord, committed suicide Sunday morning, by hanging. He arose early in the morning, built a fire, and went out to the barn. Not returning, his mother went out about half past 7 o'clock, and found him hanging by the neck, dead. He fastened a trace chain twice around his neck while standing on a barrel, then kicked the barrel from under him. He was about 30 years of age, and an industrious and upright man, and was engaged to be married soon to an estimable young lady of Hopkinton. He had charge of the grain mill of Colonel J. T. Clough, of East Concord, and supported his mother and sisters. No cause can be assigned for the rash act, unless the sense of responsibility in providing for his family, caused a giving away of his mind. He was observed to be in a singular condition of mind on Saturday.—*Monitor.*

[It appears from the Patriot, that Mr. Hodge was afraid he would not be able to maintain his intended wife, in so good style as he wished; and this made him insane.]

☞ The Cardiff giant is probably a humbug. The city marshal of Fort Dodge, Iowa, writes to the Syracuse Journal that in July, 1867, a monstrous gypsum rock, weighing over 8000 pounds, was quarried there by strangers, hauled 50 miles by wagon to Montana at an enormous expense, and shipped east by rail. A little over a year ago, after ample time for the sculpture of the giant, a mysterious four-horse team with an iron bound box was discovered one night in the vicinity of Newell's marsh, where his giant-ship was subsequently unearthed. A piece of gypsum from the Fort Dodge quarry will be forwarded for comparison with the monster.

Ladies wear so much false hair with their own that it is difficult to tell which is switch.

A Boston Philharmonic Association has been formed in Boston.

Pope Pius IX. has decreed that the cardinals alone shall appoint his successor.

A barn was lately blown down in Oakland, California, and a local paper speaks of the affair as "the only noticeable movement in real estate during the week."

BEST CABINET ORGANS,
AT LOWEST PRICES
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the best in *the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VOIX, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopeia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operation; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obstacle. For sale by all Druggists. Price $1. c216w

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, DEC. 15, 1869.

CONGRESS.—In the Senate on Monday, Mr. Carpenter of Wisconsin, from the judiciary committee, reported Mr. Morton's bill to perfect the reconstruction of Georgia, with amendments. The bill as amended provides for convening the old legislature on a certain day to be named by the governor. Its organization shall be effected by summoning all persons elected to the general assembly of the State as appears by the proclamation of General Meade, dated June 26, 1868, and excluding all persons ineligible under the fourteenth amendment. No person shall be refused a seat in the legislature on account of race, color or previous condition of servitude. The President is authorized to employ on application of the governor the military and naval forces of the United States to enforce the provisions of the act. Finally, it is provided that the legislature of Georgia shall be regarded as provisional only until the further action of Congress.

Mr. Corbett of Oregon introduced a bill to establish a Department of Indian Affairs. Referred to the committee on Indian affairs.

Mr. Morton of Indiana, by unanimous consent, submitted an amendment to the Georgia bill, making the admission of that State conditional upon the adoption of the 15th amendment.

Mr. Harlan of Iowa introduced a bill to provide for the payment of pensions quarterly. Referred to the committee on pensions.

Mr. Kellogg of Louisiana introduced a bill to authorize the establishment of a Navy Yard at New Orleans.

The House passed a resolution declaring that the sentiment of the House accords with the opinion expressed in the President's message, that a renewal of a treaty of reciprocity with the British Provinces would be wholly in favor of the British producer, and should not, in our present condition, be favorably considered.

Mr. Moore of Illinois offered a resolution reciting the fact that certain naval officers complained that they had been overlooked and ignored in advancement to rank, and directing the Secretary of the Navy to appoint a board of officers, removed by their high rank from all personal interest in the question, to examine the cases complained of, and to report their conclusion, for such action by the executive and Congress as may seem proper. Reserred to the committee on naval affairs.

The message from the President transmitting the report of the Secretary of State of the States that have ratified the fifteenth constitutional amendment was read. The report enumerates the following States as those from which official notices of such ratification had been received up to 9th of December: Missouri (defective), Kansas (defective), North Carolina, West Virginia, Massachusetts, Wisconsin, Maine, Louisiana, Michigan, South Carolina, Pennsylvania, Arkansas, Connecticut, Florida, Illinois, Indiana, New York, New Hampshire, Nevada, Vermont and Virginia. The Secretary states that in the ratification by Missouri, the second section of the amendment is omitted, and that in the ratification by Kansas the phraseology of the second section is changed.

MASSACHUSETTS MUNICIPAL ELECTIONS.—Boston chose the Republican and Citizen's candidate for Mayor, on Monday, by a plurality of 8369 votes. Dr. Shurtleff had 13,154 votes; Baldwin, Democrat, 4785; Johnson, Prohibitionist, 328; Chase, Workingman, 217; scattering, 60. The board of Aldermen will consist of 8 Republicans and 4 Democrats; Council, 39 Republicans, 25 Democrats.

Charlestown voted against annexation to Boston—Yeas, 186; Nays 1568. Hon. W. H. Kent, anti-annexationist, was chosen Mayor by 403 majority.

In Worcester, Mayor Blake, Republican, was re-elected by 1301 majority.

In Newburyport, Capt. Robert Couch, Republican, had 338 majority for Mayor. The vote was, for Couch, 1097, Pierce, Democrat, 754. The Board of Aldermen elect is unanimously Republican; Council, Republican majority.

THE TEXAS ELECTION.—A special despatch from Houston, Texas, says returnes from 87 counties have been received, which show that Hamilton (conservative) has a majority in 45 counties of 8970, and Davis (radical) a majority in 42 counties of 12,322. Davis in 35 counties is 72 ahead. There are 40 counties to be heard from. The registered white vote is 16,454, and the registered colored vote 9233. Davis leads the colored registered vote by one-eighth. The legislature, as far as reported, stands as follows: Senate—conservatives, 13; radicals, 12; House—conservatives, 41; radicals, 31. The vote for Governor is still doubtful, but, with that exception, the entire radical ticket is elected. Hamilton's friends claim his election for Governor by 2500 majority. Armstrong and Conners (conservatives) are believed to have been elected to Congress.

☞ The second lecture of the Mercantile Lyceum will be delivered at their Hall this Wednesday Evening at 7 3-4, by Mr. George W. Haven. Subject, Labor and Capital. The course is free to members and their friends; and others desiring tickets, may procure them without expense at the door.

New Hampshire Items.

About a year and a half ago the house of James B. Fellows in Concord was entered in the absence of the family, and a large lot of articles of household use taken. Some of the articles then missed were found in the recent search at Carroll Sanborn's house. On the morning of the 10th, a set of silver knives and forks, a plated castor and a Marseilles quilt were found close to the house of Mr. F. and proved to be a portion of the property taken at the time of the robbery. The goods looked dusty and the quilt had not been unfolded.

John Sayder, a Dutchman who has been working as a barber in Concord, went to the horse sheds of the Baptist Church, on the forenoon of Sunday, and selected a horse and sleigh belonging to Staniels & Dickerman. The horse, being a spirited one, ran away and perpetrated a "big joke on Sayder" by pitching him out and going home. He is in jail; he has served three years in the State Prison and bids fair to get another term at the same institution.

On the 2d, in Danbury, while a number of boys were skating on Bog Pond, George Westcott and Warren Danforth skated so near an air-hole that both got in. Young Westcott was drowned, but Danforth was rescued with a narrow escape from the fate of his companion.

On the 9th, in Nashua, two ladies stopping at the house of H. F. Courser discovered a fire between the lathing. Instead of giving an alarm they called a neighbor, and by free use of an axe and water the fire was put out, with a damage of $300, mainly to the plastering and carpets.

A young man named Spaulding, while driving across the railroad track at East Canaan, was struck by the engine. The horse made good time towards home, and Spaulding brought up in a hole behind a lot of ties, after going over a pile of wood. The railroad men concluded that there was no driver to the team, as none could be found. Spaulding came to, during the night, and walked home unhurt.

Frederick Clough, a young man employed in Homan's bobbin shop, at Factory Tillage, got two fingers caught in a machine for splitting bobbin blocks and had the bones split lengthways.

A hound in East Andover gave chase to a fox a while ago with such zeal, that when reynard broke through some ice the dog went in also and both were drowned.

At Greenville, Pa., an aged couple named Vandusen were found murdered, and their hitherto peaceful home burned to ashes, with their bodies in it. They were known to have a large amount of gold on their premises, some twenty-five or thirty thousand dollars, and the universal belief among the neighbors is that they were robbed, murdered, and the house set on fire to conceal the crime.

Correspondence of Chronicle and Gazette.

NORTH HAMPTON, Dec. 13.

We think mention has before been made in your columns, of the new Vestry lately constructed under the Orthodox Church in this place. It has been dedicated, and is now used for evening meetings, social gatherings, and the like. The people in this place have for some time past felt the want of a suitable Hall for levees, social circles, and lectures. The Vestry is large, pleasant, and probably not surpassed by any room of the kind in the State. A singing school is now held in it, taught by a Mr. Scott. We believe the book introduced is the "Choral Tribute," by Emerson.

For two years past, the Sabbath School in this place has had a Christmas tree in the church, together with an address by the pastor, Rev. Mr. Haines. Mr. Morris H. Smith, who has so ably and acceptably filled the position of Superintendent of the School for some time past, having declined to serve any longer in that capacity, Mr. James B. Leavitt was chosen to act in that position. Mr. L. is evidently the right man in the right place, and it would be very hard to find a man who could fill the position of Superintendent better than he. D. P. T.

☞ Our Boston correspondent mentions the fact that Mr. S. R. Niles would probably be elected to the Common Council of that city; and we notice in the report of Boston election, that such is the case, and that Mr. Niles was complimented by the heaviest vote by far on his ticket, he received 90 more ballots than any other member elected in his ward, the 6th, and 150 more than any save one of the fourth. The success of Mr. Niles in managing his own private business, is generally sufficient evidence that he will make a good city officer (or servant.)

DEPOSED.—On the 6th of December, at Malden, Mass., Rev. Chas. E. Reed was *deposed* by a Council, from being Pastor of the Trinitarian Congregational Church in that place, and declared to be unworthy to fill the office of a Christian minister,—on account of gross immorality.

For the Chronicle.

CHARITY.—In speaking of Charity, we do not here refer to that charity which hideth "a multitude of sins" by giving to every act its most generous construction, but to the benevolence which seeks to alleviate the sufferings of others by in some measure supplying their bodily wants. The person who has never given fuel to some poor widow, food to a hungry man, a jacket or pair of shoes to a half-naked child, or a night's shelter to some houseless wanderer, has missed one of the purest gratifications attainable by mankind. Even the coppers given to a professional street beggar, though they may be received in a spirit of contempt for the gullibility of the donor, by one who will spend them for strong drink,—yet if bestowed in the true spirit of benevolence, with a desire to relieve want, they will yield to the giver more real pleasure than they could purchase in any other manner.

But very few persons would willingly give to professional mendicants; and many an unfortunate sufferer is passed unheeded and unrelieved, by persons who would cheerfully give a portion of their goods to alleviate real distress, from a fear that the suppliant is an imposter. For those who are willing to help the deserving poor, and have not time or opportunity to make enquiries as to who *are* really needy, our city has various Benevolent Societies through which they can be reached with certainty, and without trouble to the giver.

One institution, which relieves distress among a class of men who have superior claims on the benevolence of the people, is the Grand Army of the Republic. Some who would give readily to assist a needy soldier or sailor, or the widow or orphan of either, are slow to give to strangers, for fear of being imposed upon. Such persons can allow full scope to their benevolence, and be certain that their donations will be well and carefully bestowed, by helping to replenish the Charity Fund of the G. A. R. This organization has facilities for detecting imposture which others have not, and investigates every case thoroughly,—while at the same time no deserving applicant is sent away empty-handed. Much good is done in a quiet manner, and many a weary toiler goes on his way, cheered and refreshed from the charity fund of the society,—which does not confine its benevolence to the class of men it is specially designed to aid, but endeavors, as far as possible, to preserve from want the immediate relatives of such as lost life or health in the country's service. The members contribute to this fund themselves,—but should not be asked to bear the whole burden,—and undertake to act as stewards to dispense the beneficence of others. Their Fair this week should be a great success. "He that giveth to the poor lendeth unto the Lord." W.

IMPORTANT LETTER.—The following letter has come into our hands, and we publish it for the information of those who doubt the purity of Speer's Wine.

This is to certify that Mr. Alfred Speer is a resident of this village, and to my personal knowledge has devoted a number of years to the manufacture of pure and valuable wine. He has a large vinyard in view of my residence and has been for some time engaged in cultivating the Port Grape.- Port Grape Wine cannot be excelled by any American wine. It is bottled by Mr. Speer every season in large quantities, but not disposed of until it attains the age of four years.

Passaic, Oct, 20th, 1865.

Some of our druggists have this wine direct from the vineyard. Also Speer's Sambuci Wine.

☞ The Boston folks are considerably exercised because John Bull will not trust his steamer, with Mr. Peabody's remains, in the shallow waters of their harbor. At present it is thought, unless there should be a cold snap, she will arrive at Portland; but if Portland freezes, she will be sent to Portsmouth. Should Portland be the point selected, we shall expect to see the Water Loan paid off, the Falmouth Hotel declare a dividend, and to hear the Great Eastern Wharf proprietors smilingly say, "not quite so dull here as at Boston, after all."

☞ The New York papers make glowing mention of the grand Ball at the St. Cloud Hotel, (by Rand Brothers,) on the 9th inst. The "Telegram" says the St. Cloud is an uptown, stylish and comfortable hotel — central, yet quietly located.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food; it is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties described to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

SPECIAL NOTICES,

Keep the Circulation Active.

A free and regular circulation of the blood is essential to health. It places the whole system in a state of active defence against all unwholesome influences, and is an especial safeguard against the inimical effect of sudden changes of temperature, and of damp and cold.

If proper attention were paid to this important fact, there would not only be a great decrease in the number of cases of stomach, bowel and renal complaints, but also in the number of deaths by consumption and other pulmonary diseases.

At this period of the year, when the dividing line which separates a genial from an inclement season has just been passed, a course of HOSTETTER'S STOMACH BITTERS will be found of invaluable service in improving the condition of the vital fluid and gently stimulating its flow. Colds, coughs and colds, the hot flushes and fever, the frequent effects of a chilly atmosphere upon a debilitated organization. Diseases of the kidneys then proceed from the same source. How essential it is, therefore, for persons of feble constitution, to invigorate the vital organization at the commencement of Winter. Fortified by warm clothing without, and HOSTETTER'S BITTERS within, the frail and delicate may brave with impunity an amount of exposure and hardship which, under other circumstances, would prostrate them on a bed of sickness. Let them consider this and be wise in time.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable, tasteless and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as sugar candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two medicinal agents, which have proved themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this compound before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles,** and all those ailments to which FEMALES are the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious and Cathartic general aperient, they have no equal either among advertised preparations or the prescriptions of regular practitioners.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

NOTICE. — CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its palmative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

FRIGHTFUL DEVELOPMENTS!

Cutlery and Grinding—A. Jackson.

THE GRAND ARMY FAIR opens this (Wednesday) evening at the Temple, and will be a great success in every way, we doubt not. We stepped in at the Temple, Tuesday afternoon, and found the floor all laid, the stage erected, the scenery being put in place, and Mr. C. W. Roeth of Boston, the well known decorator, engaged in decorating the hall in a manner which excels anything of the kind ever seen here. The preparations already made show system and hard work on the part of the various committees, whose laudable endeavors to serve the good cause should be rewarded by the pleasure of seeing the old Temple filled to overflowing on the opening night, as was the case last year.

The hall will be open to the public at 6 o'clock, P. M., when a hot supper will be served to all who choose to indulge, and the ladies having the matter in charge just do know how to furnish hearty and substantial edibles for the early callers. At half past 7 o'clock, the entertainment is advertised to commence, and the first comers get the best gallery seats, of course. The laughable farce entitled "Dunducketty's Picnic" is first on the bills, and the Thespians will of course present it acceptably. At 8.30, the gorgeous tableaux of the Sorry Seven will fill the audience with awe; at 6 o'clock, Mr. William H. Flynn will make his debut in a popular song and dance; and at 9.30, the closing entertainment, of the evening will be offered in a "Sea of Troubles" such as has never perplexed amateurs or professionals hitherto in this city.

The committee of arrangements have decided to have intermission of half an hour between each piece, in order that those in attendance may not forget to patronize the ladies who will have for sale a large variety of Fancy Articles and Refreshments—not to mention the voting for the splendid Silver Trumpet, guessing on cakes, &c.

☞ The Dover Gazette, speaking of the new volume of Rambles, thinks "it is singular that W. H. Y. Hackett, who writes an excellent biographical notice of the author, should have omitted one of Mr. Brewster's intimate associates when a young man, viz., Geo. Gray, Esq., now of Dover." We can't say as to this, but it occurred to us in reading the article, that hardly sufficient prominence was given to Mr. B.'s former (and only) partner for ten years,—his long time influential associate, and always friend.

Another acquaintance, now living here, who went to Congress, is alluded to in more complimentary terms than we think he deserves; for he must have gone there, as Mr. B. himself once said to us concerning old "Boiling Rock" as a school-teacher—because he was the cheapest man for the place. F.

RAILROAD ACCIDENT.—James Fields, a well known individual of "ardent" proclivities, whose principal residence, for several years past has been at the City Farm, was knocked down near the Creek bridge while walking near the track, by the 11,15 A. M. train for Boston, on Tuesday. He was picked up senseless and the train was backed to the depot to deposit James where he might die or be doctored. It appeared however, that he was not seriously injured.

A young man named Wm. Adams, a freight brakeman on the B. & M. Railroad, slipped from the top of a car at South Newmarket Tuesday morning and was instantly killed. He belonged at Andover, Mass.

RESCUE FROM DROWNING.—A daughter of Mr. Moses J. Spinney of this city, while crossing the North Millpond Tuesday afternoon, ventured too near the open water, and broke through. Her cries attracted the attention of Master Cornelius Lewis, who was crossing higher up, and who had the presence of mind to run back to Mr. Thompson's wood yard and procure help, ropes, &c.; returning to the spot and throwing the rope to the drowning girl, she was drawn to the firm ice, none the worse except for a thorough wetting.

PROCLAMATION.

AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend

J. F. SHORES JR.,

has a larger assortment than usual (and that is saying a good deal) of articles for

Christmas and New Year's Presents.

I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.

Therefore I would give a word of advice to one and all. Before you make your purchases for the

HOLIDAYS,

OFFICE OF FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 NASSAU STREET, NEW YORK,

November 8, 1869.

To Our Customers and Correspondents:

The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.

Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.

During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.

The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.

The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.

The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.

The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.

The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.

The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.

We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.

Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE

SIX PER CENT. GOLD BONDS

OF THE

WESTERN PACIFIC R. R. CO.

OF CALIFORNIA.

The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.

It is 150 miles in length, including a short branch, and it will be the

METROPOLITAN LINE

OF THE PACIFIC COAST,

connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.

It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.

The value of the property and franchises is not less than

TEN MILLIONS OF DOLLARS,

and the amount of the mortgage is

$2,800,000.

The bonds are of $1,000 each, have thirty years to run, and will be sold at

Ninety, and Accrued Interest,

in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.

The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.

The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.

Government bonds received at their full market value in exchange.

FISK & HATCH, Bankers.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

Morning Chronicle.

Correspondence Chronicle and Gazette.

BOSTON, Dec. 13.

The sleighing carnival came to a sudden end on Saturday night, but while it lasted the Milldam and Brighton Road were never gayer. As long ago as the 4th, the "coasters" set sail on the Common; not in fore-and-afters, but on clippers, and far into the night the noise and bustle and life of the scene was kept up. The myriad gas lights twinkled merrily upon the white expanse of the snow; the low rumbling of runners was heard on every descending mall, while the Frog Pond was literally packed with merry boys of all ages, above the bum of whose voices the clear ring or sharp whirls of their skates was distinctly perceptible.

'Tis all changed now. Thaw (I think the Norsemen spell it Thor, and make a god of him) came Saturday night, and so far from being godlike, it borders on the opposite. The streets are in a wretched condition, water drips from most of the buildings, and snow slides imperil pedestrians; ladies with dainty boots make rash plunges across the difficult crossings, and wonderfully elaborate undergarments are displayed to eyes profane.

The first hop of the season, at the new St. Cloud Hotel, New York, under the supervision of the Rand Brothers, (formerly of your city,) was given on Thursday evening last. It was a brilliant affair, and your correspondent regrets that business engagements precluded his acceptance of the courteous invitation of the gentlemanly proprietors. The Evening Telegram devotes more than a column to a description of the ball, and characterizes it as "the gayest, brightest, happiest gathering for social enjoyment that has marked the season so far." The Rand Brothers will ever do credit to their old home, and people from old Strawberry Bank should not fail to give them a call when at the metropolis.

This has been our municipal election day, in which much interest is manifested. The tickets in the field are multifarious. In Ward Six alone I counted *eight* different tickets; on seven of them I noticed the name of Stephen R Niles, the well known and popular advertising agent, who will therefore undoubtedly be one of the City Council for the ensuing year. M.

New Publications Received.

The Pictorial *Phrenological Journal* for January, 1870, appears in bright array. A new form, new types, numerous rich illtrusations, with sound and sensible reading matter, renders this the best ever issued. This favorite Journal has now reached its 50th vol., and appears in a handsome magazine form. We think it will prove ever more popular than ever before. Terms, $3 a year, or 30 cts. a number. Now is the time to subscribe for 1870. Address S. R. Wells, 389 Broadway, New York.

DR. BOYNTON AND THE GIANT.—Dr. Boynton of Syracuse, lectured in that city on Monday night to a large audience on the Cardiff Giant and matters pertaining thereto. The Courier gives a sketch of the lecture, which, it says, was heard by a large audience and highly approved. The lecturer said he could show blocks of gypsum large enough not only to make the Giant form, but have enough to spare to make his wife and children. He presented specimens of adipocere, a waxy substance into which human bodies sometimes turn; but he denied that a case of petrifaction of human flesh was ever known.

He took up the subject of the solubility of the Giant in water, and gave the result of experiments made upon pieces of the Giant taken from the pit at Cardiff. These experiments demonstrate the fact that the Giant would have been entirely dissolved by the action of the water percolating through the soil had he been allowed to remain in his bed about a year longer; or had he occupied the same between one and two years.

—Col. Higginson writes a letter to the New York Sun correcting a misrepresentation in regard to the social status of officers of colored troops. He says that they were treated with courtesy by the other troops, and that the opposition to colored soldiers was much less among the troops than among Northern civilians. He testifies that not only did the colored troops fight nobly, but the white troops behaved gentlemanly.

—A Washington correspondent mentions a rumor that Speaker Blaine is a Roman Catholic. A gentleman from the State of Maine says it isn't so, but that on the contrary, Mr. Blaine is a member of a Congregationalist church in Augusta. The rumor probably sprung from the fact that he is of Roman Catholic parentage, and has a brother (Mr. R. G. Blaine, clerk in one of the departments) who is a Roman Catholic.

—Mrs. Partington has at last got off a maxim that is both sensible and grammatical: "Sweet are the uses of advertisements."

—One day recently a young miss was standing on the railroad track at the depot, while the passenger train was backing up. As she was looking in an opposite direction, she did not notice it. A gentleman standing on the platform noticed her danger and cried out:—

"Miss you are in danger of being run over, jump!"

The effect was electrical. With a bound she cleared the track and put all danger behind her. Recovering from her fright and imagining that she had made a judicious jump, she turned to the gentleman who had warned her of her danger and said:—

"It was none of your business, anyhow."

—Josh Billings don't like eels. He says: "Sum people ain't afraid to take anything with their hands that they can reach, not even an eel, but if I should ever get caught by an eel, if I could not settle with him right off by giving him the hook and line, I would throw the pole into the bargain and put for home."

—Deep-sea dredging has revealed the fact that an extraordinary abundance of animal life exists in the ocean's lower depths. Animals of high organization and with perfect eyes have been brought up by Mr. Gwyn Jeffreys, whose interesting report has just been made before the English Royal Society.

"I say," shouted a long legged wag to a vender of tin ware, "have you any tin overalls?"

"No," responded the peddler, "but I've got a pair of candle mould that will just fit you."

Four bachelors bought a pew together at a Methodist church at Westford, Vt., the other day, to be used by them until one gets married, when the other three are to leave the pew in his possession.

—Home, the spiritulist, boasts that he can elongate himself some two feet by unseen assistance. This may be called the Home-stretch of spiritualism.

IF WE KNEW.

If we knew the woe and heart ache
Waiting for us down the road,
If our lips could taste the wormwood,
If our backs could feel the load,
Would we waste the day in wishing
For the time that near ne'er can be;
Would we wait in such impatience
For our ships to come from sea!

Let us gather up the sunbeams
Lying all along our path;
Let us keep the wheat and roses,
Casting out the thorns and chaff.
Let us find the sweetest comfort
In the blessings of to-day;
With the patient hand removing
All the briars from our way.

THE FRENCH ELECTIONS.—The Emperor's entire change of policy is quite forcibly illustrated by the election of Henri Rochefort to the Corps Legislatif. Less than a year ago, we believe, Napoleon thought it necessary to have this same Rochefort formally tried, though absent, condemned and sentenced to perpetual forfeiture of civil privileges. And now the Emperor listens while the mob in Paris shouts of the election of the stinging writer.

Coming to Paris under Napoleon's safe conduct, standing as candidate without interference from the authorities, and elected in company with other extreme opponents of the present dynasty, Rochefort would really have less power to-day if Napoleon were in his old frame of mind, than he had before. But Napoleon has changed, and France has changed, and the opposition, if united, could now quickly grasp the power.

Everything, however, indicates that the opposition is not only disunited, but that it cannot unite. The "irreconcilables" are correctly named. Not strong enough to act by themselves, they are not even willing to act with each other. In absence of any combined opposition, Napoleon still holds the reins.—*Mo. Democrat.*

New Hampshire Items.

The Belknap Mills, at Laconia, have shut down and many of the help sell their bills at half their face. The Co. made an assignment of their goods for the benefit of their creditors.

For a man of his age, eighty-eight, David Holton of Charlestown is tough. This fall he took a jaunt into Canada and on the last day of October drove a span of horses 26 miles.

The strike in the Cocheco mills at Dover has been in progress now two weeks. The corporation are now running 150 looms. An immense fair was held at the City Hall for the benefit of the strikers, Friday night. Over 2000 people attended, and Miss Jennie Collins addressed them. The greater part of the operatives have gone to other cities to work. The Company added to the bitterness of the strikers' feelings by refusing to pay them for what cotton cloth they had in the looms when the trouble began.

The late Judge Upham of Concord, leaves four brothers and two sisters, among them Col. Joseph B. Upham of Portsmouth, and the widow of James Bell of Exeter. Mrs. Joseph B. Walker of Concord is his daughter.

The Tilton Block at Tilton, occupied by the post-office and other offices, was consumed by fire last Saturday morning.

The contracts for the grading of the third and fourth sections of the Portland & Ogdensburg R. R., from Sebago Lake to Fryeburg, have been let, and it is confidently expected that on the completion of these, work will be begun on the road as planned in this State.

As Mrs. Edwin J. Hobbs of Hampton was preparing to retire a few nights ago, a rap came on the door, and lo! there were four men who pressed their claims to admission in highly ornamented language. Mr. H. was absent. Mrs. H. got a pistol, and the men left her master of the situation.

GOVERNMENT LIVE STOCK.—The army had in use on the 1st day of July last, 9484 horses, 18,005 mules and 237 oxen. During the preceding year 2508 horses and 726 mules had died, 690 horses and 210 mules had been lost or stolen, and 2054 horses, 1427 mules and 11 oxen had been sold. There had been purbhased 3353 herses, at an averagr cost of $139.75 and 2502 mules at 136.96.

The yearly consumption of forage was 1,250,000 bushels of corn, 1,000,000 bushels of oats, 160,000 bushels qi barley, and 3000 tons of straw.

H—O—F—F—'S
MALT EXTRACT—
Is a beverage particularly adapted to persons of weak and debilitated constitutions, and those suffering from dyspepsia, loss of appetite, general debility, etc. It takes the place of and is SUPERIOR to ale, porter, and spirituous liquors in all cases where nourishing beverages and tonics are needed. Eminent physicians of New York, say: "We have used HOFF'S MALT EXTRACT in practice, and the result have been such as to fully justify the claims made for it; we feel certain that it is destined to supply a want long felt." codimdl

BEST CABINET ORGANS,
AT LOWEST PRICES
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal individual competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least renumerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

COLGATE & CO'S.
AROMATIC VEGETABLE SOAP,
COMBINED WITH GLYCERINE, IS RECOMMENDED FOR THE USE OF LADIES AND IN THE NURSERY. ap8ly
SOLD BY ALL DRUGGISTS.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopœia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat when they see a pill spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operations; and while it is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obsolete. For sale by all Druggists. Price $1. o216w

The Daily Chronicle.

Portsmouth, N. H.

THURSDAY, DEC. 16, 1869.

Brief Notes.

Boston proposes to organize an American Steamship Company with a capital of $1,000,000.

Furs valued at $3300 were stolen from the store of Cook & Aldrich of Boston on Monday.

There is much opposition to the census bill in Congress.

A Marshall county, Miss., jail has a singular occupant. Why and how he was sent there is not known, and he won't come out until the next court apologizes for the mistake.

The Advertiser says the commerce of Boston is steadily increasing.

Attempts were recently made in Milledgeville, Ga., to assassinate two prominent republicans.

Mr. Peabody's will, it is said, bequeaths one hundred and fifty thousand pounds sterling to his London charity. His property is reckoned at about four thousand pounds in England and about a million dollars in America.

A decided reduction in the retail price of coal in New York is reported as having taken place within a week.

Gold in Hayti at last advices was at 4000.

General Morgan, a member of the Georgia legislature, makes public announcement that he has submitted to the demands of Congress as long as he intends to. Fearful Morgan!

The North German Coefederation has abolished the franking privilege.

The railroad office of the Northern Central road, in Elmira, N. Y., has been robbed of $13,000.

A party of 100 men took two negroes out of the Richmond, Ky., jail, Sunday night, hung one and whipped the other and sent him back to jail.

One of the New York city savings banks distributes surplus profits among depositors. An extra bonus of one per cent. is given on money retained one year, two per cent. on that left for two years, and so on *pro rata*. It is announced that several other institutions of the kind will immediately do the same.

The Avondale relief fund receipts amount to $100,077.32, of which $76,635.72 has been invested, and $12,727.64 distributed. In addition, George H. Stuart of Philadelphia holds $26,000.

Of twenty-nine counties in Mississippi having a majority of whites, the Republicans carry all but three. The majority of General Alcorn, the Republican candidate for Governor, will be thirty thousand at least. Two-thirds of the Legislature are Radicals, and five Radicals are elected to Congress—Harris in the First, Morphis in the Second, Barry in the Third, McKee in the Fourth and Perce in the Fifth District.

Chicago gets tea in 54 days from China.

N. H. Woman Suffrage Association.—The First Annual Convention of the New Hampshire Woman Suffrage Association will hold its sessions in Eagle Hall, Concord, N. H., on Thursday and Friday, December 30th and 31st, 1869.

We plead the equality of perfect justice; woman and man, black and white, wife and husband, sister and brother.

We plead a recognition of the strongest moral power this nation holds,—the power that makes the home,—the power that makes the *man*,—that gives the essence of integrity and honor to public and to private life.

We seek purity in society and State,—purity in the intermingling of all social classes among a Democratic people,—in the contact of capital with female labor,—in the enactment of law, and in the administration of it.

We seek intelligence, virtue and wisdom through the education of our educators—through the enlightenment of a people's will. The ballot is the greatest educator.

We are to organize victory out of momentary defeat. We are to rebuke by an irresistible demand the indifference of legislators to the necessity of reforms. "*We will be heard.*"

Among the speakers engaged to be present are Mrs. Julia Ward Howe, Mrs. Caroline M. Severance, Rev. R. B. Stratton, Rev. Rowland Connor, Rev. Phebe A. Hanaford, Mrs. Dr. Hatherway, S. S. Foster, Mrs. Lucy Stone, H. B. Blackwell, A. J. and Mrs. Mary T. Davis, of New Jersey, and the successful worker of the woman's cause in the West, Mrs. Mary A. Livermore, of Chicago, and many of the clergy and others in our own State.

By order of the Executive Commitee.

Armenia S. White, President.
Rev. E. R. Sanborn, Secretary.

☞ The Assembly of the C. B. B. Club at Congress Hall on Tuesday evening was largely attended, and some excellent dancing was witnessed by the spectators. The judges decided that Mrs. David Roderick was entitled to receive the medal for being the best fancy-dancer on the floor, and Miss Abby A. Todd presented it in a neat and appropriate speech. To make the award was not easy, among so many graceful dancers.

New Hampshire Items.

The one hundredth birthday of widow Polly Bickford was appropriately celebrated on Thursday, Dec. 5d, at the residence of her grandson, John W. Matthews of North Wakefield.

At Newmarket, the cotton mills are running on reduced pay, eight per cent. The help submit patiently; and the tailors on sale work have closed for the present. Geo. Bozzell has been missing since the evening of the 30th ult.—supposed to drowned.

The new stone dam at the carriage factory of Isaac M. Chase, in Conway, was carried off by the storm of the 20th ult.

Jack Frost found Lake Winnepiseogee taking a quiet nap, "out in the cold" Wednesday night, and to protect it from heavy winter's chilling winds, kindly spread his icy mantle over it.

Naval.—Commodore Chas. Steadman has relieved Commodore Rodgers from the command of the Charlestown Navy Yard.

Commodore Rodgers is ordered to the command of the East India (China) squadron, his rank being Admiral after the first of January. There are about two thousand men employed in the yard at present, and this number will be diminished.

The Niagara is undergoing transformation into an iron-clad.

The frigate Colorado is fitting out at Brooklyn as the flagship of the Asiatic squadron.

No further discharges of any importance will be made at the various navy yards during the present winter, as the Navy Department has ordered work enough at each yard to keep the workmen employed for several months.

The Navy Department has information that the United States steamer Kearsarge, Commander J. S. Thornton, arrived at Callao, Peru, on the 3d of Oct., officers and crew all well.

Republican Convention.—A Delegate Convention, representing all the Republicans of New Hampshire, will be held at Phenix Hall, Concord, on Friday, January 7, 1870, at 11 o'clock A. M., to nominate candidates for Governor and Railroad Commissioner; each town and ward sending two delegates for each representative to which it is entitled in the Legislature.

All citizens who sustain the administration of President Grant in inaugurating economy and paying off the national debt, who intend to keep from power in State and Nation all sympathizers with the late rebellion, and to continue the control of the Government in the hands of those Union citizens and soldiers who saved the country in time of war, who are in favor of maintaining untarnished by any device of repudiation the nation's honor, and who constitute that true democracy which defends and protects the rights of every laboring man without regard to race or color,—are invited to attend the primary meetings to elect delegates to the above-named Convention.

E. H. Rollins, Chairman.
Wyman Paytee, Secretary.

Politico-Newspaporial. — Brother Butler of the Biddeford Journal wades into the Portlanders thusly;

George Gifford, Esq., has bought the interest of Mr. Talbot in the Portland Press, and will hereafter be chief editor of that paper. We understand that Mr. Knowlton retires to accept the appointment in January, of Assessor of this District at the hands of John Lynch a partner in the Press. If the report be true, and we have no reason to doubt it, we are pleased that among the last appointments that this District or State will ever require at the hands of Mr. Lynch, we can number as good a one as that of Mr. Knowlton.

It is a curious fact, though, to observe that a man in or from York county amounts to nothing in the eyes of her Representative-by-courtesy, until he has resided five years in Portland, or invested his interests in that city. Mr. F. J. Rollin's appointment as Collector, was without doubt a very excellent appointment; but it was not made until he had there resided five years up to the time it was made, and is no more to be debited to the quota of this county than was that of Mr. Miller.

The appointment of Mr. Knowlton was not made or decided until he had allied his financial and political interests with Portland, or rather with the Fessenden and Lynch interest. That interest is not now a power in Cumberland, it is insignificant in the State, and more insignificant in this county. Had Mr. Fessenden lived, the force of political opinion would have driven him from the list of candidates for the Senatorial term of 1871. It is hardly to be expected that the people, especially of this District, will acknowledge any residuary legatees of that firm.

Municipal Election at Manchester.—The election on Tuesday resulted as follows: Hon. James A. Weston, citizens' candidate, had 1178 votes; Hon. Isaac W. Smith had 1027 votes; majority for Weston, 151. The Republican candidates for Aldermen and Councilmen were elected in six of the eight wards.

The question of guaranteeing the interest on the Aquaduct Company's Water Bonds was defeated by a large majority.

Congress—*Tuesday.*—In the Senate, Mr. Morrill announced the death of Senator Fessenden, and the remainder of the day's session was given up to pronouncing eulogies on the deceased.

In the House, a resolution was offered instructing the committee of ways and means to inquire into the expediency of abolishing the offices of collectors, assessors, and other agents of the Internal Revenue Department, and of apportioning the amount of tax to be required to be raised from domestic sources, among the States, in proportion to their population. Referred to the committee of ways and means.

A resolution was adopted calling on the Secretary of the Navy for copies of the record of proceedings and all papers on the subject of line and staff rank in the navy.

Eulogies on the late Senator Fessenden were pronounced. [The ways and means committee have fixed the duty on coffee at twenty instead of twenty-five cents per pound, and on tea at four instead of five cents. That on pig iron has been reduced from nine to seven dollars per ton and that on scrap iron from eight to six dollars, while that of manufactured iron of many qualities has been considerably increased.]

Pearson's Fruit Biscuit.—Per Jackson & Co's Express, we are in receipt of a box of this new cookie, from John Pearson jr., wholesale baker of all kinds of machine bread, and manufacturer of the celebrated cream biscuit, at Newburyport. The fruit biscuit much resembles a third section of milk biscuit filled with "plums" (currants) like a bun or a huckle-berry cake. Like all Pearson's manufactures, they are nicely made, and are good eating, besides being a novelty.

Heroic.—The New York Herald reports the following brave action of Captain T. A. Scott, of the steam wrecking boat Truxton, who happened to be near the scene when the ferry boat Manhasset and the tug Phœnix came in collision last Thursday:—

"Captain Scott not being able to get the Truxton alongside of the ferry boat, sprang into a small boat, and made his way through the cabin windows of the Manhasset, arriving in the engine room just as the bow of the tug was being extricated from the ferry boat. As the bow was withdrawn, the water at once began to flow in the aperture with great force and in such quantities that the boat would have gone down in a few minutes, had not Captain Scott, who is a very large man, weighing about 250 pounds, placed his body in the hole made by the tug, and calling for blankets and clothing, succeeded in keeping out the rush sufficiently until the boat was got into the slip, and afterwards planked up the break so that the pumps of the ferry boat kept her comparatively free until she was placed on the dry dock foot of Pike street, where she now is. This is the first record of a leak of this size being stopped by a man's body at the risk of his own life. Possibly several hundred lives were saved by the bravery of Captain Scott."

Chestnuts are 75 cents per pound in San Francisco.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

SPECIAL NOTICES,

Keep the Circulation Active.

A free and regular circulation of the blood is essential to health. It places the whole system in a state of active defence against all unwholesome influences, and is an especial safeguard against the injurious effect of sudden changes of temperature, and of damp and cold.

If proper attention were paid to this important fact, there would not only be a great decrease in the number of cases of stomach, bowel and renal complaints, but also in the number of deaths by consumption and other pulmonary diseases.

At this period of the year, when the dividing line which separates a genial from an inclement season has just been passed, a course of HOSTETTER'S STOMACH BITTERS will be found of invaluable service in improving the condition of the vital fluid and gently stimulating its flow. Violent coughs and colds, like intermittent fever, the frequent effects of a chilly atmosphere upon a debilitated organization. Diseases of the kidneys often proceed from the same source. How essential it is, therefore, for persons of feble constitution, to invigorate the vital organization at the commencement of Winter. Fortified by warm clothing without, and HOSTETTER'S BITTERS within, the frail and delicate may brave with impunity an amount of exposure and hardship which, under other circumstances, would prostrate them on a bed of sickness. Let them consider this and be wise in time.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the fairer sex are subject, the Lozenge will be found infinitely more effective than any of the nauseous and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, there have not yet appeared either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge,** will ever again take a cathartic powder, or draught or pill.

NOTICE. — Circulars and Show Cards sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—North, East, South and West. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

Port Burwell, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

Capt. Foster is a ship owner and builder, residing at Port Burwell, Canada.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. d1

THE INDIAN DOCTOR HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,

THE NARRAGANSETT

INDIAN PHYSICIAN!

Has taken Rooms

At the Franklin House, Portsmouth,

Where he will remain

Until December 28th.

He treats successfully all curable diseases to which the human system is subject.

Dr. Congdon was here eight weeks ago, and remained only one week, and performed some of the *Most Remarkable Cures Ever Known!* and now, by request of some of the most prominent citizens, he has returned.

Dr. Congdon's medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fall you, for he treats diseases that afflict both sexes.

Also Dr. Congdon's

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy is used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

☞ The Fair opens at 6 o'clock this evening; curtain rises at 7.30.

☞ There will be A Widow's Victim at the Temple, this evening.

☞ Yankee guessers can try their acuteness in many ways at the G. A. R. Fair.

☞ Fraternal Kindness, not to mention brotherly love, may or may not be seen on the Temple stage, this evening.

☞ Steamer Rattlesnake, with 500 tons of Coal for Bureau of Equipment, arrived at the Navy Yard on Wednesday.

☞ The beautiful silver Trumpet at the Fair (to be awarded to the Fire Company whose box contains the most money at the close of the Fair,) is attracting much attention. The contest for the elegant present promises to be spirited.

☞ In Boston, the day before Election, half a million dollars in taxes was paid, so that the debtors could vote. Portsmouth (and all other cities) needs a similar law, that no man can vote till his poll-tax is paid; and a betterment law, so that abutters on new streets and roads, &c., can be made to pay their proper share of the cost of improvements, which benefit themselves as well as the public, often more.

TOWN AND COUNTY FARMS.—There are rumors of two proposed movements to be made, respecting the support of paupers in this County. One is, to sell the new County Farm at Brentwood, and fall back on separate town establishments again. The other is, to sell the Portsmouth City Farm, or at least most of the land for building lots. The removal of the County paupers, leaves but few able-bodied men here liable to be of service on the farm, and if all the labor must be hired, many tax payers will think the sooner the land is sold the better, even if the buildings be retained.

☞ We have before alluded to the large collection of copper Coins gathered by Mr. Jas. F. Jenness of this city, book-keeper for Fisher & Eldredge's brewery. Among the 800 or 900, he has many rare ones, the oldest bearing date 1238. In clearing away the old buildings for Mr. Nowell's new shoe factory, Mr. Whitehouse found an old Danish coin, of Fred. 3d, date 1654, in remarkably good preservation, which he presented to Mr. Jenness. On his tablet may also be seen an imperfect, miss-stamped half cent, of 1825, which happened to pass the scrutiny of the mint. Mr. Jenness has also proved himself quite a carver in wood, as per specimens we noted at his office.

THE G. A. R. FAIR opened very successfully at the Temple, Wednesday evening. The hall was crowded with a bustling audience, bent on enjoying themselves to their utmost, and at an early hour the seats in the gallery were taken by those desirous of getting a good view of the stage performances. The decorations are very fine, tho' hardly up to public expectations, considering the amount expended on them. The tables were well filled with Fancy Articles and the Refreshments were especially well patronized. The hall was well warmed.

The Thespians presented two laughable farces during the evening, which were well received. Mr. Wm. H. Flynn made his first appearance in public in a well known song and dance, in which he delighted the audience, who insisted on an *encore*. We are glad to hear that Mr. Flynn will favor the Fairgoers with another exhibition of his eccentric dancing. The piece Female Bluebeard was a capital burlesque.

The Fair will be continued this (Thursday) evening, and the managers offer a very entertaining programme of amusements, which include among others two capital farces in which the Thespians offer the best of their entertainments thus far. "Brother Bill and Me" and "The Widow's Victim" will be interspersed with the exhibition of the Chinese Giant, the panorama adapted for this especial occasion, and the comicalties of the inimitable hunt.

The programme is a rich one and will be pleasingly carried out. Cushing's quadrille band furnishes excellent music, and we know of no entertainment offered this season which has afforded more opportunity for amusement than this; while the charitable object for which the Fair is held should be sufficient to induce our citizens to fill the hall to its utmost capacity and spend their money liberally for the good cause.

☞ Mr. J. G. Anthoine closes his Dancing School this (Thursday) evening with a social Assembly at Irving Hall. Tickets, at 50 cts. each, procurable of Mr. W. I. Trafton and at the door.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

THE JENNESS HOUSE, *Washington*.—The Washington papers state that The Jenness House, located on E street, fronting the Avenue, and adjoining the National Theatre, (the proprietors of which are Messrs. Job Jenness & Son, who are also owners and proprietors of the Ocean House, Rye Beach, and the Wauregan House, Norwich, Conn.,) has been completed, and was opened with an entertainment which proves that the proprietors understand their business. The hotel consists of the building erected some years ago, and occupied for some time as offices for the Paymaster General's Department, and a large building erected during the past season for Messrs. Jenness & Son at a cost of $30,000. As finished, the edifice is admirably adapted for its purposes, and is richly furnished throughout. The building was illuminated, and the proprietors gave a very pleasant supper to celebrate the event.

Mr. Jenness, the host, being called for, Mr. Stanton, in replying in his behalf, expressed pleasure in meeting so many gentlemen representing every branch of business and profession in the city, and trusted that his relations with the citizens would be of the most pleasant character.

NOVEL BUT EFFICIENT.—A casual visitor at one of our excellent schools was somewhat surprised, the other day, to see a boy standing on the floor, holding in his mouth a piece of lath about six inches long. Our informant gazed at the novel spectacle in wondering silence. The boy was as solemn as an owl, and his eye wandered scrutinizingly around the room, while the quiet scholars scarcely glanced at him. At length the youth called the teacher's attention to the fact that a certain scholar was whispering. The delinquent was called up and relieved the lath holder, and began looking for some one to take his place. We recommend this method to teachers troubled with noisy schools; it certainly worked to a charm in the case mentioned.—*Peoria Tran.*

PROCLAMATION.
AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual (and that is saying a good deal) of articles for
Christmas and New Year's Presents.
I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.
Therefore I would give a word of advice to one and all. Before you make your purchases for the
HOLIDAYS,
Be sure and drop in at

OFFICE OF FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 NASSAU STREET, NEW YORK,
November 8, 1869.
To Our Customers and Correspondents:
The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.
Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.
During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.
The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.
The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.
The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.
The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.
The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.
The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.
We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.
Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE
SIX PER CENT. GOLD BONDS
OF THE
WESTERN PACIFIC R. R. CO.
OF CALIFORNIA.

The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.
It is 150 miles in length, including a short branch, and it will be the
METROPOLITAN LINE
OF THE PACIFIC COAST,
connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.
It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $195,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.
The value of the property and franchises is not less than
TEN MILLIONS OF DOLLARS,
and the amount of the mortgage is
$2,800,000.
The bonds are of $1,000 each, have thirty years to run, and will be sold at
Ninety, and Accrued Interest,
in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.
The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.
The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.
Government bonds received at their full market value in exchange.
FISK & HATCH, Bankers.
We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

POPULAR DELUSIONS.—"Early to bed and early to rise, will make a man healthy, wealthy and wise," is a bit of poetry which every one has had dinned into his (or her) ears when a child, but which no child ever believed. I have often wondered what poet was author of the hymn, but could never find out. Possibly it was the famous historian, Mother Goose, whose thrilling account of the terrific combat in which "the bull did fight the bumble-bee, and scratched him in the face," so fires the schoolboy's heart as to compel him to stick pellets of chewed paper, yclept "spit-balls," all over the ceiling of the school-room, to make faces at the girls, and take marbles from boys smaller than himself by force of arms.

But wherever the couplet came from, its author used a great deal more poetry than fact in its composition; for, however benegcial plenty of sleep at regular hours may be to a person's health, people do not get wealthy by early rising. As to wisdom's being gained by getting up in the middle of the night and calling it morning, the question need not be separately considered here, —wealth and wisdom being nearly synonymous terms at the present day.

Who are they who go to bed early,—who are the early risers? The great manufacturers and merchants, bankers and railroad kings? Not much. "Office hours from 11 A. M. to 3 P. M.;" then a jollification till midnight or later, and an early start at 9 or 10 o'clock next morning: that's pretty nearly the way *they* do it. But those who are poor, and who remain poor, are they who toil by gas-light at both ends of the day; the factory operatives, who go to work long before the Lord warns them that 'tis time to commence, by sending light to work by,—the clerks and shopmen, firemen and laborers, who may make a living, but who never get rich.

Inventive genius, talent for legitimate business, ability to steal from others without offending the statute law, or even plenty of "cheek," will do much to make the possessor wealthy; but merely getting up early will not. Neither will getting up late, it is true; but if a man is never to be released from labor, still he may as well enjoy all of life he can; and to lie in bed after everybody else is up is a luxury indeed.

Getting up, in a cold room, is nearly the worst operation a man has to perform, and probably no one ever did it willingly.—*I* never did, I am sure. Going to bed is as bad; for the agonizing contact with icy sheets makes the resolution of the most determined man give way, and he rolls himself up into the smallest possible ball, holding his breath, and trembling lest any movement should bring a colder part of the bed-clothes in contact with his mortal frame and crush out what little vitality he has remaining. After such sufferings, when he has got the bed nice and warm, to ask him to get up early just because breakfast is waiting, or for any other trivial reason, is an imposition which should be resisted to the last; I always resist it.

Various expedients have been tried to make me get up early, but they have all proved miserable failures. First, an alarm-clock was placed in my room, which went off in due time, woke me and made me wish my boots were a little nearer the bed, so that I could get them to throw without getting out,—but did *not* make me get up. Now, the old clock can fire itself off as much as it likes, and not disturb anybody; a man who has a clear conscience and a talent for laying abed late can laugh to scorn all such inventions of the old Enemy. I have had to employ strategy in defence of my rights. I put my boots and a chair near my bed; when I am assailed with orders to "get up, laziness," the first time, I answer "all right;" in response to the second call I knock over the chair; and to satisfy my tormentors the third time they come, I drum gently on the floor with the bottoms of my boots.

Thus far I am victor; they have never been able to make me get up early yet; and with reason and justice on my side, I hope to remain triumphant to the end over those who would rob me of my dearest right. PAKEHA.

TO MAKE A WHITE FOOT, OR A STAR IN A HORSE'S FOREHEAD.—It is said that to take pickled mackerel and confine it on in any shape you please, three or four days repeating, it will produce a white foot, or a white spot. Rub the white saddle spots on a horse's back a few times daily in the Spring of the year, before the coat is shed, with bacon grease, and it will restore the natural color.—*Am. Stock Journal.*

It is stated that the official vote of Florida is 1162 in favor to 661 against the annexation of the western portion of the State of Alabama.

APPLICATION OF MANURE.—It is better to have manure near the surface, as the rain can reach it, and dissolve the soluble salts, and by percolation carry them down to the hungry roots of the plants. Long manure is not lost when simply turned under by the plow, but the farmer does not secure the whole value of his dressing under this mode of treatment in any case, and in some soils the loss is a most serious one. In the process of soap making, it becomes necessary to leach.

Now, the farmer will not attempt to exhaust the tub of ashes of its potash by forcing water into the bottom and dipping the liquid off the top. The natural percolating or exhausting process is downwards in accordance with the laws of gravity. The soluble alkalies and salts are driven downwards, and in the case of a leach we must have a vessel ready to receive them at the bottom, and in case of the same substance leeched from the manure, we must have the manure so placed that the plant roots will be at hand to absorb them before they pass beyond their reach.

WHAT BECOMES OF OLD SHOES?—*Cosmos* answers this question by stating that they are cut up in small pieces, and these are put for a couple of days in chloride of sulphur, which makes the leather very hard and brittle. After this is affected, the material is washed with water, dried, ground to powder, and mixed with some substance which makes the particles adhere together, as shellac, good glue, or thick solution of gum. It is then pressed into moulds, and shaped into combs, buttons, knife-handles, and many other articles.

M., arriving in Fall River 40 min. in advance of the regular Steamboat Train, which leaves Boston at 5.30 P. M., connecting at **Fall River** with the new and magnificent steamers PROVIDENCE, Capt. B. M. Simmons, and BRISTOL, Capt. W. H. Lewis These steamers are the fastest and most reliable boats on the Sound, built expressly for speed, safety and comfort. This Line connects with all the Southern Routes and Railroad Lines from New York going West and South, and convenient to the California Steamers.

"To Shippers of Freight," this Line, with its new and extensive depot accommodations in Boston, and large pier in New York, (exclusively for the business of the Line,) is supplied with facilities for freight and passenger business which cannot be surpassed. Freight always taken at low rates, and forwarded with despatch.

New York Express Freight Train leaves Boston at 1.30 P. M.; goods arrive in New York next morning about 6 A. M. Freight leaving New York reaches Boston on the following day, at 9.45 A. M.

For tickets, berths and staterooms, apply at the Company's office at No. 3 Old State House, corner of Washington and State Streets, and at old Colony and Newport Railroad Depot, corner of South and Kneeland Streets, Boston.

Steamers leave Pier No. 2, New York daily, (Sundays excepted,) from **Pier 30 North River**, foot of Chambers Street, at 4 P. M.

THE OLD STORY.

When visions of her face come o'er me,
Of her sweet face so far away,
I say what lovers said before me,
What lovers will forever say;
That flowers bloom sweeter for her being,
That birds sing sweeter for her seeing,
That grass is greener, skies more blue,
That all things take a richer hue.
Lovers have said these things before;
Lovers will say them evermore.

O sweet young love, that in all ages
Bears ever one eternal form!
With lasting youth your oldest pages
Glow ever, ever fresh and warm.
O dear old story ever young!
Poets have painted, artist sung:
Sure, naught in life is half so sweet;
Death cannot make you incomplete,
Lovers have said these things before:
Lovers will say them evermore.

DRIVING A YOUNG HORSE.—In teaching a young horse to drive well, do not hurry to see how fast he can trot. Keep each pace clear and distinct from the other, that is in walking make him walk and do not allow him to trot. While trotting, be equally careful that he keeps steady at his pace, and do not allow him to slack into a walk. The reins while driving should be kept snug; and when pushed to the top of his speed keep him well in hand that he may learn to bear well upon the bit, so that when going at a high rate of speed he can be held at his pace, but do not allow him to pull too hard, for it is not only unpleasant, but makes it often difficult to manage him.—*Am. Stock Jour.*

ONLY CHRISTIANS.—John Wesley once was troubled in regard to the disposition of the various sects, and the chances of each in reference to future happiness or punishment. A dream one night transported him in its uncertain wanderings to the gates of hell.

"Are there any Roman Catholics there?" asked the thoughtful Wesley.

"Yes," was the reply.

"Any Presbyterians?"

"Yes," again was the answer.

"Any Congregationalists?"

"Yes."

"Any Methodists?" by way of a clincher, asked the pious Wesley.

"Yes," to his great indignation, was answered.

In the mystic ways of his dream, a sudden transition, and he stood before the gates of heaven. Improving his opportunity, he again inquired:

"Are there any Roman Catholics here?"

"No," was answered.

"Any Presbyterians?"

"No."

"Any Congregationalists?"

"No."

"Any Methodists?"

"No."

"Well then," he asked, lost in wonder, "who are they inside?"

"*Christians*!" was the jubilant answer.

THE CALVES.—There is no part of the farm stock more liable to be neglected in the fall than the calves which have been raised during the summer. They are often left out late in the season, without shelter, to pick at the frozen grass, and by the time cold weather sets in, are reduced in flesh, and cannot be wintered without extra nursing, and even them one or more are often lost before the time for turning to grass.

Calves should enter upon cold weather in good condition and with vigorous health. Shelter and an abundance of nutritious food should be provided so soon as grass becomes frost-bitten and poor, and cold storms of sleet and rain begin to be frequent. They demand the finest and best hay grown on the farm, and should have in addition a little oil meal, bran, or oats. Roots will be found an excellent food for calves during the winter, in addition to the oil meal or bran above mentioned. Some prefer oats as above, but we prefer a mixture of oil meal and bran, and, if it can be had, a daily feet of turnips or carrots. Calves should be well cared for and have warm shelter.

Some object to putting calves in stanchions, preferring to let them run loose in the stable. We have never seen any ill effect from stanchioning calves, but, on the contrary, believe there are many advantages from this mode of management.

Less room is occupied when they are thus confined, and they with their stable are kept cleaner than when allowed to run loose. They are more easily fed, especially when any extra feed is given, and each one gets its share and is not driven about by master or stronger animals. By giving them a run in the yard every day they get sufficient exercise, while the early breaking to the stanchion and the haudling daily, renders them more docile and more easily managed as they grow older and come in milk.—*Am. Stock Journal.*

—In the city of London there is a church known by the name of St. Judas Iscariot. It was established about ten years ago, and is described as a sort of half-way house between the Church of Christ and the cave of Giant Despair. They have nothing in the shape of a creed, priest, or a sect, making conscience and not the Bible the supreme authority.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least renumerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopeia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operations; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being so pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obstacle. For sale by all Druggists. Price $1. o218w

A case of domestic infelicity which came near having a tragic ending, recently happened in Nashua. The Telegraph says that a woman in that town, being very jealous of her husband, made a lady from Lowell the sufferer in a little game of hair-pulling, which became so serious that the head of the family was obliged to interfere. Thereupon, his irate spouse "went for him" with a revolver, but he prudently retreated to his room and locked the door. Her blood was up, and she fired four shots through the panels, but without hitting the object of her vengeance. Frightened at what she had done, she fled the house, but her forgiving husband has since received her back, and the twain are said to dwell in peace.

At Concord, from the 5th to the 12th of January, there will be High Jinks, in which all the soldiers and politicians will participate. The Democratic State Convention is set for the 5th, the Veterans' Union for the 6th, the Republican Convention for the 7th, and the State Temperance Convention for the 12th. Whatever results may follow to participants and the public, the landlords are pretty sure to be in for a busy week.

On Tuesday, the 7th inst., the barn of Charles Perry of Pittsfield, together with ten tons of hay and fifty bushels of grain, was burned. The fire is supposed to have originated from a spark from the kitchen chimney, about 20 feet distant. The loss is about $350, and is very severe upon Mr. Perry, who is a disabled soldier, having lost an arm in front of Petersburg, in Co. H., 13th. The case is one deserving of public attention and assistance.

On Saturday, in Manchester, the body of a stout, healthy-looking man was found beside a railroad embankment, down which he had apparently fallen. The physician who examined the body thought the man was intoxicated and in that state had become frozen to death. The Union describes the deceased as well dressed, and says the body will be placed in a tomb to await identification. The Mirror says the name of the deceased is thought to be John Brennan, and his residence is given as either Lowell or Lawrence.

Mrs. S. C. Sanders, of East Concord, has made the past season from one cow, (without extra keeping) from March 12th to December 12th, two hundred and seventy-one pounds of butter, and sold one hundred and thirty-five quarts of milk, besides making a liberal use of milk in the family. Four pounds more would have made an average of one pound per day, for nine months. The cow is a Devon, and is making five pounds of butter a week at the present time.

A child named Roach, 10 years old, fell in a fit at the County Farm at Brentwood, and being near a fire was horribly burned about the face.

Correspondence of Chronicle and Gazette.

PORTLAND, ME., Dec. 14.

Messrs. Editors: — The Legislature meets Jan. 5th. Messrs. Lindsey of Somerset, Cushing of Waldo, and Bolster of Oxford County, are candidates for President of the Senate. Messrs. Foster of Waterville, Farwell of Augusta, and Whidden of Calais, are candidates for Speaker of the House. Hon. T. B. Reed, Senator from this city, (Cumberland County,) and Edwin B. Smith of Saco, are candidates for Attorney General, Hon. W. B. Frye, the present incumbent, not wishing a reelection. Adjt. Gen. B. B. Murray, jr Sec. of State F. Drew, and State Treasurer Caldwell, will probably be reelected.

The war debt assumption, school matters, railroad consolidation, revision of statutes, development of water power resources, new railroad charters, taxation of savings bank stocks and other matters will be thoroughly discussed. Hon Lot M. Morrill will be chosen Senator, in place of Fessenden, deceased. The paper credit frauds will be investigated. And so forth and so on.

The Haydn Association gave the Oratorio of St. Paul, and the Stabat Mater, last evening. The Germanias of Boston furnished the orchestra. Mrs. C. A Barry of Boston, Mrs. Wetherbee, Mrs. Mosher, Messrs, Thurston, Shaw, McMenney, and Miss L. W. Dyer, (pianist,) assisted. The chorus was numerous and effective. To-night they give miscellaneous selections and Stabat Mater. Kotzsmar is conductor and wields the baton capitally. The Haydns are a superior institution.

The Second Universalists hold a Levee at the City Hall (in aid of their new church, now building.) on the 16th and 17th. The drama "Hard Struggle" and the petite comedy "Morning Call" will be performed,—besides sales of fancy articles, promenade concerts, &c.

Geo. T. Ruby, Esq., (colored,) son of Reuben Ruby of this city, has of late years resided in Texas, and taken a prominent part in the reconstruction of that State. "Who is to be Postmaster?" is the latest conundrum. "How" it will be, a few days will determine. Some wise prophets have already decided the case, but "oncertain things are *very* doubtful." The aspirants are Judge Davis, present incumbent, W. C. How, the efficient Chief Clerk, and Geo. W. True, merchant.

Art flourishes here with commendable taste and success. J. W. C. Morrison's rooms on Congress Street, and Hale's on Free St., are visited daily by hosts of lovers of paintings, chromos and fine arts generally. Harry Brown's marine paintings, including Grand Menan, Portland Light in the recent storm, Prang's chromos and other choice gems attract crowds. Speaking of pictures, we are reminded that the large photographic views of public buildings, private dwellings and Portland Light, by H. Bucholy & Co. of Springfield, Mass., recently here, are some of the finest pictures of the kind ever taken here. J. H. Lamson & Son, Philadelphia.

Slates are being made up for city election next March, but nothing definite is yet decided on. SANCHO.

☞ The Washington correspondent of the Manchester Mirror says: "Quite a delegation from New Hampshire are just now at the St. James. Among them is Charles H. Roberts, looking after State claims; Charles H. Trickey, Esq. of Dover, with a wife just taken after long years of waiting and search (Bachelors of the Monitor, there is yet hope for you,) E. G. Pierce, jr., of Portsmouth, and Gen. Mark F. Wentworth, of Kittery foreside, who belongs to New Hampshire in the Navy Yard sense. They are all up to the New Hampshire reputation for men of size, which your delegation, Senate and House combined, has established, —of more than 5 feet 11 1-2 inches height, and 195 lbs. weight, on the average. Physically the New Hampshire delegation are not equaled, though Massachusetts is but little behind. The election of Senator Cragin to the chairmanship of the Naval Committee is a compliment both to the Senator and the State."

CONGRESS, *Thursday.*—In the Senate a debate arose on our duties toward the insurrectionary party in Cuba. Mr. Carpenter opened by calling up his resolution setting forth that the Spanish gunboats ought not to be allowed to leave New York, and supporting it by an elaborate speech. This was followed by a running debate, in which Senators Sumner, Howard, Morton and Carpenter took part.

Senator Morill of Vermont made an argument against the policy of an eight-hour law.

In the House, Mr. Kellogg of Louisiana offered a resolution, which was agreed to, directing the committee on commerce to inquire into the expediency of repealing the laws relating to the distribution of fines, forfeitures and penalties incurred under the custom laws, and also of increasing the salaries of collectors, surveyors and naval officers of the principal ports of the United States.

Mr. May of Illinois offered a resolution requesting the committee on mines and mining to investigate the causes that occasioned the late horrible accident in the Avondate mine in Pennsylvania, and, if there be power under the Constitution, to report a bill embodying such provisions as will, as far as practicable, prevent the recurrence of such accidents in coal mines; also to report on the propriety of the creation by the House of a committee to be called the "committee of public safety," whose duty it shall be to investsigate the causes of all accidents whereby human life is endangered or lost, and to recommend legislation to provide against the happening of the same, and to punish those by whose negligence or carelessness the same may be occasioned. Adopted.

WANTED, an American GIRL to take care of a child. Apply at this office.

PROPOSED AND ACCEPTED.—During the late State Fair, a gentleman of national reputation in statesmanship and in the military field, but withal a determined "old bach," was examining, with apparent interest, the great variety of sewing machines which were displayed. Passing by one after another, making particular inquiries into the merits of each, especially if a young lady was in attendance, he at length came to one which, in its mechanism and, above all, in its attendant, possessed superior attractions. He was very inquisitive. What could it do? Was it a lock-stitch? Would it work button holes? Could it hem, fell, sew gussets, and perform a dozen other things, on which the old bachelor had evidently studied?

"Yes, oh yes, perfectly," replied the young lady in attendance, who had received an intimation from a friend that her interrogator was "a single man a little advanced in life." "But," said the gentleman, "they don't seem to suit me. I want a nice little machine that will sew buttons on bachelors' clothes; where can I find one?" The young lady, with sparkling eyes, and cheeks bright as the morning, respounded "I am in the market, sir."

The reporter did not consider it modest to hear further conversation, and quietly retired. We have waited sixty days to announce the closing of the bargain.—*Manchester Mirror.*

"Bridget," said a mistress to her Irish servant, "where's the gridiron?" "And shure, ma'am, I'se just after giving it to my sister's own cousin O'Flaherty; the thing's so full of holes it's no good at all."

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dlm.

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and to such hundreds have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their unique adaptation to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Batchelor's Hair Dye.

Holloway's Ointment and Pills.—PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the diseases and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around the world are its praises told;
It will Cholera cure—scourge of southern climes,
No victim dies, who takes it betimes.
Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*twill be used again;*
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

SPECIAL NOTICES.

Keep the Circulation Active.

A free and regular circulation of the blood is essential to health. It places the whole system in a state of active defence against all unwholesome influences, and is an especial safeguard against the inimical effect of sudden changes of temperature, and of damp and cold.

If proper attention were paid to this important fact, there would not only be a great decrease in the number of cases of stomach, bowel and renal complaints, but also in the number of deaths by consumption and other pulmonary diseases.

At this period of the year, when the dividing line which separates a genial from an inclement season has just been passed, a course of HOSTETTER'S STOMACH BITTERS will be found of invaluable service in improving the condition of the vital fluid and gently stimulating its flow. Violent attacks of sickness, like intermittent fever, the frequent effects of a chilly atmosphere upon a debilitated organization. Diseases of the kidneys often proceed from the same source. How essential it is, therefore, for persons of feble constitution, to invigorate the vital organization at the commencement of Winter. Fortified by warm clothing without, and HOSTETTER'S BITTERS within, the frail and delicate may brave with impunity an amount of exposure and hardship which, under other circumstances, would prostrate them on a bed of sickness. Let them consider this and be wise in time.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and Alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an anti-bilious medicine for general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S Liver and Stomach Lozenge, will ever again take a purgative powder, or draught or pill.

NOTICE. — CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

PRINGLE BROS., 72 MAIDEN LANE, NEW YORK.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is much known on the Pacific coast, on the Lakes, and demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

Sold by PERRY DAVIS & SON, n2 GENERAL AGENTS.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its miraculative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, DR. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—quacks and knaves too—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

THE INDIAN DOCTOR HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON, THE NARRAGANSETT *INDIAN PHYSICIAN!*

Has taken Rooms At the Franklin House, Portsmouth, Where he will remain *Until December 28th.*

He treats successfully all curable diseases to which the human system is subject.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the *Most Remarkable Cures Ever Known!* and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fall you, for he treats diseases that afflict both sexes.

Also DR. CONGDON'S

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy he used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

AMERICAN COMMERCE.—One of the most significant and most encouraging features of the executive documents submitted at the opening of Congress, has to this time almost escaped notice and comment. We refer to the interest expressed by the President, and endorsed by the heads of departments whose attention has been given to the subject, in the restoration of American ocean commerce. Since the great change took place, there has been no such emphatic expression of interest among those who are in a position to do something toward restoring the national flag to its rightful place on the ocean.

"The "loss of our commerce," says the President, is the only result of our late rebellion which has not received sufficient attention from you. To this subject I call your earnest attention. I will not now suggest plans by which the object may be effected, but will, if necessary, make it the subject of a special message during the session of Congress."

In the same spirit, the Secretary of the Treasury, speaking of a report yet to be submitted from that department on the condition of our commercial marine says:—"That report will show that the navigation interests of the country have not recovered from the losses sustained during the war, and that efficient measures are necessary to their restoration."

Mr. Boutwell then speaks of the necessity of building up our ocean commerce for the sake of strengthening the country in its financial relations with other countries, and shows by familiar illustrations how the transfer of the carrying trade to foreign ships had not only made us dependent upon rival nations for the performance of business which should be in the hands of our own people, but has materially interfered with the resources on which the country must depend for the maintenance of specie payments,—when that much desired experiment shall be tried.

These familiar examples, he continues, "show the importance of reestablishing our commercial supremacy upon the ocean; and I deem it, therefore, essential to our prosperity that the shipping interests of the country be fostered, not only as a nursery for seamen, but also as an essential agency in enabling the government to institute and maintain specie payments. It is an interest also which, in its development, is as important to the States and people remote from the sea coast, as it is to the maritime sections. Every addition to our facilities for the export of the products of the interior is as advantageous to the producers as to the merchants and shipbuilders of the land."

The new Secretary of the Navy gives evidence of the intelligent interest he has also taken in the subject, by urging the same policy on the ground of the national safety. The establishment of lines of ocean-going steamers, running out of our ports in the peaceful pursuit of commercial enterprise, but carrying our own flag, and available to our government in time of need, he urges as an element of defence against danger, as effective as any which is available to wise and liberal statesmanship.

"In support of this view," says Mr. Robeson, "I call attention to the fact that there are now running from the ports of New York, Boston and Baltimore for those of Europe, over 60 powerful screw-steamers, averaging nearly 3000 tons each. These steamers, carrying the English, French and German flags, are, most of them, the results of wise liberality on the part of their respective governments; and they now absorb a very large proportion of the carrying trade across the Atlantic. Their average time in crossing, to and fro, in all weathers, is not more than eleven days. Any one of them could be quickly converted into an efficient and powerful ship of war, capable of carrying full-sail power and keeping the sea for any length of time.

Here, then, is a heavy tonnage of possible war vessels, larger than our whole navy on the 1st of January, 1868. Inducements should be held out to those who are willing to undertake it, to build steamers on plans approved by the Navy Department, subject, in case of necessity, to be taken by the government at an appraised value. Those on the route between California and Japan should be able at all times to protect themselves against pirates and privateers, and all should be of a class available in war."

This calls to mind the views of the statesmen of the First Congress, repeated by their successors in the discussions they have taken part in, and in the laws they have enacted, during much the greater part of our history as a nation, and endorsed by nearly every administration from the first to the twentieth.

It is in the line of the historical policy of our government, with which the names of the wisest men who have given and received renown by their connection with it are identified; and which must be revived if the nation is again to have just prosperity in peace, or adequate defence in war.—*Boston Advertiser.*

—Iron laths are the latest idea in building. They are made of number twenty iron, wire gauge, and one and a half inches wide, resembling one and a half inch hoop iron, with a small ridge or head in the middle to stiffen it. The laths are cut in proper lengths, and afford additional security from fire.

—A hard drinking man justified his bad habits by quoting Gen. Washington's example. "General Washington!" said one of his friends, "where did you ever hear that he drank to excess?" "Sparks says so in his life of him," answered the man; "he says that the General used to go into the woods to rum-irate for an hour."

A QUEER WEDDING.—Rev. D., a Methodist minister stationed at Meadville some years ago, one evening received a note stating that a couple living in the suburbs of the city desired to be united in the bonds of matrimony, and requested his services at nine o'clock the next morning. At the proper time he went to the house designated and entered. He inquired of a young lady who was busy washing dishes, if there was a couple there wishing to be married. "I am the lady," said she, blushing. "John will be in in a moment."

The minister was surprised to see no preparations, and stepped to the door to view the surroundings. Two men were hard at work grinding scythes in the yard, and another, who proved to be "John" was tending a cow and calf in the barn yard. The young lady came to the door pretty soon, and shouted, "John, John, harry up, the preacher's here!" John leaped the fence and rushed to the house, the girl wiped her hands on her apron, and after joining hands, said they were ready.

The minister proceeded, and had just got through questioning the young man, when the old lady rushed into the room, shouting, "John, John, you didn't turn the cow away from the calf!" John let go his sweetheart's hand instantly, and rushed to the barn-yard, put the old cow through the bars, and then returned to the house, again took up his position, when the balance of the ceremony was gone through with. The minister went on his way. John went to the hay-field and the lady resumed her dish-washing.—*Forrest (Pa.) Republican.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office Washington, under the Act of 1837,

NO. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

LOCAL AFFAIRS.

New Advertisements To-Day.

A Card—W. I. Trafton.
Holiday Presents.—J. H. Foster.
Auction—H. F. Wendell.
Wanted—a girl.

☞ Rev. Elmer Hewitt, of Dover, is to preach at the Universalist Church in this city, next Sunday.

☞ Portsmouth has a table at the Boston Young Men's Christian Association Fair held in Music Hall.

☞ The beautiful and costly Affghan to be disposed of by raffle at the Fair to-night, may be seen at Thacher's Market Square store to-day.

☞ There is no doubt but that the sale of land at Hale's Point to the Eastern Railroad, so long talked of, was completed on Thursday.

☞ No quorum in the Aldermen Thursday evening.—the first time for years when a meeting was appointed. Present only Ald. Spinney, Slater, Pender, Miller.

NAVY YARD MATTERS.—An order was issued on Thursday to the effect that hereafter when laborers are to be employed on the yard, those having honorable discharges from the service will have the preference. Good!

KEY CHECKS.—Small German Silver Checks marked with the owner's name and address, to be fastened to a bunch of keys carried in the pocket, or to watch chains, valises, trunks and numberless other articles are now being used extensively, and are very neat. Manufactured by W. H. Berry, Portsmouth.

☞ Our advertising columns tell the best places to purchase Christmas Presents for your friends,—and yourself, if you can't get anybody else to do it for you. And, by the way, a year's subscription to the Chronicle or Gazette is a good present, and will cause the donor to be remembered at least as long as it lasts.

☞ A white knit Quilt, of shell pattern, which was exhibited at the Piscataqua Fair last fall, by a lady living in a neighboring town,—has failed to be returned to the owner. Any information concerning it will be thankfully received at the Chronicle Office, and a liberal reward paid for the return of the quilt.

THE FAIR continued Thursday evening, and the Temple was filled by a very large audience. The dramatic entertainments were very laughable and the audience divided their time in laughing at the performance and applauding the performers. Taken all in all these entertainments have been the chief attraction of the Fair, and great credit is due to the managers as well as the ladies and gentlemen who have appeared on the stage.

The grand Panorama was unrolled and the eloquent lecturer hunted out the principal features for the audience, who could not "see" so plainly as he. The painting was an endless one, and would have taxed the patience of the audience had it been put before them without explanation.

Prof. Wm. H. Hunt of New Haven, who kindly volunteered for the occasion appeared in some of his comical impersonations, and excited much merriment.

Mr. Wm. H. Flynn again gave a comic song and dance, and (this time) the musicians didn't get too tired to play as long as he continued to dance. Mr. Flynn has a fortune at his heels should he ever desert his present calling, and an audience which cannot appreciate his "steps" must be too unimpressible to be amused.

The Chinese Giant was a wonderfully devel-oped "critter," in which Charlie had the best of it. He thinks that he can stand it as long as any physician in town.

The Fair closes this evening, and we cannot refrain from expressing the wishes of the public who desire (if possible) that the entertainment will be extended by the repetition of "Dunducketty's Picnic," if for no other reason than to witness Sanborn's dancing. We hope the committee will coincide with the wishes of scores of our citizens, and secure this addition to their programme for the evening.

A very interesting series of entertainments has been kept for this (the last) evening of the Fair. "A Morning Adventure," written for the occasion by Mr. Robert B. Palfrey, is first on the programme, and the ladies will introduce the "Grecian Bend," about which there has been so much secrecy thus far. The Peace Jubilee will also be in full blast, and other entertainments will fill up the closing hours. The several raffles will be announced, as well as the result of the voting on the Firemen's Trumpet.

☞ The Fair opens at 6 o'clock this evening; curtain rises at 7.30.

☞ A full attendance is requested at an adjourned meeting of the Mercantile Library Association, Saturday evening at eight o'clock.

—On Wednesday of last week an advertisment appeared in a newspaper in this city for twenty men to go South. Tuesday evening a man who gave the name of John Samuel applied at the Station House in Salem for lodging, and stated that he was a carpenter by trade and belonged in Portsmouth, N. H. He was without money, and seeing the advertisement, started on Friday last for Boston on foot, via the railroad track. He stopped that night in Ipswich, reaching Lynn on Saturday night, where he spent the night in the Station House, and on Sunday night reached Boston, where he stopped at Station Two. Tuesday he applied at the American House, where the advertiser was to be, but ascertained that no such person was or had been there, and he was forced to wend his way back again, arriving at Salem at about 8 o'clock P. M., having, as he stated, walked the whole distance on the road-bed. He was kindly cared for by Assistant Marshal Dalrymple, who gave him the best treatment he could, for which he felt very grateful.—*Boston Journal.*

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

☞ Wheeler's patent anti-snowball Pad, is a rubber sole to put in the foot of a horse, to keep him from balling up. It is removable at pleasure, and a very neat contrivance. Chas. L. Wheeler patentee, No. 3 Custom House St., Boston. $1.50 per pair; for sale by saddlers and hardware dealers.

PROCLAMATION.
AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual (and that is saying a good deal) of articles for
Christmas and New Year's Presents.
I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.
Therefore I would give a word of advice to one and all. Before you make your purchases for the
HOLIDAYS,
Be sure and drop in at

OFFICE OF FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 NASSAU STREET, NEW YORK,
November 8, 1869.
To Our Customers and Correspondents:
The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.
Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.
During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.
The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.
The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.
The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.
The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.
The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.
The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.
We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.
Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:
FIRST MORTGAGE
SIX PER CENT. GOLD BONDS
OF THE
WESTERN PACIFIC R. R. CO.
OF CALIFORNIA.
The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.
It is 150 miles in length, including a short branch, and it will be the
METROPOLITAN LINE
OF THE PACIFIC COAST,
connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.
It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.
The value of the property and franchises is not less than
TEN MILLIONS OF DOLLARS,
and the amount of the mortgage is
$2,800,000.
The bonds are of $1,000 each, have thirty years to run, and will be sold at
Ninety, and Accrued Interest,
in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.
The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.
The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.
Government bonds received at their full market value in exchange.
FISK & HATCH, Bankers.
We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

COUGHS, INFLUENZA,
SORE THROAT, COLDS, WHOOPING COUGH, CROUP, LIVER COMPLAINT, BRONCHITIS, ASTHMA, BLEEDING OF LUNGS, and every affection of the THROAT, LUNGS and CHEST, are speedily and permanently cured by the use of
WISTAR'S BALSAM
Of Wild Cherry.
This well known preparation does not dry up a cough and leave the cause behind, as is the case with most medicines, but it loosens and cleanses the lungs and allays irritation, thus removing the cause of the complaint.
CONSUMPTION CAN BE CURED
by a timely resort to this standard remedy, as is proved by hundreds of testimonials received by the proprietors.

A WORD OR TWO ABOUT BED COVERING.—People are often 'short' in that golden product called common sense—and in relation to nothing more than bed-covering. What one sleeps under has a vital connection with the health; and many a day is made miserable just as the sleep of the preceding night has been beneath proper or improper clothing. A proper writer has the following:—

"Three-fourths of the bed-covering of our people consist of what are miscalled 'comfortables,' viz: two calico cloths, with glazed cotton wadding laid between and quilted in.

The perfection of dress, for day or night, where warmth is the purpose, is that which confines around the body sufficient of its own warmth, while it allows escape to the rest. Where the body is allowed to bathe protractedly in its own vapor, we must expect an unhealthy action upon the skin. Where there is too little ventilating escape, what is called insensible perspiration is checked, and something analagous to fever supervenes. Foul tongue in taste, and lack of morning appetite, betrays the error. In all cases the temper suffers, and 'my dear, this is execrable coffee,' is probably the morning salutation.

How much is the rosy health of poor children due to the air-leaking bed-rooms of their parents—and what a generator of pale faces is a close chamber!

To be healthy and happy, provide your bed with the lightest and most porous blankets, the finer the better. The cheapest in price and the dearest in health. 'Comfortables' are uncomfortable and unhealthy. Cotton, if it could be made equally porous and keep so, we should prefer to wool. The same for daily underclothes. But more than all else, let your chamber be well ventilated. Knock in a hole somewhere to give your escaping breath exit, and another to give fresh air to your lungs in place of what they have expired. So shall you have pleasant dreams at night, and in the morning, cheerful rising, sweet breath, and a good appetite. These blessings combined, will secure to healthful parents a household of bright rosy-cheeked memorials of rich and fruitful affection."

—"Good morrow, Mrs. Fogarty."

"Then, good morrow, kindly, Judy. I hope I see you well this morning."

"So, Mrs. Fogarty, you married your daughter."

"I did, praise be to goodness."

"Did she get a good match?"

"Faix, them, 'tis herself that did. Didn't she get blind Mike, that makes more money than any three beggars in Cork?"

"I'm delighted to hear it, Mrs. Fogarty, I assure you. That the world may wonder at the luck the'll have! Did you give her any fortune?"

"Any fortune, is it? Ah! then, now, Judy, is it after insulting me you'd be? Sure you know in your heart that child of mine was never married without it. Didn't I give her the best side of Quincy street, which, if well begged, is worth seven and sixpence a week?"

INTERESTING FACTS.—The recent surveys of the Wolfeborough and Conway Railroad have disclosed some curious facts, among which the following are noted. Lake Winnepiseogee is 27 feet higher than the depot at Union. Smith's Pond is 29 feet higher than the Lake. The summit between Wolfeborough Center and Water Village is 356 feet higher than the Lake. Six Mile Pond, near West Ossipee, is 42 feet lower than is the Lake. Saco River, between Conway Corner and North Conway, is 62 feet lower than the Lake, and 15 feet lower than Union depot. North Conway is 15 feet higher than the Lake. Cook's Pond, in Brookfield, is 148 feet higher than the Lake.—*Wolfeboro' News.*

—"Is your master up?" asked an early visitor of the marquis of Blandford's valet. "Yes, sir," rejoined the fellow with great innocence, "the butler and I *carried him up* about three o'clock."

Josh Billings was sick with the catarrhal fever.

The latest remedy for dyspepsia is popped corn.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale vastly much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $60. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopœia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operation; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obstacle. For sale by all Druggists. Price $1. o215w

A Beautiful Lamp.—The German Study Lamp introduced into this city by Wm. B. Preston gives great satisfaction to those who have given it a trial. The light is brilliant, steady and soft, and for reading or sewing is preferable to gas. The cost is far less than any other light of equal power and any quality of kerosene can be burned without smell, smoke or flicker. It is perfectly safe and is the most ornamental lamp in use. A familiar acquaintance with this lamp for more than two years enables us to speak decidedly of its merits.

In committee of the whole, Mr. Mungen of Kentucky advocated repudiation of the public debt. There was perceptible uneasiness all over the democratic side while he spoke and as soon as he had finished his party friends jumped for the floor in order to repudiate him. Mr. Garfield of Ohio by unanimous consent, moved that the committee report to the House the following resolution:—

Resolved, That a proposition, direct or indirect, to repudiate any portion of the debt of the United States, is unworthy of the honor and good name of the nation, and that the House, without distinction of party, hereby sets its seal of condemnation on any and all such propositions.

Passed; yeas 123, nays 1.

City Mission.—We are glad of the opportunity to lay before our readers the brief but pertinent remarks of ex-Mayor Simes, at the anniversary meeting of the Portsmouth City Mission,—commending and endorsing this perhaps most important of our charitable institutions, to the public:—

Mr. Chairman, I am much pleased with the report of our City Missionary. In the two years I was connected with the City Government, I had occasion to see and know much of the workings of the City Mission, and became much interested in it.

I remember about the first call I had to dispense charity for the city. I gave the person what I thought proper; but the next day, upon reflection, I had some doubts about my applicant's being deserving. I called on Mr. Medbury, and soon found I had made a mistake. After that I made it a rule, if I was not acquainted with the applicant, to call on Mr. M. for information. If he did not know, he would at once make the necessary inquiries and report. Here comes in the great benefit of a City Missionary.

I made frequent visits with Mr. M., and found cases of misery and want which I never thought existed in this city. The truth is, our City Missionary is a very modest man—never talks about himself; and you can have no idea of his labors, from hearing his report. I am surprised to learn from the report, how few garments were sent to the Mission room for distribution. I would recommend to housekeepers, at their earliest opportunity, to look into their clothes-presses, and they will no doubt find quantities of clothing which is not worth much to them; but if put into the hands of our Missionary, will be distributed and do much good to the poor. I have great confidence in his judgment in the distribution of whatever may be placed in his hands for that purpose.

The Directors of the Mission concluded to make the salary of our missionary eight hundred dollars, which they thought a small compensation for his arduous duties, but could not do any more, for the want of funds. A gentleman asked me what I thought of the City Mission—paying Eight Hundred Dollars to distribute one Hundred and Fifty? I told him it was not so. I hope the gentleman is present, for I think he will be satisfied from the report, that there is much labor done, and more money distributed, than he was aware of. I remain strong in the belief that the mission ought to be sustained—and equally strong in the belief that it will be.

William Simes.

Demand for Laborers in Virginia. A letter from Virginia states that the demand for negro labor in the far South increases, and gentlemen are now in various parts of Virginia hiring hands for their plantations in Mississippi and Louisiana. There are also agents there for whole communities of planters in the Gulf States. In Richmond a labor agent advertises for negroes by thousands at from $15 to $22.50 per month, and some offering in addition separate houses, rations, garden patches, privilege to raise pigs, fowls, &c., and free transportation by rail. All of these hands are for the cotton and cane plantation.

Holding Non-productive Lands Unprofitable.—The greed for the acquisition of land is a serious bar to progress in farm improvement. The aim of the pioneer has been, not to become a good farmer, but a holder of broad acres—to grow more wheat, to buy more land. The result is a sparse settlement, poor roads, straw stables, few farm improvements, and a slow advance in prices of real estate after the first sudden rise in values. It is a dangerous fallacy that non-productive farm lands are profitable. Excepting only a brief period of frontier development and proximity to rising cities, the cause which influence the advance of prices of such lands can never swell the coffers of capital like the wonderful accumulating power of compound interest. The table, showing the increase of the assessed valuation of farms between 1850 and 1860, a period of great agricultural activity and almost unexampled advance in prices of farm lands, points to the folly of expecting to realize wealth from the soil, except by its judicious cultivation. — *U. S. Com. of Agr.*

Demorest's Monthly, for January 1870, is a splendid illustrated number, with many literary attractions.

The Old Franklin Almanac, for 1870, is published by A. Winch, Philadelphia, price 50 cents. It is a repository of much valuable and curious information.

The New England Historical & Genealogical Journal for Jan., 1870, has a paper on the Action of Deerfield, N. H., in 1776, on the question of armed resistance to the Crown.

—A young man named Charles Lucy, a Frenchman, was run over by the express freight train Wednesday night, at Grosvenordale, on the Norwich and Worcester railroad, and killed. He was lying on the track drunk. He was 21 years old.

SPECIAL NOTICES.

A Great Story.—In another part of our paper will be found the opening chapters of a charming story, bearing the attractive title of "Buffalo Bill, the King of the Border Men." It is one of the most thrillingly exciting and interesting romances which we have ever read; and the lovers of romance will miss a rich treat if they neglect to peruse it. One of its chief attractions is, that its hero is not a myth, but a real flesh and blood character, who is even now fighting the savages on the western plains.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ a healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

In Remote Settlements of Untod Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the source thus better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Holloway's Ointment and Pills.—Piles.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of Holloway's Ointment. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of this disease and when this happens, it should be relieved with small doses of Holloway's Pills. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around the world are its praises told;
It will Cholera cure—scourge of southern climes,
No victim dies, who takes it betimes.
Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*'twill be used again*;
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you*.

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

SPECIAL NOTICES.

Keep the Circulation Active.

A free and regular circulation of the blood is essential to health. It places the whole system in a state of active defance against all unwholesome influences, and is an especial safeguard against the baneful effect of sudden changes of temperature, and of damp and cold.

If proper attention were paid to this important fact, there would not only be a great decrease in the number of cases of stomach, bowel and renal complaints, but also in the number of deaths by consumption and other pulmonary diseases.

At this period of the year, when the dividing line which separates a genial from an inclement season has just been passed, a course of HOSTETTER'S STOMACH BITTERS will be found of invaluable service in improving the condition of the vital fluid and gently stimulating its flow. Violent coughs and colds, like intermittent fever, the frequent effects of a chilly atmosphere upon a debilitated organization. Diseases of the kidneys often proceed from the same source. How essential it is, therefore, for persons of feble constitution, to invigorate the vital organization on the commencement of Winter. Fortified by warm clothing without, and HOSTETTER'S BITTERS within, the frail and delicate may brave with impunity an amount of exposure and hardship which, under other circumstances, would prostrate them on a bed of sickness. Let them consider this and be wise in time.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been realized. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous specific is the main ingredient. More than

One thousand experiments

were made by the inventor of this perfect remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been completely masked by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the peculiar sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge**, will ever again take a pill, any powder, or Cathartic or pill.

NOTICE. — Circulars and Show Cards sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

PRINGLE BROS.,

72 Maiden Lane, New York.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—North, East, South and West. No other medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento, California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

Port Burwell, March 23d, 1869.

Messrs. PERRY DAVIS & SON.

Gentlemen,—I am pleased to notify you of the benefit which I have received from Allen's Lung Balsam; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

Capt. Foster is a ship owner and builder, residing at Port Burwell, Canada.

Sold by PERRY DAVIS & SON,

GENERAL AGENTS.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful curse, rare and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

DEADLY MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison*. They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a dressing, adds like a charm on the Hair after Dyeing. Try it. 1md&wo4

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in 1 of Dr. Young's books and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

THE INDIAN DOCTOR

Has returned!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,

THE NARRAGANSETT

INDIAN PHYSICIAN!

Has taken Rooms

At the Franklin House, Portsmouth,

Where he will remain

Until December 28th,

He treats successfully all curable diseases to which the human system is subject.

Dr. Congdon was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

Dr. Congdon's medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fail you, for he treats diseases that afflict both sexes.

Also Dr. Congdon's

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy he used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

Special Notice—T. E. Moseley & Co.

☞ Auction of Furniture, &c., by Mr. Wendell this morning.

☞ Mr. G. W. S. Putnam, of York, has been appointed a Writer in the Bureau of Construction at the Navy Yard.

☞ Divine services at the Navy Yard Chapel, every Sunday morning at half-past 10. The church boat leaves Portsmouth landing at 10:15; returns at 11:45. The public are respectfully invited.

☞ The beautiful new stage Scenery recently painted for the Temple, by Mr. T. P. Moses, and used for the first time at the Fair, was very much admired,—and deservedly so, for the designs are fine, and the details very nicely wrought out. Mr. Moses is a good deal of an artist, and an extra nice mechanic also.

☞ Mr. G. W. Haven's lecture on labor and capital, before the Mercantile Library Association, was well received by a highly respectable audience. Of course, little that is new can be expected on so trite a subject; but Mr. Haven always evinces, in lecturing on his favorite topic of political economy, that he has thoroughly studied the theories of the best standard writers.

☞ Mr. Wm. H. Caswell of this city reports that as he was returning home from smelting, Thursday evening, walking on the Concord Railroad, he found lying across the tracks a large limb of a tree, evidently designed to do mischief to the coming train,—which he removed from the rails. It lay about half way between the Creek and Plains bridges, and entirely apart from any tree or crossing.

☞ Prominent among the donations to the Fair, was the beautiful sleepy-hollow Chair, generously presented by Mr. Geo. H. Hooper, (firm of Beal & Hooper,) now of Boston, — but who never forgets to remember, in his great prosperity, that his boyhood was spent in old Portsmouth. This chair was much admired, both for the neatness of its manufacture, and the rich embroidery,—which last was from the deft needle of Miss Myers.

Miss A. E. Adams also shew her well known skill and enterprise, in the superb Affghan, knit and embroidered by herself and mother in their spare hours during the short space of two weeks. For this, nearly 10 lbs. of worsted yarns were used, the cost of which material was nearly $60.

The stylish and dressy Doll of Mrs. E. B. Goodall, found quick market; and though fate bestowed her upon a lady unfortunately not in that line of business—yet *she* had the good sense to turn her miniature ladyship over to a gentleman who possesses some of the real crying dolls.

The chair worked by Miss Payson, sofa cushion by Miss Holbrook, the quilt, and numerous other attractions, we did not intend to make a full list of.

THE GRAND ARMY FAIR closed Friday evening, there being a large attendance. Mr. Robert B. Palfrey's new farce entitled "A Morning's Adventure" was capitally played, and is creditable to its author, who possesses rare talent for the drama. His imitations as Jere. Clip in "The Widow's Victim," the previous evening, were admirable, and in "Brother Bill and Me" his capital representation of "Ben," and Sanborn's ludicrous "A. Noodle" convulsed the audience with laughter.

The entertainment furnished by the ladies ("A Grecian Bend") wound up most creditably the series of entertainments. The seven young ladies who managed it from its inception to its public representation, may well feel flattered at their success.

The programme of Thursday evening was too long, and a tired audience annoyed the performers in the last farce, by talking loudly and bustling about. The wonder is that the ladies and gentlemen on the stage were not disconcerted by the confusion, and we are certain that those who wished to hear, were much annoyed by those who did not keep quiet.

We are compelled to mention the strange neglect (which might have been criminal) which obliged the large audience to make their exit through the main entrance, when the door on Warren Street and the one at the rear of the stage should have been thrown wide open at the close of the performances. Had there been a real or false alarm of fire great loss of life must have ensued. As it was, there was a constant jam from the gallery and the lower floor to the only exit for a full half hour.

UNRULY BOYS disturb the denizens in the vicinity of Dover, Islington and Cabot Streets, by throwing snow-balls against the houses, and through window panes. Will Marshal Johnson please attend to them?

☞ Mr. Charles W. Gerrish of this city is passing the winter with his relative, Mr. O. F. Gerrish, at Port Townsend, Washington Territory,—to get rid of cold weather, as he says. He writes that it is not a good place for tailors, as overcoats are not needed. Although about 300 miles north of us, garden flowers can be plucked up to New Year's, four inches of frost is considered excessive, and Spring opens early.

We have received a copy of the Alaska Times, published at Sitka, A. T., weekly, at the comfortable price of $5 per year. It is a little less in size than our Chronicle, and well filled with advertisements, largely those of hotels and saloons. O. F. Gerrish & Co. have a card as commission merchants at Port Townsend.

The Times announces an election for Mayor, &c., of Sitka, and calls for civil government, instead of military rule. They are now to have a daily mail from Port Townsend. They quote greenbacks at so much below par, instead of gold so much above, as we do. The Times is severe on Gen. Thomas, for his report on Alaska Territory, which subject they say he does not understand, not having investigated. Among other modern improvements, Sitka has got a brewery.

—There is said to be a hitch in the arrangements for the State Temperance Convention, there being disagreement in the committee to issue the call, which consists of Rev. Dr. Barrows, Frederick S. Crawford and Col. H. D. Pierce. Mr. Crawford thinks that the convention should consider, in the first place, the propriety of forming a new party, while the other members of the committee think that question has been settled and the only duty of the convention is to nominate an independent ticket.—*Manchester Mirror.*

The majority (two) of the Committee can call the Convention undoubtedly:—but when it comes together, it may possibly appear that *duty* as well as *wisdom* points another way.

The Concord Statesmen, however, contains the Call, signed by all three of the committee-men for a Political Temperance Convention to be held at Concord, Jan. 12, 1870, at 10 1-2 o'clock.

The New England Historical and Genealogical Register for January is the first number of the 24th Volume of this valuable publication, and contains many interesting papers suited to its peculiar field of investigation. Publication office, No. 17 Bromfield St. Boston price $8.00 per annum.

PROCLAMATION.
AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual (and that is saying a good deal) of articles for
Christmas and New Year's Presents.
I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.
Therefore I would give a word of advice to one and all. Before you make your purchases for the
HOLIDAYS,
Be sure and drop in at

OFFICE OF FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 NASSAU STREET, NEW YORK,
November 8, 1869.
To Our Customers and Correspondents:
The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.
Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.
During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.
The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.
The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.
The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.
The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.
The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.
The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.
We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.
Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:
FIRST MORTGAGE
SIX PER CENT. GOLD BONDS

WESTERN PACIFIC R. R. CO.
OF CALIFORNIA.
The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.
It is 150 miles in length, including a short branch, and it will be the
METROPOLITAN LINE
OF THE PACIFIC COAST,
connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and incentive local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.
It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $165,000 in coin. The net earnings will, by a moderate estimate, amount to $650,000 per annum, in coin, while the interest on its Bonds will be but $168,000.
The value of the property and franchises is not less than
TEN MILLIONS OF DOLLARS,
and the amount of the mortgage is
$2,800,000.
The bonds are of $1,000 each, have thirty years to run, and will be sold at
Ninety, and Accrued Interest,
in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.
The near approach of the time when the United States can probably fund the greater portion of its 5-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.
The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.
Government bonds received at their full market value in exchange.
FISK & HATCH, Bankers.
We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

Only Once! and No, Not Once!

"Only once," the tempter said, with smiling lip.
Tempted thus, the young man took the fatal sip:
And time passed on. Hush! gently tread;
Death guards this night the drunkard's bed!

"Only once," the tempter said, with winning voice,
Seizing the box, the young man threw the rattling dice;
And time passed on. What can earth have
More sad than this—a gambler's grave?

"No, not once," the young man said, and, rising up,
Wavering not, he pushed aside the sparkling cup:
And time passed on. No nobler fame
Has earth than his—an honored name.

"No, not once," the youth exclaimed, and turned away.
Others filled his place, and joined the exciting play:
And time passed on. How lived that boy?
A father's pride, a mother's joy!

The first Congregational Society of Wolfeborough has adopted "the one sermon system" with most joyous results as to attendance and interest.

The Newmarket Cornet Band netted $87 at two levees recently held. The heart of the leader has been deeply rejoiced by the receipt of $75 of it from the Band.

G. H. & H. G. Clark of Hillsborough have made seven hundred and eighty-five barrels of cider this year.

At the Concord Police Court held the 14th, Judge Dana presiding, Willie Sheehan and Fred Drew were tried for stealing six sheepskins from the cars on the track of the Concord Railroad on the 12th. In spite of Willie's open countenance, Judge Dana gave him four years in the Reform School, and Drew one year. They are both young boys, but one of them is an old thief.

In a Methodist Sewing Circle, at Nashua, Dec. 8, at the close of the meeting, the minister, "Mr. Canoll, turned to Mr. Rodney W. Eaton and Miss Sarah L. McFarland, who 'happened' to be standing together inside the circle, and said: 'If resolved faithfully to fulfil the duties so resting upon you each, and in the name of the father, Son, and Holy Ghost, you do now receive each other as husband and wife together, I pronounce that you will have consummated your marriage union in now joining your right hands.' The couple joined hands and the pastor responded 'Amen,' and the twain became one."

Mr. Barney Griffith's horse, stolen from Keene, was found in a piece of woods in Swanzey.

Mr. E. O. Foss of Dover has issued the first number of his Local Record newspaper. Monthly, 50 cts. a year. Will be supported largely by Life Insurance and other assurance.

Henry Bly, a loafer, broke into the depot at Epping on the 12th, and confiscated an express package containing $58, besides a lot of tickets. This fellow was caught with the property upon his person.

On the 14th, in Lake Village, a young lady aged seventeen years, named Cora Hopkinson, fell between the sleepers of the railroad bridge into the water. She went under but once and remained on top of the water till taken out, half an hour after her fall, when she was dead, not from drowning, but from the fall and the icy water. Miss H. had been skating; she belonged in Vermont and had been in Lake Village but a short time.

The man found dead in Manchester proves to be a Scotchman, John Davis. It seems that he left Nashua, where he has a brother, and got drunk in Manchester. While in this condition he wandered across a railroad bridge, where a sober man would have broken his neck, and falling down a bank, was unable to gain the track again.

The Statesman advises Rev. Mr. Canoll, "before he originates any more peculiar forms of marriage, to take his dictionary and study out the exact meaning of the long words he proposes to use." Mr. Canoll is the Methodist minister who lately married a couple at a Sewing Circle in Nashua.—and told them they had *consummated* their marriage by joining hands.

"Barkis is willin." Gen. Bedel says he will run again on the Democratic ticket if wanted.

The Nashua Gazette says the new temperance party presents a golden opportunity to the Democracy.

The Engineering & Mining Journal is now a large magazine, with much good matter and many advertisements.

NED BUNTLINE'S GREAT STORY!

THE GRFAT LIVING SCOUT!

BUFFALO BILL.

THE KING OF BORDER MEN!

The Wildest Truest Story Ned Buntline ever Wrote.

An oasis of green wood on a Kansas prairie—a bright stream shining like liquid silver in the moonlight—a log house built under the limbs of great trees—within this humble home a happy group. This is my first picture.

Look well on the leading figure in that group. You will see him but this once, yet on his sad fate hinges all the wild and fearful realities which are to follow, drawn to a very great extent, not from imagination but from life itself.

A noble looking, white-haired man sits by a rough table, reading the Bible aloud. On stools by his feet sit two beautiful little girls, his twin daughters, not more than ten years of age, while a noble boy of twelve or thirteen stands by the back of the chair where sits the handsome yet matronly looking mother.

It is the hour for family prayer before retiring for the night, and Mr. Cody the Christian, always remembers it in the heart of his dear home.

He closes the holy book and is about to kneel and ask heaven to bless and protect him and his dear ones.

Hark! The sound of horses galloping with mad speed toward his house falls upon his ear.

"Is it possible there is another Indian alarm?" he asks inquiringly.

Alas, worse than red savages are riding in hot haste toward that door.

"Hallo—the house!" is shouted loudly, as a large cavalcade of horsemen halt before the door.

"What is wanted, and who are yet" asked the good man, as he threw wide open the door and stood upon its threshold.

"You are wanted you black-hearted nigger-worshipper, and I—Colonel M'Kandlas—have come to fetch you! And there's the warrant!"

As the ruffian leader of the band shouted these words the pistol already in his hand was raised, leveled, fired, and the father, husband and Christian, fell dead before his horror-stricken family.

"If them gells were a little older—but never mind boys, this will be a lesson for the sneaks that come upon the Border—let's be off, for there's plenty more work to do before dark, right!" continued the wretch, turning the head of his horse to ride away.

"Stop!"

It was but a single word—spoken too, by a boy whose blue eyes shone wildly in a face as white as new-fallen snow and full as cold—spoken as he stood erect over the body of his dead father, weaponless and alone.

Yet that ruffian, aye, and all his mad reckless crew, stopped as if a mighty spell was laid upon them.

"You, Jake M'Kandlas, have murdered my father! You, base cowards who saw him do this dark deed, and spoke no word to restrain him. I am only Little Bill, his son, but as God in Heaven hears me now, I will kill every father's son of you before the beard grows on my face!"

Gamer the little rooster crow. He'll fight when his spurs grow if we don't cut his comb now," cried the leader, with a mocking laugh and he raised his pistol once more.

"Monster, you have robbed me of a husband; you shall not kill my boy," shrieked the mother as she sprang forward and drew her son up to her own bosom.

"Colonel there's a big gang of men comin' over the prairie. We'd better git," cried a scout tiding in at this moment.

"Aye! For I don't want to kill a woman if I can help it. Column to the right, boys and follow me."

In a minute, at full speed the party dashed away after their leader, and the wretched family were left alone with the dead.

Frozen with terror and awe, the beautiful twins Lillie and Lottie, crept out to the doorway where their mother and brother knelt over the stiffening form of him who had been so good and kind—their dear father.

Oh, what a picture! Grief was still. Not sob, nor tear, not even a moan arose. They were dumb with agony—paralyzed with a sense of utter bereavement.

* * * * * * *

It is now 1861. The log house has disappeared, but in the same noble grove a pretty white cottage is seen. Barns and haystacks all tell a story of good farming and profitable results.

On the embowered porch of this cottage sits the widow, still in her mourning garb, worn for him whose death we have already pictured and near her stand two lovely girls—Lillie and Lottie, now in the early bloom of beautiful womanhood.

They look alike, are dressed alike and are exceedingly beautiful.

Lillie held a letter in her hand which the mounted mail carrier had left as he swept by.

"Oh mamma, mamma! brother is coming home! He says he will be here before the sun sets on the twenty-fifth! The letter is from Fort Kearney, and has been long in coming."

"Is not to-day the twenty-fifth?" asked Lottie.

"To be sure it is, and he will be here. Our William is wild, but he never tells a falsehood. He is too proud for that! Heaven bless him! said the mother, in a low, earnest tone.

"He is not coming alone," said Lillie. He brings two friends with him."

"It lacks scarce a half hour of sunset," said the mother.

At the same instant Lillie, who had been glancing through an avenue which led westward in the grove, cried out:

"They are coming! They are coming!"

And three minutes later, their horses frothy and hot, three riders at full speed dashed up to the gate fronting the cottage.

"Oh brother! brother!" cried the two sisters joyously, and all doubts of the stranger eyes now looking on them, they rushed out to embrace and kiss him.

Buffalo Bill, for this was he, had learned to hide all his feelings, but with a gentle tenderness he shook himself out of their embraces, and presenting his two friends by name, hurried on to greet the dear mother who, with glistening eyes, waited to greet her idol and her pride.

"My good mother!" was all he said, as he pressed his manly lips to her white forehead.

"My dear son!" was all she said, but pages would not describe the reverence in his tone or the undying love in her look.

Bill now presented his friends in more form to his mother than he had deemed it necessary in case of his sisters.

"This, mother," said he, presenting a young man who in form and appearance resembled himself very closely, though he was an inch taller and hardly so muscular, 'this is my mate—this is Bill Hitchcock, the best friend I ever had, or ever will have outside of our own family. Three times has he saved me from being wiped out. Once by the Ogallalas, once when I was taken with the cramps in the ice cold Platte, last winter—and once when old Jake M'Kandlas and his gang had a sure set on me. He and I will sink or swim in the same river, and that's a safe bet. Bill that's my mother and a better never trod the footstool!"

Wild Bill, with a natural grace, bent his proud head and took the hand of the lady, saying, in a tremulous tone:

"I'm glad to see you ma'am, for I've got a good old mother that I have'nt seen this many a day, and this rather brings her up afore me!"

This is the *nom de plume* of Wm. F. Cody, the greatest hunter, guide and scout in the world, now employed in that capacity in Gen. Argur's Department, and a great favorite with Generals Custer and Sheridan. A man who has killed sixty-nine buffaloes in one days hunt, has earned the name I think.

"And this other," continued Bill, "is Dave Tutt. He is good on a hunt, death on the reds and as smart as border-men are made now-a-days. Now boys you're all acquainted, make yourselves at home. The darkey out there has got the horses, and he'll see them all right."

Three more perfect men in point of personal beauty, never trod the earth.

Wild Bill six feet and one inch in hight, straight as ash, broad in shoulder, round and full in chest, slender in the waist, swelling out in muscular proportions at hips and thighs with tapering limbs, small hands and feet, his form was a "study." His face, open and clean, had regular features, the nose slightly aquiline, his large bright eyes, now soft and tender in expression, were a bluish gray in color, shaded by lashes which often drooped over his bronzed cheek as he looked down, somewhat confused in female society, to which he was unused. His long brown hair fell in wavy masses over his shoulders, but it was fine soft and glossy as silk.

The same picture will do for Buffalo Bill, only the difference noted. The eyes of the latter were nearer a blue in color, his hight one inch less, and his hair a little more wavy and a shade lighter.

Dave Tutt, nearly of the same hight, was equally well formed, but there the resemblance ceased.

His eyes were black as jet and deeply set, though his features were perfect, and when he chose, his expression was soft and winning. His hair curling slightly was black and glossy. But with all his beauty, there was a sensual expression about his mouth so utterly different from that of the other two, and a fierce passionate longing in his eyes, which made the two girls instinctive in their purity, shrink from him.

After supper the reunited family and their guests were cosily seated in the sitting room when Mrs. Cody, whose face was turned toward the window, screamed out in sudden terror, and rose to her feet with a face so deathly pale it seemed as if she were death stricken.

"What is it mother?" cried Bill springing to her side.

"The window—*he* was there!" she gasped, and then she swooned away.

"Hel! Girls look out for mother! I'll see what he was at the window!" cried Bill, and he sprang to the open casement.

As he did so, a bullet whistled past his ear and struck the opposite wall, while a hundred yells proclaimed that Indians had surrounded the house.

Wild Bill, cool and collected, instantly blew out the lights, exclaiming:

"Darkness here and moonlight out that! We'll be all right in a shake. Jump for your tools boys, mine's handy! Gals, lay low out o' range. we'll soon let the reds know old hands are here."

The three young men, reinforced by three negroes and one white man, the farm hands were ready for work in less than a minute, and as the Indians did not seem disposed to make a rush for the inside of the house, creep quickly to points where from the doors and windows they could pick the fiends out from their coverts among the trees around.

Mean time the twins had succeeded in restoring the mother to consciousness, and to the hurried inquiry of her son as to whom she had seen at the window, replied that she had recognized the face of Jake M' Kandlas, the murderer of her husband, glaring in with a look so full of hate and vindictive cruelty that she was completely horror stricken.

"There's too many reds out there, or I'd make a rush and settle his hash!" said her son. "If he'll only stay till we thin 'em down a few, I'll accommodate him with a private entertainment. Look out for yourselves, girls, the boys are aiming from Jessie, and it about time my hand was in!"

A rapid firing had been going on from the moment Wild Bill got to the door, the Indians shooting at random, for all in the house, was dark except the flash of the guns, but every now and then a yell of agony told that the attacking party were not going unpunished.

They could only be seen as they sprang from tree to tree for cover, but their terrible yells ringing through the air, told that in numbers they were at least ten to one of the defending party.

"What's the stock? Won't they try to run that off?' asked Wild Bill, as his mate, standing by his side, sent a Red to eternity with a shot from his favorite long rifle.

'I expect they will. I would almost as soon lose my hair as to lose Powder Face, for the insect has carried me through more bad scrapes than I've time to count,' said Buffalo Bill, referring to his favorite horse.

'And I will lose my hair afore I'll lose Black Nell, for she has never deserted me. She kick the life out any Red that tries to mount her. But can't we get to the horses?'

'Wait till I give Dave and the boys in here their orders, and then you an' me will get to the horses and come in on 'em like as if we we were fresh hands in the fight.'

'That's the talk, Bill—that's the talk. Only let me and Black Nell and you and Powder Face give 'em a charge in the rear and they're gone in!'

'Pepper into 'em then, till I tell the boys here where we're goin,' so they'll be kerful how to shoot when we're a comin.'

Buffalo Bill now hurriedly told Dave Tutt and the men, who were firing at everything they saw move among the trees, what he and Wild Bill intended to do. The girls and his mother were to know nothing of it till it was all over, for the two Bills felt as sure of driving off the foe by their plan as if they were already in full chase of them.

Dave Tutt did not express any wish to go along, which rather surprised Buffalo Bill, for it was a duty that brave men would surely court. But there was a reason for this, as there is indeed for everything, as the reader will learn by and by.

The two friends, carrying their arms and bending low in the shadow of the garden bushes, crept away from the house until they reached a grain-field beyond the trees, into which they moved swiftly. They had but a little distance now to go to reach the stock pasture, and they got to the last in the very nick of time.

A half-dozen dusky figures were already there, and the horses, disturbed by the firing, were very uneasy as these advanced.

Two shrill calls, understood well by the animals for which they were intended, brought two noble animals, 'Black Nell' and 'Powder Face,' to the edge of the corn-field. The next instant, needing neither saddle nor bridle, the two men were mounted, and without a word, both dashed forward upon the Indians who were after the stock.

So suddenly and unexpectedly were these overwhelmed—not a shot being fired, only the tomahawk used—that there was no alarm in the grove. Then the two men sped on, not noiselessly now, but whooping and yelling in wild concert, and urging their steeds faster by their cries, till they were upon the rear of the astonished redskins, pouring out shot after shot with deadly effect on the enemy.

Wheeling and circling here and there, never missing a shot—it seemed as if there were twenty, rather than two—Wild Bill and our hero dashed on, carrying death at every leap.

The Indians, who were Cheyennes, supposing this to be a reinforcement to those who had defended the house so well soon gave way and fled in every direction, but not before full half their number had fallen.

'Curse them, why do they shoot so care less from the house—this is the second grazer I have had from there,' cried Wild Bill, as he wiped the blood from a wound grazing his cheek.

'There's a hole in my hat from the same quarter,' said Buffalo Bill. 'I'd like to know what they mean. It can't be but they know where we are. Never mind—I must hunt up old M'Kandlas now, for if mother saw him he must be here. Let's chase them, Bill, as long as we can.'

The two men dashed away, and again a bullet, evidently from the house, passed so close to Buffalo Bill's head that he felt its wind.

The Indians scattered far and wide, but the two men succeeded in knocking over a half dozen more, when the thought struck them that it was better not to go far from the house lest some lurking behind would continue the attack, and they rode back.

The search for a white man among the bodies of the slain was unsuccessful, so Bill decided in his mind that if M'Kandlas had been in the party he had escaped this time.

As they approached the house they took pains to make their individuality known by signals which could not be misunderstood, therefore they were spared the perils which it seemed friends rather than their foes had cast upon them during the charge.

In a short time, their horses left close in the shadow of the house, the two brave friends were in it once more.

'You can light up, I reckon,' cried Buffalo Bill when he entered. 'The Reds' or what's left of 'em are off to their tribes on the run.'

'Thank Heaven, you are safe,' said Mrs. Cody, as she heard the voice of her son. 'I hope you and your brave friend are unharmed?'

'All right, mother, but a scratch or two that cold water will heal—but are you sure you saw the face of Jake M'Kandlas at the window?'

'Yes, my son—I never can forget his face. Surely saw it.'

'Then he has got off this time. I knew most of his gang had gone under, but I didn't think he had taken up with the Cheyennes. They say that every tribe in the West but the Pawnees are going with the South. If they are we border folks will have our hands full. But we're good for 'em, aren't we, Bill?'

'I reckon we are, I we know ourselves,' said Wild Bill.

The moon had gone down before day dawned, but the repulsed Cheyennes never bated in their headlong speed until a couple of hours after sunrise, when they had reached a thick cottonwood grove on the south bank of the Republican river.

Here, at the call of their chief, they dismounted and gathered around him. By his side, with a scowl of anger and some show of distrust, too, in his face, stood Jake M'Kandlas, the white ruffian who had planned this foray.

Looking sternly at him, after counting the warriors left, the old chief said:

"There will be a great cry among the squaws in the lodges of the Cheyennes. Many warriors have gone down—their scalps are in the belts of our enemies, and we have not a scalp to show that has been taken in return for ours. What has the Hawk of the Hills to say to this?"

"That which the Great Spirit wills to be, will be!" said M'Kandlas in reply. "If we had fought as white men fight and charged right in on them, we would now have their scalps in our belts. Big Maple would not listen to my words. He fought his way and lost half his warriors. It is not my fault. I have spoken."

"The Hawk of the Hills has spoken with a single tongue. His words are true. But the faces of the tribes will be black when we go back without scalps. What has my brother to say to that?' asked the chief.

'That if we go back without scalps, we are fools!' said M'Kandlas, quietly. 'If the gun of Big Maple misses fire, does he throw it away, or pick the flint and try it again? There are more days and nights than one, and plenty of pale faces are scattered about the plains. The Hawk of the Hills knows other settlements which we can reach in two or three day's journey. We can go there for plunder and scalps and then come back here, and when the fighting men are not here or are asleep we can sprinkle the bones of our dead with the blood of vengeance where they fell.'

'The Hawk of the Hills speaks like a man The heart of Big Maple was weak. It is strong again. The warriors will cook meat and eat while their horses rest and feed.'

Light blazing fires, emitting scarcely any smoke were now made from dry twigs, and the warriors made a hearty meal, the first for twenty-four hours. It was not finished when an alarm was given by a scout. White men in large bodies and armed were coming in from the South.

'They are not those we fought last night' said M'Kandlas. 'They have not had time to get to this side of the river. I will ride out alone and see who they are. Let my red brothers remain where they are ready to fight or to flee, if they see that I am among their enemies.'

The Hawk of the Hills is a great brave. His words are good and his deeds go with them, said the Cheyenne chief.

M'Kandlas now mounted his horse, put a bit of white cloth on the ramrod of his rifle and rode out from the shelter of the grove toward the group of advancing horsemen, some ten or a dozen in number.

They halted as soon as he was observed and seemed to look to their arms.

He rode boldly on until within two or three hundred yards when a shout of recognition rose on both sides and men rode rapidly to meet him.

They were his own men from the Black Hills, whom he had left there to carry on his business of pillaging emigrant trains, while he came down on an expedition on his own private account.

'Why are you here?' he asked, as they rode up. 'What did you leave Cave Canyon for?'

'Because we got sarched out, and scorched out and whipped out!' said one, who seemed to head the party.

'Well, boys, I'm glad you are here, for now I'll do the work I failed in last night. That infernal fiend, Buffalo Bill, with Wild Bill and Dave Tutt wiped out over twenty Cheyennes that I piloted down to the Cody place last night.'

'Dave Tutt? Why he is one of us—one of our sort at any rate!' said Frank Stark, the one who had spoken first.

'Yes—he used to be, but he's with them now. I couldn't get no chance to see him alone, or I would have known what it meant. I had my own idea that he was after one of the gals, for they're purtier than any picter that was ever painted, and I know he's death after that kind of game. But ride on boys and get something to eat and then we'll plan for a nice bit of work to-night. There's between twenty and thirty Cheyennes left, and they'll fight like blazes for revenge.'

M'Kandlas now turned and rode back with his men to the grove, so busy in talking with them, that he did not notice a single person on a hill beyond the river, who had evidently seen all his movements, and who rode off swiftly when the ruffian leader entered the grove.

'There are warriors from my band in the Black Hills, come to fight by the side of their chief!' said M'Kandlas to the Cheyenne chief, as he and his men rode up among the camp-fires.

'They are welcome as the rain when the earth is dry. Big Maple is glad to see them here.'

'Now cook and eat, boys,' said M'Kandlas, 'and let your horses rest and feed till we are right. We'll then wipe out Buffalo Bill and his party, and make a raid down the river as far as we can and strike for the Platte for a rest.' The continuation of this wild, true and exciting story will be found in the NEW YORK WEEKLY, No. 7, which can be purchased from all News Agents. Specimen copies sent free. The terms to mail subscribers are: Single copy, one year, $3; Four copies ($2.50 each), $10: and Nine copies (money all sent in at one time), $20; Clubers may at any time join clubs can afterwards add subscribers at $2.50 each. TO BE, CERTAINLY!

WHY NOT?

The FACT that T. F. BURTT has about the finest assortment of fine Gold WATCHES, Gold JEWELRY in sets, Fine Gold Rings, Brooches, Pearl and Garnet Rings, Masonic and Odd Fellows Pins, Gold Chains, Clocks, Spectacles, Silver and Plated Ware, is too well known to be disputed.

THE LADIES who have been so well suited from his elegant stock of valuables, know it!

THE GENTLEMEN, whose opinions are nearly as reliable as those of the ladies, are convinced of its truth!

THE PATRONS GENERALLY testify that it is best to purchase THE BEST, and that the BEST PLACE is at

New Hampshire Items.

The publishers of the Lake Village Times announce that they will enlarge their paper with the new year. The Times is a live paper, and deserves the success which this announcement indicates. Its local items are excellent.

Mrs. Charles Clay, of Lake Village, was shot through the hand on Sunday morning last, by the accidental discharge of a revolver which she found in her husband's pocket, and which neither knew to be loaded.

A rough joke was that on the Lake Villagers who drove to Albany, some fifty miles, to fish for trout in certain ponds there. They took five hundred live minnows for bait. During the night after their arrival, their hosts, fearing the water might freeze, carefully put the cover on the minnow-bucket and placed it near the fire. In the morning the bait was all dead, and the party returned to Lake Village in a frame of mind not easily described.

S. C. Lyford, Esq., formerly a prominent member of the Belknap County bar, died at his residence in Vineland, New Jersey, the 6th inst. He was once President of the Winnepisoogee Bank, and was owner of much real estate in Lake Village and Laconia.

At Meredith Village, the Waukawan mill has started up again. The call of the old bell is a very welcome sound, having been silent so long. It is started up under reduced pay. Business in the place has been rather dull, except at the beer saloons, which is no sign of thrift.

Robinson & Hoyt, of Meredith have been successful in securing healthy spawn of the celebrated white fish of the New York and Western lakes, and have now in process of hatching at their fish-works some 20,000. They are for stocking the lake. All efforts to this end have failed, but it now has the promise of success.

The Concord Statesmen says "there is probably no populous town in New England where the people so completely maintain amicable relation by 'agreeing to disagree,' as those of that city. There are some warm political campaigns, but no abiding partisan bitterness; and in religious affairs, each denomination remains unmolested under its own vine and fig-tree." Shades of Isaac Hill, how lovely! But what becomes of the Concord newspaper wars, &c.?

A beautiful whip just made at the manufactory of B. B. David, Nashua, designed as a present to a party at Boston, is perfectly straight, eight feet in length, with solid ivory butt extending about two feet, ornamented with gold-plated ferrules. It would almost be a pleasure to be punished with such a whip. The cost was $30.

Daniel Moore, Esq., died at Nashua on the 2d inst., after a brief illness, from the effect of a carbuncle on one of his shoulders. Mr. Moore was highly esteemed as a man and a citizen. He married a granddaughter of Hon. Wyseman Claggett, Attorney General of this State under King George III, and, also, under the State Government. Mr. Moore come from Londonderry 26 years ago.

In Peterboro', a nine year old boy, named Cheever, happened to find an old gun barrel, which he placed in the stove. When his mother came into the room she reached out to take the barrel from the stove and it exploded. Mrs. Cheever lost a hand, and the breech piece went through her thigh, a door, and into the next room. She will recover.

James Mitchell of Wilton sawed off two fingers from his left hand in running a circular saw, on the 14th. The stick of wood he was sawing rolled and brought his fingers upon the saw.

Mrs. Dorcas Rice of Jaffrey celebrated her hundredth birthday on the 10th by assembling her relatives and friends.

On the 13th the Laconia mutton thieves, several Evanses and as many Hancocks, were re-committed to jail in default of bail, to await trial at the Supreme Court. One of the Evanses, a minor, was sent to the Reform School on account of tender years.

About 12 M. on Tuesday, Dec. 14, the house of Hiram Osborne at Rochester was burnt to the ground. Not anything saved. Loss $1000, insured for $500.

BEST CABINET ORGANS.
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least renumerative profit, they are now offering at prices inferior to work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopœia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts effectually on the biliary organism; it irritates neither stomach nor intestine in all its operation; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wipe. We all know how it is with Cod Liver Oil. Its a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obstacle. For sale by all Druggists. Price $1. o218w

Matters and Things.

Thus far travel on the Pacific Railway has not been seriously impeded by the snow.

Girls say that men are a covet-us set.

Deer are unusually plenty in Minnesota.

An old Arizona trapper who has just scalped his fifteenth Indian says "It's good slaying out here, this season."

Game is very abundant in Nevada. The principal varieties are seven-up, poker, faro, keno and prairie chickens.

Letters from Texas say that the tide of immigration now flowing into the State is without a parallel.

Brogue Anns come from Ireland.

A Chicago belle has had her little toes cut off in order to get shoes large enough for her.

College students have a legend of a mechanical and perhaps sleepy parson at morning prayers, who prayed that "the inefficient may be made efficient, the intemperate temperate, and the industrious dustrious."

It having been reported that some of the partners connected with New York firms, living abroad, and not citizens of the United States, have not paid the five per cent, income tax, Commissioner Delano has directed the revenue officers in that city to enforce the law.

The course of Judge Trigg, United States District Judge in Tennessee, has been such in all cases where the interests of the government were concerned, that it has been decided to take measures to secure his impeachment by the House of Representatives.

Stringent measures are to be taken to collect the taxes from beer brewers.

The Cunard, Inman and other English steamer lines, as well as other interests, have placed one million dollars in this country to prevent subsidies being given to American steamship lines, and to aid in having the navigation laws repealed.

A Maryland postmaster has been fined $3454 and sentenced to six months imprisonment, for embezzlement.

Revenue officers in the Southern States are getting killed for doing their duty. Nice Country!

Flour is $42 per barrel in Arizona.

The New York board of health petitions Congress to take some legislation looking to the detention of emigrants from sailing from European ports until they present a certificate of vaccination to the commander of the vessel upon which they propose to embark.

Failures have been numerous in New York city the past week.

The year 1869 began on Friday, and will end on Friday.

"Sut Lovengood" is dead: G. W. Harris was his name.

A Missouri girl lately drowned herself because her parents quarrelled so much.

Some of the Cleveland streets are lighted with coal oil lamps.

Small-pox threatens to become an epidemic in Louisville, and twenty deaths a week from this disease are reported in St. Louis.

H. Lowenburg, a lawyer, and Chas. Phillips, a distiller of Newark, N. J., were committed to jail on the charge of attempting to bribe a United States detective, and subsequently released on $3000 bail each.

The N. Y. Evening Post has a rumor that a company which has been at work some months on a supposed pneumatic despatch tube under Broadway, is really building a vast tunnel for an underground railroad, and that their object is to push the work so far that the legislature will feel compelled to grant the charter.

Venice exports frogs to Paris.

The negroes of Virginia are leaving for the cotton States.

Grisi died of a carbuncle and apoplexy.

Louisiana has lost 30 per cent of her negroes since the war.

A clergyman has been garrotted in New York.

A beggar in Rochester, N. Y., died of beef. His throat was too small or the piece of meat too large.

McFarland has been indicted for the murder of A. D. Richardson.

Another miner has been burned in a Pennsylvania coal mine at Scranton.

North Carolina is endeavoring to recall illegally issued State bonds.

Postmaster-General Creswell has taken steps to show the country just what the franking privilege costs.

One hundred and seven counties in Texas give Davis a majority of 1128. The counties to be heard from have an aggregate white majority of 2000. The vote for governor is so close that it will require the official count to decide it. The conservatives claim a majority in the legislature on joint ballot.

The death of State Senator Russell of Ohio leaves the Senate about a tie on political questions.

The Congressional Committee to inquire into the decline of our shipping interests are making a thorough investigation.

The New York sugar frauds prove to be a just-discovered legacy of Andrew Johnson.

The President has withdrawn his nomination of Yeaman for circuit judge and substituted the name of Judge Withey of Michigan.

Napoleon has been sick again.

Chelsea has the small pox.

Gen. Butler has received a dispatch from Texas, saying that Davis was elected Governor by from 800 to 1200 majority, and that three Radical Congressmen are elected.

The Cuban General Covolda, on the 27th of November, attacked Cienfuegos and drove the Spaniards to their last stronghold behind the Grand Plaza. His men held the remainder of the town from 1 o'clock P. M. until sundown. They captured nine 24-pounder howitzers and 3000 muskets which were in the barracks in Calle Emperador. They also took $1,500,000 worth of stores, among which were the much needed articles of salt, clothing and ammunition. All the families of the Cuban patriots in Cienfuegos improved the opportunity to escape. Covelda took 218 prisoners, whom he released on their parole not to fight against the Cubans again.

CONGRESS, *Friday.*—Mr. Wilson of Massachusetts introduced a bill to provide for the reduction of the officers of the army, which was referred to the Committee on Military affairs. It authorizes the Secretary of War to honorably discharge any infantry officers who may apply, provided the number left in service shall not be reduced below the requirements of the twenty-five regiments authorized by law. The officers thus discharged on their own application shall receive from one to two years' extra pay and allowances, according to their terms of service. If the reduction to the requirements of the twenty-five regiments is not thus effected, the Secretary of War is authorized to effect it by mustering out supernumerary officers under the above terms, giving two years' extra pay to the officers who have served more than ten years, one and a half year's pay for service of from one to ten years, and one year's pay to all others.

The bill for perfecting reconstruction in Georgia was debated during the whole day and a long night session. About one o'clock the bill was passed by a vote of 45 to 6. Fowler voted with the Democrats in the negative. By the provisions of the bill, Georgia must ratify the 15th amendment before being admitted to representation.

New Hampshire Items.

The Directors of the Strafford County Agricultural & Mechanical Association, held their annual meeting at Rochester. Both sets of Directors from Dover resigned and the board filled the vacancy by appointing S. C. Fisher, M. D. Page and J. A. Hodgdon. S. C. Fisher was chosen President of the Society, G. S. Gilman Treasurer, and Noah Tebbetts Secretary. S. S. Chick was appointed Superintendent of the Fair Grounds.

The first sleighing party of the season consisted of eleven couple from Farmington to Rochester. The teams were all owned by Geo. F. Nutter of Farmington. The lead was taken by the horse Martin Luther, who has trotted his mile in 2.30. He was followed by Wild Eddy, who has trotted in 2.45.

Ricker, the man arrested for robbing the Farmington mails, was bound over in the sum of $1000 to appear at the court in May next.

The tracks of a *loup cevier* have lately been seen in the woods at Hampton Falls. This animal resembles the panther in nature, and is an ugly customer to deal with, when driven by hunger from its native lair in Northern Maine.

On Saturday, December 4, Mr. Freeman Sanborn of Newmarket lost his wallet in Exeter, containing a one hundred dollar bill.

Monroe N. Nute, who has for some time been in the employ of his brother Alonzo, at Farmington, has recently purchased a large shoe factory in Great Falls, and expects to make a beginning there early in January.

The Dover Enquirer says they have heard nothing from the strikers since their Levee and meeting. The controlling spirit, Jennie Collins has left, and the money realized at the Levee is in the hands of a committee. On the other hand they learn that all No. 5 mill is in operation, and that No. 4 will be started up on Monday, Dec. 20.

The household goods of Hon. John P. Hale, 44 cases, came by the last steamer. Mr. Hale and family will spend the winter in Rome and be home in Dover in July next.

A NEW PARTY.

The new political temperance party, which makes its *debut* at Concord on the 12th of January, rightfully claims a share of public attention at this time. Whatever may be thought of the wisdom of its formation at this time, (and of this we are more than skeptical,) it is undoubtedly the outgrowth of a serious conviction that our prohibitory law is but a farce in the major portion of the State. We suppose none deny it. But the remedy,—to find this is the problem. The men who are engaged in this movement are generally among the best in the State, though there will doubtless be demagogues among them, as there are in every movement. They are earnest men, and are not to be frowned or ridiculed aside. They will have, furthermore, to some extent, the sympathy of many times their number, who think the right time for the movement has not come, or that the same end may better be reached by other means.

Of 100 men who will be drawn into this organization, 99 will come from the Republican party. If enough are thus drawn aside, the effect will be to give the State to the Democrats, electing a Democratic Senator in 1870, and another in 1872, and Congressmen of the same faith in 1871. The present prohibitory law would doubtless also be repealed. Should the movement extend to other States, like results would follow at least in such as are politically close. Ere we are aware of it a Democratic President and Congress will be elected. What then? The Supreme Court will be reconstructed for the purpose, and a decision rendered that the 14th and 15th amendments are not legally a part of the Constitution. This would be a monstrous decision, but the Democratic party and the Supreme Court in its interest, have done monstrous things before. The effect would be to restore rebels to power, undo reconstruction, and place the Southern Unionists at the mercy of their enemies.

We are not yet far enough from the rebellion, and the glorious results of the war are not yet so firmly established, that it is safe, by the introduction of other issues, to restore to power the party that is the embodiment of about all that is evil in our Government. At least so it seems to us, and for this reason we propose to cling for the present to the party which carried the war successfully through, and is responsible for its results. Make these results sure, and parties may go to the dogs for aught we care. For the Republican party as a means of helping men into office, we care not a straw. We are not insensible to its faults, nor to the dangers of the long continuance of any party in power. We quite agree with the idea that parties are temporary expedients, useful only to accomplish the purposes for which they were formed. Show us that the principles for which the Republican party has contended so nobly, so proudly, and with such apparent success, are safe beyond peradventure, and we will be ready then for a new departure, either with or without the co-operation of that party. But we are not ready to enter upon the pursuit of one desired object, at the imminent risk of losing the greater good, thus far almost but not quite secure—to throw away the labor of 25 years. These, briefly, are our reasons for standing aloof from this politico-temperance movement. Meantime, we suggest that it will be wise for temperance men who cannot now see alike upon this question, but who must ultimately act together if any real good is to be attained, to exercise toward each other the largest toleration. — *Free Press.*

SPIRIT OF AN INSULTED HERO.—A Tennessee legislator having ventured an insult to General George H. Thomas, he has taken steps to free himself from any obligation of gratitude to the State, by writing to the speaker of the House to ascertain the cost of painting his portrait, adding that he would refund the money. He also says that he will return to the present legislature, as soon as he can get it, the gold medal voted to him by the last legislature in commemoration of the Union victory over the rebel force in front of Nashville in December, 1864.

—The editor of a southern paper says: "A friend of ours, who is a shrewd observer of men and things, remarked to us the other day that hogs never got credit for half their sense. He says that when a steamer blows her whistle, the hogs of his vicinity make for the wharf, where they regale themselves with the waste corn." Yes, and a hog knows enough to try to keep his bed clean, if he can, and we never saw many horses that did.

—Recently, Mr. Wm. H. Emery and Benjamin Hubbard, of Kennebunk, while visiting a sick neighbor, saw a seal on the rocks near Gillespie's Point, and going outside of him in a boat, drove him further on shore, where they succeeded in killing him. He was very savage, and is represented to be an arctic seal of the "hood" species, measuring seven feet in length and weighing nearly 400 pounds.

CHAS. H. CROWELL, a former proprietor of the Boston Banner of Light, who has boarded at the Indian Head House in Nashua, since October, 1868, died very suddenly in that city at half-past eight o'clock last Thursday evening, while walking on Chestnut street. Overtaking a strange lady in the rain, he proffered the use of his umbrella, and had walked but a rod or two beside her when he fell over backwards, his companion casing the fall by clasping him in her arms—gave a gasp or two and expired without uttering a word. He was taken into a store and remained unrecognized until a cousin, who lived near by, accidentally happened in. Irregular action of the heart was undoubtedly the case of death. Mr. Crowell was greatly esteemed in Nashua for his gentlemanly demeanor, uniform amiability, and readiness to do every one a favor when in his power, and was forty-two years of age.—*Boston Journal.*

☞ The second annual meeting of the Milk Producers' Association of Massachusetts, was held at Boston last week. Geo. B. Loring of Salem, C. A. Nason of Hampton Falls, and Henry F. French of Concord, Mass., are among the directors.

☞ Will the Secretaries of the N. H. Printers' Association, or some brother in the craft at Concord or Manchester, please inform us when we may expect to see the printed report of the last Convention? Also when the winter meeting is to be held, if at all?

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the deficiency of the juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as here explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

In Remote Settlements of Untod Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills are attested by the testimony of eminent physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box. Sold by all Druggists.

Holloway's Ointment and Pills.—PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the diseases and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or Sprain,
Let it once be tried—*'twill be used again;*
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

SPECIAL NOTICES.

Keep the Circulation Active.

A free and regular circulation of the blood is essential to health. It places the whole system in a state of active defence against all unwholesome influences, and is an especial safeguard against the lethargic effect of sudden changes of temperature, and of damp and cold.

If proper attention were paid to this important fact, there would not only be a great decrease in the number of cases of stomach, bowel and renal complaints, but also in the number of deaths by consumption and other pulmonary diseases.

At this period of the year, when the dividing line which separates a genial from an inclement season has just been passed, a course of HOSTETTER'S STOMACH BITTERS will be found of invaluable service in improving the condition of the vital fluid and gently stimulating its flow. Violent coughs and colds, like intermittent fever, the frequent effects of a chilly atmosphere upon a debilitated organization. Diseases of the kidneys often proceed from the same source. How essential it is, therefore, for persons of feble constitution, to invigorate the vital organization at the commencement of Winter. Fortified by warm clothing without, and HOSTETTER'S BITTERS within, the frail and delicate may brave with impunity an amount of exposure and hardship which, under other circumstances, would prostrate them on a bed of sickness. Let them consider this and be wise in time.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Calisaya and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the noxious pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will prove infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious, aperient and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

NOTICE. — CIRCULARS AND SHOW CARDS sent to dealers free of expense.

Every druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is demanded on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Gentlemen—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years, I tried the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and merit. No family should be troubled without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest or youngest

Correspondence of Chronicle and Gazette.

KITTERY, ME., Dec. 18.

The Churches at Navy Yard Village are imbued with a spirit of unusual earnestness just now,—holding meetings afternoons and evenings; much religious interest has been aroused, and quite a number are asking what they shall do to be saved. Many backsliders are returning to the churches. After a sermon on Thursday evening, about thirty exhortations and something like twenty prayers were made.

No doubt there are some inconsistencies; and some think there can be religious—as well as any other—dissipation; but there is a good work going on here,—the religious people are at work in earnest. K. M.

PRIME PIANOS.—After all said, we feel sure the Piano-Fortes manufactured by Hallet, Davis & Co., Boston, are fully equal in all respects to any other make, and superior to most, of the same cost and class of instrument.

The gentleman most experienced, and probably the best qualified to judge, in this city, compared a low-priced instrument of this make with the $1000 German grand recently on exhibition in this city, and pronounced in favor of the Hallet & Davis make, although of less than half the cost. And the concert square grand of this make, belonging to the Portsmouth Philharmonic Society, has by several years' hard usage demonstrated its superior durability over a new Chickering which was used only once by this society at Newburyport.

When a thousand dollars or thereabouts is invested in a piano, it ought to be good, of any make; but we have yet to see any common or low-priced instruments stand wear, and keep in tune, so well as those of Hallet, Davis & Co. And their high-cost pianos are unsurpassed by any others—their new orchestral grand being pronounced superior to anything else manufactured in the shape of a piano-forte. Mr. T. P. Moses has been their agent for 25 years or more, and there are a very large number of these pianos owned hereabouts.

PROCLAMATION.

AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend

J. F. SHORES JR.,

has a larger assortment than usual (and that is saying a good deal) of articles for

Christmas and New Year's Presents.

I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.

Therefore I would give a word of advice to one and all. Before you make your purchases for the

HOLIDAYS,

Be sure and drop in at

No. 1 CONGRESS BLOCK.

Given under my hand and seal at my council chamber, which is here, there and everywhere, this Thirteenth day of December, A. D., 1869.

OFFICE OF FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT SECURITIES,

No. 5 NASSAU STREET, NEW YORK,

November 8, 1869.

To Our Customers and Correspondents:

The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.

Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.

During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.

The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.

The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.

The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.

The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.

The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.

The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.

We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.

Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE

SIX PER CENT. GOLD BONDS

OF THE

WESTERN PACIFIC R. R. CO.

OF CALIFORNIA.

The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.

It is 150 miles in length, including a short branch, and it will be the

METROPOLITAN LINE

OF THE PACIFIC COAST,

connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.

It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.

The value of the property and franchises is not less than

TEN MILLIONS OF DOLLARS,

and the amount of the mortgage is

$2,800,000.

The bonds are of $1,000 each, have thirty years to run, and will be sold at

Ninety, and Accrued Interest,

in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.

The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.

The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.

Government bonds received at their full market value in exchange.

FISK & HATCH, Bankers.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

Morning Chronicle.

San Francisco Bay Views,—No. II.

By Frank Wendell.

From Russian Hill we have a fine view of the northwestern part of the city, the Golden Gate, the entrance to the Bay and Harbor of San Francisco, and the Presidio at Fort Point, just inside the Gate, with its fortifications and extensive barracks. Back of this, on the rising slope, are Laurel Hill, Calvary, Odd Fellows' and Free Masons' Cemeteries; and from near the latter, Lone Mountain, with its bold, conical-shaped peak, rises, and on its summit is a cross.

On the top of Laurel Hill we can plainly see the Broderick Monument, with its lofty column of marble; and near it the raised tablet of Col. E. D. Baker, a hero of the late war. From Russian Hill to the cemetery in a direct line the city is but sparsely settled, tho' for two miles the dwellings seem quite numerous; yet the graded streets and regular outlines of blocks are quite discernable for over three miles.

On the left of the western addition is seen the large charitable institution called the "Ladies' Relief Home," built of brick, and containing at present some 170 children and quite a number of women. A little more to the west, on rising ground, is the spacious stone structure of the Protestant Orphan Asylum; and just above, on an adjoining hill, the Spring Valley Reservoir is located. Beyond this point, southerly, is seen the Mission Dolores and Mission Hills, flanked on the east by the Neuve Protrero Hills, running down to the water's edge just at the point of the long Bridge, some four miles in a southeasterly direction.

And while looking in that direction, I will speak of the Rolling Mill and Glassworks, from whose tall chimneys the smoke is ascending, denoting the activity within. Railroad iron is made here, and bottles of almost every variety are blown.

We will now turn our attention again to the water view beyond the north beach. Just around the curve of this beach is seen the Pacific Woolen Mill, with its adjoining yard filled with blankets stretched on frames to dry. The fortress on Black Point is in full view, and the music from the officers' quarters reaches the ear, while the flag of our country floats in the breeze. A signal gun from the Island of Alcatraces (alcatraz) invites my attention in that direction. This island commands the entrance to the great Bay of San Francisco, and is about 3 1-2 miles distant from Fort Point, and two miles from the city and Angel Island, which is nearly opposite on the north.

This island is 140 feet high above low tide, about 450 feet wide, and 1650 feet long. It rises quite abruptly and is strongly fortified, and easily accessible on the side next the city. On the apex of the island is a citadel, three stories high, which when fully manned by three hundred men, could give Hail Columbia to an enemy, to the tune of Yankee Doodle. In fact, the whole circumference of the island is a network of batteries, numbering in all some one hundred guns, and provided with every modern defensive improvement, including shot-heating furnaces. It is undoubtedly one of the best fortified islands in the world.

On the north of the Golden Gate is a range of mountains, rising in grandeur, clothed in every shade of verdure; and as the morning sun-light plays among the wild flowers, the rainbow-tinted patches are aglow, and many of them shine like burnished gold, as if to verify to the incoming voyager that golden wheat fields await the industrious husbandman who will here put his hand to plough. Coming down from the hillsides, we find at the point the little town of Saucelito, famous for its water, supplying much of the shipping, and the islands in the bay which have no water. A small steamer connects us with this favorite resort for pleasure parties; our Sunday schools here spend a day rambling over hill and dale in search of the healthful and beautiful.

To the east is Angel Island, and on its northwest point is a fortification to further protect the harbor, as the Raccoon Strait communicates to Mare Island beyond, where our Navy Yard is located. Angel Island is celebrated for its valuable quarries of blue and brown sandstone, — the former being much used for building purposes. The California Bank is faced with it, and is one of the finest buildings on California St., rivalling in substantial beauty any of the many iron fronts to the public buildings on that street. The island contains several hundred acres of valuable pasture land; stock of all kinds find ample room to roam among its hills, and it is really a mountain rounding up from the water some six or seven hundred feet. It is some five miles from the city, and quite a town has grown on its northern slope, affording homes for those who work in the quarries and hew the stone for the trade. The island was granted by Governor Alvarado to Antonio M. Aslo, by order of the government of Mexico, in 1837; and by him deeded to its present owners in 1853.

The fresh breeze from the water fans my brow, heated by the noontide sun, and as a fitting tableau I take a cursory glance at our island-locked harbor, with its blue waters just rippled with a top of white gauze. The yachts are dancing in glee over the wavelets, and yonder goes the little white steamer Petaluma, to a little town of the same name, a few hours' sail up the bay. The many white sails that are unfurled to the breeze dot the bay for miles around, while here and there the stern-wheel river boats are towing barges with freighted cargoes to the Sacramento; and I see many small craft coming down towards the city, laden with granite from Folsom, or wheat and barley from Napa, Suisun, Benicia or Martinez.

New Publications Received.

Ecce Femina: an Attempt to solve the Woman Question,—by Charles White. This is the title of a handsome volume of 258 pages, just published by the Author, at Hanover, and Lee & Shepard, Boston. It appears to be a candid, earnest and able plea for the *difference* between the sexes, their occupations and pursuits; and will well repay a careful perusal.

The Monthly Journal of the American Unitarian Association, for December, informs us that it is to be discontinued, —or rather, we should say, merged in the new Magazine called the Old and New, to be edited by Rev. Edward E. Hale, and published by H. O. Houghton & Co., Boston. The Old and New will embrace a wide range of topics, and be a lively companion. Price $4 a year.

Mrs. P. S. Williams informs the Great Falls Journal that she recovered $827 of Manhattan Insurance Co. on goods, the insurance on which was $500. She received $1175 of Royal Ins. Co., on building. Five other policies remain in litigation. Mrs. W. proposed to build a brick block on the side of the burned building, one story high, containing five stores, with barracks in the rear suitable for a population of 300 Frenchmen.

The old "Mellen building," near the old bridge on Washington St. in Dover, was recently removed a considerable distance, by Mr. Charles Horn of Great Falls. The building is estimated to weigh about 140 tons, and no one but Mr. H. would undertake the job.

The Strafford District Medical Society, embracing all the territory formerly included in Strafford county, held its sixty-second anniversary at the American House, Dover, Dec. 16.

"Littlefield Post" No. 8, G. A. R., of Great Falls, are making arrangements for holding a Fair about the 20th of Jan.

Geo. F. Nutter left Concord Dec. 17th with a string of thirty-one horses, just purchased in Canada, destined for New Durham, to work in hauling wood from his lot in that town. The horses were powerful, fine-looking animals. A large crowd assembled to witness the departure of the tandem team.

C. Prince, a carpenter, at work on a circular saw at Hutchinson's steam mill, Concord, splitting chestnut sheathing, in reaching over the saw, caught his shirt sleeve, and his right arm was drawn upon the saw, and split from the lower part of the wrist almost to the elbow, so that a man could nearly put his hand through the arm, in the wound.

Of the dozen or more Railroads talked about in New Hampshire of late years, that to Pittsfield is the only one yet built. Mr. R. L. French of P., gave $500, took the thankless task of soliciting some $10,000 in donations, and subscribed $5,000 for stock.

Recently a car was robbed at Suncook, of a quantity of cotton cloth, a quintal of fish and some sugar, and the goods secreted under a pile of brush, where they were subsequently found, but not removed at the time. A watch was kept over them, and on Wednesday night, the 15th, one Charles Smith was discovered in the vicinity of the stolen goods, removing the brush from them, and was taken into custody by Sheriff Hildreth.

—The following Arizona intelligence has been received:—A band of Indians made a raid on the settlement of Chino Valley, stealing eleven head of horses and mules. The animals were taken out of the corral and stable, the doors of which were found closed and fastened the next morning. None of the stock had been recovered. One day last week while Mr. Boggs and Mr. C. Hannan were en route from big bay to Lower Agufra, they were fired upon by two Indians lying in ambush a few steps from the road. The men escaped unhurt, and brought down one of the Indians. They captured a Sharpe's rifle and other trophies, together with a large scalp, which was presented to Governor Sanford.

—Jinks explains the signification of nine weddings:

A wooden wedding — Marrying a blockhead.

A golden wedding—Marrying for money.

A crystal wedding—Marrying a glass eye.

A tin wedding—Marrying a milk maid.

A paper wedding—Marrying an editor.

A silver wedding—Marrying an old maid of sixty.

An iron wedding—Marrying a blacksmith.

A plain wedding—Marrying a carpenter.

A brass wedding—Marrying an impudent man.

—The girls in Lewiston, Me., have resolved not to be kissed by tobacco chewers. A good way, perhaps, to induce a reform among the young men.

—Nine stores and forty dwelling houses have been erected in Rochester the past season.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

COLGATE & CO'S.
AROMATIC VEGETABLE SOAP,
COMBINED WITH GLYCERINE, IS RECOMMENDED FOR THE USE OF LADIES AND IN THE NURSERY. ap8ly
SOLD BY ALL DRUGGISTS.

DODD'S NERVINE ONCE MORE.
THE STANDARD REMEDY for biliousness with the medical profession is the Anti-Bilious Pill of the American Pharmacopeia. And its reputation has been well enough deserved. But it is a Pill, nevertheless, and most people of sensibility feel something about as big as a meeting house coming into their throat whenever a pill is spoken of. DODD'S NERVINE AND INVIGORATOR acts efficiently on the biliary organism; it irritates neither stomach nor intestine in all its operation; and what is VERY IMPORTANT, as all good nurses know, it is MOST AGREEABLE TO TAKE, being as pleasant to the palate as any delicate wine. We all know how it is with Cod Liver Oil. In a pure state it is excellent for certain conditions of debility, and particularly in tendencies to Consumption; and yet many of the best physicians decline to prescribe it, because it so dreadfully sickens the patient. That, they say, makes it do more harm than good. With Dodd's Nervine all this becomes obsolete. For sale by all Druggists. Price $1. o218w

New Publications Received.

Beecher's Magazine for Jan. 1870,—for the Manhood of America,—is No. 1, of a new monthly of 32 pages, at $1 per annum,—published by J. A. Beecher, Trenton, N. J., and for sale by the newsmen.

The Lady's Friend for January, 1870, is a splendid New Year's gift. A thrilling picture—"In the Rapids" of Niagara, is the first steel plate. The second is a beautiful title-page for the magazine, encircled with the flower-wreathed portraits of seven of its lady contributors—the brightly intellectual face of Mrs. Henry Wood matronizing the younger ladies — Mrs. Moulton, Florence Percy, Elizabeth Prescott, Miss Douglass, Augusta Bell, and Mrs. Hosmer. Deacon & Peterson, Philadelphia. $2.50 a year (which includes a large steel engraving).

SHIPBUILDING.—The President will soon transmit to Congress some valuable statistics concerning the decline of shipbuilding in this country, and Mr. Lynch's committee will probably report on the same subject after the holidays.

Meanwhile scores of plans are being received from Boards of Trade and individuals, but the most practical proposition for the revival of this important branch of national industry is to come from Senator Nye, of Nevada, in a bill which he will introduce in the Senate. Senator Nye's bill will provide for a bonus of so many dollars per ton on all sea-going vessels of not less than two hundred or more than two thousand tons measurement, and will further provide for the appointment by the President, by and with the consent of the Senate, of so many Government Inspectors as may be deemed necessary—upon whose certificate of measurement and completion the bonus is to be paid to the buil ders.

☞ The Portlanders are making great preparations for the reception of the remains of George Peabody. The funeral will take place at Salem about a week after arrival. A special train, draped in mourning, has been tendered by the Eastern Railroad and accepted by the Trustees. The Monarch, which brings the body, is of about 6000 tons and draws 28 feet of water.

☞ We are called upon to record the decease of an eminent citizen, SAMUEL HALE, Esq., who died at his residence in Rollinsford, on Monday morning, aged about 75 years. He was many years a resident in this city, as a merchant and ship owner; — and in later years at Rollinsford, largely engaged as a manufacturer. He was a member and deacon of the Unitarian Church in this city,—and after his removal sustained a similar relation to the Unitarian Church in Dover, which continued till his decease;—and as he retained his energy and influence his loss will be severely felt.

Christmas Plea For The Unfortunate.

The selfish world indifferent may view [scroll;
The countless beauties wrought on Natures
May gaze unmoved on Heaven's expansive blue,
Or where the mighty waves of Ocean roll;—
But for a day deprive one of his sight,
Confine him to a dark and lonely room,
And all the horrors of Egyptian night
Would warp his vision in the deep'ning gloom,
Amazed he then, this fate for many years,
Perhaps for life, he must abide endure,—
Such sudden grief would seal the fount of tears,
And death or awful frenzy, would be sure.
But when the damning of despair comes slow,
Steals o'er the senses like a cloud of mist,
The rays of Righteousness may glimmer through,
Tho' the dark vail may nevermore uplift.

The centre of a happy household band,
This holy day I think of one forlorn—
While Poesy would 'ward with jewelled hand,
Misfortune rudely grasps him as his own,
In uncongenial solitude and pain.
Tho' lovely Sagamore may near him flow,
He dares not ope those throbbing orbs again,
Nor tender care can o'er assuage his woe.
Still, Sympathy affords the weary balm,
And Pity's voice sounds pleasant to his ear,
Like notes melodious, fitting words will charm,
While tokens of remembrance soothe and cheer.
'Tis now the time to love and friendship sweet,
Pray Christians don't forget the worthy poor.—
Dear D——; I lay this tribute at thy feet
And sigh, for I can offer you no more.

THE DUEL BY LOT.—Let those who are fond of pure romance, read the opening chapters of a story bearing the above caption in another part of our paper. This is one of the most original and at the same time most absorbingly interesting romances of modern times. The characters and incidents seem so real, and the plot of the story is so ingeniously woven that the reader is fascinated at the very commencement and remains so to the end. We advise our readers by all means to read "The Duel by Lot."

BUSINESS NOTICES.

FACTS FOR THE LADIES.—Mrs H. B. of Rockford, Ill., writes: I send you a Wheeler & Wilson Machine, No. 10,426, to have attached the recent improvements—the improved loop-check, tension, glass foot, new style hemmer, braider and corder. I have used this machine for six years, without repairing, and in that time it has earned for me over $4000.

BARK, HERBS AND ROOTS.—The base of Speer's "Standard Wine Bitters," is his celebrated wine, in which are steeped Peruvian Bark, Chamomile Flowers, Snake Root, Ginger, &c. It is pleasant to the taste, and far superior to anything in the form of tonics now before the public. They are simply his own wine made bitter by the infusion of herbs and roots above enumerated.

Persons who have become thoroughly chilled from any cause, may have their circulation at once restored by taking into the stomach a teaspoonful of "Johnson's Anodyne Liniment" mixed in a little cold water, well sweetened.

Every farmer who owns a good stock of Horses, Cattle and sheep, and intends to keep them through the winter, should get at once a good stock of "Sheridan's Cavalry Condition Powders." One dollar's worth will save at least a half a ton of hay.

Soreness of the flesh, tenderness of the scalp, are cured by using Renne's Pain Killing Magic Oil. This is excellent also for sore throat, pain in the joints, and people say it works like a charm."

SPECIAL NOTICES.

Keep the Circulation Active.

A free and regular circulation of the blood is essential to health. It places the whole system in a state of active defence against all unwholesome influences, and is an especial safeguard against the inimical effect of sudden changes of temperature, and of damp and cold.

If proper attention were paid to this important fact, there would not only be a great decrease in the number of cases of stomach, bowel and renal complaints, but also in the number of deaths by consumption and other pulmonary diseases.

At this period of the year, when the dividing line which separates a gentle from an inclement season has just been passed, a course of HOSTETTER'S STOMACH BITTERS will be found of invaluable service in improving the condition of the vital fluid and gently stimulating its flow. Violent coughs and colds, like intermittent fever, the frequent effects of a chilly atmosphere upon a debilitated organization. Diseases of the kidneys often proceed from the same source. How essential it is, therefore, for persons of feble constitution, to invigorate the vital organization at the commencement of Winter. Fortified by warm clothing without, and HOSTETTER'S BITTERS within, the frail and delicate may brave with impunity an amount of exposure and hardship which, under other circumstances, would prostrate them on a bed of sickness. Let them consider this and be wise in time.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as pleasant to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that the chemistry has yet produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destroyed in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

NOTICE. — CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM: having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and ever-increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its palmonative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not left about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native born or foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine is to ripen the matter in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dlm.

THE INDIAN DOCTOR HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,
THE NARRAGANSETT
INDIAN PHYSICIAN!
Has taken Rooms
At the Franklin House, Portsmouth,
Where he will remain
Until December 28th.

He treats successfully all curable diseases to which the human system is subject.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fall you, for he treats diseases that afflict both sexes.

Also DR. CONGDON'S

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy he used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

☞ U. S. S. Benicia arrived at New York on Saturday from this port.

☞ Alderman Nowell is one of the City Fathers indeed. We take pleasure in Chronicling his seventh son this morning.

☞ The receipts at the G. A. R. Fair, last week amount to over $1300. The charity fund of Post No. 1 will be increased about $500.

☞ The third Lecture before the Mercantile Library Association will be delivered by John Albee, Esq., of Newcastle, an educated gentleman and practical farmer, Wednesday evening, Nov. 1, beginning at quarter before 8 o'clock. Subject; The Farm.

ON DIT — That a certain officious Navy Yard official has been reporting to his superiors at Washington that the snow is four or five feet deep in this section, and there were more men employed at the Yard than was necessary; hence the discharges. It is also reported that there will be abundance of work after the holidays.

REPUBLICAN CAUCUS, *Ward One*, will be held at the Ward Room on Elm St., on Wednesday evening, Dec., 22, at 7 o'clock, for the purpose of choosing delegates to the several conventions, &c. Per Order Ward Committee.

Ward Two at Ward Room, State St., same evening for same purpose.

Ward Three at Ward Room on Meeting House Hill, Thursday evening, Dec. 23 at 7 o'clock, for same purpose.

A SEA OF TROUBLES.—Mark Lewis of Newburyport and Benj. Fernald of Kittery were lately discharged from the Navy Yard, and when Mr. Fernald went to get his chest of tools, valued at $60, he found that Mark had carried them off, and sold them in Portsmouth, at auction. Marshal Johnson telegraphed to have him arrested at Newburyport, which was done, but on going after him it was found that Mark had stolen two coats from a hotel there, and the Newburyport officers held him for trial. Mr. Fernald is an elderly man and can ill afford to lose his tools.

HE MIXED HIS DRINKS.—Henry Manson of Kittery visited Portsmouth on Saturday morning, and essayed to walk home in a state of inebriety. At Nobles Island bridge he took a short cut over the railroad and found more cracks than he could safely walk over. Henry's ale made sad havoc with his brain and by unsteady walking he missed stays, made a moonlight plunge into the river, and went out of sight. Not being born to be drowned just then, however, he came up, but was considerably water-logged, the salt water covering the ale he had imbibed previousrey. Clasping his arms around a spile of the bridge he wailed a hail for help, and fortunately was heard by Messrs. Frank Wendell and Chas. McGrath, who rushed to the rescue, pulled him out of his damp bed, nearly exhausted, and carried him to the Police Station, where he was cared for kindly, but felt rather sick. Moral; drink no more ale.

COD LIVER OIL, among the Esquimeaux, would be as great a luxury as the best Lucca is with our civilized epicures, but it will hardly become a general article of diet in this part of the world. However, it is a valuable medicine, and, as prepared by Messrs. T. E. O. & Wm. Marvin, not an unpleasant one to take. The oil is extracted by moderate heat, applied through the medium of steam; and while hot is quite palatable, as also are the livers,—the latter being (to some tastes) equal to the "giblets" of fowls.

A barrel of livers yields about ten gallons of oil, the poorest of which is used in various trades, while the purest is that now so extensively used as a medicine. It is beautifully clear, very light colored, almost tasteless, and has very little odor of any kind; very different indeed from some of the highly-commended oils in the market, which emit an "ancient and fish-like smell" of a very unpleasant description. Messrs. Marvin have some of their manufacture which has been made for a year, and retains all its original qualities unchanged.

We brought away a bottle from their establishment; and though we don't really hanker after the contents much, personally, being of the teetotal persuasion, yet several connoisseurs in cod liver oil, to whom we gave drinks from our bottle, agreed in the opinion that no oil has yet been offered in the market to equal that prepared by Messrs. Marvin.

PROCLAMATION.

AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual (and that is saying a good deal) of articles for
Christmas and New Year's Presents.

I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.

Therefore I would give a word of advice to one and all. Before you make your purchases for the

HOLIDAYS,

Be sure and drop in at
No. 1 CONGRESS BLOCK.

Given under my hand and seal at my council chamber, which is here, there and everywhere, this Thirteenth day of December, A. D., 1869.

OFFICE OF FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 NASSAU STREET, NEW YORK,
November 8, 1869.

To Our Customers and Correspondents:

The surprising development of our national resources and the rapidity with which the government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty Bonds may be funded at not over four or four and a half per cent interest.

Meanwhile their high price, as compared with other classes of securities paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.

During the war the necessities and perils of the government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had before been deemed sufficiently conservative and sound to meet the wants of the most cautious investors.

The government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.

The rapid accumulation of capital for investment, and the reduction of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.

The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the government no longer needs, and offer for its use a remuneration which the government need no longer pay, and in some cases a security as stable and enduring as the faith of the nation itself.

The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is felt by many holders who desire some satisfactory assurance as to which of the many lower-priced securities in the market would afford the necessary safety to justify an exchange.

The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of investors.

The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience, and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the results of our inquiries to those who may be disposed to confide in our good faith and judgment.

We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.

Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others, but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE
SIX PER CENT. GOLD BONDS
OF THE
WESTERN PACIFIC R. R. CO.
OF CALIFORNIA.

The Western Pacific Railroad, connecting Sacramento with San Francisco, furnishes the final link in the extraordinary fact of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.

It is 150 miles in length, including a short branch, and it will be the

METROPOLITAN LINE
OF THE PACIFIC COAST,

connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.

It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.

The value of the property and franchises is not less than
TEN MILLIONS OF DOLLARS,
and the amount of the mortgage is
$2,800,000.

The bonds are of $1,000 each, have thirty years to run, and will be sold at
Ninety, and Accrued Interest,
in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.

The near approach of the time when the United States can probably fund the greater portion of its Six-per-cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroads, and may be held with as much confidence as government bonds, or as first-class mortgages on New York City property.

The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.

Government bonds received at their full market value in exchange.

FISK & HATCH, Bankers.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations, and others subject to check at sight, and allow interest of daily balances. 1md&wn22

MALT EXTRACT—
Is a beverage particularly adapted to persons of weak and debilitated constitutions and those suffering from dyspepsia, loss of appetite, general debility, etc. It takes the place of and is SUPERIOR to ale, porter, and spirituous liquors in all cases where nourishing beverages and tonics are needed. Eminent physicians of New York, say: "We have used HOFF'S MALT EXTRACT in practice, and the result have been such as to fully justify the claims made for it; we feel certain that it is destined to supply a want long felt." eodimdl

Morning Chronicle.

Old Times Correspondence Chronicle and Gazette.

DEERFIELD CENTRE, N. H., Dec. 17.

Old Deerfield was incorporated one hundred and four years ago the 8th day of next January. Capt. Samuel Leavitt being the first on the petition, was appointed and authorized to call the first town meeting of the inhabitants, giving fourteen days' public notice of the time, place and design of the meeting,—which was called Jan. 13th, 1766, at the house of Capt. Samuel Leavitt in Deerfield.

Voted Thomas Simpson, Esq., Clerk. Also voted said Simpson and others a committee to look out for a place to set a meeting house upon, and make a return at the next annual meeting, from under the major part of their hands, the same to be received or rejected by the Parish, as they should think proper.

The annual town meeting for 1767 was held at the house of Capt. Samuel Leavitt, the 17th day of March. Thos. Simpson, Esq. was voted clerk, and one of the auditors. The town meeting for 1768 was held March 15th, at the same house. Thomas Simpson, Esq. again clerk.

At a town meeting called on the second Thursday of January, 1769, the second article in the warrant was to see if the inhabitants would vote that all those persons that were called New Lights, which made it appear at this meeting that they had bound their estate to Mr. Eliphalet Smith, (the first Baptist preacher in Deerfield,) for his temporal support, or any other lay teacher's, so called, should be exempted from paying any charge to any other minister? Voted that the article be not acted upon, by reason that those persons called New Lights did not produce any bonds to show the parish that they had bound their estates to any lay teacher. Voted at a town meeting at the house of Mr. Henry Tuckers, on the 24th of February, 1769, that the parish were willing that all those persons that were called New Lights, who made it appear at any legal town meeting that they had signed the New Light Platform, so called, should be exempted from paying any other minister.

The annual meeting in 1769 was held at the house of Mr. Tuckers. Thomas Simpson, Esq. wascontinued clerk, and also made selectman. At a town meeting Nov. 16th, 1769, (Major Simon Marston, Moderator,) it was voted that a committee of five be chosen to consider the Town Stock, and report at the next meeting, which was called Jan. 13th, 1770, at the house of Capt. Samuel Leavitt in Deerfield.

Voted Thomas Simpson, Esq., Clerk. Also voted said Simpson and others a committee to look out for a place to set a meeting house upon, and make a return at the next annual meeting, from under the major part of their hands, the same to be received or rejected by the Parish, as they should think proper.

The annual town meeting for 1767 was held at the house of Capt. Samuel Leavitt, the 17th day of March. Thos. Simpson, Esq. was voted clerk, and one of the auditors. The town meeting for 1768 was held March 15th, at the same house. Thomas Simpson, Esq. again clerk.

At a town meeting Nov. 16th, 1769, (Major Simon Marston, Moderator,) it was voted that a committee of five be chosen to consider the Town Stock, and report at the next meeting, which was called, and on lot No. 9 in the 4th Range, the nearest place that was convenient, on Chase's Lot, known by the name of Beech Knoll, was the place to build a meeting house. Voted the dimensions be 65 feet in length, 45 feet wide and 26 feet posts. Voted one hundred and fifty pounds lawful money, assessed to carry on said house. Thos. Simpson, Esq., was put on the committee to carry on the building of said meeting house.

This Thomas Simpson, Esq., had a brother Robert Simpson, who moved to Ohio, and was the grandfather or great-grandfather of President Ulysses Simpson Grant. S. G. H.

BOSTON, Dec. 17.

To-day the Music Hall Fair opens for a week. The Y. M. C. A. have spared no pains to make it a great success. The features of the fair of 1858 in the same place are reproduced—a Chinese pagoda 40 feet high in the center, hung with bells and illuminated; Chinese booths and a Joss house, 20 feet long; massive festoons of rhododendron leaves, laurel pine and cedar, embellish the cornice, balcony pilasters and doors, making a novel and beautiful effect. The music floating through the embowered aisles and the array of beauty behind the tables, in sweet seductiveness, together with the other accessions make a *tout ensemble* of extraordinary gayety.

"Eve at the fountain" by Wight is exhibited at Child's gallery. It is a brilliant piece of color, but as the Advertiser asks, who approve this voluptuous exhibiton of an unclothed woman were it not happily christened Eve? We heartily respond to its protest. Thence we repaired to the studies of Joseph Andrews and experienced relief in examining Rothernel's "Pilgrim Fathers," reproduced in a pure line engraving worth a cord of Wight's sensational pictures. When historic art, such as this superb engraving illustrates, is appreciated by our people, we shall see an improvement in public morals. The topics of ideal contemplation and the objects of creative art before the eyes of the young, exert no little influence on society. These two pictures are fit exponents of the sensuous and the elevating forms of art now claiming the patronage of Americans. Which shall receive our patronage? E. P. T.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office Washington, under the Act of 1837.
No. 78 STATE ST., OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches into American and Foreign works to determine the validity and utility of Patents or inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable* and *successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent* and *trustworthy* and more capable of putting their applications in form to secure them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such evidence of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

LORILLARD'S "EUREKA"

SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB

SMOKING TOBACCO is made of the Choicest leaf grown; it is anti-nervous in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also put up pack orders every day for first quality Meerchaum Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY

CHEWING TOBACCO.—This brand of Fine Cut chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS

HAVE BEEN IN GENERAL USE in the United States over 110 years, and still acknowledged "the best" wherever used. If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.

The N. H. Fire Ins. Co. at Manchester, promises to be a success. It is decided to raise $100,000 cash capital before commencing business, in shares of fifty dollars each; to be increased to $200,000 when the Directors so decide, and each member is instructed to solicit and receive subscriptions.

The State Lodge of the K. O. S. C. met at Dover on the 18th inst. Twenty-three Lodges were represented.

A tape-worm seventy-two feet in length was recently taken from the stomach of a former resident of Nashua, who feels better since. He had carried the reptile in his inside about 3 years, and though eating five square meals a day, was reduced almost to a skeleton.

Albert S. Brown, a railroad hand, fell from a cartop to the track last Saturday, at Nashua, and some wheels passed over him, crushing his legs, and rendering his recovery doubtful.

The Peterborough Soldiers' Monument is now nearly completed, but is boxed for the winter, and will be dedicated in the spring. It is located in Putnam Park. The base is of granite, five feet seven inches high. It is in three parts. The statue is that of a soldier in full dress, exactly like that recently dedicated in Claremont, and cast by the same foundry. The expense of the monument is about $3800, of which about $1000 is yet to be raised.

John Rogers of Wolfeborough, set 17 lines for cusk, and the next morning found 18 cusk on them, two of which weighed over 5 pounds.

As Mr. John C. Frost of Wolfeborough, was hauling a load of hay, his horses became frightened, and ran away with him. As they came rushing down town with the load, they came in contact with a shade tree, with sufficient force to break the tree down and throw off with great violence, Mr. Frost. The horses sped on at a furious rate down the street with their load, bringing up against a window in the barroom of the Lake Hotel, with tremendous force, smashing the blinds, sash and glass into a thousand fragments, to the great consternation of several guests seated around the stove. How the horses escaped being killed is a miracle, as the pole of the sled was driven through the window with great force, bringing up against the ceiling overhead. Fortunately Mr. Frost was not seriously injured.

The stock of the Dover mills in which the strike took place has fallen badly. Before the strike it sold at $750 on a par value of $500 per share. Within the past week it has sold under the hammer for $665. The general belief is that there was no necessity for the reduction of twelve per cent. in the wages of employes. The best operatives have left for Lowell, Lawrence and Lewiston, and it is believed to be impossible for the company to start up all their works during the winter.

In Brookline, as Charles Adams was driving a span of team horses across Tampus Pond with a load of wood the animals broke through the ice. Mr. A jumped off the team and endeavored to save the horses, but they went to the bottom with the sled. The horses belonged to Hon. J. Hall and were worth $800, says the Telegraph.

☞ The N. H. Veterans' Union have issued their cards for their fifth annual Levee and Ball, to be held on the 6th of January. The business meeting is to be held at Eagle Hall at 11 o'clock A. M., and the oration is to be delivered there at 2 o'clock, P. M., by Col. W. G. Veazie of Rutland, Vt. The ball is to be in Phenix Hall. The music is to be furnished by Hall's Quadrille Band. The arrangements are in the hands of gentlemen who will see that everything is ship-shape, and nothing on their part will be omitted to make it a very pleasant and brilliant affair.

—Hazlitt says: "Dr. Fuller's remark, that the negro is the image of God cut in ebony, is humor; and that Horace Smith's inversion of it, that the task-master is the image of the devil cut in ivory, is wit."

—The funeral of Mr. Charles H. Crowell, took place at Horticultural Hall, Boston, in the presence of a large audience. A funeral discourse was preached by Miss Emma Hardinge.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the best *in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least renumerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

The California whiskey case, involves about four thousand barrels of high wines and proof spirits, which were bought in Ohio and Kentucky, taken to New York, entered for foreign export, allowed to receive drawback, and then sent to San Francisco by way of Cape Horn.

The Ecamencial Council has adjourned until after the holidays.

The Supreme Court has taken a recess until the 20th of January.

CONGRESS, *Monday.*—In the Senate, Mr. Kellogg of Louisiana presented a petition from citizens of New Orleans for a navy yard at that port.

Mr. Patterson of New Hampshire reported favorably on the House joint resolution to annul the lease of the custom house block in San Francisco.

In discussing the resolution, Mr. Patterson alluded to the difficulty of determining the proper site for the public buildings in San Francisco on account of the liability of the ground to be shaken by earthquakes, though New England had experienced more violent earthquakes than San Francisco.

Mr. Ramsey of Minnesota remarked that the alleged affinity between earthquakes and New England territory might furnish a good reason for the government's dispensing with the improvements of certain public buildings, custom houses among others.

Mr. Patterson replied that the people of Boston were not greatly exercised about the custom house tumbling down, and were willing, as New England people generally are, to assume all legitimate risks.

The joint resolution was finally passed.

Mr. Sumner introduced a bill to provide for the adjustment and satisfaction of the claims of American citizens for spoliations committed by the French prior to July 31st, 1861. Referred to the committee on foreign relations.

Copies of the documents in the State Department regarding the condition of Cuba were sent to the Senate.

In the House, a resolution was introduced instructing the Post-Office committee to incorporate in any bill it may report for the abolition of the franking privilege, a provision allowing newspapers to be sent to actual subscribers free of postage. Referred to the Post-Office committee.

A bill making a temporary appropriation of $20,000 for the prosecution of the works for the improvement of Des Moines Rapids on the Mississippi River was passed.

The bill for the admission of Virginia was laid over; and the bill for the reconstruction of Georgia was debated during the evening session.

☞ The Deerfield Farmer's Club have commenced their winter series of meetings. It is singular that the middle aged and older men seem more anxious to learn than the young. When these men were young there was a great interest in public Libraries, Lectures and Debating clubs; but the taste for such things is not now apparent.

LOCAL AFFAIRS.

THE SHOE MANUFACTORY of Mr. Thomas S. Nowell, of this city,—now occupying the recently erected addition to the older building,—is well worthy a visit from any who are interested in the success of local enterprise. We spent an hour or two in the establishment, a few days ago, and were well repaid for our time.

Commencing in the basement, we first saw the engine which furnishes the motive power,—a horizontal one of eight horse-power, running smoothly and without noise. Next we saw the operation of cutting out heels, which is done with dies, by hand, all the heels being of solid leather,—as are all the soles, as well,—no scrap leather of any kind being used for "filling" in this establishment. In the same room is the stripping machine, which cuts sides of sole-leather into strips of the right length for soles; the splitting-machine, which planes the leather to the right thickness; the rolling-machine, for pressing down any inequalities that may be left by the planer; the sole-cutter, which stamps the strips into soles with the least possible waste of leather; the channelling-machine, which cuts the score in which the thread lays when the boot is sewed; and a tank for soaking the leather.

The elevator took us to the next floor, where the cutting-room is situated, and where a large quantity of stock is kept,—with very little exertion on our part; and then to a room still higher up, where the numerous sewing-machines are, driven by steam and tended by the other kind of sewing-machine—the kind that was invented in Adam's day, long ago. We found plenty to interest us here; and were rather sorry when our conductor, Mr. J. Albert Sanborn, who had been struggling with the elevator, in an attempt to make it do as he wanted it to by pulling the wrong cord in the wrong direction,—having found out how to manage it, took us away to see button-holes worked.

On the next floor is the packing-room; and still higher up, next the roof, the principal part of the "men's work" is done. In this room is the burnishing-machine, for polishing heels, but which was not in operation at the time of our visit. Here we saw the Mackay sewing machine, for sewing soles on boots: a most ingenious affair, which does its work strongly and rapidly,—and yields to the patent-holders a rich revenue, as a royalty of from one to three cents on each pair of shoes sewed on the machine has to be paid into their treasury by the manufacturer. A large number of persons draw pay for the making of one pair of boots.

Several other machines,—burnishers, leather-beaters, &c., — the proprietor has not yet had time, since removing to the new and more commodious quarters, to get into position for service; but when his improvements are completed, it will be hard to find a manufactory of any kind with better facilities for turning out rapidly the best quality of goods to be found in the market, than this one. Every improvement in the business is at once introduced, to enable him to answer the demands of his large and constantly-increasing trade.

The whole arrangement of the establishment is convenient, yet economical of space; and the suitable accommodation of the employes, for comfort and convenience, has not been forgotten. Each room is provided with clothes-presses, sinks with hot and cold water, &c.; and the whole building is heated by steam from the boiler of the engine—which will drive the printing-presses in the upper rooms of the old manufactory, as well as the machinery in the new one.

Altogether, we were much pleased with the whole establishment; and were satisfied, from inspecting the stock used, and the manner in which every operation of the business is performed, that the high reputation which this establishment has gained for sending out only first-class goods has been well and honestly earned.

BAL MASQUE.—Mr. W. I. Trafton, formerly of the C. B. B.'s, advertises this morning a *bal masque* for the 28th inst. Mr. Trafton declares that his late co-partners hired Irving Hall for New Year's Eve to prevent his habing it for this ball; but, in the meantime, Mr. T. has engaged Congress Hall for the 28th, and nearly all his tickets are already taken up. The hall will be finely discorated and as the tickets are placed at a low figure the remaining ones will not long remain unsold.

Mr. Trafton desires us to state that he has received from Boston seven dozen masks, which will be sold at cost to those desiring them.

☞ The two Millponds, North and South of this city, were formerly beautiful creeks; but by being enclosed with gates and kept from the washing of the tides, are gradually filling up. Now in these days of steam grist mills, would it not pay for somebody to purchase the ponds, and, by removing the gates, restore these formerly beautiful sheets of clear salt water, to their original attractive and healthful condition? Large vessels were formerly built at the Creek, which is now but a slough of despond.

PRESENTATION.—Mr. Edward E. McIntire, Foreman of S. F. Engine Co. No. 1, was presented with an elegant silver badge, duly inscribed, Monday evening—by the members of the Company. Mr. McIntire was taken by surprise, but responded in a neat speech. Mr. McIntire has many friends, in addition to the members of the fire department.

Correspondence of Chronicle and Gazette.

BOSTON, DEC. 22.

One of the prettiest sights in Boston, and one whose novelty and beauty attracts the gaze of every passer in the early evening, is in the window of Perkins, Stern & Co., (the pioneers of the California wine trade), in Studio Building, Tremont street. It is an artificial vine, stretching from pillar to pillar across the window, its graceful irregularity truthfully simulating the natural convolutions of a vine. At short intervals are clusters of tinted crystal grapes, illuminated by gas, producing a novel effect.

So assiduous is the management of the Eastern Railroad in constantly providing for its large and ever-increasing travel, that it is hard at the close of the year to discriminate which has been most noteworthy. A city paper, a few weeks since, professed to be uncertain whether the road paid Supt. Prescott a salary of $25,000 a year or not, but was unhesitating in the decision that it could better afford to do so then to dispense with his long-tried and valuable services. The building of the new bridge at Lynn, 60 or 80 feet long, between the passage of the last train on Saturday night and the first one on Monday morning, only a month or two since, was a piece of energy noticeable even in go-ahead New England. At their car shops in Salem the company have four new cars, nearly completed, of a new style, which promise to be very convenient as well as beautiful.

Wheeler's Anti-Snowball Pad, for preventing balling and slipping of horses, is having an immense sale in this vicinity, and the proprietor has been oblige to curtail his advertising, from sheer inability to fill the orders for this desirable invention which are pouring in upon him. He is largely extending his facilities for production, to meet the increased demand. X.

BUSINESS NOTICES.

IF A MAN WANTS A BOTTLE OF WHISKEY, let him buy it and take it home like a man, and not sneak home with a bottle of "Bitters" or "Cordial," and pretend that it is medicine. If he wants a tonic that is something better than a temporary stimulant, he should get a bottle of Peruvian Syrup, (an Iron Tonic,) that will vitalize the blood, and give durable strength to the system.

THE DUEL BY LOT.—Let those who are fond of pure romance, read the opening chapters of a story bearing the above caption in another part of our paper. This is one of the most original and at the same time most absorbingly interesting romances of modern times. The characters and incidents seem so real, and the plot of the story is so ingeniously woven that the reader is fascinated at the very commencement and remains so to the end. We advise our readers by all means to read "The Duel by Lot."

BUSINESS.—There is a good deal of talk in Philadelphia among the brokers about a certain young man whose father is overburdened with millions.

The young man would not work, and the old man could not bear an idler, and many were the quarrels between them.

At last the old man, quite out of patience, said:

"Now Jack, I give you one week to make up your mind to what business you are to go in. No son of mine shall be a lounger, and go to work you shall. At the end of this week, if you have made no choice, I will stop your allowance altogether, and make you take a stool in my office, and work enough you'll have of it there."

Well, Jack promised to look around and make up his mind.

At the end of the week, sharp and peremptory as was his way, the old broker sang out:

"Well, Jack, time's up; have you made up your mind to make your own living?"

"Well, father, I've been thinking of it, and have something in my mind, but it will require considerable capital."

"Capital, Jack! capital, my boy!" said the delighted father. "Only try to make your own living, and I'll buy you a National Bank or a line of steamers! What is it, Jack? What is it?"

"Well, father, I was thinking that if you would only advance me three or four hundred thousand dollars, I could invest it in Government bonds and make my living by cutting off the coupons!"

The old man never talks to Jack any more about "business."

SPECIAL NOTICES.

ELEGANCE AND DURABILITY are secured by the purchase of Ladies' and Misses' Gaiters and Slippers of the responsible house of MORLEY & CO., 293 Washington St., Boston, (opposite Jordan, Marsh & Co's.)

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ a healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dlm.

In Remote Settlements of United Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the system and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For $1 or the price of one doctor fee, you take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Holloway's Ointment and Pills.—PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the disease and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

All around the world are its praises told;
It will Cholera cure—scourge of southern climes,
No victim dies, who takes it betimes.
Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*'twill be used again;*
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

SPECIAL NOTICES.

Keep the Circulation Active.

A free and regular circulation of the blood is essential to health. It places the whole system in a state of active defence against all unwholesome influences, and is an especial safeguard against the inimical effect of sudden changes of temperature, and of damp and cold.

If proper attention were paid to this important fact, there would not only be a great decrease in the number of cases of stomach, bowel and renal complaints, but also in the number of deaths by consumption and other pulmonary diseases.

At this period of the year, when the dividing line which separates a genial from an inclement season has just been passed, a course of HOSTETTER'S STOMACH BITTERS will be found of invaluable service in improving the condition of the vital fluid and gently stimulating its flow. Violent coughs and colds, like intermittent fever, the direct effects of a chill atmosphere upon a debilitated organization. Diseases of the kidneys often proceed from the same source. How essential it is, therefore, for persons of feble constitution, to invigorate the vital organization at the commencement of Winter. Fortified by warm clothing without, and HOSTETTER'S BITTERS within, the frail and delicate may brave with impunity an amount of exposure and hardship which, under other circumstances, would prostrate them on a bed of sickness. Let them consider this and be wise in time.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obtained. A vegetable alterative has been found more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the medicinal properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this popular remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feeble sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an anti-bilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or drastic or pill.

NOTICE. — CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

SIRS,—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years, the relation of which was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My *wife* has also used it with most satisfactory results.

Yours Very Truly,

(Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its needfulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS DEVELOPMENTS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with Poison.* They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, also like a charm on the Hair after Dyeing. Try it. lmd&wo4

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M.D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be accquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

THE INDIAN DOCTOR HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,

THE NARRAGANSETT

INDIAN PHYSICIAN

Has taken Rooms

At the Franklin House, Portsmouth,

Where he will remain

Until December 28th.

He treats successfully all curable diseases to which the human system is subject.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fail you, for he treats diseases that afflict both sexes.

Also DR. CONGDON'S

GREAT INDIAN REMEDY!

which has such a far-famed reputation from east to west; the same remedy he used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists..

☞ This is Pilgrim's or Forefathers Day, Dec. 22d.

☞ Auction of Farm Stock, Furniture, &c., at Gravelly Ridge this (Wednesday) morning.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

☞ Republican caucuses in all the wards this (Wednesday) evening, for the purpose of choosing delegates to the State, Councillor, County and State conventions; and for the choice of ward committees for the ensuing year.

☞ By the notice elsewhere it will be seen that the meeting of the Republicans of Ward 3 for the choice of delegates to the various conventions, ward committee, &c., is changed to this evening, instead of Thursday evening as previously announced.

☞ The Baptist and the Congregationalist churches in Deerfield, having been throughly renewed, inside, were opened again for worship, a few days since. The doors to the pews have disappeared, and the seats seem more pleasant and inviting.

☞ The Gazette for the present week closes the yearly volume. We wish every subscriber a merry Christmas; and all who renew their subscriptions, a happy new year! Never before since the Gazette was established, probably, has its prospects for entering on a successful new year been so good as now.

☞ On account of the great amount of work necessary to the successful issue of a special Daily paper during the late Fair, the idea was given up. Poems kindly contributed by Shillaber, Aldrich and others, were of course returned by the ladies.

The cake, fancy articles, &c., remaining unsold were closed out at fair prices, by auction, on the last evening, by Betton & Co., thus leaving the managers with a clean slate.

☞ Mr. John Albee of Newcastle, who is to lecture before the Mercantile Library Association this (Wednesday) evening, is a gentleman of superior culture, and a scholar of ripe thought. He was carefully fitted for professional life, and indeed was for a brief period a clergyman. He has contributed articles of great merit to different periodicals; but a few years ago, following a strong inclination, began farming at his present home by the sea. To this pursuit he brought not only practical ability, but thoughtful and scientific skill—and the lecture upon this subject must be one of interest and help to nearly all. x.

☞ Of the several new Streets petitioned for, to the Board of Aldermen, this year, the only one which has made much real progress is that to Freeman's Point, which is about completed. The Summer Street extension, (a new grade having been adopted since the injunction,) will without doubt be built next season—and the City is probably now liable to indictment for not opening it sooner; but the petitioners do not wish to cause any needless expense. The Cabot and Mystic St. extension, we learn will not be further pressed at present, the petitioners designing instead, to ask a hearing on the Dover St. route—which last we never doubted they could get, as we should suppose the Railroads and private individuals would aid this project, which would increase the value of all property on the north side of the Road, including Gravelly Ridge and Newington.

THE NAVY YARD.—The Washington correspondent of the Manchester Mirror says:

Mr. Pierce, the Postmaster of Portsmouth, came here last week, charged by parties connected with the Navy Yard with certain duties, which, if accomplished, will be of essential service to the working men of that city and vicinity. He modestly, yet earnestly, presented the case of his fellow citizens in such a light as to command the attention of the Department, and left yesterday for the north, with the assurance that their prayer was heard, and should be granted as far as practicable.

Why should not *Portsmouth* Navy Yard, (as it is called, and as it really is, although locally in Maine,) be ranked as a first-class yard? Work can be done there cheaper, and as well as in any other yard. It is to be hoped the attention of the Department will be earnestly called in that direction. I know the attention of a part of our delegation, at least, is that way.

LUDICROUS ANECDOTE OF JOHN MURRAY.—It is well known that Rev. John Murray, the eminent Universalist minister, preached in Portsmouth, and promulgated his sentiments here. One of our old native citizens, who was occasionally a hearer, gives us the following account of a ludicrous accident which he saw, and which would have utterly disconcerted almost any one else, but which seems to have had no such effect on Mr. Murray.

Rev. Mr. Murray, about seventy years ago, preached occasionally in the Universalist meeting house, then on Vaughan Street, in this city; he was a short-built, chubby-looking man, very witty, and full of anecdotes, which would frequently provoke his audience into a laugh as they listened to his sermons. People would generally collect from all the religious societies in Portsmouth on Sunday evenings; and it was common with both old and young to say, "Come, let us go and hear funny Murray preach, this evening." One Sunday evening, the house being crowded, and Mr. Murray being earnest in preaching in the old high pulpit, his face not being much above it, and he standing on a narrow cricket, it capsized and he fell out of the door, rolling down over the stairs to the floor. Men, quite alarmed lest he was injured, hastened from all parts of the house to his assistance; but as he was not hurt he went up again into the pulpit, resuming his sermon by saying, "My brethren, this has some broken the thread of my discourse; but it reminds me of my good friend Dr. Watts, who says, 'On slippery rocks I see them stand, and foaming billows roll beneath.'" A SPECTATOR.

The same house was afterwards used by the Methodists, and Uncle Toby remembers the pulpit very well, as elevated five steps from the floor, so that the fall would not necessarily be disastrous. The couplet in Watts is,

On slippery rocks I see them stand,
And fiery billows roll below:

and Mr. M. would be likely to quote it correctly. He was, moreover, an *impressive* preacher, notwithstanding the laughter of the audience, and ludicrous accidents;—as an intelligent woman, who heard him often, and who became and remained a Methodist, has repeatedly told us, "If any preaching ever did me any good, it was that of funny Murray."

It is manifest, also, that Murray's preaching must have been instructive, impressive and attractive to those persons who were open to such influences, as well as amusing to those who sought for amusement. If it were not so, he would not have been invited, as he was, to become Pastor of the most "evangelical" church in Portsmouth, (afterwards Mr. Walton's);—nor would he have been earnestly invited, as he was, by eminent Churchmen, to preach in the Episcopal Church.

He was truly a magnetic speaker, producing smiles and tears in others while he indulged himself in both.

REPUBLICAN CAUCUS, *Ward One*, will be held at the Ward Room on Elm St., on Wednesday evening, Dec., 22, at 7 o'clock, for the purpose of choosing delegates to the several conventions, &c. Per Order Ward Committee.

Ward Two at Ward Room, State St., same evening for same purpose, at 7 o'clock.

Ward Three at Ward Room on Meeting House Hill, Wednesday evening, Dec. 23 at 7 o'clock, for same purpose.

☞ The travelling in this vicinity is not very inviting. The ice is "slippery enough" to walk on, but not sufficiently so for sleighs, except in the city proper; and the wheeling out of town in any direction is hard and dreary.

Morning Chronicle.

THE VICISSITUDES OF WEDDED LIFE. An incident recently occurred in a family of a seaport town in Maine, which is somewhat rare in the experience of wedded life, and which has furnished an interesting object of remark among many friends and acquaintances of the parties. In the early days of the California emigration, a citizen of the town referred to was induced to try his fortunes in that distant country, and leaving a worthy and highly respected wife behind, he started on his journey. He was gone a long time, but no tidings came him by letter or otherwise, and fears gradually assumed the form of certainty that the man had died among strangers, and that his fate would never be known.

After the lapse of nearly twenty years, his wife having long considered her husband as dead, accepted an offer of marriage and again entered upon that position in life. A short time since the first husband suddenly returned to his former home, and meeting his wife at the door, saluted her with all the ardor of old affection. The woman was astonished almost beyond the power of speech, and her second partner, who stood by, was quite as much overcome to see his wife in the arms of the new comer. An explanation of affairs followed this unexpected return of the old wanderer, who was disposed to resist all arguments demonstrating the rightful course of his former spouse, and there was a consultation of law books and other sources of information to establish the relative claims of each party. The result of the affair is that the woman remains with her second husband, by whom she has one child, and she has taken measures to secure a divorce. The sympathy of neighbors and friends, it is said, is altogether on the side of the wife in her perplexing situation.

CHINA, singular in all things, has erected knowledge into a deity, worshipped by the lowest grades of society as well as the highest, and the loftiest dignities of the nation can be won by the plow-boy who passes the necessary examinations, until he seats himself among the learned band from whom the Emperor chooses his ministers.

A language the most complex, the most elaborate, and the most studied—without an alphabet; a ritualistic religion of the severest type—without a God; a worshipful veneration for the dead—without the dogma of immortality; a life of strict morality, laborious industry, and severe self-denial—without a hereafter; this constitutes China in its completeness. * * *

The origin of the drama is usually ascribed by Chinese authors, to the fostering care of the Emperor Hiouentsong, A. D. 720. But other writers claim the honor for Wen-ti, the founder of the dynasty of Soui, A. D. 581.

As in all other countries, the most ancient literary works are in the form of verse, adapted to music and consecrated to worship—music having been cultivated as an art at so early a period, that under the Emperor Chun, more than twenty-two hundred years before the Christian era, there existed a public superintendent of music; and the rudeness of the art seems to have been considered, as among the Greeks, as connected with the science of government as well as conducive to morality. *Printers' Circular.*

—A Denver reporter in describing a ball, says the married ladies of that city "always did discount the girls in grand dress, and they do it still," and he mentions several who were "chiefs-of-staff for stylish grace and superb harness." A certain "quiet class of married ladies," however, all likewise mentioned by name, "were, as usual, well attired though not fashionably stunning," and of this latter class, it is said, they "may be quoted always sterling—the style of wife it pays to have."

—A frightened horse, at Gloucester, Mass., one day last week tipped over a sleigh, split out two men, and with the empty sleigh ran against another man who was walking, and dragged him against a stone post, breaking his neck, and killing him instantly. The deceased was named Charles Brown, and he is said to be a worthy man who leaves a widow and four children, who depended on his labor. A subscription has been opened for their relief.

—A middle aged man, called a clergyman, who has been lately supplying Universalist and Unitarian pulpits near Burlington, Vt.,—has serious charges brought against him by two respectable young women, and an indignant father sues him for debauching his daughter, who is a mere child. The accused is said to have a wife and family,—but the papers don't give his name. Let us have it.

—An immense meeting of factory operatives and others sympathizing with them, was held in Huntington Hall, Lowell, Charles Cowley presiding. Jennie Collins made an impassioned appeal for the Dover strikers. Resolutions were passed, expressing the warmest sympathy with the strikers, and demanding the enactment of a ten-hour law.

—"And will you convict this man upon such testimony?" a Philadelphia lawyer asked in court, the other day. "Certainly not," a juror promptly responded; and the Judge immediately fined him one hundred dollars for his promptness.

—"Remember who you are talking to, sir," said an indignant parent to a fractious boy. "I am your father, sir." "Well, who's to blame for that?" said the young impudence; "ain't me?"

—The last fashionable New York bride has a $150 night-dress, and says she is prepared for a fire during the night.

ANOTHER FOOLISH WIFE!

THE DUEL BY LOT

Woman's Vengeance!

A HUSBAND SHOT!

How many wives are there in our broad land who pray earnestly, daily, "lead us not into temptation!" They may be pure in heart and unblemished in reputation, but still the tempter will sometimes come in spite of every watch and ward. Let those who have been thus tempted read the trials and struggles of our heroine, and it will not only interest them deeply, but render them stronger, purer, and better fitted to meet and conquer temptation, let it present itself in whatever form it may.

One fine day in the fall of the year, Lord and Lady Carisbrook were seated under the shade of a spreading beech tree, in the gardens attached to Caldecott Hall, which was the name of their ancestral abode. His lordship was reading a letter he had received from his brother in London, and when he had completed its perusal he exclaimed:

"Hubert says in his letter, my dear, that he has dispatched to us Sir Charles Evander, a young baronet of whom I have heard something. He is a friend of Hubert's, who knows his mother very well, and he wishes him to be kept for some time in the country, if possible, as the delights of London are rapidly demoralizing him."

"I shall be glad to extend our hospitality to any friend of your brother Hubert's," answered Lady Crisbrook, who never contradicted her husband in anything.

"The letter goes on to say," continued his lorpship, "that his mother, Lady Evander, wishes him to renew his acquaintance with the St. Aubys, who live near us. Sir Charles and Lily met in town, and if a match could be arranged between them, it would be most desirable."

"We will do what we can," said her ladyship, favoring her husband with a smile. "I am sure we have been so happy during our wedded life, dearest Albert, that we need have no compunction in inducing two young people to unite themselves together."

After some further conversation it was decided that they would gladly receive Sir Charles Evander as a guest, and do all they could to make him forget the delights of the town by introducing to his notice the many charms of a country life.

A week elapsed and Sir Charles Evander arrived at Caldecott Hall.

He was tall, handsome, well-made, and had that indescribable air, easy, well-bred air, which can only be acquired from moving in the best society. There was a magic in his eyes, and Lady Carisbrook had not been in his company half-an-hour, before she felt fascinated by his glance, and turning away with a shudder, said to herself:

"That is indeed a man for a woman to love. How happy should Miss St. Aubyn be with such a suitor."

Lord Carisbrook found the young baronet's society as agreeable as did his wife.

Young as he was, he had seen a great deal of the world, which had made him somewhat of a cynic. In reality he dazzled, rather than made a real impression on his friends, for there was nothing genuine or sincere about him. He turned everything into ridicule and laughed at everybody.

Carisbrook soon discovered that he was an accomplished sportsman, and that the amusements of city had not rendered him in any way effemina.e.

They went out together on shooting expeditions, and always came back with a full bag, Sir Charles being an excellent shot, and thoroughly at home with dog and gun.

There were so many places on the estate to go to, so much to see, and so much to do during Sir Charles Evander's first week at Caldecott, that Lily St. Aubyn was forgotten until Lady Carisbrook exclaimed:

"We have some most agreeable neighbors, Evander, to whom I shall feel delighted to introduce you. Among others I may mention the St. Aubyns."

"Of Rock Hill?" said Charles. "Yes; I have met them, and shall be glad to renew the acquaintance. Lily is a fine girl, and she assisted me to pass same time very pleasantly in London."

"We will invite them to meet you at dinner, Sir Charles," exclaimed Lady Carisbrook, "but you must not suppose that we have any design upon your heart in bringing you in contact with the most lovely young lady in the country."

Sir Charles Evander laughed and made answer; "I do not think I am so impressionable as you seem to imagine, although I will own myself susceptible of a woman's charms."

Presently Lord Carisbrook went to the other end of the room, and Evander had an opportunity of saying in a low tone;

"My heart is gone already, Lady Carisbrook."

"Indeed! since when, may I ask?" she replied, with a slight elevation of the eyebrows.

"Since I entered this house. Since I first beheld your Lady Carisbrook," he said with a glance of admiration.

"Sir Charles," exclaimed her ladyship, in a tone of severe rebuke, "if you dare to repeat such language to me, I shall instantly make my husband acquainted with your conduct. You, a guest in his house, and to make such a speech to the wife of your host!"

"Why not when a hostess is pretty?" answered Evander, twirling his mustache.

Lady Carisbrook half rose as if to call her husband's attention, but he was looking over some books and had his back turned toward her.

"If you wish to lose your husband, by all means promote a quarrel between us," said Sir Charles, coolly. "Duelling is fashionable in France, and I can fire a pistol with as much skill as I can use a sword."

She became passive under this threat, and again his large lustrous eyes were fixed upon her, appearing to fathom the secret depths of the innermost recesses of her soul.

Lady Carisbrook began to be afraid of this man, but after his familiarity that evening she always avoided a conversation with him.

A few days afterward Lord Carisbrook and Sir Charles Evander were out shooting together near the confines of the estate. By this side was the main road, and they sat down to rest while the keepers opened out a slight repast they had brought with them.

Suddenly the noise of horses galloping rapidly along the road fell upon their ears: with this mingled the clatter of wheels and the cries of women, apparently in a dreadful state of alarm.

Sir Charles Evander was up in a moment, looking eagerly along the highway.

Presently he beheld a carriage drawn by two fiery horses over which the terrified coachman had lost all control, descending a hill at a rapid pace. He was just able to perceive that two ladies occupied the carriage, and then without a moment's hesitation, he raised his gun and shot one of the horses dead, thus bringing the carriage to a stand still. It turned out that the lady occupants of the carriage were Mrs. St. Aubyn and her daughter Lily, who were at once conducted to Caldecott Hall by Evander and Lord Carisbrook.

When they reached Caldecott Hall, the the blushing girl who was hanging on Evander's arm at once attracted Lady Carisbrook's notice.

A pang shot through her heart.

"What," she exclaimed to herself, "am I jealous! Oh, it is absolutely necessary for my peace of mind that that man should leave this house."

The pleasant party at Caldecott Hall was soon broken up. The St. Aubyns returned to town, and Sir Charles Evander growing tired of the country and its amusements, made his excuse to Lord and Lady Carisbrook, and also sought the gay metropolis. Her ladyship felt very dull and miserable when the young baronet took his departure.

She longed also to go to town, and soon made her husband acquainted with her wishes. He was so satisfied with his country home and the sports he there enjoyed, that he combatted the resolution: but in the end she gained her point. Caldecott was shut up, and the servants sent to town, to a house which his lordship's agent had taken for them, in a fashionable part of the West End. It was in Wilton Crescent, and they were not far from Hans Place where the St. Aubyns resided.

Her ladyship did not much care about them, because she fancied that Sir Charles Evander paid the lovely Lily too much attention; but she was obliged to keep on friendly terms with them because they were invited everywhere, and she would meet them at all good houses.

Sir Charles was soon made aware of Lady Carisbrook's presence in town, and he laughed in his sleeve, for he knew enough of women and their characters to understand that as he had gone away from her, she had followed him.

The gentlemen whom Lady Carisbrook met, and to whom she talked about Sir Charles, did not give Evander the best possible character. There were two friends of his, Captain Vavasour and Mr. Frederick Mordaunt, the latter of whom was constantly at the St. Aubyn's, and at all places where he thought he should meet Lily, and this conduct of his was not at all surprising, for he loved her passionately, though she had not in any marked measure encouraged the preference which he exhibited for her.

Mr. Mordaunt had taken a strong dislike to Sir Charles Evander ever since he first met him at Hans Place. The attitude which the latter assumed toward Lily convinced the jealous mind of the lover that he was in love with her, and that she did not object to his admiration. Mordaunt's affection for her was so sincere that if he could not win her himself, he wished to see her married to one who would insure her happiness, and this he felt certain Sir Charles would not do. He could say nothing to either Lily or her mother, because they would accuse him of an interested motive in villifying a man he had treated as his friend.

To Lady Carisbrook, however, he was not so reticent. He told her his opinion of the baronet, though there was no tinge of acrimony or malice in what he said. He spoke his mind freely, with the air of one who was fearless of the consequences and knew that he was uttering the truth, Lady Carisbrook had invited this confidence on the part of Mr. Mordaunt and Captain Vavasour, but when she had gained it she was displeased with them for running down one whom she liked, and on one occasion said, with some asperity:

'If Sir Charles Evander is such as you describe him to be, I wonder you associate with him.'

'For my part,' replied Mr. Mordaunt, 'I can answer that I have for some time ceased to do so. I am coldly civil whenever we meet, and he must know that I do not class him among the number of my friends.'

'That must be a great deprivation for Sir Charles, Mr. Mordaunt,' said her ladyship. 'But I hope to meet you in a more forgiving humor at Mrs. St. Aubyn's reception to-morrow evening. I shall be glad to see you both there, as I have so few friends in town. Carisbrook leaves London for a week to-morrow morning, to see after his poor dogs and horses, about whom he frets so much.'

The party given by Mrs. St. Aubyn, to which her ladyship had alluded, was merely a reception. Visitors dropped in as they liked, went from group to group, chattering first with one, then with the another, and took their departure, when it pleased them, without any ceremony.

Lady Garisbrook made her appearance about ten o'clock, superbly dressed, and almost the first person she met on entering, after having spoken to her amiable hostess, was Sir Charles Evander, whom she thought had never looked handsomer.

'This is kind of you,' he exclaimed. 'There is no one worth speaking to here, and I was getting awfully bored. May I inquire where Carisbrook is?'

'I did not know that he had left town?' she replied, showing her pearly teeth and fluttering her fan. 'I am quite alone. I do not know what I shall do with myself.'

'I am acquainted with married women,' answered Sir Charles, twisting his mustache, 'who would not consider such an occurrence a calamity. They would be glad of a little relief from the presence of their lord and master.'

'That is charming,' said Lady Carisbrook, eagerly. 'You will tell me what those ladies did, will you not? Please do take compassion upon and tell me.'

'With the greatest pleasure,' rejoined Sir Charles Evander. 'I must premise, however, that my ladies were not of the sentimental order. They did not look upon husbands generally as an unqualified good, and they enjoyed their freedom by such innocent little amusements as giving dinner parties to an intimate friend or friends. I have had such an invitation myself; a box at the theater has diversified the proceedings.'

'Excellent,' exclaimed Lady Carisbrook, 'I am sure that I cannot do better than follow such a capital example. Will you favor me with your company at my house to dinner to-morrow at seven, Sir Charles?'

'I shall be most happy,' he said.

Lily St. Aubyn came up and they were separated; but Lady Carisbrook had made the engagement, calculating upon her husband's absence, without meaning any harm, though she ought to have known that it was wrong to do anything which she could not tell his lordship.

The greater part of the day was passed by her in buying flowers in Covent garden, and making preparations for a charming little dinner, such as would at once display her taste and the resources of her establishment.

In the afternoon she went to her bed-room to lay down and rest for an hour. She was tired. It had been quite late when she left Mrs. St. Aubyn's, and not used to such hours, she found it difficult to recover from the fatigue which they occasioned.

To her surprise she was disturbed, as she was about to close her eyes for a refreshing sleep, by a knocking at the door.

'It is you, Emily,' said a voice, which she recognized instantly.

'Good gracious, my husband! What brings him back? can he suspect' she began, when her speculations were cut short by the entrance of Lord Carisbrook, who caught her in his arms and kissed her tenderly, and cried:

'Here I am again, dearest, sooner than you expected. Ah, what is this? You do not seem so pleased to see me as I thought you would be.'

'You frightened me. I was half a sleep, and my nerves are a little weak. I was at Mrs. St. Aubyn's last night till late,' she answered, rubbing her eyes and sitting on the edge of the bed wrapped as she was in the capacious folds of a pink dressing-gown. 'But what brought you away from Caldecott in such a hurry!'

'A relative of mine—who made a fortune in India, became eccentric and lived in London under another name—is dead, died yesterday in fact, and his solicitor has written to me to say that he has left me the greater portion of his wealth.'

'There is nothing very interesting about that,' her ladyship said, 'we have as much money as we want already. Is that all that has brought you up in such a hurry!—as for me I would not have gone across the street for such news.'

'You have very strange ideas,' replied Lord Carisbrook, with a tone of disappointment. 'You were sorry at seeing me, and now you don't care for the legacy.'

'I do like people to be exact and consistent. Your return has destroyed my project of independence for a week. I was going out to dinner to-night, and—'

'What is to prevent you?' interrupted Carisbrook. 'I have engaged myself to the solicitor and shall very likely stay late, talking over matters with him. I shall not be home till twelve certainly, so you can go where you like without paying the slightest attention to me.'

Imprinting another kiss upon her lips Lord Carisbrook took his departure, called a cab, drove to his club, and told his friends of his good fortune, and ordered dinner.

Her ladyship determined to be brave, and receive Sir Charles Evander, though prudence dictated the adoption of a very different course.

It happened that Sir Charles was more considerate. He belonged to the same club as Lord Carisbrook, and met him there in the afternoon.

'How do?' he said. 'I thought you a hundred miles away in the country.'

'At Caldecott,' replied his lordship. 'I have only just returned. Business brought me back. It was a great pity. I never saw finer weather for shooting.'

Sir Charles went to the writing-room, and wrote a letter to Emily, in which he said that he had met her husband, and hoped she would, under the circumstances, excuse him for breaking his engagement, as he had no wish to meet Carisbrook, and he sincerely trusted that this evening alone was only a pleasure deferred.

Of course he did not see Carisbrook, who was putting on his hat, and he said to the porter distinctly in his lordship's hearing.

'Give this letter to a commissionaire, and let him take it to Lady Carisbrook's Wilton Crescent.'

These words fell like a thunderbolt upon his lordship, who, half-stupefied, watched Sir Charles Evander re-enter the club. He was himself going for a stroll round St. James Square, in which his club was situated, to get an appetite for dinner, and changing his mind, he put down his hat, and extending his hand to the porter, said:

'Give me that letter; it's for my wife, and I can deliver it. Most probably Sir Charles Evander did not see me, or he would have asked me to take charge of it.'

The porter did as he was requested; and Lord Carisbrook, fuming like an angry lion, went up stairs to the smoking-room to read the letter at his leisure, unobserved and uninterrupted.

Its contents astounded him. They, indeed, were calculated to throw suspicion upon the conduct of any woman, and if a man had plunged a knife into his heart, he would not have felt more exquisite pain than he did in reading this compromising letter of Sir Charles Evander's.

'This is terrible!' he muttered, wiping the perspiration, which had gathered on his brow in great drops, away with his his hands. "No wonder she was not anxious to see me. This is how she enjoys her independence. But the affair cannot rest here. It was, indeed, an unlucky day for me when Sir Charles Evander crossed the threshold. Bitterly shall he repent his treachery. I must kill that man, or he shall kill me.' The continuation of this powerful story will be found in the New York Weekly, No. 7, which can be purchased from all News Agents on and after Tuesday, December 14th. Specimen copies sent free. The terms to mail subscribers are: Single copy, one year, $3; Four copies ($2.50 each), $10; and Nine copies (money all sent at one time) $20. Getters-up of clubs can afterward add subscribers at $2.50 each. All letters must be directed to STREET & SMITH, P. O. Box No. 4896, N. Y.

LORILLARD'S "EUREKA"

SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB

SMOKING TOBACCO is made of the Choicest leaf grown; it is anti-nervous in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Merchaum Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY

CHEWING TOBACCO.—This brand of Fine Cut chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS

HAVE BEEN IN GENERAL USE in the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.

The Chronicle.

Correspondence Chronicle and Gazette.

NORTH HAMPTON, Dec. 21.

It has been ascertained, much to the disappointment of the little folks and some of the big ones, that Kris Kringle will *not* pay us any public visit this year. Altho' we are not to have a visit from Kris with his Christmas tree, the disappointed ones will probably not fail to receive a call from Santa Claus on his annual tour, which will somewhat relieve their trouble at not receiving the expected visit from Kris.

The Ladies' Sewing Circle has taken the name of the Ladies' Social Union, with Mrs. Dr. Odell as President, and meets once a fortnight in the Vestry, for social conversation and anything else that may conduce to passing the evening pleasantly, and with profit to those who attend. We understand that it is the intention to hold a Levee soon, under the auspices of the Union.

We were shown, a few day since, a very interesting drawing of the old Meeting House, long since taken down, together with the present Church, as it was before the Vestry was built underneath; and also the Parsonage house. The drawing, although not yet finished, was executed by Mr. Jonathan French, son of the late Jonathan French, D. D. We hope Mr. F. may be induced to finish it, when photographs could easily be taken, which would be highly prized by many who desire to possess a remembrance of the old Meeting House at North Hill, which was the name first given to this part of Hampton.

In my former communication the types made me say James *B.* Leavitt was chosen Superintendent of the S. S., whereas, it should read, James *R.* Leavitt.

Yours, D. P. T.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest prizes at all the principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $60. FIVE OCTAVE ORGANS, Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

Portsmouth, N. H.

THURSDAY, DEC. 23, 1869.

In General.

Floridians are eating green peas.

Fremont is paying $50,000 a year for board at Washington.

Chase doesn't like Stanton's appointment. Of course not!

Butler and Bingham had a fierce war of words on the floor of the House of Representatives, while the Georgia bill was being discussed, Tuesday; and in two minutes after, Butler was at Bingham's desk, both being engaged in pleasant conversation.

The House Naval committee passed over the subject of the staff and line quarrel until after the holidays.

There is a "discrepancy" of $66,067.35 in the accounts of the Howard National Bank, of Boston.

Providence is velocipeding.

Gold sold at 119 3-4 on Tuesday.

Sugared pop-corn has poisoned a a Portland man.

Six hundred persons are employed in this country in the manufacture of glass eyes.

There are only 700 women in Wyoming Territory.

John Hickman, living near Chancellorsville, Ill., murdered his wife on Sunday last by cutting her throat. This is the second wife Hickman has killed. He was acquitted of the first murder on the plea of insanity.

A freight engine of the Baltimore and Ohio Railroad exploded near Rowlesburg, Monday night, killing the engineer instantly and severely wounding the fireman.

California towns have been shaking slightly.

McFarland pleads not guilty of the murder of Richardson.

Republican demonstrations continue in Spain.

A man named Wing got caught in quicksand at the bottom of a well in Winchester, Mass., and was extricated by the use of long-bitted borers, with which his friends bored into the clay around his legs and relieved him from the pressure. He was an exhausted man when he was hoisted out.

A shock of earthquake was felt at Memphis on Monday morning.

The latest report from Texas is that 119 counties give Davis a majority of 620. Only seven counties remain to be heard from.

The Mississippi legislature is four to one Republican.

Stanton is 54.

The expedition to survey the Isthmus of Darien for the proposed ship canal will not leave before the middle of January.

The N. Y. Sun publishes some revelations concerning the trial of Andrew Johnson. It says that Senators Henderson and Fowler sold themselves.

The latest proposed enterprise is to convert the river Nile into a canal.

Cespedes claims that there are 40,000 Cubans under arms.

WHO'S FAILED. — The New York Journal of Commerce says this question is never a pleasant one for discussion, and just now we think that some of our contemporaries, and many private persons also, are laying too much emphasis upon it, and repeating it too often for the public good. This world is not coming to an end with 1869, nor is everybody on the verge of bankruptcy. The majority of our merchants in every department of trade never before stood in as strong a financial position as they do at present. Credits have not been extended, trade has not been carried on recklessly, and the bulk of the year's business has not been built, as in some former years, on insufficient capital, like an inverted pyramid, ready to topple over with the first rude blast of an adverse wind.

Many persons have lived extravagantly on a slender income or insufficient profits, and as they come into a December review of their financial situation, are unable to make both ends meet. But this need not create a panic, nor produce a financial revulsion. It is only when there has been a general expansion throughout the community beyond safe limits that trouble of this sort need to be apprehended. The new year will bring a revival of trade, and with its fresh courage and hope to many hearts. The croakers cannot produce a general crash, but they may do some mischief, and there is no reason for any present exercise of their vocation. Let us all have a little patience and more hopefulness: there is much good yet in store for us.

DEMOCRATIC ECONOMY.—Kentucky increased its debt one million last year, and the State Auditor estimates that there will be a deficit at the end of the present year of over a million. Democratic majority in Kentucky, any where between 50,000 and 75,000.

New Hampshire Items.

Reuben Sanborn, a native of Sandown, a veteran of the war of the Revolution, settled in Protectworth, (now Springfield,) soon after the close of the war, when the country was a wilderness, and by industry, prudence and perseverance, cleared up a farm and built good buildings, and brought up a family of ten children — five sons and five daughters, all of whom became heads of families. Col. Richard Sanborn, son of Reuben, was born at the old homestead in Springfield, August 1, 1797, and was married to Alice S. Collins, of Springfield, Nov. 18, 1819. Thanksgiving, Nov. 18, being the fiftieth anniversary of the Colonel's marriage, their descendants came together at the dwelling of their parents, near the old homestead.

Monday afternoon, at Manchester, John McIntyre, the champion woodsawyer, sawed a cord of hard wood "once in two" in 35 minutes, on a wager of five dollars.

A Union Five Cent Savings Bank has been established at Exeter.

Two youthful Lake Villagers were recently fined $10 and costs each, for maliciously injuring a school-house in Gilford. Good!

At the Institute, held at Winchester last week, measures were taken to organize a State Literary Association, whose object shall be to secure lecturers in every town in New Hampshire, upon educational subjects. Professors Sanborn, Orcutt and Quimby were appointed a committee to prepare a circular calling attention to this subject.

Mr. Z. Foster Campbell, apothecary at Manchester, missed from his money till a twenty-dollar bank note, whose disappearance was a mystery. On opening his drawer, a dollar note fell from the back part of it to the floor. This led to an examination, when he found a mouse's nest, made of money—scrip and bills. On taking it to pieces, he found his lost twenty-dollar note, unharmed, and scrip to make the value of the nest fifty dollars or more. A few pieces of the money were destroyed, but nearly all is in a redeemable state. The thief has not been arrested.

CONGRESS, *Tuesday*.—In the Senate, Mr. Cragin of New Hampshire reported favorably, with an amendment, the bill to provide for the execution of the law against polygamy in Utah.

Mr. Warner of Alabama introduced a bill for the more equal distribution of the national banking capital.

The census bill was re-committed.

The Georgia bill came up, and Messrs. Butler and Bingham had a spicy rencontre. Mr. Bingham's motion to postpone the bill, on motion, was laid on the table—117 to 54. The bill was then passed, 121 to 51. By its provisions Georgia must ratify the 15th amendment previous to admission.

New Publications.

The N. H. Register and Farmer's Almanac for 1870, contains nearly 200 close printed pages, the calendar for the year, blanks for memoranda, political statistics, business directory, &c., for each town in the State, besides a great amount of other valuable information. Published by the Claremont Manufacturing Co., Claremont, N. H., and sold by all booksellers.

☞ Lucy Stone lectured on Woman's rights, before the Newburyport Lyceum, on Friday evening; and on Saturday, a woman there cowhided her husband in his store, for getting a little high, and then had him put in the watchouse. Served him right — woman's rights, sure enough.

☞ The Newburyport Herald thinks the rest of the Union, with their divorce and marriage laws, free love, woman's rights and prostitution, can hardly throw stones at Utah—and if that city is worse than Washington, the wonder is, the country escapes the fate of the cities of the plain.

"SANTO DOMINGO."—In this Island, earthquakes, though not frequent, have been very disastrous; the most notable recorded are those of 1564, 1684, 1691, 1751, 1750, and 1842. By that of 1751 Port au Prince was destroyed and 62 miles of coast submerged: and by that of 1842 towns were overturned and thousands of lives lost. —*Universal Gazetteer.*

—The funny man of the Philadelphia Bulletin has written this curious composition on Niagara:

Few countries lax their cataracks,
With straddles that'll stagger'ee;
& low & high such lesser fry
On smaller scales may switch their tails
As sassy-like & swaggery,
But for the beller that skeers a feller,
& slams & smax on persons' bax,
& Scratch let loose, & general juice,
& rox & crax & stix in sax
& folx in pax & squaws in sax,
Again the raft of such small craft
On all these tax our people bax
The fixins of Niagary.

For the Chronicle and Gazette.

GET MARRIED, GIRLS.

TUNE.—"A man's a man for a' that."

The lasses listen in our schools
To words of wisest scamin'—
"Be women worthy of the name,
For actin', not for dreamin'."
For a' that and a' that,
In spite of talk and a' that,
A husband is the needfu' thing;
Get married, girls, for a' that.

If you refuse some ninny's hand
With modest self-respectin',
You'll rue the day that you were born
To bide the world's neglectin'.
For a' that and a' that,
For wit and sense and a' that,
Without a man you are but 0
In spite of brains and a' that.

The Holy Church her workers counts—
The married and no other;
There is no single sister now,
She must be Mrs. Brother.
For a' that and a' that,
St. Paul may stare and a' that,
His friends are left out in the cold,
With babes and fools and a' that.

In Utah is the Sinai now
From which our laws are given;
"Go, seal the woman to a man,
Her only chance for heaven."
For a' that and a' that,
For truth and faith and a' that,
A loving heart, and earnest will—
A weddin's more than a' that.

Then never mind the studies, girls,
The sewin' and the cookin',—
Another work you have to do,
A man you must be bookin'.
For a' that and a' that,
Get married, girls, for a' that—
A husband is the needfu' thing
Though he's a goose and a' that.

And what if he should break your heart?
You need not bear the pain then;
A western trip, a lawyer's fee,
And you can try again then.
For a' that and a' that,
Divorce and crime and a' that,
A single life is worst of a'—
Get married, girls, for a' that!

—Napoleon said what France most needed was mothers. Rev. J. D. Fulton says that is what America most needs—mothers, not murderers!

—The best medicine—sunshine.

MALT EXTRACT—

Is a beverage particularly adapted to persons of weak and debilitated constitutions, and those suffering from dyspepsia, loss of appetite, general debility, etc. It takes the place of and is SUPERIOR to ale, porter, and spirituous liquors in all cases where nourishing beverages and tonics are needed. Eminent physicians of New York, say: "We have used HOPE'S MALT EXTRACT in practice, and the result have been such as to fully justify the claims made for it; we feel certain that it is destined to supply a want long felt." eodimlf

SPECIAL NOTICE.

ON and After TUESDAY JULY 6th, two hundred persons can find constant employment at SEAMING HOSE at the highest prices paid, by calling at the Grocery and Provision Store, Nos. 16 and 18 Cabot Street.
jy1 B. NORTON.

☞ New England is to have, hereafter, an illustrated paper of its own. Messrs. Fields, Osgood & Co., Boston, announce that with the new year they will enlarge "Every Saturday" to a sixteen page imperial folio, about the size of Harper's Weekly, to which they will add the new feature of first-class illustrations. These illustrations will be engraved from designs by leading European artists, and executed in the highest style of art. Among them will be views of famous places, copies of celebrated paintings, and portraits of modern celebrities.

In all other respects, say the publishers, Every Saturday will remain unchanged, and they could not make a more welcome announcement. The contents of this publication are always fresh, varied and interesting, embracing the choicest reading, both light and solid, which appears in the English and continental periodicals. Frequently also, by special arrangement with foreign authors, it presents valuable papers simultaneously with their production abroad. Notwithstanding the additional expense attendant on the new plan, its price will remain unchanged, being $5 a year, — and only $4 for subscribers to any other periodical published by Fields, Osgood & Co.

☞ The editor of the Newburyport Herald thought old times were revived, when he saw on Tuesday, four two-horse teams from Vermont, loaded with country produce, drive into Market Square in that city.

SPECIAL NOTICES.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the gastric juice, the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," are one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ a healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dlm.

SPECIAL NOTICES.

Undefined Ailments.

There are many ailments, trying in their nature, but symptoms of which are not sufficiently specific to enable physicians to classify them under any particular head. As a general rule they arise from a general debility of the whole organization, but their primary cause, in at least three cases out of five, is a lack of brisk vital action in the stomach and liver. Stimulate and tone the relaxed digestive and secretive organs, and bodily ease, health and vigor will follow the treatment. Among all the medicines which have recommended as conducive to this end, none has been administered with such uniform and entire success as HOSTETTER'S STOMACH BITTERS.

Its ingredients were selected from the vegetable kingdom, originally, with a view to the invigoration of the physique and the constitution, and also for their antibilious and slightly laxative properties. Twenty odd years of experience has proved that these herbal restoratives were wisely chosen and have been judiciously apportioned in this celebrated preparation. Not only as a specific for indigestion and all kindred complaints, but as a *household remedy for all the minor ailments* incident to humanity, it has obtained a reputation based on unimpeachable testimony, which fairly eclipses that of any other proprietory or official medicine in use. d23

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative compounds has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S Liver and Stomach Lozenge, will ever again take a purgative powder, or draught or pill.

NOTICE.—CIRCULARS and SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH AND WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

DR. CONGDON was here eight weeks ago, and remained only one week, and performed some of the

Most Remarkable Cures Ever Known!

and now, by request of some of the most prominent citizens, he has returned.

DR. CONGDON'S medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fill you, for he treats diseases that afflict both sexes.

STRONG MINDED GOVERNMENT.

"Is Mr. Cutts in?" asked a gentleman, who, having knocked at a door, was saluted by a woman from an upper window, with, "Well, what's wantin' naow?"

"Yes, he's in, or about, somewhere, "I suppose," she replied: "but I'm Mr. Cutts, whom any business is to be done. He's Mr. Cutts, eatin' and drinkin' and sleepin' times."

"Well, my good woman," said the gentleman, "I think he will be Mr. Cutts for my business, too. I wish to see him."

"What do you want of him?" asked the shrew, thrusting her head still further out of the window.

"To do something for me. But I must see himself," was the reply.

"Is it real business, for pay, or only favor you want? I can let your hoss have a peck of oats, or I can direct you the shortest road to the Four corners, or I can—I can—why, I can do anything for you that he could; and a good deal more! I take the money, and write out receipts, and pay the men, and I trade off the produce! I'm as good a judge of stock as he is, and I can't be beat on horse flesh!"

"But," said the gentleman, drawing down his face solemnly, "you can't take his place now. Find him for me at once."

The shrew was baffled. "Look-a-here, mister," she continued, "may be you don't know the circumstances of the case. This here farm is mine and, it was my father's afore me; and Cutts, he haint no more claim to it than that hen down there has! And besides, I'm seven years older than he is, and a foot higher, and weighs twenty pounds more! What's your business on my place, if I may make so bold."

"To see and talk with your husband," replied the gentleman, getting out of his chaise and hitching his horse to a post, as if he meant to stay until he did see him.

"Be you a doctor? Cause there aint a livin' thing the matter with Cutts! He's the wellest man in the town, and so he I," said this "woman for the times."

"No, my good woman, I'm not a doctor. Do you think your husband will be in soon? Send that boy to find him!" said the stranger.

The boy looked up in his mother's face; but he knew his own interests too well to start without orders.

"Then you're a ministe', I suppose, by your black coat. I may as well tell you, and save your time, and we don't go to meet' and don't want to. It ain't no use for you to leave no tracts nor nothin', for I've got a big dairy, and haint no time to idle away readin'; and I keep him at it so early and so late, that when he's done work he's glad to go to bed and rest!"

"I'm no minister, madam: I wish I was though for your sake," said the gentleman. "Send for your husband; I cannot wait much longer. I must see him at once."

The boy started to his feet again, and looked in his mother's eye; but it gave no marching orders.

"Look a here, mister," now appearing at the door, and looking defiantly at him, "you're a schoolmaster huntin' up a district school; and you think he's committee man; but he ain't, this year."

"I never taught school and never mean to," said the stranger.

"Ma'am Cutts," as her neighbors called her, dropped her hands at her side and heaved a groan. She had found a man she couldn't manage.

"See here, now, mister," she said, "I'm one of them that can't be deceived! I can read a body right through; and I knew what you was the blessed minute I clapped eyes on you! I can tell by your everlastin' arguin', that you're a lawyer! We haint got no quarrels, don't want no deeds drawn, nor no wills made; so, if you're huntin' a job out of my husband, you may as well onhitch your hoss and drive on. We know enough to make a little money, and I know enough to hold on to it."

"My good woman, you entirely misunderstood my errand. I can tell no person but himself, what it is, and I must him in confidence, alone. If he chooses he may break it to you in the best way he can!"

"O, my goodness sakes alive! Brother Lil's blowed up in a Mis'sippi boat, I bet! O, la me, the poor fellow! He left a little something, didn't he?"

"I never heard of him; and nobody's blowed up, that I know of," replied the gentleman.

"O, now I know? You're the man that wants to go to Congress, ha, and have come here a huntin' after votes. He shan't vote for you! I hate politicians, specially, them that goes agin women, and thinks they was made to drudge, and nothing else! I go for free and equal rights for white folks—men and women—for Scripture says, 'there isn't neither men nor women; but all's one in politics.' I believe the day's a comin' when such as you will have to bow the knee to women, afore you can get the big places and big pay that's a eatin us up with taxes? You can't see my husband! We are goin' to the polls on the way to the mill, and I'll promise you he votes right."

"I'm no candidate, and I don't know who you're talking about. Ah, there comes the man I want!" And the stranger went towards Mr. Cutts, who had just leaped a pair of bars which led from the potato patch into the lane.

Mrs. Cutts flew into the house for her sun-bonnet, to follow them; but by the time she got to the bars, her mysterious visitor and Cutts were driving rapidly down the road!

The strong-minded woman shouted after her husband, "You'd better come back, I tell you!" But the wind was the wrong way, and carried her voice into the potato patch.

"Sir," said the gentleman to honest Cutts, "I have a very simple question to ask you; but I shall have to ask you in confidence. I will give you five dollars if you will promise me not to repeat my words until to-morrow."

"Well, sir," replied Cutts, "I shouldn't like to answer any question that would make trouble among my neighbors. I have my hands full, I can tell you, to keep out of scrapes now; but I've done it, and ha'int an enemy in the world, as I know!"

"But sir, you need not reply to my question, unless you are perfectly willing," said the stranger.

"Ask your question, sir," said Cutts, "and I will not repeat it."

"Well, Mr. Cutts, I am laying fence on the Brisley place, that I've just bought; and I was directed to inquire of you where I could buy cedar posts. A fellow in the store said, 'Cutts can tell you, if his wife will let him; but she won't. She'll insist on telling you herself, perhaps offer to drive with you, wherever you go to order them."

"I told them I would see you, and you only; and the young fellows bet on it. They are to give you ten dollars, and to two or three widows in town a cord of wood each, if I succeed in asking you this alone, and making sure your wife won't know my business till after breakfast to-morrow morning."

Cutts knew his wife's "standing" too well to feel very sensitive, and taking the bill from the stranger, he smiled and said, "I'll go with you to look out cedar posts and keep dark, for the joke's sake; but I don't know as 'she'll let me stay in the house to-night, for I don't own it," replied the good natured Cutts.

"Suppose you go to my place and see to setting the posts. I will send a boy to tell her you had to go off suddenly on a little business, and will be back in the morning" said the stranger.

"I'll do that," replied the Cutts, "for I never quarrel with her, but let her have her own way. I don't want to worry myself about trifles."

"Good bye, man," said the stranger, "there are no trifles in life. The smallest act is important, and this easy good nature of yours will ruin your family. Baffle that spirit to-day, and next Sunday take your boys and go to the house of God, whatever she says, and be a real man—at the head of your own house and family."

"It is rather late to begin," said Cutts, shaking his head in a way that would have warned others from the trap in which his feet were fast. "You see the purse is hers," he added, "and that has been a crueler fetter than her will to me. But I will try to begin anew, for her good as well as the children's."

The boy was sent with the message, but the boy wasn't sharp enough. Ma'am Cutts discovered the whereabouts of her lord, tackled up and went after him!

All the way home and far into the night she used her eloquence, both in pleading and threatening, to find out the mysterious errand of "that hateful town nabob that had come into the town to separate happy families."

But Cutts yielded himself up to a "dumb spirit" for the night; and no measures could induce him to talk on any subject, lest she should pry the mighty secret out of him.

About midnight she wore herself out and went to sleep; but at break of day she began again. He then ventured to say, "as soon as breakfast is over, I'll break the news to you."

"You'll never eat a morsel in my house I can tell you," cried Zantippe, "till you've told me what that ere man wanted of you."

"Then you'll wait a long while to hear it," said Cutts, "for I've vowed I'd never tell it till I had eaten my breakfast!" and with these words he went out.

Ma'am Cutts endured the torture as long as possible, and then got breakfast. She called to the door to no one particular, "Come."

But Cutts didn't come. And after awhile she went out to the barn and found him seated on an upturned half bushel measure, calmly peeling and eating a raw turnip.

"It does seem as if this here man had possessed you!" she cried. "I never saw you so self-willed afore since I took you home!—Your breakfast's all coolin'; do come in!"

Here was a point gained.

Cutts went in as requested, and ate his breakfast. When that was over, "ma'am" settled herself back in her chair, with her face full of eager expectation and said:

"Now begin. What did that ere man want?"

"He wanted some cedar posts," replied Cutts, calmly, without, looking up; "and that was all!"

If an arrow had struck Ma'am Cutts, she could not have manifested more surprise and shame.

"I'm the laughing stock of this town," added Cutts, "and from this hour I turn over a new leaf. I'm henceforth head of my family, and unless this house is made mine, I shall finish off a room in the barn—which is mine—and you will be welcome to share it with me. If not, I'll live there with the boys, and you will find me a civil neighbor."

Ma'am Cutts' power was broken. Since then the farm has been called "John Cutt's place," and he is the head of the house.

LORILLARD'S "EUREKA"

SMOKING TOBACCO is an excellent article of granulated Virginia; it has introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB

SMOKING TOBACCO is made of the Choicest leaf grown; it is anti-nervous in its effects; the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Meerschaum Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY

CHEWING TOBACCO.—This brand of Fine Cut chewing tobacco has no equal or competitor anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS

HAVE BEEN IN GENERAL USE in the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have their articles for sale, ask him to get them; they are sold by respectable jobbers and dealers everywhere.

☞ Thespians, Thursday evening, 7:30.

☞ Mr. Daniel J. Vaughan of this city was confirmed as Pension Agent by the U. S. Senate on Tuesday.

DIVIDENDS. — The Eastern Railroad and the Eastern R. R. in N. H. have declared dividends of 4 per cent., payable Jan. 3, 1870.

☞ Harper's Magazine for January is promptly on hand, from Batchelder & Co. of this city. No monthly visitor is more welcome to thousands.

THE WEATHER.—An inch of snow fell Tuesday night and some more inches of rain washed it out of sight on Wednesday, leaving the walking decidedly "sposhy." Good word?

ACCIDENT.—Mr. Thomas Billings of Kittery Point, a watchman on the Navy Yard, fell through a hatchway into the hold of the U. S. S. California on Wednesday.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

ONE GOOD TURN DESERVES ANOTHER. — Our popular Postmaster seems not to "weary in well doing," and his Republican friends appreciate his services in Washington last week so well, that they have carved out another job for him to work at as Chairman of the Ward Two Executive Committee. "Well done," &c.

☞ Where the Railroad crosses the post road on Noble's Island Bridge, seems to afford good opportunity for men too full of rum, to fall into the water. It will be recollected that a marine lost his life there about two years ago; and Mr. Frank Wendell, who lives near, has rescued three men from a similar fate since—all in the darkness of night too.

☞ Messrs. Rowell & Hutchinson announce that they have prepared largely in the watch, jewelry and fancy goods line, for the selection of Presents from their fresh stock; and a better place to suit yourself in this line, need not be sought. We have no doubt they have one of the largest and best stocks ever offered in this city, or in the State. They are well known as experienced, fair, and reliable traders.

Mr. Burtt is also fully ready for his friends and patrons, as per his advertisement—and all the rest of 'em.

THE REPUBLICAN WARD CAUCUSES, Wednesday evening, were largely attended, considering the disagreeable weather, and walking. The delegates chosen in all the Wards had but little opposition. The chief interest seemed to centre in the choice of Senatorial delegates and members of the Ward committees. The delegates chosen to the Senatorial Convention, 20 in number, are understood to unanimously favor the nomination of a man who will support U. S. Senator A. H. Cragin for re-election next June. Hon. John H. Bailey, it is said, will decline a re-nomination as State Senator, but we are not authorized to make the statement. We hear the names of several candidates for the position, in case Mr. Bailey refuses a re-election.

☞ Mr. James H. Head, of this city, we are informed, died in Boston on Tuesday. He has been suffering of consumption for a year or two, and started with his family for Minnesota several weeks since; but the sickness and death of his only child in Boston, detained him there, until his own disease has now proved fatal. Mr. Head was well know as a trader, and won some note as an author of Home Pastime, Jewels from the Quarry of the Mind, &c. He possessed considerable artistic taste, as decorator, &c., and was a favorite singer; and considering his very limited early advantage, he certainly accomplished much. He was a very industrious and hard-working man, and no doubt shortened his life by too close application to his business and studies. His age was 38.

REPUBLICAN CONVENTIONS—1870.

Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

PROCLAMATION.

AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual and that is saying a good deal) of articles for
Christmas and New Year's Presents.

I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.

Therefore I would give a word of advice to one and all. Before you make your purchases for the
HOLIDAYS,
Be sure and drop in at

CHRISTMAS EVE—1869.

'Tis evening, and a hallowed charm
Gilds with divinest ray
Our pleasures, as some potent balm
Soothes all our cares away.

With joy we hail the Nodal hour,
Its sacred influence blends
With friendship's pure and genial power,
As bliss from heaven descends.

Pure knowledge gained from History's page,
By inspiration told
Jesus, the light of every age,
Lay in a manger cold.

No gorgeous robes of fashion's dress,
No jewels rich and rare,
Nor pageantry with vain caress
Could grace a form so fair.

In sweet humility arrayed,
How wonderous, how profound!
The parents with their Godlike babe,
Dwelling in silence round.

In fields, 'neath sunlit azure skies,
Not far from Bethlehem town,
Were shepherds, in their humble guise,
All seated on the ground.

They watched their flocks from day to day,
And did their task pursue,
Tho' bleak the wind of evening gray
Swept o'er the hoary dew;

While winter with his frigid breath
Chilled verdant scenes around,
And cloud-cap'd hills, with vales beneath,
In snow and ice were bound.

They talked of grief long past and gone,
Of joy that was to come;
When lo! more brilliant than the dawn,
A light around them shone.

O'erwhelmed with terror and surprise,
They fain themselves would hide,
When the fair seraph of the skies
Bid all their fears subside:

Fear not, said he, tho' mighty dread
Hath seized your troubled minds,
Glad tidings of great joy I bring,
To you and all mankind.

How blest the theme, "good will to men,"
What peace should reign on earth!
Glad tidings of great joy proclaim,
And hail Messiah's birth.

Greenland, Dec. 1869. IZETTE S. HOLMES.

TENDING STOCK IN WINTER. — 1st. "Saving!" That's the word. The whole secret of success in the management of a stock of cattle in winter rests with the farmer. If he uses judgment and care in feeding, his stock will come out in the spring looking well, and on much less fodder than if no consideration had been used in putting out the fodder. Farmers often complain that their cattle waste their hay, don't eat it up clean, and leave orts. The fact is, it is the farmers themselves who waste it. The cattle are not to blame, when twice the quantity of hay is put before them that they need, if they do not pick out the best;—but it is unjust to charge to dumb animals the faults the farmer himself is guilty of. Be saving of the fodder. Do not stint the stock; give them all they will eat, but no more.

2d. Feed regularly and give a good meal at a time. We know farmers who are in the habit of throwing in a light sprinkling of hay before their cattle and horses whenever they go into the barn. As a consequence they are always hungry. The true system of feeding is to feed regularly and uniformly. These times a day is often enough for all kinds of farm stock; although in very cold weather it may be well to feed four times, and on moderate days only twice, especially to sheep.

3d. In clear days give stock at least three hours' sun in the yards, and see that the tie-ups are well lighted. When the cattle are in the yards, take the opportunity to clean out the tie-up, and litter the floor with the orts that may have been left in the crib. At no other time should they be removed.

4th. Milch cows demand and should receive extra feed. In cold weather a greater amount of food is needed to keep up the necessary animal heat, and where but a sufficient amount is given for this purpose, how can an increase be expected—indeed is it not more generally the case that in winter the yield of milk diminishes? But with a little extra pains, which will be more than made up by the extra flow of milk obtained, this can be done. Good hay, plenty of water, and a small quantity daily of some provender will be found to pay well. Oil cake meal can now be purchased at $4 per hundred, and we are confident the expenditure of a few dollars laid out in this, for milch cows, would be a good investment.

5th. No farmer should attempt to winter a stock of cattle who has not a good supply of water. Stock of all kinds can get along on a small allowance of hay, for it can be made up in some other form; but nothing can take the place of water. It is needed for the very sustenance of life, and they cannot be denied it, or put off with half enough. See to it, that by some means every animal in our barns and yards has as much water, daily, as it will drink.

6th. More than all this, and not less important, every animal has still higher claims upon man who has dominion over it. Food and drink are necessary, and must be provided for the wants of those who give so much in return—but every creature has also demands of kindness and affection upon his keeper. The man who feeds his cattle, but at the same time abuses and beats and overloads his oxen and horses, and kicks his cows, is more of a brute than they.—*Maine Farmer.*

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instrument. The Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or prefer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior to ROUGH ORGANS. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS, Jonbs Rest, Solid Walnut Case, Carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

Items on The Fly.

The Seely court martial case is to be overhauled by Congress.

The President has signed the Georgia bill.

Peanuts are a failure in Virginia.

The robberies of baggage on the railroads in New York State during the past fall aggregate over $100,000.

The Indians in New Mexico are on a hunt, and refuse to remain on their reservation.

Alexander McDonald, of Yardville, N. J., was bitten by a rabid dog two weeks since, and died on Wednesday in horrible convulsions from hydrophobia.

Ashley denies that he was inclining towards copperheadism. It's no difference.

The friends of Hoffman are buying up Democratic papers in the West to support Hoffman for President in 1872.

Gov. Bullock of Georgia has issued a proclamation conveying the legislature on the 10th of January.

The English man-of-war Deer Hound has been lost in the Mediterranean, and it is believed all on board have perished.

It turns out to be true that the United States government has secured a lease of the Bay and Peninsula of Samana.

Governor Chamberlain of Maine has issued an order detailing the State militia as an escort for the remains of George Peabody, when they arrive at Portland.

A shivering vagrant wandered into the court house of Madison County, Iowa, and was discovered at midnight warming himself at the stove, which he was stuffing with the court records!

Hypatia is the latest perfume.

A Canadian postmaster had a keg of damaged powder, and to see if it was good for anything he threw a lump into the fire-place. It cost his widow $250 to put a new roof on the post-office.

A Frenchman has discovered a method of steering balloons by producing a vacuum in front of the balloon, which is consequently driven forward.

English piano-forte keys are warmed by little cylinders of hot water.

A Xenia, Ohio hog weighed 1200 pounds killed and dressed.

A Texas negro went into a blacksmith's with his coat-tail pockets filled with powder. He went out through the roof.

Some ingenious New Yorker has invented a metallic clasp to enclose a ballot, by the use of which, he contends, two cannot be cast together without detection.

The Richmond negroes are busily preparing for Christmas--stealing chickens.

In the published official correspondence between England and the United States, British duplicity is sharply exposed by Secretary Fish, who plainly and forcibly reiterates the original demand of indemnity.

Prim is the son of a washerwoman.

U. S. Steamer Benicia, which left here last week, made 10.2 knots under sail easily. On Friday, while under steam, it was found that the channel plate was broken, and it was necessary to make temporary repairs during the night. The vessel had made 11 1-2 knots per hour under steam and sail previous to the accident. Commander Nicholson intended to make a trial with the propeller hoisted, but owing to the break he decided to put into New York. Next day in hauling in the cable the capstan (which was manufactured in New York,) became useless, and the cable was buoyed and slipped. The Benicia is represented to be a dry and comfortable boat and behaves well in a heavy sea. Her engines and machinery were put in at the Charlestown Navy Yard. Two months at the Brooklyn Yard will furnish ample opportunity for repairs, and then the Benicia may go on her trial trip.

☞ A Portland dispatch of Wednesday says that Governor Chamberlain, Mayor Putnam, President Goodwin (of the Portland, Saco and Portsmouth Railroad), President Cogswell (of the Eastern Railroad), and President Brown (of the Boston and Maine Railroad), with a number of other gentlemen connected with railroads, met the directors of the Portland and Ogdensburg Railroad Company, at the Falmouth Hotel, that evening. The result of their deliberations has not transpired.

☞ The venerable Rev. Dr. Gannett, who was settled in 1824, resigned the pastorate of the Arlington St. Church in Boston, on Sunday last.

New Hampshire Items.

At the law term of the Supreme Court held at Dover on Tuesday, a divorce was decreed between a Concord man and his wife, on the petition of the latter. When the husband was told by his counsel, a few days since, what the result would probably be, he was rendered insane, and is now confined in the Concord Asylum.

Last Saturday night, a fine horse in the stable of Mr. H. L. Hubbard, of Claremont, got loose, and kicked the hind leg of his mate, breaking the bones, and injuring the animal so severely that he had to be killed. The loss to Mr. Hubbard is some $300.

J. B. Smith of Hillsborough uses up sixty thousand pounds of wool a year in making shirts and drawers.

Messrs. Cobb & Cheney of Hanover have recently bought the Charles Hobart farm, of over five hundred acres, containing about a hundred and seventy-five acres of wood and timber, and the wood and timber on about a hundred and twenty acres of the South Family of Shakers, adjoining their large tract in Grantham and Enfield.

Cheshire County Institute was held last week at Winchester, (and virtually in four other towns, at the same time.) The professors who were employed to instruct in the Institute, were sent out by Supt. Hardy each evening, to lecture at Keene, Swanzey, Hinsdale and Walpole. The numbers were large, the interest well sustained and the results everything that could be expected. The novel idea of sustaining a course of lectures in the neighboring towns was popular, and the meetings were well attended. At the close of the exercises, measures were taken to organize a literary association for the purpose of securing lecturers on educational subjects, in every town in the State. Professors Sanborn, Orcutt and Quimby were chosen a committee to prepare a circular calling attention to the subject.

The dry-house of the Namaska Mills, at Manchester, was consumed by fire on Tuesday last. Loss about $2500.

The Waukawan Stocking Mill at Meredith Village, which has not been in operation for the past six months, has begun operations again. It runs only eight hours a day, however.

Mr. George W. Doe and his daughter some days since skated from Suncook to Manchester, eleven miles, in one hour.

Woman's suffrage conventions are to be held in various parts of the State during next month.

☞ The house on McDonough Street, late of Mark G. Ham, was sold at Auction a month or two since, for $1530; but the purchaser forfeited the $50 deposited at sale, and did not complete the purchase. So the property was again sold at auction last week, this time to Owen Heir, for only $1025—so the estate loses $455 by the double transaction. Mrs. Allen Treat was the heir devised by Mr. Ham's will, but the widow's dower, after the debts, will now leave nothing for Mrs. T. The house was appraised $1200 in the estate.

Congress, *Wednesday*.—In the Senate, Mr. Morton of Indiana introduced a bill to allow the organization of the militia of Georgia.

Mr. Sumner of Massachusetts introduced a bill to carry out the reconstruction acts in the State of Virginia, and to secure equality before the law, which he gave notice he would move as a substitute for the bill reported by the committee. It alleges various irregularities and defects in the organization of the present legislature; and declares the existing State government to be provisional only, and in all respects subject to the authority of the United States. The bill directs the military commander of the first district to assemble within thirty days the persons elected as members of the legislature, but none shall participate in its organization or business without taking the oath of July 2d, 1862. Upon the ratification of the fifteenth amendment by the legislature thus organized, the State shall be admitted to representation in Congress upon the fundamental condition that the constitution of Virginia shall never be amended so as to deprive any citizen of the right to vote, hold office, sit upon the jury, to participate in the school fund or to enjoy equal personal rights with all others under like circumstances. An amendment may, however, be made in regard to time and the place of residence of voters.

The Vice-President laid before the Senate a communication from the President, containing the correspondence called for by the resolution of the Senate relating to American claims against Great Britain.

In executive session, seven of the nominees for circuit judges were confirmed.

The nomination of Attorney General Hoar for Associate Justice of the Supreme Court was debated, and laid on the table, there being a majority of twelve against confirming him. The debate was bitter and personal. It seems that Mr. Hoar, (like some other officials we wot of,) had an idea that he could be independent of politicians. Therefore, when Senators asked him for favors he snubbed them, and they remembered it. Then when President Grant desired him to leave the Cabinet Hoar was nominated to the Supreme Bench. Now his impudence re-acts upon him and Mr. Hoar isn't confirmed. Served him right.

In the house, Mr. Cullom of Illinois spoke on apportionment under the next census, desiring it to be carried out so as to apply to the next Congress, favoring an increase of representatives to at least 300.

Mr. Washburn of Wisconsin made a speech in favor of the government undertaking the telegraph business of the country in connection with the postal service. He favored the purchase of the private telegraph lines at an appraised value.

Mr. Lawrence of Ohio submitted some remarks in support of his bill requiring pension agents to make out pension papers without fees or charges to pensioners.

Both Houses adjourned to Jan. 10, 1870.

—Bibbins tarried long at the wine the other night, and after swearing lustily at several contumacious doors (each of which was not his own) because they refused to open unto him, finally ascended an old maid's stoop, seized the door-pull, and gave a desperate jerk. The pull and about five yards of the bell wire came out, and Bibbins, whose weight on the Fat Men's Society Register is 210 pounds, ricochetted with a double back somersault down the steps into the street. He was found in a heap and rescued. On gaining his speech he said:—"Don't y-r k-n-ow any better 'n t'r slam a d-o-o-r that way?"

—A young man in Benson, Vt., a few days since, while leading a colt to water, tied the halter to his waist. The animal became frightened, and ran away, dragging the boy a long distance, and causing his death.

—Every man who has milch cows, should endeavor to be sure they are not run or worried by the boy who drives them to and from the milk yard. Very few dogs are fit to be used for this purpose. Both quantity and quality of the milk given is affected by improper driving.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a foreign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dlm.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. These testimonials have to be thrown in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more dose of Brandreth's Pills to get cured. Full Directions are with each box.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

SPECIAL NOTICES.

Undefined Ailments.

There are many ailments, trying in their nature, but symptoms of which are not sufficiently specific to enable physicians to classify them under any particular head. As a general rule they arise from a general debility of the whole organization, but their primary cause, in at least three cases out of five, is a lack of quick vital action in the stomach and liver. Stimulate and tone the relaxed digestive and secretive organs, and bodily ease, health and vigor will follow the treatment. Among all the medicines which have recommended as conducive to this end, none has been administered with such uniform and entire success as HOSTETTER'S STOMACH BITTERS.

Its ingredients were selected from the vegetable kingdom, originally, with a view to the invigoration of the physique and the constitution, and also for their antibilious and slightly laxative properties. Twenty odd years of experience has proved that these herbal restoratives were wisely chosen and have been judiciously apportioned in this celebrated preparation. Not only as a specific for indigestion and all kindred complaints, but as a *household remedy for all the minor ailments* incident to humanity, it has obtained a reputation based on unimpeachable testimony, which fairly eclipses that of any other proprietory or official medicine in use. d23

THE LATEST DISCOVERY
In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable compound and a more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S
LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this precious remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

☞ **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy**, and the irregularities to which the female sex are subject, the Lozenge will be found infinitly more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious, aperient and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

NOTICE.—Circulars and Show Cards sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold throughout the United States—North, East, South and West. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

Port Burwell, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from Allen's Lung Balsam; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

Capt. Foster is a ship owner and builder, residing at Port Burwell, Canada.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. ol

THE INDIAN DOCTOR HAS RETURNED!

The Leaves of the Forest were for the Healing of the Nation!

DR. L. CONGDON,
THE NARRAGANSETT
INDIAN PHYSICIAN
Has taken Rooms
At the Franklin House, Portsmouth,
Where he will remain
Until December 28th.
He treats successfully all curable diseases to which the human system is subject.

Dr. Congdon was here eight weeks ago, and remained only one week, and performed some of the
Most Remarkable Cures Ever Known!
and now, by request of some of the most prominent citizens, he has returned.

Dr. Congdon's medicines are purely vegetable, gathered from the hills and valleys which have long been the haunts of the red man. He has had great success in Providence for the last ten years. Dr. Congdon has had cases where others thought there was no hope, such as consumption, dropsy, asthma, bronchitis, lung diseases, coughs, liver complaints, female complaints, &c., which he has taken, and his treatment has made perfect cures.

He takes none under his treatment whom he cannot cure, unless by their request. His office has been thronged with patients wherever he has made stops this season. Give him a call, for his advice is free, and not let modesty fail you, for he treats diseases that afflict both sexes.

Also DR. CONGDON'S
GREAT INDIAN REMEDY!
which has such a far-famed reputation from east to west; the same remedy he used upon the Fair Ground for the permanent cure of Deafness, Neuralgia and Rheumatic Pains, &c., which can be had at his Office or of all Druggists.

THE STUDY OF POLITICAL ECONOMY. The number of workmen employed at the yard is limited, each department being allowed a certain percentage. On Thursday, Constructor Pook found that he needed 12 joiners, 12 smiths and 6 painters in addition to those already employed, and was obliged to order the discharge of 30 carpenters, that the whole number might not exceed the proportion allowed by the orders of the Navy Department.

☞ Dr. Gilbert, at the Daniel street Fruit and Confectionery Store, has a large variety of pure candies, fruit, nuts, &c., suitable for Christmas or any other sweet occasion. As he makes most of his Candies, he can warrant them pure, and free from all poisonous coloring matter, and can afford to sell cheaper than those who buy. From samples furnished, we quote prices: Honey Candy 40 cts. lb., assorted 30 cts., stick candies at low prices; oranges 20 to 50 cts. per doz.; chestnuts 25 cts. qt.; walnuts 13 cts. qt.

AN APPROPRIATE HOLIDAY PRESENT to Portsmouth friends, present or absent, is the admirable book, "Rambles about Portsmouth," just issued by Mr. Brewster, and to be had at the Portsmouth Journal office. Everybody who reads its records of familiar scenes, is pleased by the pleasant incidents it contains, the recollections it calls up, and the history which attaches to many of the localities of our venerable town; while those who look for the records which form the more solid basis of history, will find an inviting study in its pages. It has the remarkable qualification of pleasing almost every refined taste, and should be on the bookshelf or center table of every Portsmouth family.

IN BOARD OF ALDERMEN, Thursday Evening. The widening of Fleet St., to 40 feet, was signed by the Mayor and Ald. Spinney, Miller, Cotton and Clark, 4, being a majority of the Board. The damages awarded are to Mech. Assoc. $1960 ($2 per foot) for Haven land taken, and $636 (40 cts. per foot) for Somerby land taken; to L. K. Lydston, 40 cts per foot, $176; to L. Cotton, 30 cts. foot, $456; to heir's Mr. Brooks, 25 cts foot, $608; to J. Parry, 25 cts foot, $158. Total, $3994.

The bills of Dr. Dearborn in small pox cases were referred back to Com. on Claims for further inquiries. Also R. Shillaber's bill. Dr. D's bill for vaccination and examining schools, $34, was paid.

POPULAR DELUSIONS.—It is a popular delusion that sleeping in cold, cheerless rooms, with the air constantly changing, is better for the health than to sleep in a warm room with less ventilation; in other words, that it is of more importance to have absolutely pure air for breathing during sleep than to keep warm. When cats or dogs go to sleep they always pick out a warm place, if they can find one, curl themselves up and hide their noses away out of sight amongst their fur, quite regardless of ventilation. Every farmer knows that cattle look better and thrive better, on less food, when kept in barns which are close and warm, and full of hay, where the hot breath of the animals is kept in and the cold, pure air is kept out,—than when stalled in well-ventilated places, where half they eat goes to supply them with heat, and where the hair sticks straight out all over them, like porcupine's quills.

The Esquimeaux live in close huts, which retain all the smoke from their oil fires, and huddle together for warmth, breathing an atmosphere that no civilized being could endure; yet they are not only fat, but healthy, and exist in climates where Europeans, with their good ventilation, soon die.

Pure air, if warm, is doubtless better than impure, for breathing; but that frigid rooms with open windows are more healthy to sleep in, than warm ones,—even if the air in the latter is not quite so pure,—is not yet satisfactorily demonstrated; and while any doubt exists on the subject, many people will follow the example of all animals, and try to keep warm even at the expense of ventilation. People who sleep with young hurricanes in their bedrooms do almost always look hale and hearty, I graut; so do sailors, as a general thing; but the reason in both cases is, not that every one who opens a window or goes to sea becomes strong, but that either course soon kills off all the weak ones; those who remain of course look healthy—none but the hardiest constitutions can stand it.

It is a popular delusion to suppose that a thermometer can tell the proper temperature of a room for all its occupants. It is said that about 65 degrees is the right temperature for a place where people live. But when a person feels cold he *is* cold, even though the thermometer marks 90; and if he feels uncomfortably warm he *is* uncomfortably warm, though the thermometer is down to five hundred below zero. The proper temperature for a room is that which is most agreeable to those in it. A man must be deficient in sensitiveness when he cannot tell whether he is too warm or too cold, himself, at least as well as a miserable little glass tube with quicksilver in it can. PAKEHA.

It costs a dollar in Connecticut to call a man a mutton-head.

THE HAUNTED HOUSE.

A STORY OF LIFE IN LUDLOW, MASS.

Upon the wide sandy plain which stretches its weary monotony between the crowded manufacturing villages of Chicopee river and the quiet villages of Granby and South Hadley, stands a lonely house ten rods from a lonely road. It is of two stories and an L, though the single room in this last is the only room that is inhabitable. The two story part, now a ruin, has never been more than a mere shell. A quarter of a century ago Shubael Jones put it up, planted a little orchard around it, and brought to it a black-eyed, high tempered wife. But at that time he was an incipient drunkard, and soon every appearance of comfort and domestic happiness fled the place. And one dismal November night the wretched wife summoned her neighbors from their beds to where the poor sot lay dead at the foot of the cellar stairs. No inquest was held; none doubted that he was killed by a fall in a drunken fit, in attempting another visit to his cider barrel.

The widow rented the place to a tenant who neither kept it well or paid its rent. She went with her little boy, who was not quite an idiot, to work in the paper mill at the village then called "Skipmuck." For long years she changed from factory to factory, as she could keep her son employed. He was always harmless and still. He was always obedient under his mother's eye, and working by her side. They earned more than they spent, but the prudent people of Ludlow, where they last lived, feared to allow them to "gain a settlement," and thus render their town liable for their future support. So they obtained the consent of the agent that the widow and her son need not keep strict time, and offered to furnish a room in her old desolate house, three miles from the factory, if she would live there. The proud woman understood the motive, and with a flash of her dark eyes declined their kindness. But she soon bought a little furniture of a family that was moving away, and reestablished herself in the gloomy old wreck.

It was now late in the fall when the widow Jones first noticed that the grass was disappearing from the roadside by the bars opposite her door. It soon grew obviously worse and, though a bald spot on a man's head is no great wonder, this bare spot, with no hoof-marks on it, baffled all her ingenuity. The fence, too, seemed worn, as if by loungers leaning upon it. What could it mean? No human gathering could have been held in that lone place since the day when that maddening frame of the owner went to its long home.

The explanation of that mystery involves us in a deeper one. One night in September a man from Ludlow was passing the house just after the factory bell had announced the hour of nine. As he neared the house he heard a groan. It was a single groan, and then all was still. But it was such a groan as no one utters twice, and he who hears it, never wishes to hear it again. He felt it his duty to rush into the house, but dared not. After long hesitation he went his way, speculating whether the widow had murdered her idiot son, or had been murdered by him. And when he saw them both come quietly into the village the next morning, he doubted first his eyes and next his memory.

But the same errand again brought him past that lonely house a few nights later. Again he heard the 9 o'clock bell as he approached the house, and again, as he was opposite the house, that dreadful groan. The next night he walked out with a neighbor, so timing his steps that when near the house both heard that mortal sound. Both were certain it came from the house.

Three went out, and five, and fifteen, and thirty. All heard the groan; all agreed that it was exact to its time, to a quarter of a minute. Old Captain Hardcastle said that if he were shut up in a hold as dark as midnight, he could tell within ten minutes when the time for his "leven o'clock" came, but couldn't keep time with a ghost. One guessed the spirits heard the bell. The agent stopped the bell one night, but the groan was heard as usual. And it was not a similar groan, but the same groan repeated every night. No ear could tell any difference not made by the direction and force of the wind. Some wondered whether it had been repeated every night since poor Jones "broke his neck." Others said, that if they were the widow, rather than live one month in that house, they would confess the murder and be hanged.

One night the lawyer and doctor of Ludlow, both young men, went out quite early. They went into the house, and "wanted to wait till the moon rose." The widow gave them scant welcome; she had not forgotten Ludlow prudence, and she always conjectured that her present guests had had their share in that affair. Without a candle, she sat there stretching her skinny hands to the blaze, for the night was chilly. The gawky boy, who would be nearly seven feet long, if straightened out, and who seemed to have acquired his longitude at the expense of his latitude, as if put through a rolling mill, sat there in kinks and silence. They heard a factory-bell, they heard a cricket, they heard a dusty rat, but they heard no groan. At half past nine they went out to a large, shivering, impatient crowd that had missed their groan and felt missed. In an instant more the groan was heard in all its perfection. Our friends hurried back to the house to inquire if the lawyer had dropped a glove. The widow was making up a trundle bed, that had been lurking unsuspected by them, beneath the large one, in the darkest corner of the room. They admired this contrivance for economizing space. Could the widow move it easily? She ran it in and drew it out again. By this time the lawyer had found his glove in hispocket, and again they wished the widow good night.

Meanwhile the outsiders had heard two extra groans; the first was somewhat different from the usual one, but the last was exact.

'I have found,' says the lawyer, 'that Ludlow has expended at least three hundred miles travel on foot, and all in the night—and a hundred hours loafing by these old bars, tohear that woman draw out her trundle-bed for that Jacob's ladder idiot.'

'And let me recommend you,' added the doctor, 'when you find anything you cannot explain, not to jump to the conclusion that it is supernatural. It is more than probable—it is certain—that, if you knew enough, you could find a physical cause for every physi-effect.'

And so they all went home and went to bed.

And the next spring the grass grew again around the widow's bars.—*Congregationalist.*

SMALL FARMS.—Be content with a small place entirely paid for, if you have not the money to buy a large farm. Do not allow that eager and avaricious spirit which desires to own "all the land that joins yours," to ruin you. One of the curses of our agricultural districts is the size of our farms. Forty acres paid for and thoroughly tilled is better property and far more remunerative, than four hundred under a heavy mortgage, and only half cultivated. Where one man succeeds by rashness in assuming large responsibilities, hundreds fail; and experience and observation will show, that the successful owners of large tracts of land have usually begun by small purchases for cash, and gradual additions as they acquired wealth by industry and economy.—*N. Y. Observer.*

LORILLARD'S "EUREKA"
SMOKING TOBACCO is an excellent article of granulated Virginia, wherever introduced it is universally admired. It is put up in neat packages, and we can fill orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB
SMOKING TOBACCO is made of the Choicest Virginia Leaf, and from its mildness in effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Merchant Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY
CHEWING TOBACCO.—This brand of Fine Cut chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS
HAVE BEEN IN GENERAL USE in the United States over 110 years, and still acknowledged "the best" wherever used.
If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable dealers everywhere.

The Chronicle.

IS FARMING DISHONORABLE?—At a recent discussion among farmers, one is reported as saying: "There is an expression that farming is dishonorable. This is not so, but too many act on their farms as though it was so. There is too much holding back from actual labor on the farm." We laugh, as other people will, at the idea that any one should regard farming as dishonorable; and yet it is so regarded by many farmers. Witness the fact, that when they talk of their own sons, or those of their friends, who have entered and succeeded in professions, they account them smart, and the social position they have acquired something higher than any the farmer may attain. It is this subtle influence of words and sentiment, exerted, it may be, unconsciously, by parents, that drives their ambitious sons from the nobler and more complex pursuit of agriculture, to seek a livelihood, position and success in the crowded professional field.

We do not belong to the class who affect to think that every farmer's son should be a farmer, and every farmer's daughter a farmer's wife; but we do belong to the small class who believe that there is a day coming when the successful farmer will rank among men as men of science and culture now do—when to be known as a successful agriculturist will be synonymous with being known as a man of learning and skill, a philosopher and scientist. We await the day with confidence—with the greater confidence, because every year makes agriculture more and more a business involving the skillful and systematic use of capital, a thorough knowledge of natural elements, and the laws which control them, and a power of generalization and observation which inheres only in the best and most active minds.—*Rural New Yorker.*

ALL ABOUT OLIVE LOGAN.—An exchange, speaking of Olive Logan's lecture on "Girls," says that "when Olive has been a mother of some years' standing, she will know a good deal more on the subject than she does now."

"An Exchange" may think it has said a very witty thing, but its "facts" are sadly at variance with truth. Olive Logan, as is very well known by her personal friends, was married at the age of eighteen, and is the mother of two children, (both "Girls," we believe,) now being educated at her expense in France. Her marriage was not a happy one; her husband was dissipated and profligate; and when it became evident that he was beyond hope of reclamation, she very sensibly procured a bill of divorce and resumed her maiden name.—*Lyons Republican.*

The above correction is not correct. Olive Logan, "as is very well known to her personal friends," was married at the age of *sixteen*, and her two children, "both 'Girls,'" happen to be both boys. So, from the maternal point of view, Olive don't know any more about "Girls" than if she had never been married.—*N. Y. Globe.*

—A correspondent of the N. E. Farmer, speaking of the difficulty of swine-driving, says it is "as easy as whistling, after you know how," to wit: To the end of a stout cord tie an ear of corn; drop it in front of the pig, to within five or six inches of his nose, and commence walking slowly away in the direction you wish him to propel. If his pigship shows evidence of blighted hopes, or aberration of mind, from the singular conduct of the corn, seduce him into the belief that it is "all right," by letting him have a brief nibble at it, and then resume your line of march. In this way, the most obdurate pig may be decoyed any reasonable distance.

CORN FODDER.—Lyman Call, East Durham, P. O., writes the Canada Farmer that he keeps a dairy of twenty-six cows, the milk of which is disposed of at a cheese factory; that last June he sowed an acre of corn in drills, and commenced cutting and feeding to the cows the first of July. When the September rains came on, he omitted the corn feeding four days, and the result was a diminution of fifty-two pounds of milk per day. The corn feeding was again resumed, and in four days the cows gave their customary quantity of milk. The increased flow of milk doubly paid the cost of the food given.

CARE OF HARNESS.—The ammonia which is evolved from stable manure has a very injurious effect upon leather, causing it to crack and rot after being sometime exposed to its effects. It is therefore a bad practice to keep saddles or harnesses in the stable; they should be kept in a separate room from which the fumes of stable manure should be carefully excluded.

—It's economy for every farmer to cultivate roots. They are very useful as a change of food in winter. The cattle do better and they require less hay. No farmer should go into the winter without roots.

—The damage caused in the vegetable world by insects every year, it is estimated, amounts to more than $20,000,000.

—Take care of your plough, and your plough will take care of you.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, awarding to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

☞ Samuel Hale, Esq., of Rollinsford, recently deceased, was Treasurer and Agent of the Portsmouth Mfg. Co, at So. Berwick. His loss will be greatly felt in the community. His reputation for talent and business sagacity was excelled by none. He has been for many years at the head of the Mfg. Company, in which he was a great owner—a corporation employing, when in full operation, 300 or 400 operatives. It has been shut down some months for repairs, and is now just starting up.

The funeral of Mr. Hale took place at Dover on Wednesday, in the Unitarian church, and was largely attended. Rev. Dr. Peabody of Cambridge, and Rev. T. W. Brown of Dover, officiated.

☞ The Boston Transcript thinks that if Rear-Admiral Ellms' Haytien ram Triumph turns out to be a Cuban ironclad, the U. S. Government will have been badly sold, after seizing and releasing the vessel. Few persons in this country would be sorry if she should sink the Spanish steamer Pizarro and the flotilla of gunboats.

☞ The Opposition papers in this State are proclaiming that the new temperance party presents a golden opportunity to the Democracy!

DEATH OF HON. E. M. STANTON.—A telegraphic dispatch on Friday forenoon, gave the brief but sad tidings in these words: "E. M. Stanton died this morning at three o'clock." He had, as the country had just been informed, been appointed by the President a Judge of the Supreme Court of the United States, and instantly confirmed by a very strong majority of the Senate.

We were fully aware of the fact that Mr. Stanton's health was seriously and permanently impaired by his close attention to the duties of the War Office, in which, as Secretary, he served the country during most of the gigantic and terrible Rebellion, and where he incurred the hatred of every rebel and copperhead leader and press in the land, and was honored with their persecution and abuse. He was a man of indomitable will and rare executive ability.

We had hoped, when we learned of his appointment and confirmation, that for years to come, on the bench, he might fulfil and enjoy his new duties with as much zeal, uprightness and success, as marked his former career.

This hope, the allwise Disposer of human events and human lives has seen fit to cut off,—and every true and loyal man is among the mourners for our loss, which is doubtless his gain.

Mr. Stanton retired from the War office broken down in health, and during the summer of 1869 visited New Hampshire hoping to recover. Returning to Washington, he attended to his professional business and argued a case on the 13th inst. Since then he has not left his house. He became very ill Thursday night and died at 3 o'clock Friday morning of congestion of the heart. Mr. Stanton was 44 years old on the 19th inst. His mother is living at Steubenville, Ohio, where he was born. He leaves a son by his first wife, Edwin L. Stanton. who has recently commenced the practice of law here. His second wife was Miss Hutchinson of Pittsburg, Penn., who is the mother of three children, Ella, Bessie and Louis, and they have buried one.

The President issued an order, on Friday, as a mark of respect to his memory, that the Executive Mansion and the several Departments at Washington be draped in mourning, and that all business be suspended on the day of the funeral.

He pays the following tribute to the departed statesman; "He was distinguished in the councils of the nation during the entire period of its recent struggled for national existence—first as Attorney-General, then as Secretary of War. He was unceasing in his labors, earnest and fearless in the assumption of responsibilities necessary to his country's success, respected by all good men and feared by wrongdoers. In is death the bar, the beneh and the nation sustain a great loss, which will be mourned by all."

☞ Mr. Samuel Lamprey retired from his position in Lamprey & Tompson's quadrille band on Wednesday, his last appearance being at a social assembly, Tuesday night. Mr. Lamprey has furnished music for dancing parties for nearly sixteen years, and his genial presence and hearty laugh will be missed by his hundreds of patrons. Mr. Gibson of Fremont, a fine musician, has been secured in Mr. Lamprey's place, and made his *debut* at the Christmas Eve Ball of Dearborn S. F. Engine Co., No. 1. Mr. Lamprey will retain his profession as teacher of Dancing.

☞ The first of Trafton's series of Social Assemblies, which came off at Irving Hall on Tuesday evening last, was attended by probable the largest number of people yet seen at any dance in that place this season; and a most enjoyable occasion it was for all present. Judging from this beginning, the course will be a great success, not only to the manager but to all who attend the dances expecting a good time;—all will be well satisfied. P.

NAVAL.—Lieut. G. V. Menzies is ordered to the Receiving Ship Vandalia, at this station.

Coal for the use of the North Atlantic Squadron has been sent to Samana, now in possession of our government.

☞ When Portsmouth bipeds of the male persuasion wish to express their indignation or anger, they call themselves "red heads." We don't hear that this refined expression has been generally adopted elsewhere.

☞ S. F. Engine Co. No. 2 had a quahaug chowder at their house, Christmas Eve, and things went merrily. Two's boys can abolish chowders and fires without much effort.

☞ Yankee Locke is again on the war path, and Manchester and Concord lie in that path. We hope Mr. Locke will bring his company to Portsmouth.

☞ The American Union newspaper has been much enlarged and improved, and is now one of the largest and handsomest of the weekly papers. B. P. Shillaber is on the editorial staff, and the Boston Transcript mentions "the now venerable but ever amiable and entertaining Mrs. Partington, whose salient shots at the fashions and follies of the times, rank her with those who do good in their day and generation." The publishers are Elliot, Thomas & Talbot—the last being Ald. Talbot, who as chairman of the Com. on Streets, is doing so much to improve Boston. Success to him and the Union; and may Br. S. live a thousand years, and never have the gout.

The Wide World has also been enlarged to forty columns, and otherwise improved, and put down to six cents. Mr. N. Fernald, formerly of this city, is publisher.

The above notes, Gentlemen, I never saw in my life, never made them, nor caused any one else to make them for me. Nor did I receive any benefit from the same, either directly or indirectly; to the best knowledge and belief they were all forged.

In 1867, about the middle of Sept., I was in the office of the above named Hatch, when he made this remark: "Scammon, haven't I got some little notes against you?" I replied, no you have not. Whereupon, he put his hand in his pocket, pulled out his memorandum book, wet his thumb, put over leaf after leaf, and finally said, "Mr. Scammon, I have no notes against you, but I thought I had."

This was all I ever heard about any such Notes, until August, 1868, when on sending for my dividends on some Railroad Stock in Boston, I found Mr. Hatch had, unbeknown to me, sued and recovered there an execution, on the above Notes, and attached said stocks to amount in costs and all of $777.06. I was never notified of any such suit, but I have since reviewed the action, in Massachusetts, and expect it will be tried next month on the appeal.

In 1863, Mr. Hatch wrote a deed for me of a sale to Mr. March, for which I paid him $1, which he said was his charge; afterwards I found he had charged me $3 for the same, which I refused to pay. At the time I had $1000 on deposit,—title at the Rockingham Bank, and he knew it, yet he never even mentioned a word respecting the payment of any of these notes. All of the notes of which have been hereinbefore given, are declared to be forgeries by those acquainted with my hand writing.

I never gave my note to Mr. Hatch for the above mentioned amounts. My credit is good enough for that amount whenever I am known. I never have any occasion to borrow money.

I do swear before God that I never made a single one of the afore given and mentioned notes. If all the world had told me formerly that Albert R. Hatch would have wickedly and maliciously acted towards me as he has done, I should not have believed it. It is hard to tell who is honest and who is not. You cannot tell how far a toad will hop before you try him.

The above I am ready to verify upon oath.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 per half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1in.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of all intelligent physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where they can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

SPECIAL NOTICES.

Undefined Ailments.

There are many ailments, trying in their nature, but symptoms of which are not sufficiently specific to enable physicians to classify them under any particular head. As a general rule they arise from a general debility of the whole organization, but their primary cause, in at least three cases out of five, is a lack of brisk vital action in the stomach and liver. Stimulate and tone the relaxed digestive and secretive organs, and bodily ease, health and vigor will follow the treatment. Among all the medicines which have recommended as conducive to this end, none has been administered with such uniform and entire success as HOSTETTER'S STOMACH BITTERS.

Its ingredients were selected from the vegetable kingdom, originally, with a view to the invigoration of the physique and the constitution, and also for their antibilious and slightly laxative properties. Twenty odd years of experience has proved that these herbal restoratives were wisely chosen and have been judiciously apportioned in this celebrated preparation. Not only as a specific for indigestion and all kindred complaints, but as a *household remedy for all the minor ailments* incident to humanity, it has obtained a reputation based on unimpeachable testimony, which fairly eclipses that of any other proprietory or official medicine in use. d23

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation with the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains vegetable botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of rhubarb, and mandrake, in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **One thousand experiments**

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among patents, and Portland, Oregon; eyes from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colds, Cramps, Dysentery, Diarrhœa, astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this article. Once be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

☞ The annual Christmas Eve festivities at the Universalist church were very enjoyable. The exercises included addresses, declamations, singing and the distribution of gifts. The church was finely decorated.

☞ We accidentally omitted the names of Mr. Edward D. Coffin of Ward One and Mr. Albert W. Rix of Ward Two from the list of delegates chosen to the Republican State Convention last Wednesday evening.

☞ The Exeter News-Letter, and the rest of mankind, may as well swallow without salt the fact that the delegates elected in this city to the Senatorial convention, "*are* in favor of the return to the U. S. Senate of Hon. A. H. Cragin."

THE BAL MASQUE.—The tickets for Mr. W. I. Trafton's ball, which comes off on Tuesday evening, have been rapidly disposed of, very few remaining untaken. There will be a large company on the floor in costume and a large audience of spectators in the gallery.

☞ There is a reasonable probability, if the clerk of the weather behaves himself with due regard to the wishes of juveniles and their friends, and if Santa Claus distributed his presents last night to grateful recipients, that there will be excellent skating on both ponds, to-day, unless salt or sand be strewn on the ice, wicked men cut celholes therein or a sudden earthquake crack the ice and rend it in twain—which sad calamity Heaven prevent.

☞ There is a deficiency in the Howard Bank, Boston, of $66,000, and nobody has yet succeeded in showing how it occurred. The book-keeper denies all knowledge of it, and avers he has not taken a cent; and the officers believe him—but where is the money? Experts are trying to discover.

A case somewhat similar occurred in this city many years ago, in the old New Hampshire Bank. A deficit of $32,000 was found to exist, or that amount of bills was supposed to be in circulation improperly. The Cashier was blamed and suspected of the fraud. He denied all fraud, but resigned his place, and his property was held by his principal bondsman, for security.

Years passed by; the cashier and bondsman died; and finally the bank wound up: but that $32,000 never came in for redemption. The bonds were cancelled, and the property came back to the Cashier's heirs:—but the wrong done to him, (probably as honest a man as ever lived,) could not be undone. He went into the bank, originally, as Cashier, and the money was not counted *then*, nor *afterwards*, till near the time when he went out. He was cashier a good number of years—and it was impossible to know whether the errors were made by him, or his predecessor, or both.

But it was afterwards supposed that defaced bills to the amount missing, were destroyed by the Directors, without record being made by the unfortunate cashier. He and his family lived in privation and sorrow for years; but his descendants are now enjoying his rightful estate, and have ever been among our most highly esteemed citizens. In two other Banks in this city, at different times, deficiencies in the funds, before unknown, were discovered by a change of Directors, and the new incumbents insisting on counting the funds, to be delfalcations of the Cashiers.

In a manner similar to the first instance here, Adjt. Gen. J. C. Abbott got himself into trouble in this State a few years since—by receipting for a lot of arms, ammunition, and accoutrements he had never seen, and which when called upon to account for at the opening of the war, were not to be found—and thus he was left to account as best he could, for the disappearance of a lot of old traps which probably had been scattered and lost or destroyed years before.

The moral of all this would seem to be, never hold yourself responsible for property till you know you've got it.

☞ Wish ye Merry Christmas—all; and that we ourselves may enjoy it, we shall issue no Chronicle Monday morning.

There will be services appropriate to the day, at most of the churches in the city, as usual—and several of them are beautifully decorated for the occasion.

For the Chronicle.

THE BEST PAINT.— *Messrs. Editors:* Allow me through your columns to say a word about the Chemical Paint. It was applied to Mr. Henry A. Yeaton's house on State Street, by Mr. Coffin's men, on the 21st inst., which was a fair day; but early on the same night there was a severe snow-storm, and it rained hard all the next day. At 11 o'clock on the 22d, the paint, which had been on 24 hours, was so hard and smooth that a piece of nice silk would not be soiled by rubbing it on the eastern end of the house, where it was most exposed to the storm; and on other parts of the house and on the front fence, where the paint was applied but a few hours before it commenced snowing, there cannot be found a blister or a single place where the paint has washed or run from a nail-hole or seam,—but all stands as firm as if no snow or rain had fallen.

The Chemical Paint is far superior to any other, and is for sale at the grocery and Provision Store Nos. 16 & 18 Cabot St., Portsmouth. B. NORTON,
Agent for Chemical Paint Co.

THE BEST HEEL.—We have examined the new patent reversible Boot and Shoe heels, exhibited by the Agent now in this city, and we think it is by far the best heel ever put in the market. We hope some of our enterprising business men will buy the right for one or more States, and manufacture them here, for we think they are sure to come into general use; the creeper or ice heel alone is worth all he asks for the right. Persons desiring information, by calling on Mr. Short, at the National House, will ascertain all particulars, as he is sole agent for the United States, and will sell the right of any State from Maine to California. This little fixture consists of an iron rim filled with leather, cork or wood, and screwed on the heel of the boot or shoe; and when worn on one edge, can be turned four times, from side to side, and from one foot to the other. The cost is only a few cents, and they are very durable, as well as neat. The edge which shows is finished in enamel of any color to suit the boot, and adds a very pretty finish to the boot.

PROCLAMATION.
AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual and that is saying a good deal) of articles for
Christmas and New Year's Presents.
I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.
Therefore I would give a word of advice to one and all. Before you make your purchases for the
HOLIDAYS,

Morning Chronicle.

Dayton and Company.

Dimes and dollars, dollars and dimes,
An empty pocket's the worst of crimes.

"Weston," said Mr. Dayton to one of his clerks, as they were alone in the spacious counting room which was attached to the large store of which Mr. D. was proprietor, "gave me leave to say that I do not think your dress sufficiently genteel to appear in a fashionable store." A deep flush suffused the face of the young man, and in spite of his endeavors to repress it, a tear glistened in his full black eye. "Did I not know your salary was sufficient to procure better habiliaments, I would increase it."

"My salary is amply large, sir," replied Weston, with a mortified air, but with that proud independence of feeling of which even poverty had not been able to divest him.

"Oblige me, then, by changing your apparel and presenting a different appearance in the future. You are wanted in the store."

Weston turned and left his employer, "How I do detest these parsimonious fellows."

Mr. Dayton was a man of immense wealth. He was a widower and had but one child, a daughter, who was the pride of his declining years. She was as good as an angel, and as beautiful as she was good. She was simple in her taste and appearance. Such was Laura Dayton when Weston May first became an inmate of her father's house, and what wonder that he soon learned to love her with a deep and ardent affection. Though their tongues never gave utterance to what their hearts felt, yet the language of their eyes was not to be mistaken. Weston was the soul of honor, and although he perceived with pleasure that he was not distasteful to her, still he felt he must conquer the passion that glowed in his heart.

"I must not win her heart," he said to himself; "I am penniless, and her father would never consent to our union." Thus he reasoned, and thus he manfully subdued what he considered an ill-fated passion.

Laura had many suitors, and some of whom were worthy of her, but she refused them all with gentle but decisive firmness.

Her father was in the decline of life, and wished to see her happily settled ere he departed from this world. It was not long before he surmised that young Weston was the cause of her indifference to others. The pleasure which she took in hearing him praised, the blush which mantled her face when there eyes met, served to convince the old gentleman that they took more than a common interest in each other. He forebore to make any remark on the subject, and was not so displeasad at the thought as Weston imagined he would be.

Weston May had not been three years in his employ. Mr. Dayton knew nothing of his family; but his strict integrity, good morals, and pleasing manners, conspired to make him esteemed. He placed unbounded confidence in him, and was very proud of him. He wished him to dress as well as others, and often wondered at the scantiness of his wardrobe; for, although Weston dressed with the most scrupulous regard to neatness, his clothes were almost threadbare, which Mr. Dayton thought proceeded from a niggardly disposition, and, accordingly, he addressed him upon the subject as before stated.

Soon after this conversation, Mr. Dayton left home on business. As he was riding through a pretty village, he alighted at the door of the cottage and requested a drink of water. The mistress, with an easy politeness which told him that she had not always been the humble cottager, invited him to enter. He complied, and a scene of poverty and neatness met his gaze which he had never before witnessed. The furniture, consisting of nothing more than was actually neccessary, was so clean and neat, that it cast an air of comfort all around. A venerable old man sat in the window with his staff in his hand. His clothes were old and so patched, that they seemed a counterpart of Joseph's coat of many colors.

"This is your father, I presume," said he, addressing her.

"It is, sir."

"He seems quite aged."

"He is in his eighty-third year, and has survived all his children but myself."

"Have you always resided here?"

"No sir; my husband was once wealthy, but endorsing ruined him, and we were reduced to this state. He soon after died, and two of my children followed him."

"Have you any children living?"

"One, sir, who is my only support. My son will not tell me how much his salary is, but I am sure he sends me nearly all of it."

"Then he is not at home?"

"No, sir, he is a clerk in New York."

"Indeed! pray, what is his name?"

"Weston May."

"Weston May! Is it possible? Why, he is my clerk. I left him in charge of my store only two weeks ago."

Explanation followed, and Mr. Dayton left, promising to call some other time.

"Noble fellow," said he mentally, as he was riding slowly along, and ruminating upon the call. "Noble fellow! I believe he loves the girl, and he may have her, and part of my money too. Let me see"—here he fell into a thinking mood, and by the time he had reached home, he had formed a plan which he had determined to execute. How it terminated we shall see. Full of his plan, he entered the breakfast room, where Laura was waiting his coming.

"So Weston is going to England," said he.

"Sir!" said Laura, dropping her breakfast cup. "Going to England!"

To be sure. What of it, child?"

"Nothing; only I—we—shall be rather lonesome," replied she, vainly endeavoring to repress her tears.

"Come, come, Laura, tell me do, you love Weston? You never deceived me, and don't do it now."

"No, well—I do love him most sincerely."

"I thought so," said he, as he left the room.

"Weston," said he, as he entered the store, "you expect to go into the country shortly, do you?"

"Yes, sir, in about four weeks."

"If it would not be inconvenient, I wish you would defer it for a week longer," said Mr. Dayton.

"I will sir, with pleasure, if it will oblige you."

"It will oblige me greatly, for Laura is to be married in about six weeks, and I wish you to attend the wedding."

"Laura married?" said Weston, starting as if shot. "Laura married?"

"To be sure. What ails thee, boy?"

"Nothing sir, only it was rather sudden—unexpected."

"It is rather sudden; but I am an old man, and I wish to see her have a protector before I die. I am glad you can stay to the wedding."

"Indeed, sir, I cannot stay," said Weston, forgetting what he had just said.

"You cannot! why, you just now said you would."

"Yes, sir, but my business requires my presence, and I must go."

"But you said you would, with pleasure."

"Command me in anything else, sir, but in this I cannot obey you."

"Weston, tell me frankly, do you love my girl?"

"Sir?" Weston seemed like one waking from a dream.

"Do you love my girl."

"I do, sir."

"Will you give me your mother for her?" Mr. Dayton spoke earnestly,

"My mother! What do you know of her?"

Mr. Dayton repeated the incident already related, and concluded as follows:

"And now, my boy, I have written to your mother and offered myself, and she has accepted. What have you to say?"

"That I am the happiest fellow on earth, and proud to call you father," replied the young man, with a joyful face.

A few weeks after a double wedding took place at Mr. Dayton's mansion, and soon after a sign went up over a certain store, bearing the inscription of Dayton & Co.

Young men, you may learn from this that it is not fine clothes that will win for you the esteem of those around you.

LORILLARD'S "EUREKA"

SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB

SMOKING TOBACCO is made of the Choicest leaf grown; it is anti-nervous in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Meerschaum Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY

CHEWING TOBACCO.—This brand of Fine Cut Chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS

HAVE BEEN IN GENERAL USE in the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.

☞ Everybody in New York is laughing at the war of the stone giants. It now appears that Mr. Barnum offered $50,000 for a quarter of a share in the image. It being rejected, the showman engaged a sculptor to make six *fac similes* of the Simon-pure fraud at Syracuse, which was done so slily that while the owners were exhibiting at Albany, Mr. Barnum opened with his copy in New York city. The second is *in transitu* to Philadelphia; the third is nearly ready for Chicago, and the others are designed for St. Louis, Cincinnati, and Louisville. Boston will receive the one now at Wood's Museum, when the attraction shall have failed at the metropolis. Barnum has thus check-mated the opposition completely. The proprietors of the original fraud have attempted to obtain an injunction, but Judge Barnard only laughed at the application.

OLD DOG TRAY.—M. Charles R——, a poor author, living in the outskirts of Paris, had owing to him a debt of five hundred and twenty francs, which he never expected to get, so long had it been due and so often had he applied in vain for it.

However, finding himself entirely without money, a situation by no means uncommon among authors, he resolved to try the non-paying debtor once more.

What was his amazement and delight, when a note of five hundred francs and a twenty franc piece were placed in his hands. Regarding it as a special providence, he resolved to change the gold piece and testify his gratitude to heaven by giving it in alms on his way home.

Placing the note in his pocket-book, he fulfilled his benevolent design, and no beggar applied in vain during his long walk.

As he drew near home, a wretched little dog came to him and besought his attention to its starving condition. At any other time he might have rudely driven it away; but this evening his heart was open and he concluded to take the poor brute with him. True, his wife hated dogs, but he trusted his good fortune to soften her heart as it had his.

It was quite dark when he reached his home, and he entered the house with the dog close to his heels.

"What is that?" cried the lady, preparing to drive the intruder out of the door.

"Only a poor little dog I have made bold to bring home with me. But listen wife, to my good fortune."

As he related the story, the good lady became mollified, and the little dog was almost forgotten.

"See, here is the money, safe in my pocket-book," concluded the husband, putting his hand into his pocket to furnish the proof of his story.

But no pocket-book was there! It was gone, and despair seized the poor author's heart.

Rage again rose in the good wife, and the dog was an admirable scapegoat. Seizing a stick—"Get out of the house!, she cried. But for attending to you, that stupid man would not have lost his money."

But the dog would not move, and cowered closer to the feet of his first friend, who had now not the heart to save him. So lifting him in her arms, the angry lady prepared forcibly to eject him, when lo! there, tightly grasped in his mouth, was the missing pocket-book, which the obscurity had prevented their seeing before. It had fallen through a rent in the man's pocket, and the grateful creature had picked it up, and kept it safely till discovered.

There is at this day no more honored member of the author's family than the now fat and sleek dog, who ever occupies the warmest corner of the hearth.

—F. O. J. Smith has sued George P. Sanger of Boston, ex-District Attorney, for $25,000 for false accusation. The case grows out of the prosecution of Mr. Smith some time ago for subornation of perjury.

—A writer in the American Stock Journal says that costiveness and its accompanying evils are the main cause of sows destroying their young; and that green and other proper food is the preventive and cure.

—The farmer who stints his fields is as unwise and improvident as he who starves his working cattle—in both cases he is diminishing the ability of a faithful servant to be useful to him.

—The Journal of Agriculture recommends the application of a top dressing of manure to meadows immediately after haying, especially on dry patches where the grass roots are often parched and killed in wet weather.

—It is an excellent plan to keep a lump of common chalk in the feeding trough constantly; after the calves are a month old; this will correct the acidity of the stomach and have a tendency to keep them in a healthy state.

—The American marine would do well to copy the example of that of France, which has just condemned a captain to six months' imprisonment for abusing a cabin boy.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS, or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. The Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilties for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, Carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

Embers of the dying year—September, November and December.

Gimp read that a Kentucky thief had stolen a bride's trousseaux on the night before her wedding. Gimp pronounced trousseaux "trousers" and thought the bridegroom must have been the thief.

Geo. Collins murdered Mrs. Catherine Riley in a row at Boston last Friday afternoon, by cutting her jugular vein with a shoe-knife. The quarrel was about five cents.

Boston Fenians are getting excited.

The treaty between England and China has been signed by the Chinese government.

General Ames has ordered the Mississippi legislature to meet January 11, and has appointed the recently elected State officers provisional officers till then.

'Tis said that Admiral Porter is to leave the Navy Department and have command of a squadron, with headquarters at Samana.

Hon. Dennis McCarthy, Member of Congress from New York city, was nearly suffocated by smoke from an accidental fire at his residence, Christmas Eve.

The funeral of Edwin M. Stanton at Washington on Monday was largely attended. The President, members of his Cabinet and all the members of the Supreme Court in the city, Ministers of Foreign Countries, a large number of Senators and Members of Congress were present and many distinguished personages from all parts of the Union.

DECEASE OF REV. DR. STOW.—Rev. Baron Stow, D. D.,—formerly the eminent and eloquent minister of the Baptist Church in this city,—but for many years past a distinguished clergyman in Boston,—died suddenly of apoplexy on Monday morning at his residence in Boston.

Dr. Stow was a native of this State:—and was in the early days of his ministry a preacher in Washington City. From that place he removed to Portsmouth, and took charge of the Baptist Society, when it was comparatively new and feeble, presiding here to general acceptance for a brief term of years; and then removed to Boston where he was settled as pastor of the Baldwin Place Baptist Church on the 15th of November, 1832, remained till July 1, 1848, when he was installed pastor of the Rowe Street Baptist Society, which position he resigned in May, 1867, thus completing a term of thirty-five years of uninterrupted clerical duty, during which he built up a prosperous society. Dr. Stow was sixty-eight years of age, but he gave promise of many years of useful life:—but the all-wise Disposer of events has seen fit to cut off this hope, and thus admonish us all of our own frailty, and of the uncertainty of things earthly.

UTAH.— The House committee on territories, at its next meeting, will consider the bill relating to Utah which has been drafted by its chairman, Mr. Cullom of Illinois. It is a very stringent measure, providing for the reorganization of the courts in that territory, prescribing the duties of marshals and their deputies, and also the manner of selecting grand and petty jurors. Among its provisions is one that no person living in the practice of bigamy or polygamy shall hold office or be admitted to the rights of citizenship, and persons charged with the crime of polygamy are to be prosecuted in United States courts, and on conviction be punished by fine and imprisonment in the penitentiary.

The rear car of the evening train for Boston, over the Manchester & Lawrence Railroad, Wednesday evening, was thrown from the track in Derry, and Minnie Wilder of Concord was hurt.

O. W. Burnham of Nashua slipped on a sidewalk, on the 20th, and broke his right arm just above the elbow.

New Hampshire Items.

Five persons have died in Braintree whose united ages were 510 years, averaging one hundred and two years to each. The eldest one hundred and eleven years, the youngest ninety-nine.

James A. Roberts of Dover, one of the parties concerned in the Ossipee pension fraud case, was arrested on Tuesday by General Patterson, under direction of District Attorney Henry P. Rolfe of Concord, and bound over to the next term of the United States District Court. Roberts is about 30 years old, and is sinking in consumption. He says that he was unacquainted with the greater portion of the contents of the affidavits that he signed.

There is an old gentleman in Kingston who has a pair of boots that he has worn *forty years* and they are good boots now. They have been out of fashion several times, but whether they are now in style we are not informed.

Mr. Joseph Poor of Kingston, a few days since slaughtered a hog, six months old, which weighed 597 pounds.

The Executive Committee of the Camp Meeting Association, at Epping, are to reconstruct the boarding tent, and make provision for seating seven or eight hundred persons at the tables. It is also in contemplation to purchase the whole farm of which the Camp Ground is a part. The farm consists of one hundred acres.

Rev. T. C. Pratt, for ten years pastor of the Congregational church in Hampstead, has resigned.

Wm. B. Blake of Raymond, killed a hog, a few days ago, which weighed 613 pounds; John Scribner of the same town, killed one which weighed 642 pounds.

A meeting of the Fifth Regiment N. H. Volunteers, is called at Phenix Hotel, Concord, on Thursday, January 6th, 1870, at 12 o'clock M. All members of the Regiment are invited to be present. The call is signed by Col. C. E. Hapgood, President, and Col. T. L. Livermore, Secretary.

Two maiden daughters of Gen. Miller, of Lundy's Lane fame, reside in Temple, and carry on a farm in good style.

In Milford, James Mixer was thrown to the ground by the slipping of a ladder on which he was standing, painting. No bones were broken, but he was badly jarred and bruised. Mixer is the man who saved himself by clinging to the staging of Milford Town Hall, when Whitcomb had such a terrible fall, not long since.

Smith Dore, overseer of the Ossipee Woolen Manufacturing Company, recently fell on a steel pointed instrument and was injured to such an extent that it is feared he will lose the use of a knee joint.

Two Irishmen in the employ of the Monadnock Railroad got on a spree and took a team, in Jaffrey, last week. They managed to wreck the sleigh and were arrested after a smart chase. They are now in jail at Keene, for lack of $300 bail each. A passenger they took aboard turned State's evidence against them.

Gilman L. Eastman was arrested in Cornish, Me., last week for theft of a horse and wagon from Coaticook, Canada. Eastman traded his wagon for a sleigh in Lancaster, where he now lies in jail.

At Jeffers on Mills, the store of R. M J. Grant was entered and robbed of $75 in money. A hole was bored in the outer door to get access to the lock. The burglars added a bit of deviltry to robbery, by rising the gate of a hogshead of molasses and letting it run over the floor. No trace of the robbers has been found.

In Lyndeborough, Rufus Hardy, a well known citizen of Greenfield, fell dead while walking behind his loaded team. Mr. H. was subject to heart disease.

The Nashua Gazette says that Charles J. Pushee of Nashua, a clerk in a grocery store, has disappeared. It is thought he went off to see the world, and made no talk about it for fear his family would oppose his voyage of exploration. He was a young man of excellent character.

☞ The address of the Republican State Central Committee will soon be published for general distribution. It urges the importance of the approaching State election, and the necessity of a more thorough organization. It recommends that great care be taken in selecting working officers for the various clubs, and that primary meetings should be more fully appreciated by all the members of the party. It also adds words of caution to the earnest friends of the cause in regard to side issues, and suggests to them that all efforts in behalf of progress and real reform may be more effectually made inside the Republican party than through any other instrumentality or organization.

Our Correspondence.

LEWISTON, ME., Dec. 27.

Messrs. Editors:—The church edifice of the First Baptist Church is fast approaching completion, and will be the finest display of architecture in the State. The vestry was dedicated on Christmas evening by a Festival and Christmas Tree.

The sleighing is in a very good condition, and all are wishing for its continuance until after the holidays are over.

No more groans are expected, from overloaded stomachs, as the fat men's Convention has met and adjourned until January, when it will be a county organization. Your correspondent was hardly up to the standard, (200 lbs.) therefore didn't pass the required examination, and consequently cannot give a correct account of the organization.

The Catholic Society are in a sea of troubles. A certain member of the Society, who is one of the wealthiest men of the city, has always been at variance with the priest, and on several occasions, with his family, has been ordered out of the church, but refusing each time to go, has caused hard words to drop from the mouth of the Rev. gentleman,—and he refuses to proceed with the exercises so long as the antagonist sits in the church. No compromise can be effected, consequently while waiting the decision of higher authority, no services can be held.

The annexation of Auburn to Lewiston is strongly urged, and no doubt will be done at no distant day. Both cities have formally voted on the question, but it has failed to become a law. It is now the determination of both cities to unite under one government. H.

For the Chronicle.

The third lecture of the Mercantile course was delivered last Wednesday evening, by John Albee, Esq. of Newcastle,—his theme being the Farm; and really he almost persuaded us to become farmers. It was a careful, consistent and scholarly production; a practical rather than Utopian picture, of agricultural life—giving satisfaction to those who were fortunate enough to be present. We could not help wishing it might be repeated for the benefit of those whom the storm prevented attending, and the general public.

His ideal of a true farmer's wife was certainly a beautiful and elegant tribute to woman. The lecture was confined within the limits of an hour, and was listened to with close attention. Mr. Albee's style is very easy, natural and pleasing; evincing a mind well trained; and a heart akin to nature. The speaker was warmly applauded, and many of the audience requested a repetition of the lecture. x.

☞ The fourth literary entertainment before the Mercantile Library Association will be given in their Hall, this (Tuesday) evening, by James P. Bartlett, Esq., who will give Dramatic Readings. Friends of the Association, and persons desirous of promoting social culture in our community, are cordially invited to be present. The exercises of the evening will begin promptly at half-past seven o'clock. Gentlemanly ushers will be in attendance to wait upon ladies to convenient seats. There will be no postponement on account of unfavorable weather.

STREET TALK.— 'Tis rumored that the next City Council will vote to widen Market Street; that John R. Redding will be the next Democratic candidate for State Senator in this district; that the Dry Dock will sail for the Charlestown Navy Yard in command of a draughtsman, ere long; and that the City Hall, where our forefathers met and their sons do legislate, is to be moved to Kittery, to be used as an Insane Asylum.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d36lm.

In Remote Settlements of Untold Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their until value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

SPECIAL NOTICES.

Undefined Ailments.

There are many ailments, trying in their nature, but symptoms of which are not sufficiently specific to enable physicians to classify them under any particular head. As a general rule they arise from a general debility of the whole organization, but their primary cause, in at least three cases out of five, is a lack of brisk vital action in the stomach and liver. Stimulate and tone the relaxed digestive and secretive organs, and bodily ease, health and vigor will follow the treatment. Among all the medicines which have been recommended as conducive to this end, none has been administered with such uniform and entire success as HOSTETTER'S STOMACH BITTERS.

Its ingredients were selected from the vegetable kingdom, originally, with a view to the invigoration of the physique and the constitution, and also for their antibilious and slightly laxative properties. Twenty odd years of experience has proved that these herbal restoratives were wisely chosen and have been judiciously apportioned in this celebrated preparation. Not only as a specific for indigestion and all kindred complaints, but as a *household remedy for all the minor ailments* incident to humanity, it has obtained a reputation based on unimpeachable testimony, which fairly eclipses that of any other proprietory or official medicine in use. d23

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It combines two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous constituent is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been distinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoeia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

NOTE.— CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

PRINGLE BROS., 73 MAIDEN LANE, NEW YORK.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near: now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 234, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly, Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

Sold by PERRY DAVIS & SON, n2 GENERAL AGENTS.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Rheumatic Toothache, Group, Piles, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have been confined in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact of "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting compound is literally *thickened with Poison.* They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it is "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dying. lmd&wo1

Holloway's Ointment and Pills.—PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the diseases and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around the world are its praises told;
It will Cholera cure—scourge of southern climes,
No victim dies who takes it betimes.

Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*'twill be used again;*
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

LOCAL AFFAIRS.

New Advertisements To-Day.

Varieties—Lafayette Laighton.
Minstrels Coming—Whitmore & Clark.
New Books—Jos. H. Foster.

☞ The second annual Farmers' Meeting begins at Manchester to-day, (Tuesday) and will continue through Wednesday and Thursday.

☞ Yankee Locke with his corps of able assistants is coming next Friday evening, notwithstanding the reports to the contrary. He will have a rousing reception.

HONORABLY EXCULPATED.—We are pleased to learn that a thorough investigation into the charges made against Paymaster Benj. J. Cahoone of this city has resulted in tracing the roguery where it actually belongs. The investigation was conducted at Washington and Paymaster Cahoone is placed on "waiting orders."

☞ As will be seen by their advertisement, Whitmore & Clark's famous Combination Troupe will visit this city on Tuesday evening of next week, and give one of their unique entertainments at the Temple. They have some expert Chinese performers with them, and our exchanges speak of their performances as of a high order.

☞ The individual who succeeded in exchanging umbrellas with us, can have his old (brown) one back again on leaving our new (black) one at this office. He will also be entitled to editorial thanks and happy wishes for the coming New Year. What there is peculiarly fascinating about our umbrellas we fail to see, but if the borrower of this, the second one for 1869, will return it immediately, a relic of different style will be donated him, with our autograph thrown in.

PRESENTATION.—Mr. Thomas S. Nowell was the recipient of an élegant silver tea service and an extra cup for his seventh son, on Sunday, from members of the Middle Street Society. At the close of the afternoon services the audience were requested to remain seated, by the pastor of the church, and Hon. Horton D. Walker addressed Mr. Nowell in behalf of the donors, alluding to his effort in securing the fine organ for the use of the Society. Mr. Nowell was taken completely by surprise at the unexpected gift, and responded feelingly.

THE MASQUERADE at Congress Hall this (Tuesday) evening, will doubtless afford rare sport for the masqueraders, and spectators too. We are informed that most of the limited number of tickets have been sold, and that the Hall is to be handsomely decorated,—a mammoth "order of dances," 16 feet long by 12 wide, being one of the ornaments. The dancers will be able to read what they are to go through, at all events. Gallery tickets may be procured at the door, and tickets for the floor also, at the same place,—by those in fancy costume, *only*. Grand March and Circle at half-past 8 o'clock, precisely. Unmasking and Supper at 11.

CHRISTMAS DAY was duly observed in this city, and is certainly becoming more popular as a festive occasion. The purchase of presents exceeded any former experience of the kind among the traders, whose stores were crowded for the previous week by eager buyers, and many a happy child rejoiced at Santa Claus' Christmas gifts, while children of a larger growth did not forget each other.

The weather was fine and the good skating was enjoyed by several hundred persons of both sexes, the South Pond being the principal point of attraction. Customary services were held at the churches, and the loafers who usually throng the sidewalks on holidays seemed to be somewhat lessened in number.

The Unitarian, Universalist and Episcopal churches were beautifully decorated, with evergreen, flowers, and mottoes. There was considerable fine lettering at St. John's and the Stone Church—and good judges pronounced the decorations finer than before. We understood the work all save the mottoes, was designed by the sexton, Mr. King, and executed under his direction. The services at the Stone Church on Christmas Day, and Sunday evening, were very interesting and appropriate to the season; and the music of the quartet choir especially fine.

Christmas Trees were enjoyed by the Methodists and Universalist Societies, at their Churches on Friday evening; and by the South Parish at their Chapel Saturday evening. The North Parish had a grand time over (or under) theirs, on Monday evening at Congress Hall; and the Episcopalians will do theirs at the same place on Wednesday evening. There will be a Christmas Tree at the Freewill Baptist Church on Friday evening.

☞ The Mercantile Lyceum now progressing, is more satisfactory and enjoyable than many high cost courses. The public are invited this evening.

☞ The flags on the Custom House, Rockingham House and other buildings in this city were at half-mast on Monday, in memory of the late Edwin M. Stanton.

DEARBORN S. F. ENGINE CO. No. 1 gave their second annual Assembly in Congress Hall on Christmas Eve. It was a very pleasant affair, and the floor, in the earlier part of the evening, was quite full enough for convenience,—the visitors including a deputation of firemen from Lynn, to the number of a dozen or more,—smart-looking, well-ordered fellows they were, too. At midnight Foreman Edw. E. McIntire, on behalf of the Company, invited the party to adjourn to the engine-house; the party kindly acquiesced, and were soon seated at tables loaded with an excellent and abundant Christmas breakfast, (it was after 12 o'clock,) including coffee, cold meats, cake and pastries, veritable "Christmas pies," fruit, &c.; besides which a large and handsomely-ornamented frosted cake in the middle of each table officiated as centre-piece.

After an hour of pleasant and profitable occupation at the tables the party returned to the Hall, having made no very appreciable inroad on the good things provided for their refreshment; and dancing was resumed, and kept up until the small hours of the morning had grown to a very considerable size, when they (the people—not the hours, which kept right on,) left for their homes, satisfied that the Dearborns know how to project and carry out a good time, and get up a capital breakfast. One of the large cakes was presented to the visiting firemen from Lynn, and the other to the ladies who kindly assisted the Company in attending to the wishes of their guests.

☞ Stockholders of the Concord and Portsmouth R. R. will receive a semi-annual dividend of 3 1-2 per cent. at the office of William H. Hackett, on Thursday, Dec. 30.

COUGHS, INFLUENZA,

SORE THROAT, COLDS, WHOOPING COUGH, CROUP, LIVER COMPLAINT, BRONCHITIS, ASTHMA, BLEEDING OF LUNGS, and every affection of the THROAT, LUNGS and CHEST, are speedily and permanently cured by the use of

WISTAR'S BALSAM
Of Wild Cherry.

This well known preparation does not dry up a cough and leave the cause behind, as is the case with most medicines, but it loosens and cleanses the lungs and allays irritation, thus removing the cause of the complaint.

CONSUMPTION CAN BE CURED

by a timely resort to this standard remedy, as is proved by hundreds of testimonials received by the proprietors.

PROCLAMATION.

AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual and that is saying a good deal) of articles for
Christmas and New Year's Presents.

I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.

Therefore I would give a word of advice to one and all. Before you make your purchases for the

The Daily Chronicle.

Portsmouth, N. H.

TUESDAY, DEC. 28, 1869.

Matters of Fact.

Wall Street is dull.

Mrs. Lincoln has bought a house at Zurich.

Eugenie's expenses on her trip East were $12,000 a day. How economical an affair her funeral would be.

Sweet oil is manufactured in San Francisco from sunflowers.

Two-thirds of the delegates to the Tennessee Constitutional Convention are said to favor female suffrage.

Two persons constitute a crowd in Alaska.

The Boston Post says Adelaide Phillipps has a downy throat.

Admiral Farragut will give a reception at his New York city residence on New Year's.

Embers of the dying year—September, November and December.

Gimp read that a Kentucky thief had stolen a bride's trousseaux on the night before her wedding. Gimp pronounced trousseaux "trousers" and thought the bridegroom must have been the thief.

Geo. Collins murdered Mrs. Catherine Riley in a row at Boston last Friday afternoon, by cutting her jugular vein with a shoe-knife. The quarrel was about five cents.

Boston Fenians are getting excited.

The treaty between England and China has been signed by the Chinese government.

General Ames has ordered the Mississippi legislature to meet January 11, and has appointed the recently elected State officers provisional officers till then.

'Tis said that Admiral Porter is to leave the Navy Department and have command of a squadron, with headquarters at Samana.

Hon. Dennis McCarthy, Member of Congress from New York city, was nearly suffocated by smoke from an accidental fire at his residence, Christmas Eve.

The funeral of Edwin M. Stanton at Washington on Monday was largely attended. The President, members of his Cabinet and all the members of the Supreme Court in the city, Ministers of Foreign Countries, a large number of Senators and Members of Congress were present and many distinguished personages from all parts of the Union.

DECEASE OF REV. DR. STOW.—Rev. Baron Stow, D. D.,—formerly the eminent and eloquent minister of the Baptist Church in this city,—but for many years past a distinguished clergyman in Boston,—died suddenly of apoplexy on Monday morning at his residence in Boston.

Dr. Stow was a native of this State:—and was in the early days of his ministry a preacher in Washington City. From that place he removed to Portsmouth, and took charge of the Baptist Society, when it was comparatively new and feeble, presiding here to general acceptance for a brief term of years; and then removed to Boston where he was settled as pastor of the Baldwin Place Baptist Church on the 15th of November, 1832, remained till July 1, 1848, when he was installed pastor of the Rowe Street Baptist Society, which position he resigned in May, 1867, thus completing a term of thirty-five years of uninterrupted clerical duty, during which he built up a prosperous society. Dr. Stow was sixty-eight years of age, but he gave promise of many years of useful life:—but the all-wise Disposer of events has seen fit to cut off this hope, and thus admonish us all of our own frailty, and of the uncertainty of things earthly.

UTAH.—The House committee on territories, at its next meeting, will consider the bill relating to Utah which has been drafted by its chariman, Mr. Cullom of Illinois. It is a very stringent measure, providing for the reorganization of the courts in that territory, prescribing the duties of marshals and their deputies, and also the manner of selecting grand and petty jurors. Among its provisions is one that no person living in the practice of bigamy or polygamy shall hold office or be admitted to the rights of citizenship, and persons charged with the crime of polygamy are to be prosecuted in United States courts, and on conviction be punished by fine and imprisonment in the penitentiary.

The rear car of the evening train for Boston, over the Manchester & Lawrence Railroad, Wednesday evening, was thrown from the track in Derry, and Minnie Wilder of Concord was hurt.

O. W. Burnham of Nashua slipped on a sidewalk, on the 20th, and broke his right arm just above the elbow.

New Hampshire Items.

Five persons have died in Braintree whose united ages were 510 years, averaging one hundred and two years to each. The eldest one hundred and eleven years, the youngest ninety-nine.

James A. Roberts of Dover, one of the parties concerned in the Ossipee pension fraud case, was arrested on Tuesday by General Patterson, under direction of District Attorney Henry P. Rolfe of Concord, and bound over to the next term of the United States District Court. Roberts is about 30 years old, and is sinking in consumption. He says that he was unacquainted with the greater portion of the contents of the affidavits that he signed.

There is an old gentleman in Kingston who has a pair of boots that he has worn *forty years* and they are good boots now. They have been out of fashion several times, but whether they are now in style we are not informed.

Mr. Joseph Poor of Kingston, a few days since slaughtered a hog, six months old, which weighed 597 pounds.

The Executive Committee of the Camp Meeting Association, at Epping, are to reconstruct the boarding tent, and make provision for seating seven or eight hundred persons at the tables. It is also in contemplation to purchase the whole farm of which the Camp Ground is a part. The farm consists of one hundred acres.

Rev. T. C. Pratt, for ten years pastor of the Congregational church in Hampstead, has resigned.

Wm. B. Blake of Raymond, killed a hog, a few days ago, which weighed 613 pounds; John Scribner of the same town, killed one which weighed 642 pounds.

A meeting of the Fifth Regiment N. H. Volunteers, is called at Phenix Hotel, Concord, on Thursday, January 6th, 1870, at 12 o'clock M. All members of the Regiment are invited to be present. The call is signed by Col. C. E. Hapgood, President, and Col. T. L. Livermore, Secretary.

Two maiden daughters of Gen. Miller, of Lundy's Lane fame, reside in Temple, and carry on a farm in good style.

In Milford, James Mixer was thrown to the ground by the slipping of a ladder on which he was standing, painting. No bones were broken, but he was badly jarred and bruised. Mixer is the man who saved himself by clinging to the staging of Milford Town Hall, when Whitcomb had such a terrible fall, not long since.

Smith Dore, overseer of the Ossipee Woolen Manufacturing Company, recently fell on a steel pointed instrument and was injured to such an extent that it is feared he will lose the use of a knee joint.

Two Irishmen in the employ of the Monadnock Railroad got on a spree and took a team, in Jaffrey, last week. They managed to wreck the sleigh and were arrested after a smart chase. They are now in jail at Keene, for lack of $300 bail each. A passenger they took aboard turned State's evidence against them.

Gilman L. Eastman was arrested in Cornish, Me., last week for theft of a horse and wagon from Coaticook, Canada. Eastman traded his wagon for a sleigh in Lancaster, where he now lies in jail.

At Jeffers on Mills, the store of R. M J. Grant was entered and robbed of $75 in money. A hole was bored in the outer door to get access to the lock. The burglars added a bit of deviltry to robbery, by rising the gate of a hogshead of molasses and letting it run over the floor. No trace of the robbers has been found.

In Lyndeborough, Rufus Hardy, a well known citizen of Greenfield, fell dead while walking behind his loaded team. Mr. H. was subject to heart disease.

The Nashua Gazette says that Charles J. Pushee of Nashua, a clerk in a grocery store, has disappeared. It is thought he went off to see the world, and made no talk about it for fear his family would oppose his voyage of exploration. He was a young man of excellent character.

☞ The address of the Republican State Central Committee will soon be published for general distribution. It urges the importance of the approaching State election, and the necessity of a more thorough organization. It recommends that great care be taken in selecting working officers for the various clubs, and that primary meetings should be more fully appreciated by all the members of the party. It also adds words of caution to the earnest friends of the cause in regard to side issues, and suggests to them that all efforts in behalf of progress and real reform may be more effectually made inside the Republican party than through any other instrumentality or organization.

Our Correspondence.

LEWISTON, ME., Dec. 27.

Messrs. Editors:—The church edifice of the First Baptist Church is fast approaching completion, and will be the finest display of architecture in the State. The vestry was dedicated on Christmas evening by a Festival and Christmas Tree.

The sleighing is in a very good condition, and all are wishing for its continuance until after the holidays are over.

No more groans are expected, from overloaded stomachs, as the fat men's Convention has met and adjourned until January, when it will be a county organization. Your correspondent was hardly up to the standard, (200 lbs.) therefore didn't pass the required examination, and consequently cannot give a correct account of the organization.

The Catholic Society are in a sea of troubles. A certain member of the Society, who is one of the wealthiest men of the city, has always been at variance with the priest, and on several occasions, with his family, has been ordered out of the church, but refusing each time to go, has caused hard words to drop from the mouth of the Rev. gentleman,—and he refuses to proceed with the exercises so long as the antagonist sits in the church. No compromise can be effected, consequently while waiting the decision of higher authority, no services can be held.

The annexation of Auburn to Lewiston is strongly urged, and no doubt will be done at no distant day. Both cities have formally voted on the question, but it has failed to become a law. It is now the determination of both cities to unite under one government. H.

For the Chronicle.

The third lecture of the Mercantile course was delivered last Wednesday evening, by John Albee, Esq, of Newcastle,—his theme being the Farm; and really he almost persuaded us to become farmers. It was a careful, consistent and scholarly production; a practical rather than Utopian picture, of agricultural life—giving satisfaction to those who were fortunate enough to be present. We could not help wishing it might be repeated for the benefit of those whom the storm prevented attending, and the general public.

His ideal of a true farmer's wife was certainly a beautiful and elegant tribute to woman. The lecture was confined within the limits of an hour, and was listened to with close attention. Mr. Albee's style is very easy, natural and pleasing; evincing a mind well trained; and a heart akin to nature. The speaker was warmly applauded, and many of the audience requested a repetition of the lecture. X.

☞ The fourth literary entertainment before the Mercantile Library Association will be given in their Hall, this (Tuesday) evening, by James P. Bartlett, Esq., who will give Dramatic Readings. Friends of the Association, and persons desirous of promoting social culture in our community, are cordially invited to be present. The exercises of the evening will begin promptly at half-past seven o'clock. Gentlemanly ushers will be in attendance to wait upon ladies to convenient seats. There will be no postponement on account of unfavorable weather.

STREET TALK.—'Tis rumored that the next City Council will vote to widen Market Street; that John R. Reding will be the next Democratic candidate for State Senator in this district; that the Dry Dock will sail for the Charlestown Navy Yard in command of a draughtsman, ere long; and that the City Hall, where our forefathers met and their sons do legislate, is to be moved to Kittery, to be used as an Insane Asylum.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

In Remote Settlements of Untold Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

Sold by all Druggists.

Batchelor's Hair Dye.

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautifully black or brown. Sold by all Druggists and Perfumers, and properly applied at the Wig Factory 6 Bond Street, New York.

SPECIAL NOTICES.

Undefined Ailments.

There are many ailments, trying in their nature, but symptoms of which are not sufficiently specific to enable physicians to classify them under any particular head. As a general rule they arise from a general debility of the whole organization, but their primary cause, in at least three cases out of five, is a lack of brisk vital action in the stomach and liver. Stimulate and tone the relaxed digestive and secretive organs, and bodily ease, health and vigor will follow the treatment. Among all the medicines which have been administered with such uniform and entire success as HOSTETTER'S STOMACH BITTERS.

Its ingredients were selected from the vegetable kingdom, originally, with a view to the invigoration of the physique and the constitution, and also for their antibilious and slightly laxative properties. Twenty odd years of experience has proved that these herbal restoratives were wisely chosen and have been judiciously apportioned in this celebrated preparation. Not only as a specific for indigestion and all kindred complaints, but as a *household remedy for all the minor ailments* incident to humanity, it has obtained a reputation based on unimpeachable testimony, which fairly eclipses that of any other proprietory or officinal medicine in use. d23

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two powerful botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than

One thousand experiments

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and gentle aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopoia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

NOTICE.—CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH and WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

Capt. FOSTER is a ship owner and builder, residing at Port Burwell, Canada.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and ever increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Sold by the Druggists and Storekeepers. Price Fifty Cents and One Dollar. Depot, 10 Park Place, New York. o1

FRIGHTFUL DEVELOPMENTS!

At last the people have got the fact "through their hair," that hair dyes impregnated with acetate of lead and other metallic salts are

MURDEROUS PREPARATIONS.

When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff literally *thickened with Poison.* They ask therefore, for a

Harmless Vegetable Dye,

and find it, pure and efficacious, in

Cristadoro's Excelsior Hair Dye

offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious." CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. 1md&wo4

Holloway's Ointment and Pills.—PILES.—Do not suppose that every form of this complaint is incurable. The worst hemorrhoidal cases are not beyond the remedial reach of HOLLOWAY'S OINTMENT. It gives tone to the relaxed integuments and acts as a safe styptic in the bleeding type of the disorder. Not unfrequently constipation is an accompaniment of the diseases and when this happens, it should be relieved with small doses of HOLLOWAY'S PILLS. Sold by all Druggists.

ACROSTIC.

Pain Killer is *worth* what it weighs, in gold,
All around the world are its praises told;
It will Cholera cure—scourge of southern climes,
No victim dies, who takes it betimes.
Keep Pain Killer—a true friend by your side,
It will cure Cough or Cold, or Colic beside;
Look out to apply it for Bruise or for Sprain,
Let it once be tried—*total* relief is your gain;
Every word I am telling you, Reader, is true,
Remember that Pain Killer is *good for you.*

The Pain Killer is sold by all Druggists and dealers in Family Medicines.

LOCAL AFFAIRS.

New Advertisements To-Day.

Varieties—Lafayette Laighton.
Minstrels Coming—Whitmore & Clark.
New Books—Jos. H. Foster.

☞ The second annual Farmers' Meeting begins at Manchester to-day, (Tuesday) and will continue through Wednesday and Thursday.

☞ Yankee Locke with his corps of able assistants is coming next Friday evening, notwithstanding the reports to the contrary. He will have a rousing reception.

HONORABLY EXCULPATED.—We are pleased to learn that a thorough investigation into the charges made against Paymaster Benj. J. Cahoone of this city has resulted in tracing the roguery where it actually belongs. The investigation was conducted at Washington and Paymaster Cahoone is placed on "waiting orders."

☞ As will be seen by their advertisement, Whitmore & Clark's famous Combination Troupe will visit this city on Tuesday evening of next week, and give one of their unique entertainments at the Temple. They have some expert Chinese performers with them, and our exchanges speak of their performances as of a high order.

☞ The individual who succeeded in exchanging umbrellas with us, can have his old (brown) one back again on leaving our new (black) one at this office. He will also be entitled to editorial thanks and happy wishes for the coming New Year. What there is peculiarly fascinating about our umbrellas we fail to see, but if the borrower of this, the second one for 1869, will return it immediately, a relic of different style will be donated him, with our autograph thrown in.

PRESENTATION.—Mr. Thomas S. Nowell was the recipient of an elegant silver tea service and an extra cup for his seventh son, on Sunday, from members of the Middle Street Society. At the close of the afternoon services the audience were requested to remain seated, by the pastor of the church, and Hon. Horton D. Walker addressed Mr. Nowell in behalf of the donors, alluding to his effort in securing the fine organ for the use of the Society. Mr. Nowell was taken completely by surprise at the unexpected gift, and responded feelingly.

THE MASQUERADE at Congress Hall this (Tuesday) evening, will doubtless afford rare sport for the masqueraders, and spectators too. We are informed that most of the limited number of tickets have been sold, and that the Hall is to be handsomely decorated,—a mammoth "order of dances," 16 feet long by 12 wide, being one of the ornaments. The dancers will be able to read what they are to go through, at all events. Gallery tickets may be procured at the door, and tickets for the floor also, at the same place,—by those in fancy costume, *only*. Grand March and Circle at half-past 8 o'clock, precisely. Unmasking and Supper at 11.

CHRISTMAS DAY was duly observed in this city, and is certainly becoming more popular as a festive occasion. The purchase of presents exceeded any former experience of the kind among the traders, whose stores were crowded for the previous week by eager buyers, and many a happy child rejoiced at Santa Claus' Christmas gifts, while children of a larger growth did not forget each other.

The weather was fine and the good skating was enjoyed by several hundred persons of both sexes, the South Pond being the principal point of attraction. Customary services were held at the churches, and the loafers who usually throng the sidewalks on holidays seemed to be somewhat lessened in number.

The Unitarian, Universalist and Episcopal churches were beautifully decorated, with evergreen, flowers, and mottoes. There was considerable fine lettering at St. John's and the Stone Church—and good judges pronounced the decorations finer than before. We understood the work all save the mottoes, was designed by the sexton, Mr. King, and executed under his direction. The services at the Stone Church on Christmas Day, and Sunday evening, were very interesting and appropriate to the season; and the music of the quartet choir especially fine.

Christmas Trees were enjoyed by the Methodists and Universalist Societies, at their Churches on Friday evening; and by the South Parish at their Chapel Saturday evening. The North Parish had a grand time over (or under) theirs, on Monday evening, at Congress Hall; and the Episcopalians will do theirs at the same place on Wednesday evening. There will be a Christmas Tree at the Freewill Baptist Church on Friday evening.

☞ The Mercantile Lyceum now progressing, is more satisfactory and enjoyable than many high cost courses. The public are invited this evening.

☞ The flags on the Custom House, Rockingham House and other buildings in this city were at half-mast on Monday, in memory of the late Edwin M. Stanton.

DEARBORN S. F. ENGINE CO. No. 1 gave their second annual Assembly in Congress Hall on Christmas Eve. It was a very pleasant affair, and the floor, in the earlier part of the evening, was quite full enough for convenience,—the visitors including a deputation of firemen from Lynn, to the number of a dozen or more,—smart-looking, well-ordered fellows they were, too. At midnight Foreman Edw. E. McIntire, on behalf of the Company, invited the party to adjourn to the engine-house; the party kindly acquiesced, and were soon seated at tables loaded with an excellent and abundant Christmas breakfast, (it was after 12 o'clock,) including coffee, cold meats, cake and pastries, veritable "Christmas pies," fruit, &c.; besides which a large and handsomely-ornamented frosted cake in the middle of each table officiated as centre-piece.

After an hour of pleasant and profitable occupation at the tables the party returned to the Hall, having made no very appreciable inroad on the good things provided for their refreshment; and dancing was resumed, and kept up until the small hours of the morning had grown to a very considerable size, when they (the people—not the hours, which kept right on,) left for their homes, satisfied that the Dearborns know how to project and carry out a good time, and get up a capital breakfast. One of the large cakes was presented to the visiting firemen from Lynn, and the other to the ladies who kindly assisted the Company in attending to the wishes of their guests.

☞ Stockholders of the Concord and Portsmouth R. R. will receive a semi-annual dividend of 3 1-2 per cent. at the office of William H. Hackett, on Thursday, Dec. 30.

PROCLAMATION.

AS ANOTHER CHRISTMAS is drawing near I am preparing to make my annual visit among the various nations of the earth. I would proclaim and make known to the good citizens of Portsmouth and vicinity that my friend
J. F. SHORES JR.,
has a larger assortment than usual and that is saying a good deal) of articles for
Christmas and New Year's Presents.

I peeped in the other evening when five pair of busy hands were at work, and I tell you, it seemed like a visit to fairy land.

Therefore I would give a word of advice to one and all. Before you make your purchases for the

HOLIDAYS,

Be sure and drop in at

SLEIGH BELLS of all kinds for sale by LARRABEE & SONS, Congress Street.

Morning Chronicle.

MAINE 1ST CONG. DIST.—The Biddeford Journal says it is generally conceded that the candidate should be selected from York County, and that matter may be considered settled.

Looking here we find four candidates, or gentlemen who have been prominently mentioned in connection with the proposed nomination—Judge Tapley of Saco, Col. J. M. Stone of Kennebunk, Hon. George Goodwin of Wells, and Gen. M. F. Wentworth of Kittery, either of whom would discharge the duties of Representative honorably to their constituents and themselves, and either of whom is intellectually the peer of any person who has filled the position since the Republican party was formed, and each will doubtlessbe urged by his intimate friends for the succession. A generous rivalry there doubtless will be, but neither will allow his name to be used to the detriment of the party in the county, nor will he allow it to be used before or at the coming Convention, if by so doing he shall jeopardize the choice of a candidate from their section of the District.

SERVED HIM RIGHT.—Quite a scene occurred on the Portland, Saco and Portsmouth Railroad, on Tuesday afternoon. It seems that a passenger was fumbling around in the baggage car, when the baggage master accidentally let fall a trunk or parcel somewhere near him. The man, with impudence most sublime, demanded an apology; and was very properly reminded that there were passenger cars connected with the train, a fact which if he had sooner acquainted himself of, the grievance of which he complained would have been obviated. This irritated the young man, who began to strip off his coat and was going to do some desperate things. The baggage master ordered him out of the car; but he refused to go, and applied several epithets, more emphatic than elegant, to this official. The conductor of the train was called, and very civilly requested him to pass into a passenger car. This he peremptorily refused to do, and commenced his abuse again. He was finally hustled into the smoking car, where he talked loudly and abusively, greatly to the annoyance of the passengers. Conductor Sanborn, who by the way, is long suffering and slow to anger, reminded him that if he desired to reach his destination by that train, he had better subside and be civil; but he raved the more, and showed signs of pugilism, when forbearance ceasing to be longer a virtue, and at the unanimous request of all present, Mr. Sanborn, whistled "down brakes." The train stopped, and the Conductor told him he had better get off—*and he did*—half way between North Berwick and Wells, where his position was well calculated to cool his enthusiasm, and afford him ample time to reflect on the inconvenience of incivility.—*Bid. Journal.*

YORK COUNTY ITEMS.—The York County Christian Convention held its 4th annual meeting at Kennebunk the 14th and 15th of Dec. Rev. Mr. Hayward of South Berwick, President, and Rev. Mr. Ballou of Kennebunk, Secretary. Sermon by Rev. Mr. Wetherbee of Biddeford.

Dr. Abial Hall, the venerable and well known physician, of Alfred, died in that town on Saturday morning at the age of eighty-three.

Mr. William Berry, station master in Biddeford, fell and broke his arm Friday.

Hon. Theodore Clark, of Wells, has recently purchased 250 sheep, and is making large preparation for wool growing.

Schooner Sarah, of Wells, Capt. Boothby, got ashore on Wells beach, but was got off next day without damage, except loss of boat.

Reuben Chadbourne, of North Berwick, killed a hog 18 months old, which girt six feet seven inches, and weighed 778 lbs.

Rev. W. G. Goucher has become pastor of the church at Wells Depot. The church and society at Cape Neddick have repaired their house of worship and much improved its appearance.

DRUNKENNESS IN THE OLD TIME.—A law to prevent drunkenness by prohibiting the public promiscuous sale of intoxicating drinks was by no means original in the State of Maine. The vice is as old as our race. Our ultimate ancestors, the Vikings, drank fire-water upon earth and quaffed mead in Paradise; our more recent progenitors in Great Britain drank gin and groveled. A gin-shop in Southwark, London, a hundred and thirty years ago, had this alluring sign: "Drunk for a penny: Dead drunk for tuppence: Clean straw for nothing." What more could man, the image of his Maker, ask?

And it is wonderful that Swift, diseased and half frenzied, poured out his profuse contempt in Laputa and the Houyhnhnms? People often died of drunkenness in the taverns; and there was a temperance party, even then, that demanded a prohibitory law, and they succeeded in carrying a bill through Parliament which laid upon liquor a tax so heavy that it became too costly for the poor, and which prohibited the sale of drams. Sir Robert Walpole, whose boozing orgies at Haughton are not unknown, finally acquiesced in the law.—*Harper's Mag. for Jan.*

☞ A new light! The P. M. L. A. Transparency.

American Sunday School Worker.—A new magazine for parents and teachers, published at St. Louis, by J. W. McIntyre, at $1.50 per year—four months on trial for 50 cents. Also club rates. It is designed for all sections and denominations.

BRIGHTON CATTLE MARKET.

FOR THE WEEK ENDING THURSDAY, DEC. 23.

[Reported for the Boston Journal.]

At market for the current week—Cattle 1163; Sheep and Lambs 10,003; Swine 1750; number of Western Cattle 478; Eastern Cattle 373; Northern Cattle and Working Oxen 330. Cattle left over —.

Prices Beef Cattle—Extra $13 00 @ $13 50; first quality $12 25 @ $12 75; second quality $11 50 @ $12 00; third quality $10 00 @ $11 25; poorest grade of coarse Oxen, Bulls, &c., $8 00 @ $9 50 ₩ cwt, (the total weight of hides, tallow and dressed beef.)

Brighton Hides 9 @ 9½ ₩ ℔; Country Hides 8 @ 8½ ₩ ℔.

Brighton Tallow 8 @ 8½c per ℔; Country Tallow 6½ @ 7c ₩ ℔.

Lamb Skins 75 @ $1 25 each; Sheep Skins 75 @ $1 25 each; Calf Skins 20c ₩ ℔.

The supply of Cattle in market was not so good as that of last week, and the trade has been dull. Prices of the poorer grades of Beef are lower. There was but a few extra Cattle in market. There was a light supply of Cattle from the West, but from Maine and the North about the same as there was last week. There were more Beeves among the Maine Cattle than usual. The trade for Working Oxen has been dull.

Store Cattle—Yearlings $45 @ $65; two year olds $80 @ $45; three year olds 45 @ $65 ₩ head. Many of the small Cattle that are in a fair condition are sold for Beef.

Milch Cows—Most of the Cows in market are of a common grade. There are but few of the fancy breeds offered in market. Prices range from $50 to $115 ₩ head. Many of the Store Cows are bought for Beef.

Working Oxen—There was a good supply in market. We quote sales at $160, $170, $185, $230, $250, $130, $175, $285 ₩ pair.

Sheep and Lambs—The trade was quick and prices obtained were better than those of last week. Most of the Western Sheep went direct to slaughter houses. We quote extra lots $3 75 @ $5; ordinary lots $1 50 @ 3 50 ₩ head, or from 3½ @ 6½c ₩ ℔. A few extra nice at 8c ₩ ℔.

Swine—Store Pigs, at wholesale 10½ @ 11½c ₩ ℔; retail 11 @ 15c ₩ ℔. Fat Hogs—1300 at market; prices 11 @ 12c ₩ ℔.

LORILLARD'S "EUREKA"

SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB

SMOKING TOBACCO is made of the Choicest leaf grown; it is anti-nervous in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Merschaum Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY

CHEWING TOBACCO.—This brand of Fine Cut chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS

HAVE BEEN IN GENERAL USE in the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.

PLAYING KITTEN.

Have you seen a kitten play with a ball?
She clutches it tight in her sharp little claws,
Tosses it up, and then lets it fall;
Rolls it away, and, after a pause,
Brings it again to her side, with a spring;
Bounds far from it with motion active,
Yet ne'er, for an instant, loses the thing;—
Oh! a kitten playing is very attractive.

Just so a maiden plays with my heart;—
A moment see holds it meshed in her smiles,
Then seems to forget me and turns apart;
And, when I am almost freed from her wiles,
Calls me back with a glance so sweet,
That only her in the world I see,
And again lie captive before her feet,
Though I know she is playing kitten with me.

A CALIFORNIA EPIGRAM.

"Of girls on this coast, from Miss Dickinson's tone,
A stranger might judge in a harsh manner;
But we know the poor thing has no girl of her own,
And that's what's the matter with Anna."

New Publications.

The Old & New, for January 1870, is No. 1, of a stout monthly, 150 pages, nicely printed, on excellent paper. It contains a great variety of articles, from the best writers of the day, besides The Examiner and Record of Progress, in which are included many valuable criticisms and much curious information. It is edited by Rev. Edward Everett Hale, and published by H. O. Houghton & Co., Boston, and Hurd & Houghton, New York, at $4 per annum.

The Overland Monthly, Vol. 4, No. 1, January number, is very readable. Table of contents consists of San Francisco, Sea Otters, Dutch Gap Canal, Centre-pole Bill, The Candidate from Bull Flat, etc. A Rowan & Co. Publishers, San Francisco; $4 per annum, For sale by all news-dealers in the United States.

Onward, January, 1870. — This is Capt. Mayne Reid's Magazine, edited in his peculiar dashing style, and illustrated with graphic wood cuts.—Published monthly at the Onward Publishing office, New York. $3 per year.

Extracts from Capt. Goelet's Journal, relating to Boston, Salem, Marblehead, from 1746—1750:—with notes by Alfred H. Hoyt. — They contain a great many curious facts relating to those times and places.

The Radical for January 1870, begins vol. 7, and contains eight articles, besides Notes, &c.—Among them, The Law of Habit, by John Weiss, The Book of Daniel, by T. F. Abbott, and Liberal Religion in Europe, by Samuel Longfellow, are papers that will interest the careful reader, though he may not, perhaps, accept all their conclusions.

Blackwood's Magazine for December, opens with some charming Chapters of "John," part II.

The Riverside begins its new volume with an illustration of one prominent characteristic of that Magazine for Young People. It reproduces the famous ballad of "John Gilpin:" gives a striking picture of one of the scenes in the ballad, by Darley; and tells about Cowper, the author of the ballad. Jacob Abbott explains "Gunpowder Eplosions." There is a very funny poem, called "The truly Rural Romaunt of the Sleepy Princess," with delightfully absurd pictures; a bright story of "Shipwrecked Buttons;" a curious historic sketch of the Regicides, with illustrations, &c. Perhaps the novelty of the number is an elaborate calendar of the month, with historic and biographic facts set against the days of January; and the editor asks his young readers to furnish him with material for this, from month to month. Altogether, the "Riverside" begins the year with good resolutions well kept. Published by Hurd & Houghton; $2.50 a year.

Wood's Household Magazine, for December, a good periodical and cheap: $1 a year, Monthly, published at Newburgh, N. Y.—devoted to Knowledge, Virtue, and Temperance.

Rules for Punctuation, Spelling, Capital Letters, and Composition. Published and printed by Frank W. Robinson, Portsmouth, 1869.—We should before this have commended this neat little book to the attention of all who are deficient in these important respects—as very many, perhaps we may say most people are. Especially ought school children and youth to procure copies and study the contents.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the *best in the world* is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitive trials within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

WEDNESDAY, DEC. 29, 1869.

PROPOSED FORMATION OF A NEW PARTY.—The Executive Committee of the New Hampshire Labor Reform party held its first meeting at Kimball's Hotel, in Dover, on the 15th inst. The Committee numbers fourteen persons, and is composed of Republicans and Democrats in about equal proportions. John R. Palmer, of Dover, was elected Chairman, T. D. Foss, of Strafford, Secretary, and John M. Rolston, of Concord, Recording Secretary. It was decided to issue a call for a State Convention, to be held at Concord on January 28, for the formation of an independent political party, to be known as the Labor Reform Party of New Hampshire, and for the nomination of a State ticket.

Letters expressing sympathy with the movement were received from various parties in this State and Massachusetts. It was represented that Labor Reform Clubs had already been formed in Hampstead, Rochester, Great Falls, New Salem and Danville. The Knights of St. Crispin are thought to be in league with the Reformers, and the supposition is strengthened by the fact that the Secretary of the latter acts in the same capacity in the State Grand Lodge of the Crispins.

GREAT VOLCANIC ERUPTION.—A Panama letter states that the volcano of Purace is still in active operation, and has had the effect of frightening multitudes away from its vicinity as well as destroying the herbage around it for miles. The rivers in its immediate neighborhood have had their streams wonderfully increased in volume, and threaten the destruction of the pueblos on their banks. The appearance of the mountain, which is about 5000 feet high, has entirely changed during the past few months. It appears now as if the top had been blown off of it, and the force of the explosion has been such that the concussions have been felt in a neighboring State, and showers of ashes from it have fallen over a hundred miles away.

Flotsam and Jetsam.

A destructive fire in Syracuse, N. Y. Sunday, burned up several buildings, involving a loss of nearly half a million dollars.

At Cheviot, six miles from Cincinnati, Sunday evening, John R. Wilder cut his wife's throat and then shot himself. Wilder is dead and his wife cannot recover.

Eastern California and Nevada were well shaken up by alarming earthquakes Sunday night.

The Mormon troops number 13,000.

It cost a Delaware man two dollars to marry three wives.

The report of the Bureau of Statistics shows the imports for nine months, ending September, to be $364,563,934, in gold, an increase of $66,000,000 over the same period last year. Two hundred and fifty millions were transported in foriegh vessels. The domestic exports were $321,855,798, or $8,500,000 less than in 1868. Foreign goods reexported amounted to $22,164,199, or $5,500,000 over 1868. Of the total exports two-thirds were in foreign vessels.

BANK DEFICITS.—The Government examination detects a deficiency in the cash of the Howard National Bank of Boston, amounting to more than $60,000. The book-keeper of that institution states that the loss occurred about seven years ago; he supposes by a mistake in a settlement with other banks, and that he has concealed it until this time in hope of discovering the error. There is a case on record of a bank in New York where the abstraction of a large sum had been covered up by false entries during even a long period. It appears that book-keeping may be an exact science of recording and exhibiting facts, or a high art that conceals art, according to circumstances. Somebody may suggest that the carelessness that permits a crime has a flavor of criminality, and inquire, when defalcations are detected after such lapse of time, whether only the defaulter has lapsed from virtue. And it is not perfectly certain, if bank officers in suce cases were indicted as particeps criminis, how their protestations of innocent ignorance might be regarded by an intelligent jury.—*N. Y. Tribune.*

☞ Forty-five years ago land was ploughed the day after Christmas, in this city, and again on the 20th Jan. In 1839-40, land was ploughed here every month of the winter.

Congressional Directory, 2d session, 41st Congress. By Ben: Perley Poore. A very convenient manual for Congressmen, editors, and readers generally.

—A white garment appears worse from slight soiling than do colored ones when much soiled; so a little fault in a good man attracts more attention than great offences in bad men.

New Hampshire Items.

The Laconia Democrat is informed on good authority, that the Belknap Mills will meet all their liabilities in a reasonably short time.

Mr. F. A. White was instantly killed on Thursday last, by being caught in the machinery of a paper mill at Dalton.

The Gilmanton Mills, in Belmont, are now running at their utmost capacity. They employ 140 hands, and turn out about 400 dozen pairs of stockings a day.

The American Workman, the organ of the St. Crispins, last week published the speech of Hon. J. H. Ela, delivered in Congress two years ago, on the taxation of bonds. Mr. Ela produced a masterly argument in behalf of labor and the best way to aid labor, which the Workman is pleased to place before its readers.

A meeting to re-organize the Gilmanton Railroad Co. will be held in Gilmanton in Jan.

A survey of a new railroad route, from Dover School House through Chichester to the Suncook R. R., was commenced Monday.

In Dover, the operatives in the shoe factory of Ira W. Nute assembled and sent for Mr. N. When he appeared, visions of the Crispins and a big strike floated through his mind. He was presented with a gold watch and chain and a Masonic key, whereat he was greatly relieved.

The barn of David Marston, in Warren, was destroyed by fire on the 21st, together with fifteen tons of hay, three cows, ten sheep, and about fifteen bushels of rye. It is supposed to be the work of an incendiary. Insured for $300. Loss $800. This is the second time within a few months that Mr. Marston has been made the victim of the destroying elements. A few months ago his dwelling house and barn were entirely destroyed by fire. He lost everything at that time, there being no insurance on either. He had just completed his barn, when this second conflagration occurred, sweeping from him almost the entire amount of a small but hard-earned fortune, which almost his whole life has been spent in accumulating, now being a man verging upon seventy years of age.

On the 22d, in Manchester, fire broke out in the brush factory of W. S. Roby. Stock to the amount of $500 was destroyed, but was fully insured. The building owned by the Amoskeag Corporation, was damaged to the extent of $350, which is a total loss. Other industries in the same building suffered considerable damage by water.

James Mitchell, aged 82, and his wife, aged 79, living in Manchester, have been married 59 years. On Christmas day, a family party of 20, sons and daughters and grand children, spent a festal day with the old folks.

Robert M. Whitehouse, master mechanic on a portion of the St. Petersburg & Moscow Railroad, in Russia, is visiting his native town of Dover.

Mr. Charles S. George, of Pittsfield, has recently had *nine* children prostrated with typhoid fever at one time. One son and one daughter have died, and are buried in the same grave.

Senator Cragin has left Washington, for New Hampshire, having received letters strongly urging him to go home and preside over the Republican State Convention to be held on the 6th of January.

For the Chronicle and Gazette.

SOOT AS A MANURE.—Soot is a manure that is much neglected in this country, but is highly valued in Great Britain. It has been found by analysis, to contain a great variety of both inorganic and organic bodies. We find, for one very prominent constituent, a large quantity of ammonia. Besides this, there are phosphates, sulphates, carbonates and chlorides of lime; potash, soda, iron, and magnesia.

These are the chief inorganic substances, and show it to be a powerful manure. It contains so much ammonia that when laid in heaps on grass, the plants under it are destroyed very speedily. In very dry seasons, soot like some other powerful manures, sometimes does injury. From thirty to sixty bushels per acre are applied, commonly as a top dressing. It gives a beautiful dark green color to grass or grain, and increases the yield very largely. For garden vegetables or flowers it can be applied in liquid form. To do this, put half a bushel into a hogshead of water, and let it remain a few days, when it will be ready for use.

If a little exertion were made, there are but few places where considerable quantities of this strong manure could not be obtained. D.

Correspondence of Chronicle and Gazette.

HAMPTON FALLS, Dec. 27.

Messrs. Editors:—In passing Hampton Falls Academy, I heard the music of a Brass Band, and on stepping in, to my great astonishment I found it to be the Mechanics' Brass Band, thirteen pieces, of this town; and was still more astonished to find with what precision and ability they acquitted themselves. Their leader, Mr. Henry Crosby, with his gentlemanly appearance and his matured musical talent, cannot but share the patronage of all who are in search of such music.

A LOVER OF MUSIC.

Communication.

Editors Chronicle:—Portsmouth and vicinity pays about one-third of the taxes of Rockingham County and heretofore it has been the general practice to allow this vicinity one of the three County Commissioners. Last year this rule was not adhered to, owing entirely to some of the Portsmouth delegates, and a gentleman from the extreme Western portion of the county selected.

It is but justice this year that the delegates from the Eastern portion of the county should request that they have a representation.

Among the parties named for Commissioner is Mr. John W. Fogg Hobbs of North Hampton. Mr. Hobbs is too well known to need any recommendation from any person. He is a gentleman of wealth, and position in society and has been the architect of his own fortune. The manner in which he has successfully and strictly attended to his own extensive business is a sufficient guarantee that he will ably manage the affairs of the county. X.

NOTICE.—About the year 1865 the wife of an officer in the U. S. Navy, the name of BURNS or BARNES, residing at Portsmouth, N. H., came to Boston, Mass., and adopted as her child a young girl by the name of GEORGIANA HALL, then about 4 years of age. Soon after, they went South, supposed to Norfolk, Va., since then nothing has been known of them. Any information concerning this young lady will be thankfully received by the subscriber, who is in possession of information which will be of great value to her.

Address; WM. E. FORD, Public Library, d22eweod Boston, Mass.

LOST.—On Tuesday morning a MASONIC BOSOM PIN, Maltese Cross, with Knight Templar emblems. The finder will be rewarded by leaving the same at the Chronicle Office. d29

☞ They have a queer idea of what constitutes a joke in Bangor. We take the following from the Whig:

RUM DID IT.—In last Tuesday's Whig we published the death of a child of Christopher A. Page. Now we don't wish to be understood that rum killed Mr. Page's child, because he didn't happen to have any child to be killed, but we do say that rum reduced Page to a condition that caused him to palm off such a miserable hoax upon a newspaper and the public.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, dislodges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. To young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be accquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of **50** cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what ailes you or your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

In Remote Settlements of Untold Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

SPECIAL NOTICES.

Undefined Ailments.

There are many ailments, trying in their nature, but symptoms of which are not sufficiently specific to enable physicians to classify them under any particular head. As a general rule they arise from a general debility of the whole organization, but their primary cause, in at least three cases out of five, is a lack of brisk vital action in the stomach and liver. Stimulate and tone the relaxed digestive and secretive organs, and bodily ease, health and vigor will follow the treatment. Among all the medicines which have recommended as conducive to this end, none has been administered with such uniform and entire success as HOSTETTER'S STOMACH BITTERS.

Its ingredients were selected from the vegetable kingdom, originally, with a view to the invigoration of the physique and the constitution, and also for their antibilious and slightly laxative properties. Twenty odd years of experience has proved that these herbal restoratives were wisely chosen and have been judiciously apportioned in this celebrated preparation. Not only as a specific for indigestion and all kindred complaints, but as a *household remedy for all the minor ailments* incident to humanity, it has obtained a reputation based on unimpeachable testimony, which fairly eclipses that of any other proprietory or official medicine in use. d23

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It combines two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **One thousand experiments** were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

NOTICE. — CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH AND WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON.

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Croup, Cuts, Bruises, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. No family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by the timely use.

Colic, Cramp, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter what disease, confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

Communication,

Sagamore S. F. Engine Co., No. 2, of this city, sat down to an excellent clam chowder, with a few invited guests, on Christmas Eve, in the chamber of their engine house, which they have finished and furnished in elegant style at their own expense; the pictures and other adornments of the walls evince good taste and judgement on the part of the managers. The Steamer is a marvel of neatness, and order seems to be the rule in everything they undertake. They were very polite and attentive to the friends who partook of their hospitality. I came away impressed with the idea that "S. S. F." engraved upon the the handles of their spoons meant—Splendid Sett of Fellows. It was a very pleasant little affair, and all present seemed to enjoy it. When the Sagamores have another "Sit down," I want to be there, but I don't want the "Boys" to come to my house—with the machine. M.

SCAMMON *vs.* HATCH.—In the Police Court in this city, on Tuesday afternoon, Mr. Stephen Scammon of Stratham, was arraigned on a criminal suit, for maliciously libelling Albert R. Hatch, in the publication of an advertisement in the Chronicle Dec. 25th, regarding the alleged forgery of sundry small Notes, &c., and forcing Scammon to pay the same in a Massachusetts Court. Judge Odell adjourned the examination, at request of Scammon's counsel, to Monday morning at 11 o'clock.

The publishers of the Chronicle were also brought up on a similar suit, and this case was also continued to Monday at 10 o'clock. Mr. Hatch denied the statements of Scammon in toto, and urged the immediate trial of the printers—but the Judge took their own recognizance for appearance, and Scammon gave $500 bonds. Mr. Hatch repeatedly stated that he regarded Mr. Scammon as insane—morally, at least; and he considered the printers the greater offenders.

The publishers acknowledged the publication, of course; as did Scammon its authorization — but the publishers pleaded not guilty as to malice, &c. They were summoned to Court as witnesses in Scammon's case, and when there, were unexpectedly arrested in their own case. Hatch for State, Hackett for defence, in both cases. Of course these suits do not debar other suits for damages if preferred.

For the Chronicle.

A TRIBUTE OF REMEMBRANCE.—Little Freddie, of five short summers,—the beautiful boy with golden curls and laughing eyes and classic brow, who e'en so late as when the bluebells trailed around his door and scarlet beauty ting'd the Oak and Maple, was seen upon our walks, playful and happy as the Fawn,—now sleeps as do the violet and buttercup, at wintry touch—but not like them, will he wake unto life again to beautify our pathway here.

Amid the sunshine of his infant joy, the Spoiler of all earthly hopes appeared and swept his cold finger over the lily brow of the fair child; closing forever his young beaming eyes.

The sad sick father* stood aghast—deeply he felt the poignant smart—it was too much. Medical skill, hearts deeply anxious, and willing hands swift with assistance, were near; but all in vain, — the barbed arrow triumphed in its terrible work.

By Divine authority, the Parent's jewel was demanded. The precious spirit, which but yesterday illumined the chambers of the little shining temple, assumes another form, and is borne away by Seraph escort to the outstretched arms of Him who said, "Suffer little children to come unto me." A few days more, and the same command laid sire with son, like fallen autumn leaves. Were it not for the all-sustaining element of christian faith and hope, the lone, heart-wrung wife and mother would become as a broken vase in the garden of life. Sincere is our sympathy with the bereaved friends of the departed beautiful child, and his talented and tasteful parent.

"He will not come again, fair boy,
To meet his mother's smile,
The idolized, the father's joy,
Has fled from earthly guile.
Scarcely of life one conscious spark
Is known in five short years,
Ah, Sire and son the "Valley Dark"
Have passed—sad sad our tears.
They crossed the "River deep and wide,"
And dangers come no more;
They sing upon the other side
Of Jordan's golden shore."

Morning Chronicle.

AN ABDUCTION CASE.—An advertisement was inserted in the Boston and New York papers recently, offering a reward of $1000 for the recovery of Corinna Lewis, a little girl seven years of age. This advertisement was inserted by a Mrs. Lewis, of Boston, who had procured a divorce from her husband, Dr. Lewis, and this, their only child, was given by order of the Massachusetts court to the mother; but the father was allowed by the court to have the child visit him twice a week. On one of these visits, at the St. James Hotel, Boston, Dr. L. kidnapped the child and went to Canada, and was finally traced to New York city and brought before Judge Hogan. Counsel appeared on both sides. The circumstance were related by the counsel for Mrs. Lewis as follows:—

The defendant, Dr. Lewis, had pursued a life of open and unblushing immorality, and had shown an entire absence of affection for the one child, by her devotion and love for him, raised him from poverty and obscurity to a position of social distinction, and given him the command of a handsome fortune, and, what was more, had generously found him the means by which he had obtained the education that had enabled him to maintain that social position.

Some years since Mrs. Lewis, who was a lady living in the highest circles of society, and a lady of education, great personal attractions and immense wealth, had fallen in love with the defendant, who at that time was not a man of any education. With a generosity that was almost unprecedented, and with a devotion and self-sacrifice that ought to have awakened the devotion and gratitude of any man on whom this love was lavished, however degraded he might naturally be, she sent this Mr. Lewis to college before allowing him to become her husband, paying every cent of the expenses, and thus fitting him to be introduced to those circles in society of which she was so brilliant and distinguished a member.

They were married, and the result was the birth of the little girl, who was now asking the protection of the Court. Not very long after the child was born, Lewis, instead of being the faithful and devoted husband that so good a wife deserved to possess, went abroad, and in riotous living and licentiousness absolutely squandered the colossal fortune that the generosity of his wife had placed at his disposal. He entered into mesalliances with female theatrical celebrities and ladies frail but fair, and his amours became so notorious that Mrs. Lewis applied to the Supreme Court of Massachusetts for a divorce, which Court gave an order that the child should be given to the care of the mother pending the litigation involved in the divorce suit.

The defendant, knowing that the mother loved that child with all the love of a mother, and would sacrifice fortune and life for it, resolved to possess her, and in violation of the order of the Massachusetts court had kidnapped her away. On this being made known, an order was issued for his arrest for contempt of court. He, however, went West to avoid the serving of that order, and was at length found in New York. Upon this state of facts Mr. Howe begged that the Judge would hold the child in safe custody until the necessary papers could be procured from Boston and until the mother could arrive and claim her daughter.

The child was consigned to the care of one of the detectives to await the hearing of the case and proofs, on the 27th Dec. Dr. Lewis was discharged from custody.

IS AN OYSTER A FISH?—A case is now pending before the Maine Supreme court, in which one Johnson sold out his fish-market to Caswell, and gave bond not to engage again in selling fish within the limits of Biddeford. Subsequently he hired and opened a saloon in Biddeford, where he sold oysters. Thereupon Caswell brought suit upon the bond, alleging the sale of oysters to be a breach of its condition; and this the defendant denies, thus raising the question whether or not oysters are fish. The plaintiff says they are always so considered; are called shell fish, i. e., fish having a shell; and cites legal authorities in defence of his position.

The defendant replies that though the oyster is a shell-fish it is not a fish, and that word alone does not describe it; that the word shell-fish is a single word, and name of the animal, and that shell is not to be taken simply as an adjective. He appeals to the dictionaries, and says a fish lives in the water, and an oyster in the mud or earth; that the definition of fish is "the lowest class of vertibrated animals," and that the oyster has no more backbone than an average politician.

He further says that the parties used the word in the bond as it is usually understood, not meaning to be technical, and that nobody uses the word fish in ordinary conversation to indicate oysters. As proof of this he calls the attention to the fact that, after purchasing defendant's stock, plaintiff put up a large sign bearing the words, "Fish *and* Oysters;" thus admitting that people would not understand that he sold the bivalve if he simply employed the word fish.—*Bkl. Democrat.*

Report of the National Telegraph Co. New York.

EAST ROCHESTER.—A writer in the Courier says:—

About one-fourth of the inhabitants here are English, and they are truly a civil, frugal and industrious class of people. There are four factories in the place, three of which are in operation, employing one hundred and seventy-five operatives, and manufacturing two million yards of woolen cloth annually. The flannel made here is of superior quality,—the writer knows from having tested it; and the water-proof cloth is in great demand. The amount of money paid to operatives is six thousand dollars monthly. This of course does not include salaries of the managers.

If I were to say that there is in this State a village of about five hundred inhabitants where no intoxicating liquor can be be bought, the reader would be curious to know where a place of that character is to be found. Such is the case here at East Rochester, which makes it, so to speak, an anomaly among villages in these days of intemperance. There was a place in our village, some weeks ago, which had already begun to sow the seeds of danger, where not a few resorted, but our leading citizens took the matter in hand, and with Spartan firmness, really glorious, wiped the last vestige from the spot.

—Place a bone in the earth near the root of a grape vine, and the vine will send out a leaping root directly to the bone. In its passage it throws out no fibers, but when it reaches the bone, the root will entirely cover it with the most delicate fibers, like lace, each one seeking a pore of the bone. On this bone the vine will continue to feed as long as nutriment remains to be extracted.

—Young lady (to Fred with thin legs)—"Fred, I always admired your courage. I knew when I first laid eyes on you that you were brave to rashness." Fred (coming up smiling)—"Oh! don't my dear! Why do you say that?" Young lady—"Why any man must have courage who can trust himself long at a time on such legs as yours."

—Chatting at Wiesbaden about the young fellow who was to become his son-in-law, the old man praised him very highly. "I don't know that he has but one fault. He does not know how to play." "Do you call that a fault? It seems to me a virtue." "Ah, well, he does not know how to play, but he plays just the same!"

LORILLARD'S "EUREKA"

SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it gives satisfaction. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB

SMOKING TOBACCO is made of the Choicest growth of the Virginia leaf in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Meerschaum Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY

CHEWING TOBACCO.—This brand of Fine Cut chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS

HAVE BEEN IN GENERAL USE for the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable dealers everywhere.

NOAH.

BY G. OSGOOD.

Those who delight in rosy wine
And sing the praises of the vine,
May read about the patriarch Noah,
Who, when the earth was flooded o'er,
Sailed bravely in his staunch old ark
Along the waters wild and dark
Which stormed around his way;
And, though no welcome port was near,
He felt no doubt, no gloom, nor fear;
But watched, all cheerful and serene,
Till the returning dove was seen
Which brought the leaf of olive green
That told a happier day.

The brave old ark, at last, was found
Safe on Mt. Ararat, aground;
The waters settled in their place
And nature wore a sunnier face,
As Noah left the mountain's crest
For scenes in spring-like beauty dressed,
Where he might find some lovely spot
To pitch his tent, or build his cot,
And plant his favorite vine
To shade him from the summer's heat,
To bear him clusters fair and sweet,
And give the choicest wine.

Perhaps in such enchanting spot,
This ancient mariner forgot
Old Adam's luckless fall,
Which drove him from the garden fair
To meet the rough world's wear and tear,
And spend his days in toil and care,
Like us poor sinners all.
Perhaps he thought the wine was good
While firmly on his legs he stood,
Nor feared a fall, or slip,
Until, too soon, he seemed to feel
Inclined to stagger and to reel,
As when on board his ship.
He might have framed some fair excuse,
After a rough and stormy cruise,
To take the goodly cheer;
As people, now, apologize
For faults which in their neighbors' eyes
Are all too plain and clear.
Yet still the hour of sin and shame
Which to ancient patriarch came,
Must always stain a noble name
That we would all revere.

After the waters of the flood
Above the earth no longer stood,
Appeared the promise bow.
So after men are drunk with wine,
Appears the light of hope divine,
Whose fair and radiant colors shine
To lead from sin and woe.
The frail and fallen may turn his eyes
To this bright bow, whose brilliant dyes
Illume the dark and stormy skies
Which overhang his path,
And show the strait and narrow way
Which leads from vice and passion's sway,
From suffering, shame and wrath,
To virtue's high and happy course,
Where sin, with neither will nor force,
His manhood e'er can stain,
Where he with noblest pride may feel
The serpent crushed beneath his heel,
That stung with sharpest pain.

A COMPROMISING SPIRIT.—Yesterday a sable Adonis, named Edward Chandler, was up as a witness in a case of assault and battery. The pugilists were two females of the same ebony hue with Edward himself, and a little inquiry as to the cause of the disturbance, soon revealed the fact that they both claimed the dusky Lothario as their husband. Both asserted that they were lawfully married to him, and the severest cross-examination failed to disclose any flaw in the statements of either.

"Why, you rascal, you must be a bigamist," said the judge, turning wrathfully toward Edward.

"Sar?"

"You've married both of these women."

"Yes sar, but dey needn't fight about it, dough."

"Don't you know this is a criminal offense of yours?"

"Sar?" replied Edward, the white of his eye enlarging and looking into the judge's face.

"I have to arrest you for bigamy."

"Dat so?"

"Yes."

"Den don't say no mo' 'bout it and I'll lib wid 'em bofe," rejoined the complacent Edward, adjusting his hat and walking leisurely from the court-room, *N. O. Picayune.*

RUMSELLING. — The Lake Village Times says:

On Friday last our prosecuting agent made a raid upon Henry C. Shaw, a rum-seller in our town. He was brought before one of our justices, and was ordered to recognize for his appearance, in the usual way, or stand committed. We think he is in a tight place and cannot dodge it. He has got bail on three cases before, and has forfeited his bonds. He is under three indictments for selling in Carroll County, and if he gets round this, he is somewhat in the predicament of the old lady, who told her son, when he was going to training, that he must do as the others did.

When he returned, she asked if he did so. He said he loaded but did not dare to fire. The old lady took the gun to the door, and the recoil knocked her over. The boy said: "Lie still, mother—there is but one gone, and there are six more to go." We think we have as many as that for Shaw, and the best advice we can give him is to lie still where he is and behave himself in the future.

—It is said that on Mount Zion, Jerusalem, there is now a Sunday School numbering sixty-four children.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the best *in the world* is proven by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest prizes at all American and international competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least remunerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain, Walnut Case, $60. FIVE OCTAVE ORGANS, Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

"Brick" Pomeroy thinks the fact "that Hon. Jefferson Davis does not prosecute the Government for false imprisonment" is proof of supreme magnanimity on his part.

The Merchants' Exchange National Bank of New York city loses $150,000 by a defalcation of its cashier, Edward J. Oakland, who entered its service as errand boy in 1839, and rose afterwards to assistant clerk, clerk, teller and cashier. His salary was $10,000 and he was considered strictly upright and honorable. His brother succeeded in prevailing upon him to let him have the amount to pay notes with, promising to return it in a few days; and now the cashier is disgraced because of his brotherly love.

People can get drunk in New York on Christmas Day and not be punished, Mr. Griffith took the case of his wife into his own hands, however. Mrs. G. was drunk when he came home, that day, and he pounded her on the back until she died.

A prize dance in Pittsburg, Pa., was contested by a dozen couples. They commenced at midnight and all but two retired. The musicians grew tired, blood trickled from the hands of the violinists, and still the dancers kept on. Finally, after the expiration of five hours and three minutes one couple gave in and the others were declared the victors. The four persons were carried home more dead than alive. The young men will hardly recover. The musicians suffered terribly.

A bundle containing $60,000 worth of bonds, stolen fifteen years ago, was left at one of the N. Y. police stations lately by a boy, who escaped arrest.

In Bristol, England, Monday night, the crowded audience of a theatre were startled by an alarm of fire, and in the panic ensuing eighteen persons lost their lives.

Three or four men were killed recently in a whiskey riot in Georgia.

A Chicago judge has decided that the penalty for beating a child to death is one year's imprisonment in the penitentiary.

A bill admitting Colorado as a State into the Union has been prepared and will be introduced when Congress reassembles. A similar bill has twice passed Congress, but failed each time to receive President Johnson's signature.

The Texas legislature, just elected, stands about as follows: Senate—Conservatives, 15; Republicans, 14; with one to hear from. House—Conservatives, 45; Republicans, 56, with 9 in doubt. J. W. Flanagan, Republican, is elected Lieut. Governor by a large majority.

The new grist mill of J. S. Kidder & Co. of Manchester turns out meal at the rate of a bushel a minute from one set of stones.

New Hampshire Items.

A man named Michael Solon, an employee on the Suncook Valley Railroad was run over by a gravel train, near Epsom, on the afternoon of the 23d, crushing one of his legs so badly as to necessitate amputation above the knee. He was taken to Manchester where the operation was performed.

Mr. A. L. Sanborn of New Hampton, has a yearling Costwold ewe which weighs 175 pounds, and last spring sheared 14 pounds of wool. Mr. Sanborn goes in strong for this breed, as they dress heavier in proportion to live weight than any other.

A railroad hand at East Jaffrey got "fired up" and created considerable disturbance among the inhabitants during the night; was arrested, fined $5 and costs, and admonished to keep sober hereafter. A few days later, he in company with two of his friends, "got on a bender," and appropriated a horse and sleigh to their own use without consent; undertook to cross the river on the railing of a bridge instead of the bridge itself, the result of which was a broken sleigh, a runaway horse, and themselves sprawling upon the ground rather unceremoniously. Picking themselves up, they continued their journey on foot, and were arrested and held for trial in the sum of $300, each. Failing to obtain bonds, they were all committed to Keene jail. Rather a keen transaction.

Joseph Noone of Peterborough has lately received by mail, $15, as conscience money. It was received at the confessional by a Catholic priest and by him forwarded to Mr. N. No names given.

The Wolfeborough News says some of the people have lately been not a little taken in by purchasing the life of Rev. Solon Currier, an insane man, from Plymouth, who, for a year or two has been engaged in canvassing this part of our State, and western Maine, for subscribers to the history of his life —a book of perhaps some hundred pages of promiscuous matter, not fit to be read by any person to a great extent, who loves virtue and good books. About one thousand subscribers were obtained for the book, but about one-fifth part of them refused to take it at the stated price of one dollar per copy, and others could not be induced to take it at any price, after knowing something of its contents.

The Dover Gazette is "pleased to see in town, looking well and hearty, a Dover boy, Robert M. Whitehouse, who returned in the steamer Palmyra on her last voyage from Europe, after an absence of four years and a half. He has been acting in the capacity of master mechanic on the southern portion of the St. Petersburg & Moscow Railroad in Russia."

At the Law Term of S. J. Court in Dover, six divorces were decreed for Strafford County, in the following cases: Polly v. John H. Lougee; James A. v. Jane M. Miller; Charles F. v. Olive T. Towle; James M. v. Mary S. Young; Priscilla S. v. Leonard L. Chamberlain; Wilbur T. v. Rosa D. Horner.

Nashua has a fish-breeding pond about a mile and a half from the City Hall. Gen. Stark and others own it. There are about a hundred thousand trout in the pond. No fish have yet been sent to market, but eggs and young fish have been sold for other ponds.

The Dover Gazette says the tower on the Catholic Cathedral in that city is to be the highest in the State, 200 feet,—work on which has been suspended until spring. Much praise is due the architect and builder, Mr. Blaisdell, aided by Rev. Father Drummond, for the rapid manner in which the building has been pushed along.

The Dover Gazette says the funeral of Samuel Hale at Locust church was well attended by the business and leading men of the city and surrounding country. The services which were touchingly impressive including reading of appropriate passages of scripture and extended remarks on the life and character of the deceased by Rev. Dr. Peabody. He paid a warm and feeling tribute to the departed, and fitly characterized him as one who possessed great strength of mind and purpose—a just man, walking in his own integrity, and fearless in doing his whole duty as a christian in his daily walks. He was strong for the duties, responsible cares and burdens of life,—and full of years and honors, sustained in his last moments by the record of a well-spent Christian life and an abiding trust in Him "who doeth all things well," he has passed from among us mourned and lamented by the whole public. The remains were placed in a receiving tomb at Pine Hill Cemetry, but will be finally deposited in the old burial ground in Barrington. The pall bearers on the occasion were Benjamin Barnes, Wm. N. Andrews, Jeremy Perkins and Asa A. Tufts.

New Publications.

Good Health, for January, an interesting and valuable Monthly Journal of Physical and Mental Culture. Published by Alexander Moore, 21 Franklin Street, Boston. 20 cts. per number. $2 per year.

Our Young Folks for January contains a fine steel portrait of Professor Agassiz, (worth the subscription price for a year,) and no less than five full page illustrations, besides many smaller ones. Here are pictures enough, certainly, to satisfy the most exacting, and they are all good ones, too. The reading matter opens with an instalment of Mrs. Whitney's "We Girls; a Home Story," which, during the year to come, will doubtless please the girls' side of the house as much as Mr. Aldrich's recent story has delighted the boys. The other articles, poems and stories of the number, by Whittier, Parton, Dr. Hays, Mrs. Davis, Rose Terry and others, are full of life and variety. In the February number, Mr. Trowbridge will have some Washington sketches entitled "Boys at the Capitol,' and many other good things are promised. Published by Fields, Osgood & Co., Boston.

Boys' and Girls' Magazine, by Oliver Optic, well sustains that popular and instructive author's reputation.

The Atlantic Monthly for January contains: The Cathedral, by James Russell Lowell; Among the Isles of Shoals, II, by Mrs. Celia Thaxter; Joseph and his Friend, I, by Bayard Taylor; H. Guido Rospigliosi, by T. W. Parsons; The Study of History, by Goldwin Smith; Americanism in Literature, by T. W. Higginson; Nauhaught, the Deacon, by John G. Whittier; "The Woman Thou gavest with me," by Henry James; What to do with the Surplus, by Francis A. Walker; Nearing the Snow Line, by Oliver Wendell Holmes; Was he Dead; Under the Midnight Sun, II, by I. I. Hayes; The Descent of Neptune to aid the Greeks, translated from Homer's Iliad, by William Cullen Bryant.

In Fitzwilliam, during the last half century, one thousand two hundred and sixty-eight persons have "gone the way of all the earth." Four have reached or exceeded a hundred years, one male and three females. Thirty-three reached years ranging between ninety and a hundred, a hundred and sixty-five lived to between seventy-five and ninety, while two hundred and sixty-four died between the ages of fifty and seventy-five. Of the number, eight hundred and two died under fifty. Thirty-one lost their lives in the late war, and nine in all have committed suicide.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for mercury, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ an healthy tone, and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, and by strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which means the formation of ulcers or tubercles in the lungs becomes impossible. The combined action of these medicines, thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle or $7.50 per half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3d1m.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including many new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

In Remote Settlements of Untold Value.

Food makes blood; blood makes the body. If the blood be pure, the body is healthy. So if we are not in health, we know some impurities are lurking about, which must be removed, and the sooner the better.

BRANDRETH'S PILLS remove all from the system which nature needs no longer.

The wonderful cures effected by Brandreth's Pills have arrested the attention of enlightened physicians. Upwards of five thousand now use them in their daily practice, and two hundred have given their written testimony as to their innocence and value, as cleansers of the bowels and blood. Their untold value is to those living in settlements where doctors can only be had at great expense. For if you are sick, you have only to take one or more doses of Brandreth's Pills to get cured. Full Directions are with each box.

—At the late meeting of the Presbytery, Brother W. said that early in his ministry he and another brother were conducting a meeting in which there was much religious interest. An old man gave expression to his joy by shouting, and continued it until it began to interrupt the services. Brother H—— said to Brother W——, "Go, stop that old man's noise." He went to him, spoke a few words, and the shouting man at once became quiet. Brother A—— asked Brother W——, "What did you say to the old man that quieted him so promptly?" Brother W—— replied, "I asked him for a dollar for foreign missions."

—A certain fashionable book publisher of New York, while enjoying an airing behind a pair of high steppers in Central Park one afternoon last week, overtook an author of his who was quietly jogging along in a modest buggy, and remarked jocosely, as he passed the latter; "You'll excuse me getting ahead of you?" "Don't mention it. Publishers generally *do* get ahead of their authors!" was the quick retort.

—A Paris rogue while chaffering in a store abstracted a pair of silk stockings. The clerk perceived it, and when he was going out, complaining of the high prices, called out, "I cannot let you have those stockings so cheap." The thief calmly laid them on the counter, saying, "Very well, I cannot take them at a higher price," and quickly departed.

SPECIAL NOTICES.

Undefined Ailments.

There are many ailments, trying in their nature, but symptoms of which are not sufficiently specific to enable physicians to classify them under any particular head. As a general rule they arise from a general debility of the whole organization, but their primary cause, in at least three cases out of five, is a lack of brisk vital action in the stomach and liver. Stimulate and tone the relaxed digestive and secretive organs, and bodily ease, health and vigor will follow the treatment. Among all the medicines which have recommended as conducive to this end, none has been administered with such uniform and entire success as HOSTETTER'S STOMACH BITTERS.

Its ingredients were selected from the vegetable kingdom, originally, with a view to the invigoration of the physique and the constitution, and also for their antibilious and slightly laxative properties. Twenty odd years of experience has proved that these herbal restoratives were wisely chosen and have been judiciously apportioned in this celebrated preparation. Not only as a specific for indigestion and all kindred complaints, but as a *household remedy for all the minor ailments* incident to humanity, it has obtained a reputation based on unimpeachable testimony, which fairly eclipses that of any other proprietory or officinal medicine in use. d23

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of this same class, and as agreeable to the taste as ordinal candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use, the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **One thousand experiments**

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitly more effective than any of the horrible nauseating compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried DR. ERASMUS WINSLOW'S **Liver and Stomach Lozenge,** will ever again take a purgative powder, or draught or pill.

NOTICE.—CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

PRINGLE BROS.,

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH AND WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,

Capt. D. FOSTER.

Comfort and Bliss or Pain and Agony.

DR. TOBIAS' CELEBRATED VENETIAN LINIMENT, whose wonderful cures, sure and instaneous action, in cases of Chronic Rheumatism, Headache, Toothache, Crump, Cuts, Burns, Colic, Cramps, Dysentery, etc., have astonished the civilized world, is no new catch-penny; but an article that has stood the test of twenty-two years. The enormous sale and rapidly increasing demand is at once the surest evidence of its usefulness and popularity. Every family should be without a bottle in the house. Hundreds of dollars and many hours of suffering may be saved by its timely use.

Colic, Cramps, and Dysentery yield at once to its paincurative properties. It is perfectly innocent, and can be given to the oldest person or youngest child. No matter if you have no confidence in Patent Medicines—try this, and you will be sure to buy again, and recommend to your friends. Hundreds of Physicians recommend it in their practice.

☞ For the fourth entertainment of the Mercantile course, Mr. Albee of Newcastle has consented, at many pressing solicitations, to repeat his beautiful lecture on the Farm, next Tuesday evening. It is declared by the best judges to be one of the finest lectures ever delivered here.

☞ Mr. J. P. Bartlett read Goldsmith's five-act Comedy of the Good-Natured Man, before the Mercantile Lyceum Tuesday evening. The attendance was full, and the entertainment much enjoyed, being frequently applauded. Mr. B. was confined to his book, but read with the utmost freedom; and for an amateur who can have had but little experience, he acquitted himself admirably. His rich voice and fine presence, with clear enunciation and agreeable and correct inflections, left little to be asked.

It was hardly to be expected that the numerous characters, especially of females, could all be distinctly preserved in their intonations, as sufficient practice would enable Mr. B. to do so well; but the characters generally were sustained throughout—his best impersonation, we thought, being Mr. Lofty.

More such entertainments would prove agreeable.

THAT MASQUERADE. — If anybody, whether spectator or dancer, who attended Mr. W. I. Trafton's ball at Congress Hall, came away unsatisfied or failed of having a jolly good time, it must have been their own fault, for a more grotesque collection of harlequins, sovereigns, queens, clowns, exquisites, and maids of all-work, never convulsed a Portsmouth audience. The whole thing was a huge success, and Mr. Trafton comes out of the affair with flying colors, and, we should judge, with considerable spare cash.

The hall was elegantly decorated and looked better than the Temple did during the G. A. R. Fair, and the work was all done in three hours, at but little expense.

The spectators began to arrive at an early hour, and the gallery was soon crowded making it necessary to provide seats below—the whole number in attendance being about 350.

As the eccentrically dressed dancers began to make their appearance, the waiting audience showed very open countenances and much pleasurable anticipation. The grand march came at last and the programme was carried out faithfully—only the unmasking took place at fifteen minutes before the advertised time; perhaps the participants were too hungry for that waiting supper.

We particularly noticed the excellence of Mr. Dwinell's floor management, which though always a difficult matter, was in this instance a very pleasant feature.

After the unmasking, Mr. Trafton called the assemblage to order and received a hearty acknowledgement from the audience when he announced that another similar affair would come off at the same place on the 20th of January. May we be there to see.

NEW HAMPSHIRE FARMERS' GATHERING. — The second annual Gathering commenced in Manchester on Wednesday. Gen. Natt Head, of Hooksett, was made President, with ten Vice Presidents, and three Secretaries, Aaron Young of Portsmouth being one of the number. The forenoon was consumed in a discussion upon Indian corn. There was a good attendance, and the meeting was an interesting and profitable one. Several prominent agricultural men were present from Massachusetts and other States.

☞ Another incendiary fire at Newburyport, the other night, consumed Mr. Papanti's barn and several other small buildings—value $1500. Somebody over there needs State Prison, besides firebug Choate.

A barn on Olive street, owned by Robert Fleming, was set on fire and consumed Wednesday morning. Loss about $800. This is the fourth barn burned here since last Friday.

—Mills-Nos. 4 and 5, at Dover, have been started up and are now in full operation; and a part of No. 3 also. The strike has terminated in favor of capital, and all concerned have been injured by the strike. We are sorry that labor lost, but trust that they will only wait a more favorable opportunity, and then strike deep and stick.—*Roch. Cou.*

It is not a good time to strike, when the cotton-mills have overstocked the market;—and when they are in many cases running at a loss. Workmen have the power to refuse to work; but they are not always wise enough to know when to do it. And most workmen who have become independent or wealthy, have done so by *persistent* industry.

Lake Winnipissaukee, in the broad, is again open. This is a rare occurrence so late as the 27th of December.

One of the longest wooden bridges in New England was finished about ten days ago at Mason Village, on the Peterborough & Shirley branch of the Fitchburg Railroad. It is of the kind called Howe's truss bridge, and it is six hundred feet long and in some places elevated one hundred feet. It took about two months to complete the work.

☞ We don't know whether or no to call this the winter of our discontent—but the past week has been warmer, more Spring-like, than any Christmas season we ever knew. The face of nature more resembles March than December.

THIS DAY.

☞ Stockholders of the Concord and Portsmouth R. R. will receive a semi-annual dividend of 3 1-2 per cent. at the office of William H. Hackett, on Thursday, Dec. 30.

Morning Chronicle.

MISS ANNA E. DICKINSON ON "WOMAN SUFFRAGE."

My address to-night is made under many disadvantages. I am thoroughly tired from previous exertions this evening, and wholly unprepared to speak, not having heard Mr. Fulton's argument. But I know that nothing new is ever said on that side of the question, and I come to say a word in opposition at least to the theories he has seen fit to put forth, not because he has put them forth, but because he is the mouth piece of a great many people here and elsewhere.

And yet I suppose he would say that it is certainly a very useless, a very thankless and a very silly task, for why should women stand on the platform to argue to community in behalf of a cause which women themselves despise, and wish to have nothing whatever to do with? That statement, I think, is false on its face, for why should he and such as he come upon this or any other platform to argue a case which has no backers? Why should the clearest brains, the finest thinkers, the largest men and women of the civilized world, be arguing pro and con a case that has no one to support it? Why should men deride a request never made?

They say women themselves do not desire this right, this much-talked-of right of the ballot. Yet this man and his backers know full well that a cause without support would need no opposition. Why, to-day, a speech to an audience is considered incomplete unless some allusion is made in it to that which underlies everything else at the present time. The statement shall be modified. The majority of women would have nothing to do with this thing; it is only a few ugly, cross, sour, disappointed old maids who would take any part in this thing; the great masses of women look on it with supreme indifference or absolute contempt.

Well, then one of the two things is confessed; either one of these women must be a host in herself, or he and such as he confesses that back of her lies some vast silent, absolute influence, making irresistible her words, — else why should men denounce these women from the pulpits, why should editors write about them, why should people discourse of them? Oh, mere bagatelle—a handful not worth the counting! And now, I would ask, is it not on numbers or principles that the justice of this cause is to be decided? The statement was made that woman's indirect example was better than her direct influence could be. Indirect influence better than direct action? I deny it.

Indirect influence gains for itself, is pure selfishness, acquires naught for another; direct action gains for others when it gains for itself. She loses, they say, in delicacy, in refinement, in all womanly grace, if she goes to the polls. A man does not desire to see her there; it is offensive to him. To that I would answer, with all due humility, that God had some better purpose for women in the world than the captivation and pleasing of men, especially of such men. They say a woman's place is at home, that she will lose her delicacy, her refinement and purity if she go out of it, if she mingle with these men at the polls. Well, I would ask Mr. Fulton what it is so debasing, and degrading, and staining, and soiling, that women are to meet at the polls? Nothing in the world but men [laughter and applause], and certainly these women meet these men everywhere, on the street, in the cars, in steamboats, in lecture-rooms, in theaters, in operas.

Where any man goes a woman is very apt to follow, even to the following of Mr. Fulton; and if a woman can associate with this man for three hundred and sixty-four days, eleven hours and fifty-five minutes in a year without any especial evil consequences resulting, I do not think utter degradation would ensue by the addition of five minutes to be spent at the polls. The trouble with the men is that they think the dirty, disreputable way they have of meddling with politics is politics itself. Humanity recognizes no sex. Virtue and vice, pleasure and pain, happiness and unhappiness, sickness and health, life and death, recognize no sex.

The same commandments are laid upon all. The same Christ died for all. The same eternity awaits us all. God does not need a man's help to save a woman's soul for his kingdom. God does not need a man to interfere between woman and her duty, to save her in delicacy or in womanly refinement. I do not selfishly demand an added power, an added responsibility, an added dignity. No, no! All I ask is simply that you take the weights from my feet and the manacles from my hands, and give me opportunity, not for the sake of dignity to be gained, but for the sake of right to be accomplished and duty done.

Mr. Fulton told you that if this be granted, poor women, and uncultivated women, and ignorant women will go to the polls, while the virtuous, and the refined, and the cultivated, will stay at home. Mr. Fulton is probably gifted with powers of prophecy, he speaks so confidently upon this subject. I ask, is it not generally among the ranks of those who demand a right that the actors upon that right are found when it is granted? Does their demand come from the ignorant, the vicious, the depraved, or does it come from the noblest women, backed by the most magnificent intellects of men?

Mr. Fulton has said that the Bridget will vote, and the mistress stay at home. Well, then, I say to that, I would as willingly, when they are up, vote for Bridget as for Patrick. He is a coward who can find nothing better to urge in behalf of a cause than sneers, and ridicule and derision of women, when they assert what they believe to be the best for humanity and the world. Let us not fear. The woman who fights this battle will lose nothing in womanliness, but will be the better and the sweeter and the nobler for it.

REV. J. D. FULTON, *on "The Bible and the Ballot."*—Before proceeding to meet the arguments which have been put forth by Mrs. Lucy Stone, Mr. Fulton referred to her character and to her present private life, provoking some laughter. In his opinion she should forbear reference to the Bible so long as she rejects its commands, and this she does; for when a woman steps out of her place and takes the platform, be she Orthodox, Methodist, Baptist or Universalist, she disobeys the word of God and is drifting to infidelity. From this point he turned to woman suffrage, claiming that in giving woman a ballot she would be unsexed,—and in addition to this the word of God, nature and common sense were against it. If an attempt is made to ignore sex, women will have to fight their own battles and plead their own cause. It was full of peril to women. At present woman has great influence over man, and she can little afford to lose this great advantage for the small privilege of gaining a ballot. The right of suffrage is not an individual right, not an inherited right, but is, and always has been, a delegated power.

Mr. Fulton claimed that government was never derived from the consent of the governed, and declared that suffrage in our own country was only the growth of circumstances. In his opinion the ballot should be trusted with the head of a family, and with the sons, the prospective heads of families. Women will gain nothing by suffrage, but will lose something by it. By giving a ballot to women, an antagonism would be created between the sexes, and it would not be long before men would say to women, "Take care of yourselves."

A gentleman from the South had remarked to him how frequently he had noticed, in a horse-car, pale women with bundles in their arms, standing up, while strong men remained seated, and he had asked Mr. Fulton why it was, who replied, "It was because humanity knows no sex."

Miss Anna Dickinson claims that if women were allowed to vote, forty thousand drunkards' wives would vote for prohibition; but, continued he, how would the forty thousand drunken women vote? and there are as many drunken women as men. [A voice—"No!"] "Oh, yes! oh, yes! and temperance lecturers will prove it to you." In conclusion, he declared he would have woman as God made her and as Christ blessed her, and would object to anything that turned her from the home; not by any means would he object to manly sports, so long as they did not unsex her.

In the course of his lecture Mr. Fulton several times referred to Romanism, and its attempts to defeat the common school system in Cincinnati. Should women have the ballot, an extremely large number would be controlled by priests, who would attempt to overthrow it in this State for the same reason as in Ohio, because Catholicism flourishes when the masses are ignorant, but languishes and dies when they are educated.

The Chronicle.

MRS. GRANT'S ECONOMY.—Speaking of Grant, there is a bit of society gossip illustrating the economical tendencies of the President's wife. Mrs. Grant, it seems, has been anxious for weeks to secure the services of some capable person to preside over the culinary department of the Executive Mansion; that is, to act as a sort of Premier of the Kitchen Cabinet. She very properly desired to be relieved from the responsibility and perplexities of a public caterer or Presidential cook, and sought the services of an epicurean expert whom she could entrust on State occasions, the preparation of the Presidential sauces and soups. With this end in view Mrs. Grant called on Mr. Roessle, the proprietor of the aristocratic Arlington House, and made known her wants. Mr. Roessle had in his mind's eye three or four "friends" of established reputation, just as she described. By early application he thought one of them could be secured. "About how much would Mrs. Grant be able to pay per annum for a caterer that answered her description," said the proprietor of the Arlington House, to the proprietress of the White House. Mrs. Grant thought that for a man who combined the offices of butler and chief cook, and suited her in every particular, she would be willing to give $1,500. "I could not induce any of 'my friends' to take the place for less than $4,000; and if those are your ideas, it is useless to pursue the subject further; so good morning, Mrs. Grant." And turning upon his heel, the irascible Roessle left Mrs. President sitting alone in his parlor.

MILK VERSUS BEER.—During the years 1850 to 1857, I pulled in fifty-one public races, of which twenty-five were rowed on ordinary alcoholic beverages, whilst the last twenty-six were contested on principles of strict teetotalism—the principal liquid consumed being milk. Of the twenty-five races rowed on beer, etc. (1850 to 1854), fifteen were won and ten lost; whilst of those pulled as a total abstainer (1855 to 1857), I won twenty-two and lost only four. A large proportion of these races were for pairs-oars, my partner in nearly all of them being the late A. A. Casamajor, for six years amateur champion of the Thames.

Prior to 1855, my lamented friend invariably pulled the stroke oar of our pair, but on taking to milk instead of beer I found my strength, and especially my "staying" powers, so much improved, that I was able ever after to row stroke to him. All these contests (comprising the highest prizes for which an oarsman can compete) were chronicled at the time in the newspapers.

Considering that the two systems of beverage have received in my case a fair trial, and being anxious to see dispelled the popular delusion respecting the strength-giving properties of alcoholic drinks, I hope you may be able to find space for this brief statement of facts.—*Good Health.*

THE VALUE OF APPLES.—Apples are the farmer's fruit for every-day use. There is no other that can take its place—none that is so useful all the year round. Strawberries are excellent in their season, and for a few weeks form a most acceptable change. Cherries should come next, but they are getting very uncertain. But raspberries soon come in play, and are getting to be largely used. Blackberries are used to some extent, but when ripe, berries are getting to be an old story. And then there is other fresh fruit. Early peaches are the rarity, while early apples are found very good for every-day use. And so through the fall. Peaches, pears and grapes are excellent for a change, to be used rather as luxuries; but for the every-day common fruit, used in the different ways common in farmers' families, there is nothing equal to the apples.

Considered as a dessert fruit, apples are not to be despised. Some other fruits, from not being so plenty, may be thought more of in their season. But for a dessert fruit for the whole year, none will compare with the apple in the satisfaction that may be given by the different varieties in their different seasons. This is especially the case in winter and spring, when few really good fruits of any kind except apples can be had. Then how well we enjoy the Pippins and other kinds in season in the force part of the winter, the Swaars and Spitzenbergs in February and March, and Northern Spies thereafter. In June or July even the coarse, rough-looking Roxbury Russet becomes very acceptable. Of course, to be saved in the best condition, and more fresh and palatable, they must be kept in barrels, and well taken care of.

—An editor says a man in New York got himself into trouble by marrying two wives. A Western editor replies that a good many men had done the same thing by marrying one. A Northern editor says that quite a number of his acquaintances found trouble enough by barely promising to marry, without going any further.

BEST CABINET ORGANS,
AT LOWEST PRICES.
That the MASON & HAMLIN CABINET and METROPOLITAN ORGANS are the best in the world is proved by the almost unanimous opinion of professional musicians, by the award to them of SEVENTY-FIVE GOLD and SILVER MEDALS or other highest premiums, at principal industrial competitions within a few years, including the MEDAL at the PARIS EXPOSITION and by a sale very much greater than that of any similar instruments. This Company manufacture only FIRST-CLASS INSTRUMENTS, and will not make "cheap organs" at any price, or suffer an inferior instrument to bear their name. Having greatly increased their facilities for manufacture by the introduction of new machinery and otherwise, they are now making BETTER ORGANS than EVER BEFORE, at increased economy in cost, which, in accordance with their fixed policy of selling always at least renumerative profit, they are now offering at prices inferior work. FOUR OCTAVE ORGANS, Plain Walnut Case, $50. FIVE OCTAVE ORGANS Double Reed, Solid Walnut Case, carved and panneled, with FIVE STOPS (VIOLA, DIAPASON, MELODIA, FLUTE, TREMULANT), $125. Other styles in proportion.
Circulars with full particulars, including accurate drawings of the different styles of organs, and much information which will be of service to every purchaser of an organ, will be sent free and postage paid, to any one desiring them.

The Rambler About Portsmouth.

A WORD OF HIMSELF.

No selection of newspaper articles have we ever seen, that we deem superior to Mr. Brewster's Rambles, from the Journal; nor is there a book in our library more highly prized than the first volume of Rambles, having on the fly-leaf, in the familiar hand of the author, the treasured evidence of its being presented "To Frank W. Miller, from his friend C. W. BREWSTER." And a good friend indeed he was; and as we have just finished re-reading that old volume, of ten years ago, since the publication of the second, we feel it a pleasure to make our brief record of the dear departed, somewhat even as he has done for others, so far as we may be able; although *our* aim is not so much to make general historical notes, but rather the mention of special personal matters in which we were connected with him.

Our intimacy with Mr. Brewster commenced with our earliest remembrance, and ended only with his last illness. And kindness is his chief attribute remembered; so much so, that the nickname "Benign" given him by his apprentices when we were among them, —and the only one he ever received, so far as we know—was eminently appropriate. No master was ever more just and considerate, and few more liberal than we ever found him. During two terms of labor we passed in the Journal office, with an interval of years, he never asked or expected any boy or man to work so hard as himself, nor did he ever require any one to perform any task from which he shrank, as no true man of honor will. He was indeed a good example of the dignity of labor—and his rule always the golden one.

Mr. Brewster was very sociable and free with his employes, and encouraged in their first efforts, many an apprentice, and others who have since done somewhat with the pen—including the writer hereof, who will never forget the pleasure of his first approbation and adoption of some brief effusion, which he had suggested our writing. He was also exceedingly liberal and considerate in bestowing presents of money, books or other articles on his boys, and granting holidays and absences from work, while he took few or none himself.

And the wonder is, how our author ever found opportunity to do so much literary work, outside the inexorable, never-ending calls of his own routine business of life,—as the records of all our local public occasions, lyceums and Societies show he did, and so well, too, —though, to be sure, it is the rule to give those already over-loaded all such public work to do, rather than those otherwise unemployed. Our friend's record as a poet is no mean one—he was a statesman rather than a partisan, a true patriot and sound philosopher.

Few men have so keen a sense of humour, in speech or writing, as Mr. B.; and he would have been a great satirist, but that his kindness of heart forbade the frequent use of this power,—though when duty called him to censure wrong, no matter in however high place, nor how unpleasant to him personally so to do,—he never shrank from his duty as a public journalist, but let the lash of his satire fall with telling effect on the callous offender who deserved it.

We give a specimen or two of his humour. A workman who was wont to print the Journal in former days, on a handpress bearing the name of "Otis Tuft, maker," Mr. B. told us, with a quiet smile, used to look up at the inscribed plate as he pulled, and read, "O, 'tis tough!"— One day we found a spectacle glass on the floor of the Journal office, and as no one there but Mr. B. wore these so-called aids to vision, we carried it to him; and as he put up his hand to ascertain whether he was the loser, he ran his finger through the vacant bow and into his unprotected eye with such force as to make him flinch back and exclaim, "Oh! that's mine, yes,"—and then he joined pleasantly in the laugh which was raised about him by the singular occurrence.

And we shall take the privilege enjoyed by our illustrious predecessor Rambler, and relate here an incident not connected with it, but referring to it. On our telling a fellow-craftsman this little tale of the man who lost one of his glasses without knowing it,—said he, "well, I have never thought much of spectacles since, when a boy, and in my father's store, I offered an old teamster, famous in his day, who had bothered me a good deal by trying on all the large stock shown him, but without avail—I offered him, I say, a vacant pair of bows. 'Ah! that's the thing,' he exclaimed, 'them's just the fit,' and then taking them down to wipe them with his handkerchief, he discovered their emptiness, and calling me a young rascal, left the shop without purchasing." This story is not told especially to point the moral that glasses are never needed, or were not in the case of our friend,—but we do think, with no less authority than Dr. J. V. C. Smith, that spectacles are often used when they need not be.

Another incident or two. Mr. Brewster endeavored to keep his office in good order, and ardently desired the correct deportment of his hands. To promote this, he was wont to issue a circular of office rules, accompanied by good advice, of which he furnished each apprentice a copy, and had one pasted on the office wall. The day we entered his employ, two young men left it, on his request that all who had defaced said placard, should leave. It was headed, "Rules not to be dispensed with," and they dipped their fingers in printer's ink, and blotted out the *not*. We drew three distinct reflections from that occurrence: one was, we thought the simple word Rules would have been a stronger heading; another, that we could not see any smartness in offending or rebelling against such a man; the third, that although he loved peace, he was not afraid of war.

The only equivocal remark, or one we did not understand, that we ever heard Mr. B. make, was one night when we were at work, and a serenading party sang for him or us under the window. We were wishing we were out there with them, to enjoy the singing and compliment him,—when he astonished us with the remark, "If they don't look out, the Police will have them in the lockup." Whether the remark was facetious, or he did not think they sang well, is to this day a mystery to us. A thousand times we have wished we had asked him.

Mr. Brewster was the soul of honor. For one thing, he would employ no workman or boy who had unfairly left another's work — very different from some other folks we know. Nor could we ever understand how anybody can justify or excuse the frequent getting away of another's servant—whether in pulpit, choir, farm, workshop or kitchen. In our opinion, no high-minded, honest man or woman would ever tolerate or encourage any such mean action, as tolling off or inviting away another's assistant or aid. True nobility would spurn such interference with a neighbor's rights. A boy once left our office, and on false representations, induced Mr. B. to employ him; but on enquiring of us, although his office was in great stress for help, he at once refused to hire him, and he came back to his place with us.

We never met a man whom we regarded as happier than Mr. Brewster; and that in his famous article, "Fifty years in a printing office," he could say he would be willing to live the same life over again, is to us proof that he lived well;—and few men that we have known, have better answered life's great end. We copied portions of that half-century master-piece in the Chronicle, and spoke of it and the author in terms of commendation we deeply felt; and among our pleasantest recollections of editorial life, none exceeds that experienced when our venerable and venerated friend met us at our office door, and very earnestly and feelingly expended his gratification, over and over again, that we should thus kindly allude to him—but we felt all the while that the privilege was on our side, in being able to enjoy his acquaintance and teachings, and kind counsel and aid through life.

But he has gone from among us—and in the touching words with which he closes his valuable and interesting volume, "it is hoped this brief and imperfect sketch will endear us more to those in whose paths, while in life, we are now treading, and whose silent track we are fast following to where we shall all have a better knowledge of each other," &c. He needs no eulogy —verily his works do live after him. Few if any of the notables whose fame his pen records, have done more for the glory of old Portsmouth than he. A conscientious journalist, an accurate and industrious historian, our city's glory and good name has been not a little increased by him. An honest man: after life's toil, he sleeps well. Blessed be his memory.

The death of Mr. Brewster was to us another exemplification of the theory that mankind are often enabled by force of will to live up to certain goals of hope or expectation. For instance, men in rescuing themselves or others from drowning, burning, or other danger, and falling dead or exhausted immediately the crisis is over. Although we both were of the same trade, ours was no jealous rivalry, and Mr. B. was accustomed for years, to visit our office professionally once or more each week; and we noticed directly after his half-century article was acted out and written, that he began to fail in strength, and in a few months he faded away and left us. So also our old friend the venerable clergyman,—who was also his friend, and of whom he speaks so kindly—seemed to dwindle away in strength, after completing his expected fourscore years, and his noble presence and courtly greeting were presently lost to our view.

We doubt if any man has done more to benefit our city than Mr. Brewster; and few can show a prouder monument than will exist in his two volumes of Rambles, long after marble tablets shall have crumbled into dust; nor can the influence of his good example and teachings ever be lost. Old and tried friend, kind patron, esteemed brother, —hail and farewell. We ne'er expect to meet thy like again. F.

☞ The Railroad stock quoted in our paper at $76.50, should of course have been the Concord proper, and not Concord & Portsmouth; the C. & P. being worth $110 or more. The mistake of the compositor must have been evident to all informed in such matters.

For the Chronicle and Gazette.

A PUBLIC NUISANCE. — Liberty of speech and freedom of the press, while they are among the richest blessings of a free people, are yet subject to the greatest abuse. The individual who orally or through the press exposes iniquity, rebukes dishonesty, and fairly criticises the acts and policy of government officials, is a public benefactor; but he who, from private pique or partisan hatred, regardless of the common courtesies of life, assails with vituperation his fellow men, individually or collectively, is no less a public nuisance, whether his tongue or pen be the instrument of his malignity. Free discussion of government politics tends to public enlightenment and to the rounding of the sharp edges of partisan animosity. But as a gentleman would scorn to enter into controversy with a blackguard who should assail him with vulgar epithets, so it would be preposterous to engage in political discussion with a newspaper that acknowledges no virtue in a political opponent, but hurls all the anathemas at its command at all whose views of public policy differ from its own.

Such a paper is the Opposition organ in this city. While professing to be radically Democratic, it has upheld and defended slavery; and while making pretensions to patriotism, it has denounced with virulence all who labored to save our Union from dissolution. Throughout the Rebellion war, its antagonism to the Union cause and sympathy with the traitors was as apparent and undisguised as that of any newspaper in rebellion. It reviled the conduct of the union forces and derided their victories, while it exulted at and magnified the rebel successes, and declared as confidentially as any secession sheet, that "our southern brethren" never could be conquered.

The final triumph of the union forces was not more exasperating to the most sanguinary rebel, than to the editor of the paper under notice; and no confederate guerilla has pursued the prominent actors in the achievement with greater malignity. Employing ribaldry for want of wit, vituperation for argument and scurrility for sarcasm, he continues to hurl his venomous shafts at all who by prowess in the field or energy in the councils of the nation, aided in crushing the iniquitous rebellion.

The lamented Lincoln was in life a favorite mark for his malignant assaults, and the death of the martyr President at the hand of an assassin, has not suppressed the occasional utterance of his hatred. Ex-Secretary Stanton was no less violently denounced by the same editor who characterizes President Grant as a fool and a man-monkey, pronounces all prominent Republican officials thieves and scoundrels, and declares the United States Congress "the most lawless, unprincipled, reckless, infamous body that ever convened within the pale of civilization."

Such being his animosity towards all friends of the Union cause, it is not strange that the Executive Officer at the Navy Yard who at an early stage of the war had the effrontery to arrest those eminent traitors, Slidell and Mason, should recently have been subjected to one of his scurrilous attacks, even upon no better ground than the assertion of an informant of whom it could give no other commendation than that he had been *sober* for a year previous! Capt. Fairfax, as thorough and warm-hearted a gentleman as wears the uniform or defends the flag of his country, needs no defense from such assaults as this, which can only prejudice him with those who are sufficiently ignorant and credulous as to receive as truth the malignant assaults of this scurrilous sheet.

The influence (such as it has) of the paper referred to, is adverse to the trade and prosperity of the city. Its political hatred is manifested to all Republican officials, from the highest to the lowest; and the members of our city government are denounced in such terms as convey the impression that our municipal administration is of the most corrupt and profligate character.

The Navy Yard, as is well known, is a principal source of income to our city, and activity or stagnation there, is marked by the indications of trade in our midst as plainly as the barometer marks the changes of the atmosphere. Many hundreds of our citizens obtain remunerative employment there, and many thousands of dollars drawn there by the inhabitants of neighboring towns are here put into circulation. And yet because its political partisans cannot control the operations there, this paper disparages the work there executed, assails the officers and others there employed, and does all in its power to deprive our citizens of its benefits.

We have characterized the scurrilous sheet as a public nuisance. How shall it be abated? The treatment to which it was subjected a few years ago was rather hard for repetition; but we offer a substitute which would not fail to effect the object speedily and effectually. Let every Republican withdraw from it his patronage, not only of money, but of all notice by ever reading it; and its political friends could not prevent its speedy dissolution. MENTOR.

PUBLIC LIBRARY.—At the close of the session of the Board of Aldermen, Thursday evening, Mayor Jones announced that he had deposited with Messrs. Albert R. Hatch, John Sise, Thomas H. Odlion, Marcellus Bufford and George L. Treadwell, the sum of $500, being the amount of his salary as Mayor for 1869, to be held by them in trust for the purpose of commencing the foundation of a public Library.

The Trustees are to invest the sum and the interest that accrues thereon in good security, until with other contributions for the same purpose it shall amount to $5000; and to promote the purpose the Trustees shall solicit and receive such other sums as may be appropriated or contributed; when the amount of $5000 shall have been obtained the Trustees are to invest the same in purchasing, establishing and maintaining a public library of useful books for the free use of all the citizens of Portsmouth.

Vacancies in the Board of Trustees may be filled by the remaining Trustees. The Trustees may assign and transfer their trust to the City, if the City be authorized by law to accept and administer it.

If the fund shall increase to $5000 in five years, Mr. Jones offers to add $500 to the fund; if not, he reserves the privilege of withdrawing the $500 and interest.

THE C. B. B. MASQUERADE BALL comes off this (Friday) evening at Congress Hall. The floor tickets, admitting only those in costume, have all been disposed of, but persons (in costume) without tickets will be admitted on payment at the door. Gallery tickets may be had at 50 cents each at the door. Costumes from Boston can be had at the Hall during the afternoon, at prices ranging from $3 to $10. The Hall will be finely decorated by the Club. Grand March at 8.30; unmasking at 11 o'clock.

—The new unfinished meeting-house of the Baptist Society in Gloucester, Mass., has been destroyed by fire. Mechanics were at work in the building, and there were fires in both the furnaces; but the fire caught in the tower, no one knows how. Insured $20,000; loss probably much more. $15,000 is subscribed towards a new house.

CONSUMPTION.

The Three Remedies, "SCHENCK'S PULMONIC SYRUP," for the cure of Coughs, Colds, Bronchitis and every form of Consumption. The peculiar action of this medicine ripens the ulcer in the lungs, promotes the discharge of the corrupt matter by expectoration, purifies the blood, and thus cures Consumption, when every other remedy fails.

"SCHENCK'S SEA-WEED TONIC," for the cure of Dyspepsia or Indigestion, and all diseases arising from debility. This tonic invigorates the digestive organs, supplies the place of the gastric juice when that is deficient, and then enables the patient to digest the most nutritious food. It is a sovereign remedy for all cases of indigestion.

"SCHENCK'S MANDRAKE PILLS," one of the most valuable medicines ever discovered, being a vegetable substitute for calomel, and having all the useful properties ascribed to that mineral, without producing any of its injurious effects.

To these three medicines Dr. J. H. Schenck, o Philadelphia, owes his unrivalled success in the treatment of Pulmonic Consumption. The Pulmonic Syrup ripens the morbid matter, discharges it, and purifies the blood. The Mandrake Pills act upon the liver, remove all obstructions therefrom, give the organ a healthy action and cure Liver Complaint, which is one of the most prominent causes of Consumption. The Seaweed Tonic invigorates the powers of the stomach, aids digestion, strengthening the digestion and bringing it to a normal and healthy condition improves the quality of the blood, by which the assimilation of tubercles or tubercles in the lungs becomes impossible. The combined action of these medicines, as thus explained, will cure every case of Consumption, if the remedies are used in time, and the use of them is persevered in sufficiently to bring the case to a favorable termination.

Dr. Schenck's Almanac, containing a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis or sent by mail by addressing his Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Sea-Weed Tonic, each, $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills, 25 cents per box. For sale by all druggists and dealers. d3dim.

MARRIAGE GUIDE,

Being a private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language, by WM. YOUNG, M. D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not lie about the house. It will be sent to any address on receipt of 50 cents. Address, Dr. WM. YOUNG, No. 416 Spruce street, above Fourth, Philadelphia.

☞ AFFLICTED AND UNFORTUNATE.—No matter what may be your disease, before you place yourself under any one of the notorious QUACKS—native and foreign—who advertise in this or any other paper, get a copy of Dr. Young's Book and read it carefully. It will be the means of saving you many a dollar, your health and possibly your life.

Dr. Young can be consulted on any of the diseases described in his publications, at his office, No. 416 Spruce street, above Fourth, Philadelphia.

SPECIAL NOTICES.

Let Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the *great fact* that physical weakness, with all the nervous disturbances that accompany it, is more certainly and rapidly relieved by HOSTETTER'S STOMACH BITTERS than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its *vigor must be recruited*. The Bitters do both. They combine aperient and antibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs.

Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regulated, the blood reinforced with a new accession of the alimentary principles, the nerves renewed, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulant were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, emaciated and nervous invalids by the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a prostrating cathartic supplemented by a poisonous astringent like strychnine or quinia.

THE LATEST DISCOVERY

In Medication.

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as candied candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S

LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use the nauseous pills and portions of which that dangerous excitant is the main ingredient. More than **One thousand Testimonials**

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and altogether the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In **Dyspepsia, Biliousness Constipation, Sick or Nervous Headache, Piles, Dropsy,** and the irregularities to which the feebler sex are subject, the Lozenge will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an antibilious specific and general aperient, they have no equal either among the vaunted preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. ERASMUS WINSLOW'S **Liver and Stomach Lozenge**, will ever again take a purgative powder, or draught or pill.

NOTICE.— CIRCULARS AND SHOW CARDS sent to dealers free of expense.

If your druggist has not these Lozenges on hand, write to the Proprietors, enclosing 50 cents, and a box will be sent free of postage.

MERIT SOON NOISED ABROAD.

It is but six years since ALLEN'S LUNG BALSAM, was first offered for sale. Its good qualities were soon made known at home, and very soon its fame was noised far and near; now it is sold in nearly every Drug Store in the United States—NORTH, EAST, SOUTH AND WEST. No similar medicine stands higher with the people. It is well known on the Pacific coast, and liberal demands for it from San Francisco, Sacramento in California, and Portland, Oregon; even from Australia, large orders are received for it. And throughout Canada, it is well and favorably known, and sold everywhere.

Read what Captain Foster writes:

PORT BURWELL, March 23d, 1869.

Messrs. PERRY DAVIS & SON,

Sirs:—I am pleased to notify you of the benefit which I have received from ALLEN'S LUNG BALSAM; having been troubled with a cough for several years past, the Balsam was recommended to me. I immediately procured it, and found it to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours Very Truly,
Capt. D. FOSTER.

ANOTHER FIRE AT NEWBURYPORT.—About 2 o'clock Thursday morning fire was discovered in the boot and shoe store of B. H. Russell, situated on Washington, between Market and Summer streets. Loss about $900 on stock. This makes the thirteenth fire in Newburyport within three months.

Correspondence Chronicle and Gazette.

KITTERY, ME., Dec. 29.

Christmas has gone, over here, just the same as it has on your side of the Piscataqua; and we have had our festivities as well as Portsmouth people have. On Thursday evening the Ladies' Social Circle of the M. E. Society gave an entertainment in Armory Hall, which included free lunch and coffee, oysters, singing, recitations and other amusements. Mr. G. Chapman had a galvanic battery in the Hall, and it was the occasion of a great deal of fun; and the whole affair created more real sport than we have had here for a month past. The object of the Society was to raise money to put blinds on their new church; and as the hall was filled, and they sold all they had to sell before 11 o'clock, they must have been quite successful.

Friday evening the same Society and the Sunday School had a Christmas Tree in the same place,—and songs and small talk by the little folks, and refreshments as on the previous evening. The other societies also had Christmas Trees on the same evening, and all were occasions of much social enjoyment.

The choirs of the Methodist and Christian churches are practising together, under direction of Prof. J. C. Cram, preparing for a concert which they intend to give in about six weeks, the proceeds to be applied to the purchase of books and music for the two choirs; they rehearse together after service every Sunday, first at one church and then at the other.

Prof. Cram has a class of seventy-five children whom he instructs in singing on Monday afternoons. He intends to bring out the Fairy Operetta of "Laila" in a short time, and those who have heard his class perform, predict that it will be a good thing indeed. K. M.

☞ Col. Simon Jenness of Rye is probably the oldest subscriber to the N. H. Gazette, as it has been taken by him upwards of 60 years, and by his father before him, and probably by the family ever since the paper was established in 1756. We know of no other case like this.

For the Chronicle and Gazette.

THE CLOSING YEAR.

Time passes on,—another year
Has closed its record here on earth,
Shadows to some, care, sorrow, pain;
Sunshine to others, joy and mirth.

Thus is it in our natural sphere,
Man 's but a creature of a day,
God's noble temple now he stands,
But on his brow is stamped decay.

Through youth, athletic manhood, age,
Is but a span, a fleeting hour;
To day the cradle speaks of life,
The tomb to-morrow of death's power.

But ah! an unseen hand takes up
The thread which time drops in its flight,
And weaves it in eternity
That knows no end, no death, no night.

So with existence on this earth,
The moment that it ceases here,
It passes to that other life.—
Spirit becomes immortal there.

Time woven in eternity,
Mortal in immortality;
Earth joins its golden links to Heaven,
These three in one our trinity.

Portsmouth, Dec. 31, 1869. J. G. H.

WHITMORE & CLARK's minstrels have good audiences down east and threaten to give a No. 1 entertainment here next Tuesday evening. It isn't far off, if it is next year.

NEW YEAR'S EVE.—There will be a Vesper Service at the Stone Church Friday evening at 7 o'clock.

Also the usual Watch Night Services at the Methodist Church, commencing at half-past 7. Two sermons, the first at 9 o'clock.

☞ The Secretary of the Navy recommends that $577,856 be appropriated for repairs and buildings during the next fiscal year at the Portsmouth Navy Yard, and $747,341 for the same purposes at the Boston Yard.

WHAT'S UP?—Private dispatches were sent from Washington on Wednesday, to all the navy yards, and work will be pushed forward vigorously on all vessels now fitting out.

☞ One hundred persons were present at the meeting of the Woman's Suffrage Association at Concord on Thursday.

☞ We learn that the Pearl Street Freewill Baptist Society is to have a New Year's Tree, Friday evening; and that every person present is to receive a substantial gift, — such as is constantly needed, and costing 10 cents or more. Admission fee 10 cents.

☞ The New Hampshire Gazette for this week, is now ready for delivery at the Chronicle office. Price 5 cts. per copy—$2. per year. Contains *all* the Local and other reading from the Daily Chronicle.

MALT EXTRACT—

Is a beverage particularly adapted to persons of weak and debilitated constitutions and those suffering from dyspepsia, loss of appetite, general debility, etc. It takes the place of and is SUPERIOR to ale, porter, and spirituous liquors in all cases where nourishing beverages and tonics are needed. Eminent physicians of New York, say: "We have used HOFF'S MALT EXTRACT in practice, and the result have been such as to fully justify the claims made for it; we feel certain that it is destined to supply a want long felt."

COUGHS, INFLUENZA,

SORE THROAT, COLDS, WHOOPING COUGH, CROUP, LIVER COMPLAINT, BRONCHITIS, ASTHMA, BLEEDING OF LUNGS, and every affection of the THROAT, LUNGS and CHEST, are speedily and permanently cured by the use of
WISTAR'S BALSAM
Of Wild Cherry.
This well known preparation does not dry up a cough and leave the cause behind, as is the case with most medicines, but it loosens and cleanses the lungs and allays irritation, thus removing the cause of the complaint.
CONSUMPTION CAN BE CURED
by a timely resort to this standard remedy, as is proved by hundreds of testimonials received by the proprietors.

SPARE THE BIRDS.

...us will every man who has any in-
...in the soil, and who is worthy of
...man form, exclaim with me,
...e he has had the same instruction
...at I have had on the subject. Idle
boys rambling about, shooting birds
from mere wantonness, have you never
been taught by your parents or guard-
ians that it is morally wrong for you to
commit such piracy upon the feathered
"tenants of the air," without any other
motive than that of indulging in the de-
basing sin of cruelty? If you have never
ever been taught this, much less, perhaps,
have you been taught that it is physi-
cally wrong, and against your own in-
terests and that of your neighbors.

But it may be asked, why am I so in-
terested in the birds, and of what conse-
quence are they? I am interested in a
pecuniary point of view; they save and
protect my property, and yet they do
no more for me in this way than for ev-
ery other man who tills the soil, or
who is fed by the proceeds; and yet,
people, regardless of their own inter-
ests, will suffer them to be destroyed!

A week or two ago, I was walking in
a corn-field, witnessing with no very
good humor the devastation by the
grub-worms; whole square rods being
cut down by these underground de-
stroyers, with not a blade left? There,
said I, go my labor and expectation
...rough the long and weary days of
...pring! Thus I moved on, and ob-
served many hills with the blades left
...roubled by the worms, but a small
...was bored down an inch or two
...close to a corn blade in each hill.
...h, said I, is the work of the felon
...what the grubs leave, they can
...—thinking that they made the
...to rob the blade of the kernel.
...t observing the great number of per-
...rations and no corn pulled up, so is
...usual manner of crowd, I dug down,
...to my surprise, found the kernel
...ere. Then the truth flashed upon my
...derstanding.—this is the work of the
...rds. In the morning when the grubs
...near the surface, and close to the
...n blades to begin their gluttonous
...rk, the birds instinctively dig down
...th their beaks, seize and devour the
...grubs, or beat them away to their young
...es; thus saving thousands of hills
...from the common destruction.

...gain, have you never observed in
...ly weather before rain, the swal-
...ws fly skimmingly through the air
...ar the earth? They are catching in-
...sects that are forced by some change in
the atmosphere above, to take posses-
sion of its lower strata. And so their
invariable occupation is brought before
our observation; namely, that of de-
stroying the myriads of insects that pois-
on our atmosphere, and render it ma-
larious and pestilential. I wish that
State Legislatures would enact severe
laws that would place such idle bird-
killers in the houses of correction of
their respective States, where they can
be effectually reformed in this respect.

Parents and guardians, I entreat you,
use your best influence over your chil-
dren and wards, and stop such outrages;
take the green-hide if necessary, but by
all means prevent it. Again I say,
"spare the birds."

The foregoing written by myself,
was published in the Boston Cultivator
twelve years ago. Time has only con-
firmed the truth of the assertions then
made. The present year I have culti-
vated a piece of corn on the south side
of a contiguous wood where many birds
had their nests. The ground was ap-
parently filled with grub worms, as the
hoe frequently brought them up in sight.

I noticed the diligence with which a
pair of robins examined the corn rows;
pausing with head erect a moment,
then running swiftly along till with a
sudden dive and motion of the wings
they would seize a grub and bear it to
their nest in the wood, then immediate-
ly return and recommence the search,
coming up fearlessly within fifteen feet
of me, knowing, perhaps, that I was
their friend. My corn was eaten but
very little, while I learned from a
neighbor that his, which was not situat-
ed near the woods where the birds were
so plenty, was badly dealt with, and he
was obliged to go over the rows and
dig the grubs himself.

I have heard some so-called farmers
complain that the robin red-breast and
the gold robin eat their cherries and
green peas, as though those were all
the crops they had to lose. What little
they might lose in that respect was
doubly repaid by protection of their
field crops.

Naturalists seem to be divided in
opinion as to the usefulness of the crow.
One of your correspondents, not long
since, declared from personal observa-
tion that the crow lives largely on the
offspring and eggs of birds. I am at
present inclined to credit the charge,
for many a time is the vagrant crow
seen flying over our fields with half a
dozen small birds on his back, pulling
at his feathers, and as many more in the
chase being eager to assault him as a
common enemy. They know, doubt-
less, who are the invaders of their do-
mestic castles, better than we do. I,
for one, have suffered much from the
depredation of the crow in the corn-
field patiently, believing that his virtues
more than compensated for his faults,
but if the charges of your correspondent
are to be added to his other crimes, let
him be exterminated!

—During a fine starlight evening,
lately, Willie, a three-year-old philoso-

his mamma abruptly where the stars
came from.

Mamma replied: "I don't know,
Willie."

Willie—"Yes you do, too."

Mamma—"No, Willie, I don't know
where the stars came from."

Willie—"Well, you bet I do. The
moon laid 'em! That's what's the mat-
ter."

LORILLARD'S "EUREKA"

SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB

SMOKING TOBACCO is made of the Choicest leaf grown; it is anti-nervous in its effects, and has been extensively used by those who desire a mild smoke after smoking; it is very mild, light in color and in weight, hence one pound will last as long as 2 lbs. of ordinary tobacco. In this brand we also pack orders every day for first quality Meerschaum Pipes. Try it and convince yourself it is all it claims to be, THE FINEST OF ALL.

LORILLARD'S CENTURY

CHEWING TOBACCO.—This brand of Fine Cut chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS

HAVE BEEN IN GENERAL USE in the United States over 110 years, and still acknowledged "the best" wherever used. If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.
